Share AW USD Acc Hdg (ISIN: LU1299306834)
a sub-fund of the Carmignac Portfolio SICAV

**Carmignac Gestion Luxembourg is the management company of this UCITS.
Fund management has been delegated to Carmignac Gestion (Carmignac Group)**

Objectives and investment policy

The key features of the sub-fund are as follows:

- The sub-fund aims to outperform its reference indicator.
- This Sub-Fund is an actively managed UCITS. The investment manager has discretion over the composition of its portfolio, subject to the stated investment objectives and policy. The Sub-Fund's investment universe is at least partly derived from the Reference indicator. The Sub-Fund's investment strategy is not dependent on the Reference indicator; therefore, the Sub-Fund's holdings and the weightings may substantially deviate from the composition of the Reference indicator. There is no limit set on the level of such deviation. The reference indicator is the ICE BofA ML 1-3 Year All Euro Government Index. This index tracks the performance of EUR denominated sovereign debt publicly issued by Euro member countries in either the eurobond market or the issuer's own domestic market. It is calculated with coupon reinvested.
- The portfolio mainly comprises bonds, debt securities and money market instruments denominated mostly in euro, as well as variable rate bonds. The weighted average of bond ratings shall be at least investment grade. No more than 10% of the net assets may be invested in bonds unrated or rated below investment grade for each category of issuer. The portfolio's modified duration is between -3 and +4. Modified duration is defined as the change in portfolio capital (as %) for a change in interest rates of 100 basis points.
- This Sub-Fund has (E) environmental and (S) social characteristics and promotes investment into companies which follow good governance practices in accordance with article 8 of the Sustainable Finance Disclosure Regulation. The Sub-Fund applies either best-in-universe and best-efforts approaches and implements negative and relative screening whereby the Sub-Fund's investment universe is actively reduced by at least 20%. Examples of ESG criteria include: (E) carbon emissions data, (S) human capital policies, and (G) minority shareholder treatment. The Sub-Fund's sustainability risk may differ from the sustainability risk of the Reference indicator.

Other information:

- The sub-fund uses derivatives to hedge or to expose the portfolio to the following risks (directly or via indices): currencies, bonds, credit (up to 30% of net assets). The derivatives used are options (vanilla, barrier, all-or-nothing) and/or futures/forwards and/or swaps (including performance swaps).

- The sub-fund may invest up to 20% of its assets in deposits with the same credit institution.
- Up to 8 % of the net assets may be invested in contingent convertible bonds ("CoCos"). CoCos are regulated subordinated debt instruments that are complex, but consistent in nature. Please refer to the prospectus for more information.
- This share class is hedged: hedged against currency risk.
- The sub-fund may invest up to 10% of its net assets in units or shares of French and/or foreign UCIs and/or non-UCIs.
- Due to the sub-fund's exposure to the eurozone fixed income markets, the recommended investment period is two years.
- Investments may be redeemed each business day on request. Subscription and redemption requests are centralised on each NAV calculation and publication day before 15:00 CET/CEST and are executed on the next business day using the previous day's NAV.
- Although environmental, social and governance (ESG) criteria are factored into management decisions, their weight in the final decision is not determined in advance. The Fund has no SRI label.
- This is an accumulation share.

Risk and reward profile

This indicator represents the annual historical volatility of the sub-fund over a 5-year period. Its aim is to help investors understand the uncertainty attached to gains and losses that may have an impact on their investment.

- Historical data used to calculate this indicator may not be a reliable indication of the future risk profile of the sub-fund.
- The risk category of this sub-fund is not guaranteed and may change over time.
- Category 1 does not mean the investment is risk-free.
- This sub-fund is placed in category 3 owing to its exposure to interest rate and credit risks.
- The sub-fund's capital is not guaranteed.

Risks to which the sub-fund may be exposed and which could lead to a fall in the net asset value to which the indicator gives too little consideration:

- Counterparty risk: the sub-fund may suffer losses if a counterparty defaults and is unable to meet its contractual obligations, especially in the case of derivatives traded OTC.
- For more information on risks, please refer to the prospectus of the sub-fund.
