Charges taken from the Fund under specific conditions

-----------------	------

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
- The entry and exit charges shown are maximum figures.
- The ongoing charges figure is based on the annual charges as detailed in the prospectus. Where the Fund invests in other underlying funds, which may include closed-ended funds such as investment trusts, the ongoing charges figure will include the ongoing charges for those funds, and will therefore vary from year to year. The ongoing charges figure excludes portfolio transaction costs, except in the case of an entry/ exit charge paid by the Fund when buying or selling shares in another collective investment undertaking.
- Conversion fee of up to 1.00% of the gross amount being converted may be applied for conversions between classes of the same sub-fund and from one sub-fund to another sub-fund.
- For detailed information about charges, please refer to the Company's prospectus, section "General Information".
