LO Funds - Generation Global, (CHF), SA

(the "Sub-Fund") a Sub-Fund of Lombard Odier Funds (the "SICAV")

Category S, Class accumulated, Currency CHF, unhedged, ISIN LU0428706179 (the "Class")

This Sub-Fund is managed by Lombard Odier Funds (Europe) S.A., part of Lombard Odier Group

Objectives and Investment Policy

Objectives and Investment Policy

The Sub-Fund is actively managed. The MSCI World TR ND index is used for performance comparison only, without implying any particular constraints to the Sub-Fund's investments. Securities targeted by the Sub-Fund can be similar to those of the index to an extent that varies overtime but their weighting is expected to materially differ. The performance of the Sub-Fund may deviate materially from that of the index. The Sub-Fund aims to generate capital growth over the long term. It mainly invests in equity securities, preferred stocks and convertible securities issued by companies worldwide, including emerging markets. It can also invest in A shares (issued by mainland China-based companies) through the Shanghai-Hong Kong Stock Connect (Stock Connect). The Sub-Fund follows an active, high conviction investment approach. In selecting the individual stocks, the Investment Manager is guided by its own financial analysis of companies. The investment approach is based on the premise that sustainability factors will ultimately drive a company's share price over the long term. The Investment Manager invests in high quality businesses, whose securities are attractively priced, with strong management teams that it believes

best understand and respond to these factors and have the potential to outperform over the long term. The result is a concentrated portfolio made up of shares in 30 to 50 different companies. The Sub-Fund is a product which promotes environmental or social characteristics or a combination of those characteristics for the purposes of article 8 of the Sustainable Finance Disclosure Regulation. The Investment Manager adopts a multifaceted approach to the way it analyses the sustainable profile of the Sub-Fund's investments (including sustainability focused screening & scoring, exclusions, restrictions and qualitative and quantitative reviews).

What does it mean?

This indicator (SRRRI) represents the annualized historical volatility of the Sub-Fund over a 5-year period. Where there are less than 5 years worth of data, missing returns are simulated using an appropriate benchmark. The SRRRI may change over time and should not be used as an indicator of future risk or returns. Even the lowest risk classification does not imply that the Sub-Fund is risk-free or that capital is necessarily guaranteed or protected.

Category

The Sub-Fund invests in a diversified portfolio of shares with least two-thirds (2/3) of the portfolio invested in equity securities, preferred stocks and convertible securities issued by companies worldwide (including emerging markets). Superior investment performance is expected by taking a long-term investment view and integrating sustainability research (i.e.: economic, health, environmental, social and governance factors) in company selection.

Are there any other particular risks?

The following risks may be materially relevant but may not always be adequately captured by the synthetic risk indicator and may cause additional loss:

- Operational risk and risks related to asset safekeeping: In specific circumstances, there may be a material risk of loss resulting from human error, inadequate or failed internal systems, processes or controls, or from external events.
- Concentration risk: To the extent that the fund's investments are concentrated in a particular country, market, industry, sector or asset class, the fund may be susceptible to loss due to adverse occurrences affecting that country, market, industry, sector or asset class.
- Financial, economic, regulatory and political risks: Financial instruments are impacted by various factors, including, without being exhaustive, the development of the financial market, the economic development of issuers who are themselves affected by the general world economic situation, and economic, regulatory and political conditions prevailing in the relevant country.

For more details about risk, see appendix B "Risk Factors" of the prospectus.

Charges

| One-off charges taken before or after you invest | |
|--|-------|
| Entry charge | 0.00% |
| Exit charge | 0.00% |
| This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out. | |
| Charges taken from the Class over a year | |
| Ongoing charge | 0.10% |
| Charges taken from the Class under certain specific conditions | |
| Performance fee | None |

The performance fee is payable annually when the Sub-Fund exhibits a performance in excess of its benchmark. Should the Sub-Fund exhibit a negative performance whilst overperforming its benchmark, a performance fee may be payable as further described in the prospectus. Performance fee: a year of any returns the Sub-Fund achieves above the MSCI World in CHF ND. The Sub-Fund must recoup

any prior losses before the investment manager may take a performance fee.

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry and exit charges shown are maximum figures. In case of a switch between sub-funds, a maximum charge of 0.50% of the value of the shares being switched will apply.

In some cases you might pay less – you can find this out from your financial adviser or distributor.

The entry and exit charges may be increased by a dealing charge of maximum 2% in favor of the Sub-Fund, in order to reduce the effect of portfolio transaction costs.

The ongoing charges figure is based on expenses for the 12-month period ending on the date of this document. This figure may vary from year to year. For more information about charges, see "Charges and Expenses" in section 10 of the prospectus and the relevant Sub-Fund's Appendix. The prospectus is available at www.loim.com.
