Investment Manager's Review

Global equities

Global stock markets ended higher after another challenging six months for financial markets and the global economy. Inflation dominated the period. Central banks in Western economies raised interest rates faster and further than previously anticipated in response to multi-decade-high inflation, caused in large part by soaring energy prices after Russia's invasion of Ukraine. However, US and eurozone inflation peaked in the autumn of 2022, prompting hopes that an end to interest-rate rises might be in sight. The new year started on a highly positive note amid expectations that rates had indeed reached the top for this cycle. Robust economic data in February, including strong US employment numbers, then caused investors to consider whether rates may have to remain higher for longer. The collapse of two regional US banks and the forced sale of Credit Suisse to rival UBS in March evoked fears of a banking crisis. Nevertheless, stock markets recovered after an initial sell-off.

UK

The UK stock market, as represented by the FTSE All-Share Index, rose over the period. The FTSE 100 Index, home of multinational companies that often benefit from a weak currency, held up well despite a stronger pound. The FTSE 250 Index, which contains smaller companies typically more focused on the domestic UK economy, also finished higher over the six-month period. Inflation loomed large on the UK economic landscape. The annual consumer inflation rate increased steadily, hitting a 41-year high of 11.1% in October, before it began to recede. The Bank of England (BoE) reacted to surging inflation with successive interest-rate rises, taking its base rate from 0.25% at the start of 2022 to 3.50% by the calendar year's end. In 2023, the Bank increased its base rate by 0.50% in February and 0.25% in March. In part due to surging food prices, UK inflation has remained stubbornly high, despite 11 straight interest-rate rises.

US

US share prices, as measured by the broad S&P 500 Index, rose over the six-month period. As US inflation touched a 40-year high, the Federal Reserve (Fed) became increasingly aggressive in its response. The Fed implemented a series of 0.75% rate hikes from June to November. Signs of progress in the inflation fight emerged in November, when the annual consumer inflation figure showed an unexpected drop to 7.7%. Further falls in inflation increased investor confidence that price pressures were subsiding, and the Fed eased the scale of rate rises. However, faced with an economy that maintained its good momentum despite rate hikes, the

central bank continued to raise rates in 2023. The latest 0.25% increase in March 2023 took the target range for the fed funds rate to 4.75–5.00%, its highest level since 2007. US stock markets recovered over the period, even shaking off turmoil in the banking sector in March, when two regional banks, Silicon Valley Bank (SVB) and Signature Bank, collapsed.

Europe

Continental Europe's stock markets, as measured by the FTSE World Europe ex UK Index, rose over the six-month period. European equities recovered some ground in the final quarter of 2022 after their losses earlier in the year. Share prices climbed in November, as global markets were buoyed by better-than-expected US inflation data. European markets then outperformed other major developed markets in the first quarter of 2023. The new year brought increased optimism amid falling inflation, lower energy prices and dwindling fears of economically disruptive energy shortages across the continent. On the economic front, soaring inflation proved a major challenge for European policymakers. The eurozone annual inflation rate reached its highest level since the introduction of the euro, hitting a peak of 10.7% in October before it began to drop. The European Central Bank (ECB) kept its main interest rate unchanged for longer than the Fed and the BoE, finally reacting to elevated prices with a 0.50% hike in July, its first rate rise in over 11 years. The central bank followed with a series of rate rises in 2022 and 2023, as it strived to bring the annual inflation rate down to its 2.0% target.

Asia Pacific

Stock markets in the Asia Pacific (excluding Japan) region rose over the six-month period. Within the region, December saw the Chinese government effectively drop the 'zero-Covid' policy in a major policy shift. Chinese stock markets rose sharply in January amid greater optimism after the reopening of the Chinese economy and signs that the latest wave of Covid-19 infections may have peaked. Chinese markets suffered from profit-taking in February but made further gains in March amid signs that China's economic reboot was gathering momentum. These positive developments in the crucial Chinese economy helped other Asian stock markets enjoy a strong first quarter of 2023.

