Directors' Report

2013 overall presented a positive year for risk assets and markets exhibited surprising levels of calm, but gave a mixed picture when looked at more closely. The year was marked by very positive sentiment in developed markets, whereby growth in the United States increased, fears of a Euro break-up receded and Japan's economy was spurred by "Abenomics", ending the country's two lost decades through Prime Minister Abe's programme of fiscal stimulus, monetary easing and structural reforms. Emerging markets underperformed significantly as fundamentals were reviewed in light of the US Federal Reserve signalling its intention to taper asset purchases. This triggered investor outflows and EM currency underperformances by as much as 20% relative to the USD.

The financial year ending 2013 saw developed global equity markets measured by the MSCI World Total Return Net Index (NDDUWI) up 21.2% in EUR terms¹, driven by the US market and Japan - the S&P 500 Total Return Net Index (SPTR500N) rose by 25.9% in EUR terms, the Nikkei 225 index (NKYNTR) 24.8% in EUR terms - and a positive second half for the European markets, where the Euro Stoxx 50 Total Return Net Index (SX5T) ended the year with 21.5% and the UK's FTSE 100 Total Return Net Index (UKXNUK) with 15.7% in EUR terms.

Asian markets outside of Japan saw a moderate decline and MSCI's AC Asia ex Japan Index (NDUECAXJ) delivered an erratic performance over the year, recovering from its mid-year lows to a net return of (1.4)% in EUR terms.

Emerging equity markets as measured by the MSCI Emerging Markets Total Return Net Index (NDUEEGF) declined from their positive 2012 levels by 6.8% in EUR terms across all three regions. The biggest decline was observed in Latin America, where the MSCI Total Return Net Emerging Markets Latin America Index (NDUEEGFL) extended its previous year's comparatively weak performance and declined by 17.1% in EUR terms. Secondly, the EMEA region comprising Emerging Markets Europe, Middle East and Africa was 9.3% down in EUR, measured by the MSCI Total Return Net Emerging Markets EMEA Index (NDDUEMEA) and the Asian emerging markets region represented by the MSCI Total Return Net Emerging Markets Asia Index (NDUEEGFA) lost 2.4% in EUR terms.

2013 was an equally negative year for the four BRIC countries Brazil, Russia, India and China, the key driver of this poor performance being Brazil with a decline of 19.8% in EUR terms of the MSCI Total Return Net Brazil Index (NDUEBRAE), thus extending the market's losses from the previous year. The CSI 300 Index (SHSZ300), measuring the performance of Chinese A-shares, closed with a minus of 9.1% in EUR terms, India's CNX Nifty Index (BXTRNIF\$) returned a loss of 8.5% in EUR terms and the Russian MSCI Russia Capped Index (MSRC25NU) receded 3.5% in EUR terms.

Commodity markets saw a continuous decline across 2013, and the broad commodity index DBLCI OY Balanced EUR Index (DBLCTRAE) was down 12.8% for the year. Hedge fund strategies continued to offer risk diversification by delivering stable returns and the db Hedge Fund EUR Index (DBXEHETE) yielded 6.5%, similar to foreign exchange strategies like the DB Currency Returns EUR Index (DBCREUF), which yielded 2.3% over the year.

db x-trackers** continued its successful strategy to offer investors as broad a choice of investment opportunities as possible, and further expanded its footprint as a leading company for emerging and Asian markets investments by launching a number of European-listed Asia ETFs both in swap-based and direct replication format, as well as a range of emerging markets country ETFs to be listed in Hong Kong. This was complemented by the launch of unhedged and currency-hedged Share Classes on developed market equity indices.

By year-end, db x-trackers** had launched 2 new Sub-Funds and 14 new Share Classes of existing Sub-Funds. Below is a breakdown of the new Sub-Funds and Share Classes that have been launched during the financial year 2013:

¹ All conversions into EUR were made with WM/ Reuters closing spot rates at 16:00 UK GMT.

Focusing on key areas of growth and thereby better serving the requirements of investors by bringing the Sub-Funds of the Company in line with current and future investor demand, db x-trackers** for the first time in its history terminated a number of Sub-Funds. A total of 11 Sub-Funds had demonstrated sustained small levels of investor demand over a long period of time and were closed. In the same process a total of 42 exchange listings of existing ETFs were discontinued, in order to strengthen the liquidity of the ETF shares on those exchanges where listings were retained.

