Investment strategy

In normal circumstances, the Portfolio invests at least 50% of its assets in higher-rated (Investment Grade) debt securities of U.S. governmental and corporate issuers. Notwithstanding the foregoing, under certain market conditions, the Portfolio may invest in excess of 50% of its assets in lower-rated (below Investment Grade) and therefore riskier debt securities. Up to 35% of the Portfolio's total assets may be invested in securities of issuers based outside the U.S., including emerging market countries. The investment manager varies the mix of longer and shorter-term securities to reflect its view of interest rate trends.

Investment goal

The Portfolio seeks to achieve a high return on your investment, both by earning income and by increasing the value of your investment over the long term.
