ABN AMRO Funds Parnassus US ESG Equities I USD Capitalisation / LU1481506050 / A2JDH7 / ABN AMRO Inv. Sol.

Investment strategy

The Fund seeks to increase the value of its assets over the long term by investing predominantly in transferable equity securities such as equities, other equity shares such as co-operative shares and participation certificates issued by, or warrants on transferable equity securities of, companies which are domiciled in or exercise the predominant part of their economic activity in North America. Selection of investments will rely on a combination of financial criteria, as well as Environmental, Social & Governance criteria. The Fund promotes environmental and social characteristics and qualifies as an investment product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector. In that respect, the Fund Manager has set up a process that integrates fundamental and ESG (Environment, Social and Governance) research to assess the business quality and valuation of potential companies. The ESG assessments include both exclusionary screens and a bottom-up ESG evaluation. After implementation of the sustainability filters (exclusions and ESG scoring), the bottom quartile of companies is excluded from the investable universe. Thus, the ESG score of the portfolio is better than the one of the investable universe. The sustainability analysis covers 100% of the securities in portfolio (cash, deposit are not covered by the ESG analysis). As part of the Management Company's Sustainable Investment Policy, the Fund complies with the sets of exclusions applying to article 8 investment product. In addition, the Fund excludes companies involved (over 10% threshold of revenue) I) in the extraction, exploration, production and/or refining of fossil fuels defined by the Portfolio manager as oil and gas (exception: companies that use fossil-based energy to power operations or other), II) in Nuclear Power, III) in the manufacture of Alcohol.
