# BGF Euro Bond Fund A1 USD / LU0171278889 / A0BL3V / BlackRock (LU)

## Investment strategy

At least 80% of the Fund"s total assets will be investment grade (i.e. meet a specified level of credit worthiness) at the time of purchase. The remainder may include investments with a relatively low credit rating or which are unrated. The Fund"s total assets will be invested in accordance with its ESG Policy as disclosed in the prospectus. For further details regarding the ESG characteristics please refer to the prospectus and the BlackRock website at www.blackrock.com/baselinescreens. At least 90% of the issuers of securities the Fund invests in are ESG rated or have been analysed for ESG purposes. The Investment Adviser (IA) will also employ a proprietary methodology to assess investments based on the extent to which they are associated with positive or negative externalities, that is environmental and social benefits or costs as defined by the IA. The IA may use financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) for investment purposes in order to achieve the investment objective of the Fund, and/or to reduce risk within the Fund"s portfolio, reduce investment costs and generate additional income. The Fund may, via FDIs, generate varying amounts of market leverage (i.e. where the Fund gains market exposure in excess of the value of its assets).

### Investment goal

The Fund aims to maximise the return on your investment through a combination of capital growth and income on the Fund"s assets in a manner consistent with the principles of environmental, social and governance (ESG) investing. The Fund invests at least 80% of its total assets in fixed income securities. These include bonds and money market instruments (i.e. debt securities with short term maturities). At least 70% of the Fund's total assets will be invested in securities that are denominated in euro. The fixed income securities may be issued by governments and, government agencies of, and companies and supranationals (e.g. the International Bank for Reconstruction and Development) domiciled in, countries inside or outside of the Eurozone.
