Investment strategy

The fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies in emerging market countries worldwide. The fund may invest up to 40% of its assets in cash and global bonds in order to protect returns when the investment manager believes stock markets are expected to be particularly weak. The fund may invest directly in China-B Share and China H-Shares and may invest less than 20% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai- Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext. The fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash (subject to the restrictions provided in appendix I).

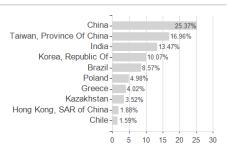

Investment goal

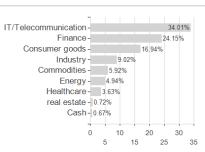

Cash - 0.67%

The fund aims to provide capital growth in excess of the MSCI Emerging Markets (Net TR) Index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies in emerging market countries worldwide.