By year-end 141 Sub-Funds encompassing 200 Share Classes were live.

Directors' Report (continued)

Enriching the existing range of direct replication ETFs, db x-trackers** added a Sub-Fund that directly invests in the relevant securities of the Nikkei 225 Index and announced that a number of Sub-Funds will change their investment policy to direct replication in 2014, in order to extend and further strengthen the well-received offering of direct replication ETFs that had been launched in 2012.

Clients and the investment community recognised db x-trackers** achievements by awarding a number of industry awards during the year. These included “Global ETF Awards” for the “Most Innovative ETF” (db x-trackers CSI300 UCITS ETF*) and “Most Recognised ETF Brand”, “Best New Emerging Market ETF Provider” 2013 by ETF Risk magazine and the largest number of awards at the “Extra Fund Awards” 2013, including “ETP of the Year” for db x-trackers MSCI Japan Index UCITS ETF*.

Owing to both negative performance of emerging market benchmarks and commodities markets, as well as profit-taking and subsequent re-allocation of investors' assets in developed markets, db x-trackers** saw overall net assets reduced in 2013.

The table below contains tracking error levels realised over the year 2013 for all Sub-Funds and/or Share Classes which were launched before the beginning of the financial year ending 31 December 2013. These realised tracking error levels are contrasted with the anticipated tracking error levels. As per the following table, for each of the Sub-Funds and/or Share Classes the level of realised tracking error was within the expected range, due to the effectiveness of replication techniques over the year 2013.

Independent Auditor's Report

To the Shareholders of db x-trackers,
49, avenue J.F. Kennedy
L-1855 Luxembourg

Following our appointment by the annual general meeting of the Shareholders of 2 April 2013, we have audited the accompanying financial statements of db x-trackers (the "SICAV") and of each of its Sub-Funds, which comprise the Statement of Net Assets and the Statement of Investments as at 31 December 2013 and the Statement of Operations and Changes in Net Assets for the year then ended, and a summary of significant accounting policies and other explanatory notes to the financial statements.

Responsibility of the Board of Directors of the SICAV for the financial statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation and presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the "réviseur d'entreprises agréé"

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier". Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the judgement of the "réviseur d'entreprises agréé", including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the "réviseur d'entreprises agréé" considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the SICAV, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

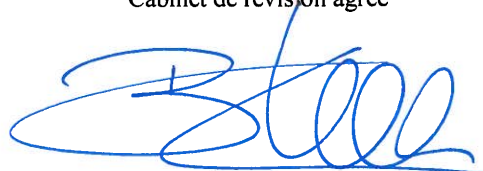

In our opinion, the financial statements give a true and fair view of the financial position of db x-trackers and of each of its Sub-Funds as of 31 December 2013, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Without qualifying our opinion, we draw attention to Note 14 to the financial statements which indicates that the Board of Directors considers that the potential charge for People's Republic of China tax on capital gains on A-shares is uncertain as at the date of approval of these financial statements and the Board of Directors has exercised significant judgment in its assessment of the potential provision and whether the potential tax charge could also affect the valuation of the OTC Swap Transactions as at 31 December 2013 held by the Sub-Funds as detailed in Note 14. The ultimate outcome of the matter cannot presently be determined, and no charge that may result has been recorded in the financial statements.

Other matter

Supplementary information included in the annual report has been reviewed in the context of our mandate but has not been subject to specific audit procedures carried out in accordance with the standards described above. Consequently, we express no opinion on such information. However, we have no observation to make concerning such information in the context of the financial statements taken as a whole.

Notes to the Financial Statements (continued)

1. General (continued)

b) Investment Objectives and Policies

A Sub-Fund may carry out its Investment Objective via an Indirect Investment Policy and/or a Direct Investment Policy as more fully described in the following paragraphs.

Sub-Funds with an Indirect Investment Policy

Sub-Funds with an Indirect Investment Policy (“Indirect Replication Funds”) may not invest directly in the constituents of the Reference Index. Instead, the exposure to the performance of the Reference Index will be achieved by way of derivative transactions and/or instruments (the “Derivative Transaction(s)”). In particular, an Indirect Replication Fund will conclude OTC swap transactions negotiated at arm’s length with the Swap Counterparty (the “OTC Swap Transaction(s)”).

