### Investment strategy

The fund is actively managed and invests at least two-thirds of its assets in bonds in various currencies issued by governments, government agencies, supra-nationals and companies worldwide. The fund may invest up to 10% of its assets in contingent convertible bonds, up to 50% of its assets in securities with a non-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies), and up to 100% of its assets in asset-backed securities and mortgage-backed securities issued worldwide with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). Underlying assets may include credit card receivables, personal loans, auto loans, small business loans, leases, commercial mortgages and residential mortgages.

### Investment goal

The fund aims to provide an absolute return after fees have been deducted by investing in bonds. Absolute return means the fund seeks to provide a positive return over a 12-month period in all market conditions, but this cannot be guaranteed and your capital is at risk.
