### Investment strategy

The fund is actively managed and invests at least two-thirds of its assets in a concentrated range of equities of Swiss companies. This means typically holding fewer than 50 companies. The fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash (subject to the restrictions provided in the prospectus). The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently. The fund is valued with reference to the net asset value of the underlying assets.

### Investment goal

The fund aims to provide capital growth in excess of the Swiss Performance Index after fees have been deducted over a three to five year period by investing in equities of Swiss companies.
