- Historical data may not be reliable indication for the future.
- The risk category of a Fund is an indicator but not a target or a guarantee and may shift over time.
- The lowest category does not mean a risk-free investment.
- Why is the Fund in this specific category?  
The risk category is justified by the investment mainly in Stocks and Shares, the value of which can fluctuate considerably. These fluctuations are often amplified in the short term.
- The higher the risk, the longer the recommended investment horizon.

Other risks materially relevant to the Fund which are not adequately captured by the indicator are described below:

- **Liquidity Risk:** This risk arises from the difficulty of selling an asset at a fair market price and at a desired time due to lack of buyers.
- **Operational and Custody Risk:** Some markets are less regulated than most of the international markets; hence, the services related to custody and liquidation for the subfund on such markets could be more risky.
- **Risk related to investments in Mainland China:** Such investments are subject to additional risks that may be the result of political, economic, social, tax, market and operational factors specific to the Chinese Market.

For more information on risks, please see the "Investment risks" section of the Fund's prospectus, which is available at [www.bnpparibas-am.com](http://www.bnpparibas-am.com).

## Charges

The charges you pay are used to pay the Fund's running costs, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	No
Exit charge	3.00%
This is the maximum that might be taken out of your money (before the proceeds of your investment are paid out).	
Charges taken from the Fund over each year	
Ongoing charges	2.98%
Charges taken from the fund under specific conditions	
Performance fee	No

The Exit Charge shown reflects a contingent deferred sales charge (CDSC fee) of up to 3.00% that will be levied in case of redemptions of the share before the third anniversary of its issue. Over the 3 years starting from the issue, the maximum CDSC fee rate applicable to the redemptions will decrease respectively each year by 1.00% until the end of the third year.

The percentage of **ongoing charges** is based on an estimation of the maximum fees that will be charged.

This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking. In case of conversion only authorised between "B" shares, no fee will be charged.

**For more information about charges, please see the "Fees and Costs" section of the Fund's prospectus, which is available at [www.bnpparibas-am.com](http://www.bnpparibas-am.com).**
