

# KEY INFORMATION DOCUMENT

## PURPOSE

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

## PRODUCT

**Product name:** Carmignac Emergents

**Unit:** A EUR Acc

**ISIN:** FR0010149302

**Description:** Carmignac Emergents is a French common fund (Fonds Commun de Placement – FCP), governed by European Directive 2009/65/EC (UCITS) and authorised in France by the Autorité des marchés financiers (AMF) under number FCP19970038.

**Name of the manufacturer:** Carmignac Gestion S.A., 24, Place Vendôme, 75001 Paris, France. Carmignac Gestion is a fund management company authorised in France and regulated by the AMF Autorité des marchés financiers (n° GP97008). Call (+33) 01 42 86 53 35 for further information.

**Website of the manufacturer:** www.carmignac.com

**Date of production of the KID :** 26/07/2023

## WHAT IS THIS PRODUCT?

**Type:** Carmignac Emergents is a French common fund (Fonds Commun de Placement – FCP), governed by European Directive 2009/65/EC (UCITS)

**Objective:** The fund aims to outperform its reference indicator over a period exceeding five years. The reference indicator is the MSCI EM NR (USD), calculated with net dividends reinvested (Morgan Stanley Emerging Markets index). At least 60% of the fund's net assets are exposed to international equity markets, with a significant allocation to emerging countries, through direct security investments or through derivatives. The assets may also consist of fixed income securities, debt securities or money market instruments denominated in euro or other currencies as well as variable rate bonds. Up to 40% of the assets may be invested in fixed income products for the purpose of risk diversification in the event of expected negative movements in equities. The fund may invest up to 10% of its net assets in debt instruments rated below investment grade.

The decision to buy, hold or sell debt securities will not automatically and solely depend on their rating but also an internal analysis based mainly on return, credit rating, liquidity and maturity criteria. The manager may use Relative Value strategies as performance drivers, looking to take advantage of the relative value between different instruments.

The fund uses futures and options for hedging or arbitrage purposes, and/or to expose the portfolio to the following risks (directly or via indices): currencies, interest rates, equities (all caps), ETFs, dividends, volatility, variance (the latter two categories for up to 10% of net assets) and commodities (up to 20% of assets). The derivatives available are options (vanilla, barrier, binary), futures and forwards, swaps (including performance) and CFDs (contracts for difference) on one or more underlyings. The envisaged leverage, calculated as the sum of nominal amounts without netting or hedging, is 200% but may be higher under certain conditions. Up to 10% of the net assets may be invested in contingent convertible bonds ("CoCos"). The fund may invest up to 10% of its net assets in units or shares of investment funds.

This fund is an actively managed UCITS where the investment manager has discretion over the composition of the portfolio, subject to the stated investment objectives and policy. The fund's investment universe is at least partly derived from the indicator. The fund's investment strategy is not dependent on the indicator. Therefore, the fund's holdings and the weightings may substantially deviate from the composition of the indicator. There is no limit set on the level of such deviation.

The fund has a sustainable investment objective in accordance with Article 9 of the sustainability-related financial disclosures regulation (SFDR). Through the "best-in-universe" approach, the fund invests at least 80% of its net assets in sustainable investments within the meaning of the SFDR, of which at least 5% have an environmental objective and 35% have a social objective. An analysis of extra-financial criteria leads to a reduction of at least 20% in the Fund's investment universe through negative screening to exclude companies whose non-financial ratings reflect high risk. In addition, the fund seeks to achieve carbon emissions (tCO2/\$m of turnover converted into euro, aggregated at portfolio level; scopes 1 and 2 of the GHG Protocol) 50% lower than those of the reference indicator. The definition of sustainable investment used by the fund uses the framework of the United Nations Sustainable Development Goals (SDGs). This framework is only one of the frameworks that can be used to illustrate positive results; others may reveal different results. The Fund's sustainability risk may differ from that of the reference indicator.

**Term:** The fund was launched on 21 January 1997 for a period of 99 years, except in the cases of early dissolution or extension.

**Intended retail investor:** Due to the fund's equity market exposure, this fund is suitable for investors who do not plan to withdraw their money within 5 year(s), and whose goal is to grow their investment without any capital guarantee.

The appropriate amount to invest in this fund depends on the personal situation of the investor, their knowledge of investment products and experience, their personal wealth, their cash requirements now and in the future, and their degree of risk aversion.

Investments may be redeemed each business day on request. Subscription and redemption requests are centralised on each NAV calculation and publication day before 18:00 CET/ CEST and are executed on the next business day using the previous day's NAV.