In order to achieve its Investment Objective and in accordance with the Investment Restrictions, an Indirect Replication Fund may at any time invest part or all of the net proceeds of any issue of its Shares:

- (a) in Invested Assets and use one or more Derivative Transactions the purpose of which is to exchange all or part of the performance and/or income of such Invested Assets to gain exposure to the Reference Index (an “Unfunded Swap”) (refer to Note 4.1); and/or,
- (b) in one or more Derivative Transactions the purpose of which is to exchange all or part of the invested proceeds to gain exposure to the Reference Index (a “Funded Swap”) (refer to Note 4.2).

An Indirect Replication Fund may, with due regard to the best interests of its Shareholders and subject to any conditions set forth in each specific Product Annex of the Prospectus, decide from time to time to switch partially or totally from a Funded Swap to an Unfunded Swap, and vice versa.

The Invested Assets, Derivative Transactions and any techniques used to link the Invested Assets to the Reference Index or the Derivative Transactions; or the invested proceeds to the Reference Index will be managed by the Investment Manager. The management of the Invested Assets will generally not involve the active buying and selling of securities on the basis of investment judgement and economic, financial and market analysis.

In principle, the return that the Shareholder will receive will largely be dependent on the performance of the Invested Assets, the performance of the Reference Index and the performance of any techniques used to link the Invested Assets and/or the net proceeds from the issue of Shares to the Reference Index.

Depending on the value of the Derivative Transactions and its chosen policy an Indirect Replication Fund may be at any time fully or partially exposed to one or more counterparties (including the Swap Counterparty), in which case appropriate collateral or other counterparty risk mitigation arrangements compliant with the Regulations will be taken/implemented and/or payment will be received from the Derivative Transactions counterparties so that the percentage of the counterparty risk exposure remains within the limits set out in the Regulations (refer to Note 8).

Sub-Funds in compliance with Islamic investment guidelines

db x-trackers S&P 500 SHARIAH UCITS ETF ^{*(1)(2)(10)}
db x-trackers DJ ISLAMIC MARKET TITANS 100 UCITS ETF ^{*(1)(2)(10)}

The Investment Objective of the Sub-Funds mentioned hereabove is to track the performance of the Reference Index. The Sub-Funds will invest in a portfolio of Shariah compliant assets and propose to enter into certain Shariah compliant agreements (“Wa’d”), negotiated at arm’s length with Deutsche Bank AG, acting through its London branch, the purpose of which would be to enable the exchange of the performance of the invested assets the Sub-Fund invests in against the performance of the index in a Shariah compliant agreement (“Wa’d”).

The Sub-Funds shall invest the proceeds of the subscription of the Shares in assets meeting the criteria set out below and further detailed in the Prospectus, and in any non-interest bearing liquid assets that the Sub-Fund may hold from time to time on an ancillary basis.

Based on established parameters of leading Shariah scholars and boards, the following businesses, industries and financial instruments are inconsistent with Shariah precepts and principles and hence investment in their assets, e.g. shares, is not suitable for Islamic, Shariah compliant investment purposes: (i) alcohol, (ii) tobacco, (iii) pork-related products, (iv) conventional financial services (banking, insurance, etc.), (v) weapons and defense, (vi) entertainment (hotels, casinos/gambling, cinema, pornography, music, etc...).

Notes to the Financial Statements (continued)

1. General (continued)

b) Investment Objectives and Policies (continued)

Sub-Funds with a Direct Investment Policy

Sub-Funds with a Direct Investment Policy have “(DR)” in the name of the Sub-Fund.

Sub-Funds with a Direct Investment Policy (“Direct Replication Funds”) may carry out their investment objective by investing in a portfolio of transferable securities or other eligible assets that may comprise all (or, on an exceptional basis, a substantial number of) the constituents of that Reference Index (“Full Index Replication”), an optimised sample thereof, or unrelated transferable securities or other eligible assets (“Optimised Index Replication”).