The Japanese stock market, as measured by the Topix Index, also rose over the six-month period. The Bank of Japan (BoJ) faced milder inflationary pressures than the world's other major central banks. Consequently, it left its key interest rate unchanged at -0.1% over the period. Consumer inflation remained relatively subdued for

most of 2022. However, it did climb to elevated levels by Japanese standards, hitting its highest rate since 1981. The reasons for rising inflation included the weakness of the yen over much of 2022, which made imports more expensive, and rising energy costs. The BoJ left interest rates unchanged in Governor Kuroda's final meeting in March, as annual inflation fell to 3.3% in February from 4.3% in January. Annual core inflation fell to 3.1% in February from 4.2% in January but exceeded the BoJ's 2.0% target for the 11th consecutive month. Japanese financial stocks sold off in March after the failure of two US regional banks, but the market still finished higher.

Emerging markets

Emerging market equities closed higher over the volatile six months under review, helped by a sharp recovery in November. Investor sentiment was largely dominated by US monetary policy and developments in China. Towards the period-end, risk aversion gripped markets on the back of banking sector turmoil in the US and Europe, which sparked fears of an imminent credit crunch and contagion worries. It prompted regulators, including the Fed, to intervene to ease concerns over global financial stability. The Fed continued on its tightening path, albeit at a slower pace, to tame stubborn inflation. Fed officials indicated that the tightening campaign was not over yet and that interest rates will likely remain higher for longer. Rising interest rates, together with elevated inflation levels, have sparked concerns over the increased risk of a US recession and a slowdown in the global economy. Meanwhile, China surprised investors by rapidly rolling back its 'zero-Covid' policy towards the end of 2022, after unprecedented street protests against stringent pandemic restrictions. Amid ongoing government support, there has been growing evidence of a recovery in China, though it is not yet broad-based and is mostly led by services rather than manufacturing. Separately, China's 20th Party Congress concluded with the general direction of economic and other policy largely unchanged. Beijing also unveiled a growth target of around 5% for 2023 at the annual political gathering in March.

Bond markets

Global government bonds recovered slightly over the six-month review period, pushing yields lower. After years of record-low interest rates, many central banks raised rates, often faster and further than expected, as they tried to contain soaring inflation. This caused a major sell-off in government bonds for much of 2022. However, signs of easing inflationary pressures then caused major central banks to slow down their pace of monetary tightening, leading to a limited recovery in bond markets.

Similarly, growing expectations that global inflation pressures may be peaking, leading to hopes that the current cycle of interest-rate rises may be nearing its end, helped corporate bonds to perform better over the period. Spreads tightened until March as investors' appetite for riskier assets began to return. Turbulence in the global banking sector in March then caused credit spreads to widen to levels last seen at the start of 2023. However, the negative effect of wider credit spreads was offset by lower government bond yields amid a flight to safety. Consequently, investment-grade corporate bonds enjoyed gains in March, although riskier UK and European high-yield bonds fell.

Outlook

Global equity markets will continue to face challenges in 2023, with investors concerned that entrenched inflation and sustained rate rises could result in an economic downturn. After the Federal Deposit Insurance Corporation rescued SVB and Signature Bank, then UBS acquired Credit Suisse, the ECB in particular will be closely monitoring the unfolding banking crisis.

In fixed-income markets, the Fed, BoE and ECB all raised rates in March, with a 25 basis point (bp) rise from the Fed and BoE and a 50 bp rise from the ECB. This signalled a deceleration in the pace of interest rate hikes for the Fed and BoE. In the US, we expect that further tightening will be necessary to control inflation, especially if growth and inflation continue to hold up in the face of tighter policy. In the UK, we expect recession-like conditions to prevail for much of 2023. However, the BoE now forecasts some growth in late 2023, whereas it had previously predicted a recession. The outcome of the BoE's May meeting will depend heavily on inflation and wage growth over the next month. In Europe, although a deep winter recession was avoided, core inflation is still strong, meaning the ECB is expected to hike rates further.

Notes to the Financial Statements

1 Presentation of the Financial Statements

1.1 General

Aberdeen Standard SICAV I (the Company) was incorporated under the laws of the Grand Duchy of Luxembourg on 25 February 1988 as a société anonyme and qualifies as an open-ended société d'investissement à capital variable (a "SICAV") with UCITS status (an Undertaking for Collective Investment in Transferable Securities as defined in the European Union Directive 2009/65/EEC of 13 July 2009). The Company comprises various classes of shares, each relating to a separate portfolio (a "Fund") consisting of securities, mutual funds, derivatives, cash and other sundry assets and liabilities.

