

Key investor information

This document provides you with key investor information about this collective investment scheme. It is not marketing material. The information is required by law to help you understand the nature of this collective investment scheme and the risks of investing in it. You are advised to read it so you can make an informed decision about whether to invest.

Swisscanto (CH) Equity Fund Sustainable Emerging Markets DA USD (ISIN: CH0025616860)

Swisscanto (CH) Equity Fund Sustainable Emerging Markets DA USD is a unit class of Swisscanto (CH) Equity Fund Sustainable Emerging Markets (hereinafter "fund"). The fund is managed by Swisscanto Fund Management Company Ltd., Zurich.

Objectives and investment policy

The investment objective of the fund is to generate long-term capital growth together with an adequate income.

Important features:

The fund primarily invests directly and indirectly in shares and other equity securities issued by companies which have their registered office or the center of their business activities in the emerging markets of Europe, Asia, Central and South America, or Africa. ESG criteria (environment, social, governance) are systematically taken into account in the investment selection process in accordance with sustainability requirements.

Derivatives may be used for achieving the investment objective.

Fund units are issued and redeemed basically on every bank business day in Switzerland.

Earnings and profits of the unit class are distributed.

Additional important information:

The use of derivatives equates to neither leveraging nor short selling with regard to the fund assets.

Recommendation on holding period: this fund is appropriate for investors with a long-term investment horizon (more than five years).

Risk and reward profile

The historical data used for calculating the risk and profit category cannot serve as a reliable indicator of the future risk profile.

The risk and profit category shown may very well undergo changes. Assignment to a category may change over time.

The lowest risk category cannot be equated with a risk-free investment.

Reasons for being assigned to the risk and profit category:

- Price fluctuations in the share market and company-specific price fluctuations
- Foreign currency risks

There is no capital guarantee and no capital protection.

Further risks that are essential for the fund and not adequately covered by the indicator above:

- Operational risks and risks in connection with the safekeeping of assets.
- Emerging market risks due to an unstable political environment and unpredictable political situations and decision-making.

Charges

The costs borne by you are used for the management of the fund as well as its distribution and marketing. The costs may impair the further development of the fund.
