Key Investor Information

Montanaro European Smaller Companies Fund (the Fund)

Share Class: Euro Distribution Class (ISIN IE00B1FZRP01), a Sub-Fund of Montanaro European Smaller Companies plc (the Company).

Objectives and Investment Policy

Investment Objective

To outperform its Benchmark, the MSCI Europe SmallCap (Capital Return) Index.

Investment Policy

The Fund will invest primarily in SmallCap companies quoted in the EU (including the UK), Iceland, Norway and Switzerland with a market capitalisation smaller than the largest constituent of the MSCI Europe (Capital Return) Index at the time of initial investment. No unquoted investments are permitted.

Income

If sufficient net income is available, dividends will be paid annually. You may choose for your dividends to be reinvested.

Fund Currency

The base currency of the Fund is Euro.

Investment Horizon

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within five years.

Dealing Frequency

You may redeem your shares, or invest in the Fund, before 12 noon (Dublin time) on any business day except Irish or UK bank holidays.

Risk and Reward Profile

These numbers rate how the Fund may perform and the risk of losing some or all of your investment. In general the potential for higher returns also implies a higher level of risk. However, the lowest category (1) does not mean a risk free investment.

The risk category is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time.

Why is this Fund in this category?

The Fund invests in securities which are subject to market fluctuations. The Fund's investments are concentrated in a specific region (Europe) and therefore may be more sensitive to localised economic, market, political or regulatory events.

Additional Risks

Liquidity / Market Capitalisation Risk

Smaller companies may be less liquid than the shares of larger companies and can be more sensitive to economic and other factors. As a result, the Fund may experience greater volatility both in the value of its investments and in its net asset value per share.

Counterparty / Operation Risk

A counterparty may fail to pay the proceeds related to the sale of securities by the Fund, or may fail to deliver securities purchased by the Fund. Failures or delays in operational processes may negatively affect the Fund.

Exchange Rate Risk

The Fund invests in quoted companies which may have share prices denominated in currencies other than the Euro and may therefore be exposed to exchange rate risks. In addition, holders of a share class in a currency that is different from the base currency of the Fund will be exposed to the exchange rate risk between the two currencies since there is no currency hedging. Different share classes may receive different investment returns.

Market Risk

The value of investments and, consequently, the price of shares can go down as well as up and an investor may not get back the amount originally invested.

Performance Fee Risk

Performance fees may be paid on unrealised gains which may never be realised. Different share classes may incur different performance fees and investors who switch between share classes may be disadvantaged.

Tax Risk

Any change in the Fund's tax status or in taxation legislation could affect the value of the investments held by the Fund.

For a more detailed explanation of these and other risks please refer to the "Risk Factors" section of the prospectus and supplement for the Fund.

Charges

The charges you pay are used to pay the cost of running the Fund including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charge	1.59%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	20% (+VAT) of the amount by which the net asset value exceeds the return on the benchmark plus 3 percentage points subject to hurdles (please see the prospectus for further information). In the Fund's last financial year, a performance fee of 0.65% was paid.
-----------------	--

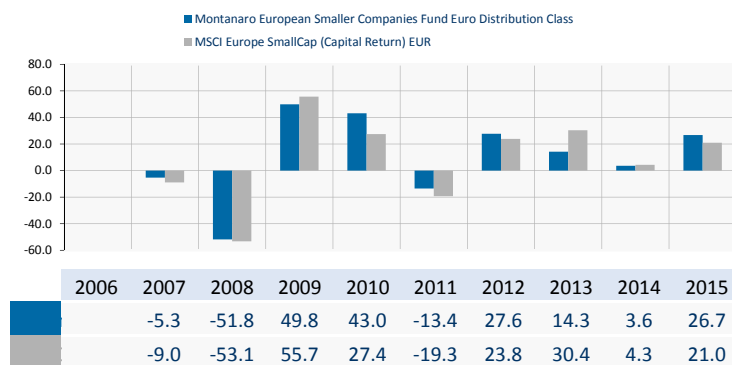

The Fund does not charge entry or exit charges.

The ongoing charges figure shown here is an estimate of the charges. This is based on the anticipated expenses for one year. The UCITS annual report for each financial year will include detail on the exact charges made.

This figure may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry / exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

Investments in the Fund may be sold to meet ongoing charges and the value of your investment in the Fund would reduce. For more information about charges, please see the Fund's prospectus which is available at www.montanaro.co.uk.

Past Performance

Please note that the MSCI Europe SmallCap (Capital Return) Index performance is calculated on a capital return basis while the share class performance includes dividends reinvested.

Past performance is not a reliable indicator of future results. The past performance shown here includes ongoing charges. Entry / exit fees are excluded. Past performance has been calculated in EUR and is expressed as a percentage change of the Fund's net asset value at each year-end. The share class was listed in November 2006.
