JPM Global Corporate Bond A (dist) - EUR (hedged) / LU0790204860 / A1JY7M / JPMorgan AM (EU)

Investment strategy

The Sub-Fund is actively managed. The majority of issuers in the Sub-Fund are likely to be represented in the benchmark because the Investment Manager uses it as a basis for portfolio construction, but has some discretion to deviate from its composition and risk characteristics within indicative risk parameters. The Sub-Fund will resemble the composition and risk characteristics of its benchmark, however, the Investment Manager's discretion may result in performance that differs from the benchmark. At least 67% of assets invested, either directly or through derivatives, in investment grade corporate debt securities from issuers anywhere in the world, including emerging markets. The Sub-Fund may also invest in global debt securities issued by governments, including local governments (up to 5%), but excluding supranationals and agencies. The Sub-Fund may invest up to 20% in below investment grade debt securities. The Sub-Fund may invest in unrated debt securities to a limited extent.

Investment goal

To achieve a return in excess of global corporate bond markets by investing primarily in global investment grade corporate debt securities, using derivatives where appropriate.