Direct Replication Funds may not hold every constituent or the exact weighting of a constituent in the Reference Index but instead may seek to gain exposure to a Reference Index by utilising optimisation techniques and/or by investing in securities that are not part of that Reference Index. The types of securities in which Direct Replication Funds may invest include American depository receipts (“ADRs”), global depository receipts (“GDRs”), and/or non-voting depository receipts (“NVDRs”).

The extent to which a Direct Replication Fund utilises optimisation techniques will partly depend on the nature of the constituents of its Reference Index. For example, a Direct Replication Fund may utilise optimisation techniques and may be able to provide a return similar to that of its Reference Index by investing in a sub-set of the constituents on its Reference Index. Use of these investment techniques, the implementation of which is subject to a number of constraints detailed in the “Investment Restrictions” section of the Prospectus, may not produce the intended results.

c) The Shares

The Shares will be issued by the Company exclusively in relation to Sub-Funds with the aforementioned Investment Policies and may be subscribed in cash or in kind.

The Shares may be differentiated between Distribution Shares (identified by the letter “D”) and Capitalisation Shares (identified by the letter “C”). Other Classes may be offered with specific features such as conversion or redemption charge, minimum subscription amount or other specific features. Within each Class of Shares, several types of sub-classes can be issued (identified by capital alphabetic letters), differentiating between (but not limited to) dividend payment structures, dividend payment dates, and fee structures. The Shares will be listed for trading on one or more stock exchanges.

2. Accounting policies

The financial statements of the Company have been prepared according to accounting principles generally accepted in Luxembourg and applicable for investment funds. The significant accounting policies used are as follows:

a) Valuation of investments

The Net Asset Value of the Company is at any time equal to the total of the Net Asset Values of the Sub-Funds in the base currency of the Company.

The Net Asset Value of the Sub-Funds shall be determined in accordance with the following rules:

- (i) the value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be determined after making such discount as may be considered appropriate in such case to reflect the true value thereof;
- (ii) the value of all securities which are listed or traded on an official stock exchange or traded on any other Regulated Market will be valued on the basis of the last available prices on the Business Day immediately preceding the Valuation Day or on the basis of the last available prices on the main market on which the investments of the Sub-Funds are principally traded. The Board of Directors will approve a pricing service which will supply the above prices. If, in the opinion of the Board of Directors, such prices do not truly reflect the fair market value of the relevant securities, the value of such securities will be determined in good faith by the Board of Directors either by reference to any other publicly available source or by reference to such other sources as it deems in its discretion appropriate;

2. Accounting policies (continued)

a) Valuation of investments (continued)

- (iii) securities not listed or traded on a stock exchange or a Regulated Market will be valued on the basis of the probable sales price determined prudently and in good faith by the Board of Directors;
- (iv) the swap agreements are valued on the basis of total return swaps, which correspond to the net positive or negative value resulting from, on one hand, either the market appreciation/depreciation of the portfolio of investments, including income earned on these investments or the net proceeds of any issue of Shares, and, on the other hand, of the market value of the index plus dividend distributions for those indices which are total return indices. The net positive or negative value is disclosed in the financial statements as “Unrealised gain on swap” or as “Unrealised loss on swap”;
- (v) for Sub-Funds investing part or all of their net proceeds in swaps transactions, “Receivable due from swap counterparty” represents an advance to the counterparty of the swap agreement to finance the swap (at nominal value). Swap agreements are valued as described hereabove under (iv);
- (vi) all other securities and other permissible assets as well as any of the above mentioned assets for which the valuation in accordance with the above sub-paragraphs would not be possible or practicable, or would not be representative of their fair value, will be valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors;
- (vii) the value of the Shariah compliant agreements (“Wa’d”) will correspond to the net positive or negative value resulting from, on one hand, the market appreciation/depreciation of the Invested Assets and, on the other hand, of the market value of the Shariah compliant index. The net positive or negative value is disclosed in the financial statements as “Unrealised gain on Wa’d” or as “Unrealised loss on Wa’d”.

b) Investment transactions

The net realised gain / (loss) on sale of investments is determined on the basis of the average cost of investments sold. Investment transactions are accounted for on a trade date basis.