The Company is authorised as a UCITS under part I of the law dated 17 December 2010 on undertakings for collective investment, as amended.

At 31 March 2023, the Company comprises 52 separate active funds, providing shareholders with opportunities for investment in a wide variety of markets, securities and currencies.

1.2 Aberdeen Global Indian Equity Limited (The Subsidiary)

Indian Equity Fund makes almost all of its investments in India through a wholly owned Subsidiary, Aberdeen Global Indian Equity Limited a company incorporated in Mauritius. Transactions involving both the Fund and its Subsidiary are accounted for in accordance with their economic substance and accordingly these financial statements reflect the activities of Indian Equity Fund and of its Subsidiary as if all the activities had been undertaken by Indian Equity Fund. On 30 May 2015, the tax residency of the Subsidiary changed from Mauritius to Singapore.

1.3 Presentation of financial statements

The accompanying financial statements present the assets and liabilities of the individual Funds and of the Company taken as a whole. The financial statements of each individual Fund are expressed in the currency designated in the Prospectus for that particular Fund and the combined statements of the Company are expressed in United States Dollars (US\$). The financial statements have been prepared in accordance with Luxembourg GAAP and with the format prescribed by the Luxembourg authorities for Luxembourg investment companies.

The combined statements were calculated on the basis of aggregation of individual Funds statements with no elimination of cross-investments if any. As of 31 March 2023, the cross-investments within the Fund represent USD 38,954,000 of the combined net asset value of the Company.

Non going concern treatment

The financial statements of the Funds have been prepared on a going concern basis, except for one Fund which the Board of Directors approved to close post period end.

Below is a reconciliation of the Net Asset Value of the Fund between its official pricing point on 31 March 2023 and as shown in the financial statements:

2 Accounting Policies

2.1 Accounting convention

The financial statements have been prepared under the historical cost convention modified by the revaluation of investments.

2.2 Assets and portfolio securities valuation

The market value of investments has been calculated using the last available prices at close of business on 31 March 2023 quoted on stock exchanges or over-the-counter market or any other organised market on which these investments are traded or admitted for trading.

If such prices are not representative of their fair value, all such securities and all other permitted assets will be valued at their fair value at which it is expected they may be resold as determined in good faith by or under the direction of the Directors.

In accordance with the Fund prospectus, the fair value adjustment mechanism is applicable whenever a triggering event occurs. During the year, no fair value adjustments were applied to any of the sub-funds.

Mortgage and other asset backed securities are independently priced using appropriate models and certain corporate bonds may be priced using indicative broker quotes.

2.3 Investment income

Interest is accrued on a day-to-day basis. In the case of debt securities issued at a discount or premium to maturity value, the total income arising on such securities, taking into account the amortisation of such discount or premium on an effective interest rate basis, is spread over the life of the security.

Interest income on bonds may be received either in cash or as a Payment in Kind ("PIK"). Where a PIK bond settles physically (either because it matures or it pays interest) the interest income is recognised as the lower of the market value and the nominal value of the settlement.

In the event where there is no physical settlement, the factor change on that holding is recognised as interest income in the Statement of Operations at the point when the factor change occurs.

Dividends are accounted for on an ex-dividend basis. Interest and dividend income are stated net of irrecoverable withholding taxes, if any.

Securities lending commission is accounted for on an accruals basis.

2.4 Foreign exchange

The cost of investments, income and expenses in currencies other than the Funds' relevant reporting currency have been recorded at the rate of exchange ruling at the time of the transaction. The market value of the investments and other assets and liabilities in currencies other than the relevant reporting currency has been converted at the rates of exchange ruling at 31 March 2023.

Realised and unrealised exchange differences on the revaluation of foreign currencies are taken to the Statement of Operations.

2.5 Realised gains and losses on investments

A realised investment gain or loss is the difference between the historical average cost of the investment and the sale proceeds.

