Investment strategy

The Sub-Fund is actively managed. Though the majority of its holdings (excluding derivatives) are likely to be components of the benchmark, the Investment Manager has broad discretion to deviate from its securities, weightings and risk characteristics. The degree to which the Sub-Fund may resemble the composition and risk characteristics of the benchmark will vary over time and its performance may be meaningfully different. At least 67% of assets invested in equities of natural resources companies anywhere in the world, including emerging markets. Natural resource companies are those that are engaged in the exploration for and the development, refinement, production and marketing of natural resources and their secondary products. The Sub-Fund may invest in small capitalisation companies.

Investment goal

To provide long-term capital growth by investing primarily in natural resources companies, globally.