The net realised gain/(loss) on sale of investments is disclosed in the financial statements as “Net realised gain/(loss) on investments”.

c) Conversion of foreign currencies

Accounting records are kept for each Sub-Fund in its reference currency. The combined statement of net assets and statement of operations and changes in net assets of the Company are presented in Euro based on the exchange rate prevailing at the date of the Statement of Net Assets.

Income and expenses in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the transaction date.

Assets and liabilities in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the date of the Statement of Net Assets.

The exchange rates used as at 31 December 2013 are:

1 Euro = 1.540211 AUD
1 Euro = 1.225479 CHF
1 Euro = 7.460356 DKK
1 Euro = 0.831970 GBP

d) Income

Interest is recorded on an accrual basis. Dividends are accounted for on the ex-date, net of withholding tax.

3. Taxation of the Company

Under current law and practice, the Company is not liable to any Luxembourg income taxes, stamp or other tax. Investment income and capital gains, if any, received or realised by the Company may, however, be subject to taxation in the country of origin at varying rates, which normally cannot be recovered by the Company.

Although the Company is, in principle, subject in Luxembourg to a subscription tax (“Taxe d’Abonnement”) at an annual rate of 0.05%, all Sub-Funds are exempt from such tax as (i) all their Shares are listed or traded on at least one stock exchange or another regulated market operating regularly, recognised and open to the public; and (ii) their exclusive objective is to reflect the performance of one or more indices, it being understood that this condition of exclusive objective does not prevent the management of liquid assets, if any, on an ancillary basis, or the use of techniques and instruments used for hedging or for purposes of efficient portfolio management. A Grand-Ducal regulation may determine additional or alternative criteria with respect to the indices under that exemption.

4. Swaps**4.1 Sub-Funds with investments in transferable securities or money market instruments**

The swap agreements are concluded at the beginning of the life of the Sub-Fund with the transferable securities and money market instruments having a similar cost to the notional value of the index. This position may however change during the life of the swap whereby the cost of the transferable securities and money market instruments may become higher / lower than the notional value of the index due to additional purchases / sales of transferable securities and money market instruments compared to the index notional. The difference between these notional values is accounted for and disclosed in the financial statements as “Receivable due from swap counterparty” or as “Payable due to swap counterparty” depending on which notional is higher. The receivable balances will be settled to the Sub-Fund and the payable balances will be settled to the swap counterparty on termination of the respective swap agreement.

The table below lists the notional values of the paying and receiving legs of the swap and the unrealised gain / (loss) on swap per Sub-Fund.

5. Wa'd Agreements

The exposure of the Sub-Funds to Shariah Compliant Index is intended to be achieved through Shariah Compliant Agreements ("Wa'd"). The valuation of the Wa'd will reflect the relative movements in the performance of the Index and the Invested Assets. Depending on the value of the Wa'd, the Sub-Funds may be required to sell Invested Assets and/or make payment or be entitled to receive such a payment. In the case that the Sub-Fund has to make a payment, this payment will be made from the proceeds and, as the case may be, the partial or total disposal of the Invested Assets the Sub-Fund has invested in.

The table below lists the value and the unrealised gain / (loss) on Wa'd agreements per Sub-Fund.

7. Securities lending

Sub-Funds with a Direct Investment Policy may enter into securities lending transactions (“Securities Lending Transactions”) for up to 100% of their assets to generate additional income and therewith offset part or all of their costs. Such transactions are strictly regulated and must, amongst other things, be able to be terminated at any time at the initiative of the Sub-Fund. Securities Lending Transactions nonetheless give rise to certain risks including valuation and operational risks and market and counterparty risks. Depending on the value of the Securities Lending Transactions and its chosen policy, a Sub-Fund may be at any time fully or partially exposed to one or more counterparties, in which case appropriate collateral or other counterparty risk mitigation arrangements compliant with, (i) Part I of the Luxembourg law of 17 December 2010, as amended, (ii) any amendment or replacement legislation thereto for the time being in force, (iii) any regulation of any type taken in pursuant of (i), (ii), as well as (iv) any rule, guideline and general or specific position from time to time adopted by the CSSF pursuant thereto (the “Regulations”) will be taken/implemented and/or payment will be received from the Securities Lending Transactions counterparties so that the percentage of the counterparty risk exposure remains within the limits set out in the Regulations.

