Investment strategy

We invest in asset backed securities, which are bonds backed by collateral, e.g. residential mortgages, commercial real estate debt, consumer loans or credit card receivables. Other eligible investments include, amongst others, deposits and money market paper. The team uses active management to generate long-term investment performance. The main driver of our performance is based on our top down approach, whereby we select in which sectors we want to be over- and underweight based on macro, fundamentals, valuation and momentum.

Investment goal

The Fund promotes environmental or social characteristics but does not have a sustainable investment objective.