2.6 Forward currency exchange contracts

Unsettled forward currency contracts are valued using forward rates of exchange applicable at the balance sheet date for the remaining period until maturity. All unrealised gains and losses are recognised in the Statement of Operations. Currently forward positions are not collateralised.

2.7 Futures contracts

Futures contracts are valued at the exchange quoted price at close of business on 31 March 2023. Initial margin deposits are made in cash upon entering into futures contracts. During the period the future contract is open, changes in the value of the contract are recognised as unrealised gains and losses by marking to market on a daily basis to reflect the market value of the contract at the end of each day's trading.

Variation margin payments are made or received, depending upon whether unrealised losses or gains are incurred. Variation margin payments are recorded in the futures margin account in the Statement of Net Assets and related movements on unrealised results are recorded in the Statement of Operations. When the contract is closed, the Fund records a realised gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the opening transaction.

2.8 Swap contracts

Funds may enter into swap agreements such as credit default swaps, interest rate swaps, swaptions, overnight index swaps and inflation linked swaps. Gains or losses resulting from swap contracts are recognised in the Statement of Operations and Statement of Changes in Net Assets. Swaps are valued at fair value determined at close of business on 31 March 2023 using external independent third party supplied prices as determined in good faith, pursuant to procedures established by the Board of Directors.

2.9 Option contracts

Funds may enter into the purchase of call and put options. Gains or losses resulting from option contracts are recognised in the Statement of Operations and Statement of Changes in Net Assets. Options are valued at the exchange quoted price at close of business 31 March 2023.

3 Share Class Information

3.1 General

Within each Fund, the Company is entitled to create different share classes. These are distinguished by their distribution policy or by any other criteria stipulated by the Directors. Please refer to the Prospectus for further details. For a list of current live share classes please visit abrdn.com.

The Funds are valued at 13:00 hours Luxembourg time on each Dealing Day, with the exception of Emerging Markets Infrastructure Equity and Latin American Equity which are valued at 23:59 hours Luxembourg time on each Dealing Day.

3.2 UK Reporting Fund Regime

UK Reporting Fund Regime Status is granted prospectively by the UK taxation authorities. It is the intention of the Board of Directors to continue to comply with the requirements of the Reporting Fund Regime for certain share classes.

Equalisation applies only to shares purchased during the distribution period (Group 2 shares). It is the average amount of income included in the purchase price of Group 2 shares.

Annually and within six months of the year end, the Manager will publish the UK Reporting Regime Report to investors for all share classes granted reporting fund status on its website (abrdn.com).

The UK Reporting Regime Report to investors for each share class can also be requested in writing by contacting the Shareholder Service Centre as detailed on the back cover of this Report.

3.3 Switches

The following information applies to all Funds, except if an exchange (or switch) request involves exchanging within, into or out of Emerging Markets Infrastructure Equity or Latin American Equity.

Shares in one Fund may be exchanged or switched into Shares of the same or a different Class in another Fund or of a different Class in the same Fund, subject to the qualifications for investment being met, on any Dealing Day for the relevant Funds. Shares in the same Class may be switched between Accumulation and Distribution shares within the same Class. Investors may switch either a specific number of Shares or Shares of a specified value.

For full details on switching contact the Global Distributor, UK Distributor, Transfer Agent or asi.luxembourg@abrdn.com

3.4 Swing pricing adjustment

Frequent subscriptions and redemptions can potentially have a dilutive effect on the Fund's NAV per share and be detrimental to the long term investors as a result of the transaction costs that are incurred by the Fund in relation to the trades undertaken by the Investment Manager.

The Board of Directors' current policy through delegation to the Investment Managers' Investor Protection Committee (IPC) is to apply a swing pricing adjustment to the NAV of each Class of Shares of all Funds. A swing factor is applied whenever net subscriptions or redemptions exceed a certain threshold determined by the Board of Directors (having considered prevailing market conditions).

The swing pricing adjustment will be recorded in the relevant Fund's NAV and becomes part of the Fund's relevant dealing NAV.