For the Sub-Funds with a Direct Investment Policy, the Company and the Management Company have appointed Deutsche Bank AG, acting through its Frankfurt head office and its London and New York branches as the Securities Lending Agent (the “Securities Lending Agent”). The Securities Lending Agent has been authorised (i) to enter into Securities Lending Transactions on behalf of the Company and (ii) to invest any cash received/held on behalf of the Company as collateral pursuant to such Securities Lending Transactions, in accordance with and within the limits set forth in the Agency Securities Lending and Repurchase Agreement, the rules set out in the Prospectus and the Regulations.

Any income generated by Securities Lending Transactions (reduced by any applicable direct or indirect operational costs and fees arising therefrom and paid to the Securities Lending Agent and, as the case may be, to the Management Company) will be payable to the relevant Sub-Fund. Unless otherwise specified in the relevant Product Annex and to the extent a Sub-Fund undertakes Securities Lending Transactions, the Securities Lending Agent and the Management Company shall receive a fee for the services provided in this respect.

For the year ended 31 December 2013, the Sub-Funds earned net income which is included in the Statement of Operations and Changes in Net Assets as “Income on securities lending”.

Currently, the Securities Lending Agent and the Management Company receive the following portions of the gross lending revenues generated, in order to cover their estimated direct or indirect operational costs and fees associated with the services provided in this respect and the oversight of the Securities Lending Transactions:

8. Collateral**8.1. State Street Bank Luxembourg S.A. ("SSBL") Collateral Arrangement**

Under a pledge agreement between the Company, the Management Company, the Swap Counterparty and SSBL, the Company has organised collateral arrangements organised through one Luxembourg global account (the "Pooled Account") opened at SSBL in the name of the Swap Counterparty, pursuant to a custodian agreement entered into between SSBL and the Swap Counterparty.

This Pooled Account is pledged in favour of the Company acting on behalf of all or part of its Sub-Funds and the financial assets of which would be allocated among the Sub-Funds concerned so that each of the latter would be able to identify the specific financial assets held on such account which are pledged in its favour.

In the event of an enforcement event (for example a default by the Swap Counterparty), the pledge arrangement allows for the custodian of the Pooled Account to transfer the collateral to the Sub-Funds without having to obtain the consent of the Swap Counterparty or having to inform the Swap Counterparty in advance. It is further detailed that the Company, the Management Company or any of their agents, will have total and unlimited discretion as to the manner of enforcement and will not be required to have regards to the interests of the Swap Counterparty.

8.2. The Bank of New York Mellon (Luxembourg) S.A. (“BNYML”) Collateral Arrangement

Pursuant to the terms of a pledge agreement between the Company, the Management Company, the Swap Counterparty and BNYML, the Company has organised collateral arrangements with the Swap Counterparty organised through Luxembourg dedicated accounts for each Sub-Fund covered by such pledge (the “Pledged Account”) opened at BNYML in the name of the Swap Counterparty. These Pledged Accounts are pledged in favour of the Sub-Funds covered by such pledge.

Pursuant to a Collateral Management Agreement, the Swap Counterparty has appointed BNYML to establish and maintain each Pledged Account and to act as custodian of all collateral credited from time to time to each Pledged Account. Under the terms of the Collateral Management Agreement, the Company has also appointed BNYML to provide services in respect of the delivery and return of collateral in respect of transactions.

In the event of an enforcement event (for example a default by the Swap Counterparty), the pledge arrangement allows for the Custodian of the Company to transfer the collateral to the Sub-Funds without having to obtain the consent of the Swap Counterparty or having to inform the Swap Counterparty in advance. It is further detailed that the Company, the Management Company or any of their agents, will have total and unlimited discretion as to the manner of enforcement and will not be required to have regards to the interests of the Swap Counterparty.

Notes to the Financial Statements (continued)

9. Management Company Fee and Fixed Fee

a) Management Company Fee

In accordance with and subject to the terms of the Management Company Agreement, the annual Management Company Fee will accrue on each calendar day and will be calculated on each Valuation Day on the basis of a percentage of (i) the last available Net Asset Value of each Sub-Fund or Class of Shares or (ii) the Initial Issue Price multiplied by the number of outstanding Shares of each Sub-Fund or Class of Shares (as indicated for each Sub-Fund or Class of Shares in the relevant Product Annex of the Prospectus). The Management Company Fee is payable quarterly.