The Depository of the sub-fund is BNP Paribas Securities Services, Luxembourg branch.

These units are accumulation units.

The fund prospectus and latest key information document, as well as the latest annual report are available on the website www.carmignac.com, directly from the manufacturer or on the website www.fundinfo.com. Information on past performance for the last 10 years, where this data is available, and calculations of monthly past performance scenarios are available on the website www.carmignac.com.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

**Risk indicator :** the summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Risks not sufficiently considered by the indicator include:

- Counterparty risk: the fund may suffer losses if a counterparty defaults and is unable to meet its contractual obligations.
- Liquidity risk: the markets in which the fund participates may be subject to temporary illiquidity. These market distortions could have an impact on the pricing conditions under which the fund may be caused to liquidate, initiate or modify its positions.

← Lower risk Higher risk →

The recommended holding period is 5 year(s).

If the fund is denominated in a currency other than the official currency of the country where the fund is being marketed, the return, when expressed in the official currency of the country where the fund is being marketed, may change depending on currency fluctuations.

This product does not include any protection from future market performance so you could lose some or all of your investment.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium, and poor market conditions could impact the capacity of the fund to pay you.

## PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The returns you obtain from this product depend on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown represent examples using the best and worst performance, as well as the average performance of the product over the last ten years. Markets may develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		10 000 EUR	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	6 130 EUR	3 020 EUR
	Average return each year	-38.70%	-21.30%
Unfavourable	What you might get back after costs	7 210 EUR	7 140 EUR
	Average return each year	-27.90%	-6.52%
Moderate	What you might get back after costs	10 600 EUR	12 420 EUR
	Average return each year	6.00%	4.43%
Favourable	What you might get back after costs	17 790 EUR	19 630 EUR
	Average return each year	77.90%	14.44%

This table shows the money you could get back over 5 years, under different scenarios, assuming that you invest EUR 10 000,00.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

Your maximum loss would be that you will lose all your investment.

The figures shown include all costs of the product itself, but not necessarily all charges due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

- The unfavourable scenario occurred for an investment between June 2021 and December 2022.
- The moderate scenario occurred for an investment between July 2017 and July 2022.
- The favourable scenario occurred for an investment between February 2016 and February 2021.

## WHAT HAPPENS IF CARMIGNAC GESTION IS UNABLE TO PAY OUT?

For your protection, the assets of the fund are held with a separate entity, the custodian, so that the fund's ability to pay would not be affected by the insolvency of the management company. In the event of failure of the latter, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss of the product is mitigated due to the legal segregation of the assets of the depositary from those of the product.

There is no compensation or guarantee system in place that would fully or partially offset this loss.

## WHAT ARE THE COSTS?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that these costs will have on your investment.

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest 10 000,00 EUR. The figures are estimates and may change in the future.

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

## Cost over time

	If you exit after 1 year	If you exit after 5 years
Total costs	814 EUR	3 288 EUR
Annual cost impact (*)	8.1%	5.2% each year

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	4,00 % of the amount you pay in when entering this investment. This is the most you will be charged. Carmignac Gestion does't charge any entry fee. The person selling you the product will inform you of the actual charge.	Up to 400 EUR
Exit costs	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1,54% of the value of your investment per year. This estimate is based on actual costs over the past year.	154 EUR
Transaction costs	1,09% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on the quantity we buy and sell.	109 EUR
Incidental costs taken under specific conditions		
Performance fees	20,00% max of the outperformance once performance since the start of the year exceeds that of the reference indicator, even if negative, and if no past underperformance still needs to be offset. The actual amount will vary depending on how well your investment performs. The estimate of aggregated costs above includes the average for the last five years.	151 EUR

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Given the fund's exposure to the equity market, the recommended investment period is more than 5 year(s).

However, you can redeem your investment without incurring any penalties at any point during this period, or stay invested for longer.

Redemptions are possible daily. In exceptional circumstances, your right to request the redemption of your investment may be suspended.

## HOW CAN I COMPLAIN?

If you have any complaints about this product, the conduct of the manufacturer or of the person who recommended or sold this product to you, you can use different means of communication: you can lodge them by email to [complaints@carmignac.com](mailto:complaints@carmignac.com), by post to 24 Place Vendôme, 75001 Paris, France, or by telephone on (+33) 01 42 86 53 35.

In all cases, you must clearly state your contact details (name, address, telephone number and email address) and give a brief explanation of your complaint. More information is available on our website [www.carmignac.com](http://www.carmignac.com).