The swing pricing adjustment is a percentage adjustment applied to each share class in a Fund on a dealing day determined on the basis of estimates of any dealing charges (including commission and/or other costs) and/or any bid/offer spread that the Board of Directors believes are appropriate to take into account in respect of that Fund. Such dealing charges will reflect costs and liabilities not included in the calculation of the NAV of the relevant class.

The net asset values as at 31 March 2023 disclosed in this report do not include any swing pricing adjustments and hence may differ from those published on 31 March 2023 for dealing into the Funds.

The maximum swing factor rate applied on net subscriptions/redemptions exceeding a certain threshold as at and during the period ended 31 March 2023 was 1.25%. There is no pre-set maximum swing factor.

4 Expenses

4.1 Distribution fees

Class B, Class C and Class W shares are subject to an annual distributor fee of 1% except for Class B of Frontier Markets Bond for which a distributor fee of 0.75% is applied. These fees are accrued daily and paid monthly in arrears.

4.2 Management fees

The Management Company collects investment management fees calculated on the Net Asset Value of the Funds, accrued daily.

Where a Fund invests in an open-ended collective investment scheme which is operated or managed by the Investment Manager or an associate of the Investment Manager, no additional annual management charge will be incurred by the Fund on such an investment.

The following management fee rates were applicable as at 31 March 2023:

^a The management charge for Class N Shares of Aberdeen Standard SICAV I - Emerging Markets Infrastructure Equity Fund is 0.52% instead of 1.00%. All other Class N Shares have the same management charge as Class I Shares of the relevant Fund. Class Z Shares are not subject to any investment management fee charge.

4.3 Operating, Administrative and Servicing Expenses

Ordinary operating expenses incurred by Aberdeen Standard SICAV I will generally be paid out of the assets of the relevant Fund. To seek to protect the Shareholders from fluctuations in these expenses, the yearly total amount of these expenses to be borne by each Share Class (the "Operating, Administrative and Servicing Expenses"), is fixed at a maximum level of 0.60% of the Net Asset Value in respect of all Share Classes (except for Eastern European Equity where the corresponding maximum is 0.80%, and except Hedged Share Classes in respect of which a fee of up to 0.04% may be charged in addition by the Investment Manager for providing currency exposure services). The level of effective Operating, Administrative and Servicing Expenses below these maximum levels may vary at the Board

of Directors' discretion, as agreed with the Management Company, and different rates may apply across the Funds and Share Classes. The Board of Directors may amend the maximum fixed level of the Operating, Administrative and Servicing Expenses applicable to each Share Class at any time at their discretion upon prior notice to relevant Shareholders.

In order to pass on economies of scales achieved by those Funds reaching significant levels of assets, the following discounts to the Operating, Administrative and Servicing Expenses will be applied:

In respect of all Share Classes of a Fund reaching a level of assets of at least (USD or the equivalent in another currency):	Discount to be applied to the Operating, Administrative and Servicing Expenses (per annum):
Below 2,000,000,000	0.00%
2,000,000,000	0.01%
4,000,000,000	0.02%
6,000,000,000	0.03%
8,000,000,000	0.04%
10,000,000,000	0.05%

Provided the relevant level of asset value is reached by a Fund on the last Business Day of each month, the discount will be applied to the relevant Fund for that month.

Operating, Administrative and Servicing Expenses (OASE) are paid through a bank account ("the OASE account") opened at the Fund's Depository Bank in the Fund's name. Each sub-fund pays its fixed OASE to the OASE account which in turn is used to pay actual invoices.

The balance of the OASE account is not reflected in the daily NAV of the Fund or in the financial statements.

Full details can be found in the Prospectus.

5 Dividends (Distribution Class)

The Directors declared monthly dividends for the Funds as listed below, for the period 1 October 2022 to 31 March 2023 to all shareholders on record on the last day of the relevant month.

6 Directors' Interests

None of the Directors were materially interested in any contracts of significance subsisting with the Company either during the period or at 31 March 2023.

None of the Directors have service contracts with the Company.

7 Changes In Investment Portfolio

The schedule of changes in the investment portfolio is available on request from the Registered Office in Luxembourg and from the local agents listed under Management and Administration and in the Prospectus.