The Management Company is also entitled to receive reimbursement for any reasonable expenses that were made in its capacity as management company of the Company in the context of the execution of the Management Company Agreement and that were not reasonably foreseeable in the ordinary course of business.

Notwithstanding the above, the Management Company and the Company may agree on a different fee structure in respect of a certain Sub-Fund or Class of Shares, as indicated in the relevant Product Annex of the Prospectus.

The Management Company may pay a Distribution Fee to the Distributor out of the Management Company Fee.

b) Fixed Fee

Under the terms of an arrangement between the Company and the Fixed Fee Agent, Deutsche Bank AG, acting through its London branch, the Fixed Fee Agent will, in exchange for the payment of a Fixed Fee, calculated on the average daily Net Asset Value per Sub-Fund or per Class at a rate as specified in the table below and payable periodically, finance the payment of certain fees and expenses, unless otherwise specified in the relevant Product Annex of the Prospectus.

The fees and expenses covered by the arrangement are Transaction Fees (in relation to Indirect Replication Funds only), Administrative Expenses (including the Administrative Agent Fee, the Custodian Fee, the Registrar, Transfer Agent and Listing Agent Fee, the formation expenses and other Administrative Expenses) and the tax in Luxembourg (the "Taxe d'Abonnement"), if any.

The Fixed Fee does not include the following fees, expenses and costs:

- the Investment Management Fee (which is paid by the Management Company);
- the Management Company Fee;
- the costs of any marketing agencies appointed by the Company or the Management Company to provide certain marketing and distribution services to the Company or the Management Company;

14. Taxation in the People's Republic of China

In 2010, synthetic Sub-Funds were launched which track the performance of the CSI300 Index or a sector or sub-sector of the CSI300 Index (Sub-Funds hereafter referred collectively to as the "Synthetic CSI300 Sub-Funds" and each such index a "CSI300 Index"). Each CSI300 Index measures the performance of A-shares traded on the Shanghai Stock Exchange or the Shenzhen Stock Exchange in the People's Republic of China ("PRC"). The investment and trading in such A-shares by foreign entities requires such entities to be granted a license as a Qualified Foreign Institutional Investor ("QFII") by the China Securities Regulatory Commission ("CSRC").

Whilst the withholding tax on dividends, bonuses and interest paid to QFIIs has now been confirmed by the State Administration of Taxation of the PRC ("SAT"), it should be noted that the position of QFIIs with regard to taxation in the PRC in respect of capital gains cannot be ascertained.

The Synthetic CSI300 Sub-Funds do not hold a QFII license and therefore gain exposure to such securities through the OTC Swap Transaction(s). Despite the fact that it would be the QFII which would be liable to the PRC tax on capital gains derived from the holding and trading of A-shares, based on supplement agreement (dated 9 December 2010 and as amended from time to time) to the ISDA Master Agreement dated 27 November 2006 (the "Supplement Agreement") between the Synthetic CSI300 Sub-Funds and Deutsche Bank AG, acting through its London branch (the "Swap Counterparty"), the Synthetic CSI300 Sub-Funds will indemnify the Swap Counterparty through the OTC Swap Transaction(s) and related contractual arrangements for income tax on capital gains.

The Board of Directors has concluded that there is at present insufficient ground for reasonably justifying a provision for the risk of a potential reduction in the value of the OTC Swap Transaction(s) to be set aside in the accounts of the Synthetic CSI300 Sub-Funds and no charge that may result has been recorded in the financial statements.

In forming its view, the Board of Directors has considered:

- the current position of the SAT, including the uncertainties around future enforcement by the SAT of the capital gains tax on QFIIs relating to the buying and selling of A-shares;
- the terms of the OTC Swap Transaction(s): Deutsche Bank AG, acting in its capacity as Calculation Agent in respect of the OTC Swap Transaction(s), currently intends to provide valuations of such OTC Swap Transaction(s) gross of any potential capital gains tax, and that it currently does not intend to deduct any such tax from the unwind proceeds of such OTC Swap Transaction(s);
- current market practice: the Board of Directors has noted that there is currently no consensus between market participants, which seem to have adopted various methods to address the potential tax charge depending, among others, on their own individual tax status and internal policies;
- the possible implications for the Synthetic CSI300 Sub-Funds and their shareholders of a capital gains tax ruling for QFIIs to be enforced by the SAT, including the impact of a retroactive enforcement;
- the independent advice of tax counsel, from which the Board of Directors understands that there is currently no indication that the PRC tax law on capital gains arising from the trading of A-shares by QFIIs may be enforced in the near future, and that additionally the rate and calculation method of such tax are not firmly established yet.

