Fund management: **Raiffeisen Kapitalanlage-Gesellschaft m.b.H.**

Objectives and investment policy

Raiffeisen Fund Security (R) is a mixed fund of funds. Its investment goal is, in particular, regular income. The fund invests at least 51 % of its assets in units in investment funds. Units in equity funds may not exceed 35 % of the fund's assets. Units in investment funds are mainly selected on the basis of the quality of the investment process, their performance to date and their risk management. As well as investment funds, the fund may also invest in securities, in bonds and money market instruments issued by countries, supranational issuers and/or companies etc. and in sight deposits and deposits at notice. The fund may invest more than 35 % of its fund assets in securities/money market instruments issued by the following issuers: Germany, France, Italy, United Kingdom, Switzerland, USA, Canada, Australia, Japan, Austria, Belgium, Finland, Netherlands, Sweden or Spain.

The fund is actively managed with reference to a benchmark. Such reference to a benchmark does not restrict the fund management's scope of action.

Benchmark	Weighting in %
iBoxx Euro Overall	55,00
MSCI World Net USD	20,00
JPM GBI Global EUR	15,00
JPM GBI Germany 1-3 Y	10,00

Within the framework of the investment strategy, the fund can primarily invest in derivative instruments (in relation to the related risk) and use derivative instruments for hedging. In unit class A the fund's income will be distributed on 16.08. Distributions of the fund's core assets and interim distributions are also permitted. In all further unit classes the fund will retain any income which will increase the value of its units.

Except in case of a suspension due to extraordinary circumstances, unit holders may require daily redemption of units by the custodian bank at the applicable redemption price.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

Its risk/reward profile relates to past results and should not be used as a reliable indication of its future risk/reward profile. A category 1 classification does not imply a risk-free investment. A risk classification may change over time. The fund has received a category 3 risk classification on the basis of past price fluctuations experienced by the fund or a similar portfolio or an applicable risk definition system.

Risks which are not included in the risk classification but are nonetheless significant for the fund:

Credit risk: The fund invests portions of its assets (directly or via credit derivatives) in bonds and/or money market instruments. Issuers may become insolvent (or their solvency may deteriorate). These bonds and/or money market instruments (or credit derivatives) may therefore suffer a partial or complete loss of value.

Liquidity risk: It may not be possible to sell a position in due time for an appropriate price. This risk may also lead to a suspension of redemption of unit certificates.

Counterparty risk: The fund executes transactions with various contractual partners. These contractual partners may fail to satisfy a claim held by the fund, e.g. due to insolvency.

Operational risk, safekeeping risk: There is a risk of losses resulting from a failure of internal processes/systems or external events (e.g. natural disasters). Safekeeping entails the risk of a loss of fund assets which may result from insolvency, breach of a duty of care or abusive conduct by the custodian or a sub-custodian.

Risks resulting from the use of derivatives: The fund may make use of derivatives transactions not only for hedging purposes but also as an active investment instrument. This will increase the risk of a fluctuation in the fund's value.

Charges

The fees charged will be used for the fund's management. They include the charges for the sale and marketing of the fund units. The deduction of these charges will diminish the fund's potential performance.

One-off charges before and after an investment is executed

Subscription fees	0,00 %
and redemption fees	0,00 %

This is the maximum amount which is deducted from your investment prior to its execution/payment of your return. Please refer to the distribution office concerning the current fees. The subscription fee and the redemption fee indicated above represent the fees charged by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. The distributor may also apply to the subscriber, as is mentioned in the prospectus, entry fees (also defined intermediation fees/sale fees/start-up fee) as a percentage of the amount invested in the fund. For more information, please refer to the information provided by the distributor and - where applicable - to the additional mandatory documentation delivered to and signed by the investor in accordance with the provisions in force in the various countries where the fund units are marketed.

Charges deducted from the fund in the course of the year

Ongoing charges	1,29 %
------------------------	---------------

The „ongoing charges“ have been calculated on the basis of the figures as of 31.12.2021 including the previous 12-month period. The „ongoing charges“ include the management fee and all fees charged in the past year. Third-party transaction costs and performance-related fees are not included in the „ongoing charges“. The „ongoing charges“ may differ from year to year. Please refer to the „Expenses“ sub-item of the current annual fund report for precise details of the cost components included in the „ongoing charges“.

Past performance

The following graph shows the performance of the fund (tranche AT0000811633) and the benchmark in EUR. The depicted performance of the fund is also representative for the other tranches referred to on page one.

Presentation in accordance with the benchmark used in the past, which may deviate from the benchmark reported. We can also provide you with more detailed information free of charge on request.

Raiffeisen KAG calculates performance based on the published fund price, using the OeKB methodology. Individual costs – such as transaction fees, the subscription fee, the redemption fee or custody charges of the investor – and taxes are not included in the performance calculation. These would reduce the performance if they were included. Past value is not a reliable indicator of the fund's future performance. Notice for investors with a different functional currency than the fund currency: We expressly point out that returns may rise or fall due to currency fluctuations.

The fund (tranche AT0000811633) was launched on Jun 22, 1998.