8 Transactions With Connected Persons

Cross trades

Transactions with connected parties during the financial year were entered into in the ordinary course of business and on normal commercial terms between the Funds and the Management Company, Investment Manager, Investment Adviser and any entity in which those parties or their connected persons (as defined in the Code on Unit Trusts and Mutual Funds issued by the Securities and Futures Commission of Hong Kong) have a material interest. To the best of the Management Company's knowledge, the Funds' portfolios do not have any other transactions with connected persons except for those disclosed below.

Connected transactions

During the period the Investment Manager/Adviser undertook certain sale and purchase transactions which were enacted through broker entities forming part of the same group of companies as the Depository, BNP Paribas and the details of these are included in the table below. Such transactions were carried out on an arm's length basis at current market value and market rates, and consistent with and the best interests of the Company. To the best of the Investment Manager/Adviser's knowledge as at the date of preparing this Annual Report, there are no transactions between the Funds' portfolios and the Management Company, the Investment Manager/Adviser or any of their connected persons as principal.

9 Soft Commission/Commission Sharing

The Investment Manager has entered into soft commission/commission sharing arrangements with brokers in respect of which certain goods and services used to support investment decision making were received. The Investment Manager does not make direct payment for these services but transacts an agreed amount of business with the brokers on behalf of the Company and commission is paid on these transactions. The goods and services utilised for the Fund include research and advisory services; economic and political analysis, portfolio analysis including valuation and performance measurement, market analysis data and quotation services; computer hardware and software incidental to the above goods and services and investment related publications.

10 Equalisation on the Issue and Redemption of Shares

Equalisation is operated in connection with the issue and redemption of shares. It represents the income element included in the price for the issue and redemption of shares.

11 Overdraft Facility

The Company has a US\$50 million intra-day uncommitted unsecured credit line facility with Bank of America to finance short-term timing differences arising from subscriptions and redemptions. Any liability arising on this account will be recoverable from subscribers to the Company and is therefore not reflected in the financial statements of the Company.

12 Provisions For Taxes

Indonesian Taxes

Indonesian Government bonds issued in the domestic market are subject to 20% capital gains tax.

The following provisions have been recorded in the other liabilities caption of the financial statements:

Fund Name	Currency	Provision for unrealised gains on IDR holdings '000
Asian Bond Fund	USD	1
Asia Pacific Multi Asset Fund	USD	1
Diversified Income Fund	USD	8
Emerging Markets Total Return Bond Fund	USD	29
GDP Weighted Global Government Bond Fund	USD	2

Indian Taxes

As a result of a tax reform in India, the capital gains tax on shares in Indian companies and units of equity oriented funds chargeable to STT has been extended to include a long-term capital gains tax on the disposal of Indian listed securities. Accordingly, with effect from 1 April 2018, capital gains from the disposal of Indian listed shares held for more than 12 months are now taxable at 10% of net capital gains exceeding INR 100,000 (plus additional local taxes) and 15% (plus additional local taxes) when the shares are held for less than 12 months. For the purposes of calculating a provision it is assumed that a long term holding strategy (more than 12 months) will be applied and therefore the provision will be based only on the long term rate and methodology.

Aberdeen Global Indian Equity Limited (a subsidiary of Aberdeen Standard SICAV I – Indian Equity), being a Singaporean tax resident entity, is expected to continue to benefit from exemption to Indian capital gains tax on any gains on disposal of shares which were acquired up to 31st March 2017. As such, no provision is accrued on any exempt holdings.

The following provisions have been recorded in the other liabilities caption of the financial statements:

Fund Name	Currency	Provision for unrealised gains on INR holdings '000

14 Redemption Charge

There are no redemption charges applicable to any Class of Shares.

15 Securities Lending

The Company has entered into a securities lending program for a number of equity and fixed income Funds. In return for making securities available for loan throughout the period, the Funds participating in the programs received fees which are reflected in the Financial Statements of each participating Fund under the "Stocklending income" caption. The Company has appointed Securities Finance Trust Company (the operating arm of eSec Lending) as agent for the equity and fixed income lending program. As remuneration for this agency role, Securities Finance Trust Company receives 15% of the fees from the securities lending program and the Company received 85% of the fees.