14. Taxation in the People's Republic of China (continued)

The treatment of the income tax on capital gains for any China A-Shares related Sub-Fund launched in 2014 will be implemented in the best interest of the investors, taking in consideration the relevant regulatory and market environment at the moment of the launch.

The Board of Directors monitors the situation on an ongoing basis throughout the life of the Synthetic CSI300 Sub-Funds, seeks to obtain updated advice from external tax counsel as and when relevant and requests that the Swap Counterparty produce periodic reports showing the amount and calculation details of the potential tax charge incurred by the Synthetic CSI300 Sub-Funds under the terms of the Supplement Agreement.

As at 31 December 2013, the Board of Directors estimates, on the basis of information provided by the QFII and Deutsche Bank AG, acting in its capacity as Calculation Agent in respect of the OTC Swap Transaction(s), the potential exposure under the indemnity through OTC Swap Transactions and related contractual arrangements attributable to PRC taxation at the rate of 10% on the unrealised and realised gains to be as follows:

Sub-Fund	Potential tax on unrealised gains (USD)	Potential tax on realised gains (USD)	Total potential tax (USD)	% of NAV (%)

The ultimate outcome of the matter cannot presently be determined. As a result, the attention of investors is drawn to the fact that i) the Net Asset Value of the Synthetic CSI300 Sub-Funds may be adversely impacted by any such adjustments to the valuation of the OTC Swap Transaction(s); ii) the potential negative impact on the Synthetic CSI300 Sub-Fund's performance that investors may suffer as a result of any such adjustments will depend on the timing of their investment in and/or divestment from the Synthetic CSI300 Sub-Funds; and iii) the magnitude of such potential negative impact on the performance of the Synthetic CSI300 Sub-Funds may not be proportionate to an investor's holding in the Sub-Fund as a result of the potential retroactive effect of any changes in PRC tax.

21. Subsequent events (continued)

2) On 28 February 2014 all sub-funds that are subject to the Bank of New York Mellon (Luxembourg) S.A. pledge arrangement became subject to a pledge arrangement whereby Bank of New York Mellon S.A./N.V., Luxembourg Branch acts as the custodian bank in relation to the collateral rather than the Bank of New York Mellon (Luxembourg) S.A.. In other words, whereas Deutsche Bank AG, London Branch used to post collateral into an account in the name of Deutsche Bank AG, London Branch earmarked to the relevant sub-fund with Bank of New York Mellon (Luxembourg) S.A. which was then pledged in favour of that sub-fund, as of 28 February such accounts were moved to the Bank of New York Mellon (Luxembourg) S.A. so that Deutsche Bank AG, London Branch posts collateral into an account in the name of Deutsche Bank AG, London Branch, earmarked to a relevant fund with Bank of New York Mellon (Luxembourg) S.A. which is then pledged in favour of the relevant sub-fund.

5) Significant events of the year (continued)

FTSE defines “P Chips” as companies incorporated outside mainland China, listed on the Stock Exchange of Hong Kong, with a majority of their revenue or assets derived from mainland China, and controlled by mainland individuals. P Chips were previously classified as Hong Kong securities in accordance with FTSE’s nationality rules. However, the similarities between P Chips and Red Chips (companies incorporated outside mainland China, listed on the Stock Exchange of Hong Kong, with a majority of their revenue or assets derived from mainland China, and are controlled by mainland state entities (the government, provinces or municipalities)) prompted FTSE to reclassify P Chips as China securities.

As a consequence of the reclassification of P Chips, the product annex in respect of db x-trackers FTSE CHINA 25 UCITS ETF^{*} was amended so that the section headed ‘Share Descriptions’ includes a brief description of P Chips. No further changes to the index description contained in this product annex were necessary.