Collateralisation in the form of Government Bonds must be with a minimum issuer rating of AA (S&P rating) or Aa3 (Moody's rating) at a minimum of 102 -105 % (Min. 102% bond loan v. Sovereign bond Collateral, Min. 105% equity loan v. Sovereign Bond Collateral minimum margins). With respect to a government issuer that is rated by both Moody's and S&P, the lower of those two ratings shall apply.

The following countries may be accepted as collateral:

Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Japan, Luxembourg, Netherlands, New Zealand, Norway, Sweden, Switzerland, United Kingdom & United States.

Collateralisation in the form of Equities must be from the listed equities from the following indices, provided that no single issuer shall represent more than 10% of Equity collateral on a "per Approved Borrower" basis: 108% minimum margin. Borrowers' own stock is not acceptable.

16 Withholding Tax Reclaims

Withholding tax reclaims have been filed in respect of the withholding tax applied on dividends received during the recent years.

The decision for claiming is taken by the Board of Directors based on the analysis of costs to be borne and maximum potential amount refunded. The costs for pursuing the reclaims are borne only by the Funds potentially entitled to the refunds and recorded under Operational Expenses.

It is not possible to assess the likelihood of success of these reclaiming actions. Consequently no receivables with respect to the potential refunded amounts are booked until they are virtually certain.

Any proceeds received from these reclaiming actions will be booked in the respective Fund's net asset values.

4. Ukraine conflict

On 24 February 2022, Russia launched a military offensive against Ukraine resulting in widespread sanctions on Russia and heightened security and cyber threats. Market disruptions associated with the geopolitical event has had a global impact, and uncertainty exists as to the implications. Such disruptions can adversely affect the assets of funds and fund performance.

Whilst the impact of the conflict was captured within the global market prices at 31 March 2023, the period end for Aberdeen Standard SICAV I, the outlook for many capital markets remains volatile and the NAV's of certain funds have fluctuated since the year end. The Management Company has delegated various tasks to abrdn's Investor

Protection Committee (IPC). The IPC is responsible for ensuring the fair treatment of investors.

The IPC undertakes daily reviews of the following:

- Market liquidity across each asset class and Fund.
- Asset class bid-offer spread monitoring.
- Review of Fund level dilution rate appropriateness.
- Review of daily subscriptions / redemptions to anticipate any potential concerns to meet redemption proceeds.
- Any requirement to gate or defer redemptions.
- Any requirement to suspend a Fund (s).
- Any fair value price adjustments at a Fund level.

abrdn's Valuation and Pricing Committee (VPC) also continue to review the valuation of assets and the recoverability of income from those assets making appropriate adjustments were necessary. The VPC is made up of a wide range of specialists across abrdn with a wide range of experience in asset pricing. The Management Company has also evaluated, and will continue to evaluate, the operational resilience of all service providers. The Company's key suppliers do not have operations pertaining to the Company in Ukraine or Russia. The VPC has analysed the Russian securities and has decided to write down the Russian securities disclosed in the portfolio statements of each sub-fund to zero. Where Russian, Belarusian and Ukrainian assets have been written down to zero, abrdn do not earn a management fee on such assets. As at 24 May 2023, no Aberdeen Standard SICAV I subfund has been suspended and based on the Manager's assessment of the factors noted, above, has adequate financial resources to continue in operation.

Valuation of Russian Investments as at period end

As of 31 March 2023, the securities issued by Russian companies are valued at 'nil' in the portfolio statements of the respective sub-funds exposed to such securities. This nil value may not reflect the intrinsic value of those companies but rather reflect the fact that those securities are not tradable as of 31 March 2023.

Closure of Artificial Intelligence Global Equity and Multifactor Global Equity Funds

As of 31 March 2023, the Funds still hold non-tradable Russian investments which are fully disclosed in the portfolio statement of these sub-funds and valued at 'nil'. At such time these investments become tradeable (which shall depend on both market conditions and status of international sanctions) we shall conduct an orderly sale. Further payments of any cash remaining, windfall payments and redemption proceeds will be made to all the shareholders who were invested in the Funds at the closure dates.

5. Director changes

Effective 14 November 2022, Martin Gilbert resigned from the Board of Directors.

Effective 2 March 2023, Christopher Little resigned from the Board of Directors.

6. Changes to prospectus during the year

French Plan d'Épargne en Actions ("PEA") Disclosure

Europe ex UK Sustainable Equity Fund

The sub-fund has undertaken, by virtue of the application of article 91, paragraph L of Annex II of the French 'Code général des impôts', to ensure that at least 75% of the net assets of the Fund are permanently invested in the eligible securities mentioned in paragraphs a, b and c of section 1° of article L.221-31 of the French 'Code monétaire et financier'.

As at the date of this report, the sub-fund had the following % in PEA eligible assets:

Europe ex UK Sustainable Equity Fund 80.75%.

The PEA eligibility of the Fund results from, to the best knowledge of the Company, tax law and practices in force in France as at 31 March 2023. Such tax law and practices may change from time to time and, therefore, the Fund which may currently be held within the framework of a PEA could lose its PEA eligibility. The Fund could lose its PEA eligibility due to changes impacting its investment universe or benchmark index.

Additional information for investors in Germany

Marcard Stein & Co AG, Ballindamm 36, D-20095 Hamburg, has undertaken the position as Paying and Information Agent in Germany (the "German Paying and Information Agent") in accordance with Art. 92 of the Directive 2009/65/EC, as amended by Directive 2019/1160.

Applications for the subscriptions, redemptions, and conversion of shares may be sent to the German Paying and Information Agent.

All payments to investors, including redemption proceeds and potential distributions, may, upon request, be paid through the German Paying and Information Agent.

The full prospectus, Key Investor Information Documents (KIIDs), the Articles of Incorporation of the Company and the annual and semi-annual reports may be obtained, free of charge, at the office of the German Paying and Information Agent during normal opening hours. The statement of changes in the composition of the investment portfolio is also available free of charge upon request at the office of the German Paying and Information Agent.

Issue, redemption and conversion prices of the shares, and any other information to the shareholders, are also available from the German Paying and Information Agent.

Issue, redemption and conversion prices of the shares will also be available at abrdrn.com and at the offices of the Transfer Agent. Any notices to the shareholders will be published on abrdrn.de.

With effect from 1 January 2018 the German Investment Tax Act 2018 (GITA) significantly overhauled the existing taxation regime for certain German taxpayers. As of 1 January 2018 the Company will be treated as opaque for German tax purposes as opposed to being transparent, as it was the case under the former regime. From this date certain investors/shareholders in the Company will generally be subject to tax on actual distributions as opposed to deemed distributions. There will no longer be a requirement to publish a daily German tax rate for each share class. Alternatively, the GITA regulations require the upload of a daily equity ratio to WM Daten.

5. Payment of retrocessions and rebates

In connection with distribution in Switzerland, abrdn Investments Luxembourg S.A. or its affiliates may pay retrocessions as remuneration for distribution activities in respect of shares in Switzerland. These activities include but are not limited to the organisation of road shows, the attendance of events and fairs, the production of marketing material and the training of distribution collaborators. Disclosure of the receipt of retrocessions is based on the applicable provisions of the Swiss Financial Services Act (FinSA). Retrocessions are not deemed to be rebates even if they are ultimately passed on, in full or in part, to the investors. Rebates may also be paid directly to the investors in order to reduce the fees and cost attributed to the fund, as long as they:

- are paid from fees which have been charged to the assets of the Fund and not in addition;
- are paid on the basis of objective criteria;
- are paid to all investors fulfilling the objective criteria in the same amount and at the same time.

Rebates can only be paid if the following preconditions are fulfilled:

- The minimum investment in a collective investment scheme or in a range of collective investment schemes;
- The amount of fees resulting from the investment;
- The expected duration of the investment;
- The readiness of the investor to support the launch of the fund.

At the request of the relevant investor receiving such rebate, abrdn Investments Luxembourg S.A. or its affiliates must disclose the amount free of charge.

6. Place of performance and jurisdiction

The place of performance and jurisdiction for the Shares offered in Switzerland is at the registered office of the representative or at the registered office or place of residence of the investor.
