### Investment strategy

In actively managing the Compartment, the investment manager uses a combination of market and fundamental company analysis to select securities that it believes offer favourable growth prospects at a reasonable price. The investment manager considers ESG factors a core element of its strategy by seeking to invest mainly in economic activities that contribute to an environmental and social objective whilst avoiding activities that adversely affect society or the environment.

### Investment goal

To increase the value of your investment while seeking to achieve a positive environmental and social impact. The Compartment mainly invests in equities of companies that appear to benefit from demographic, environmental, lifestyle and other long-term global trends. The Compartment may invest worldwide, including in emerging markets and Mainland China. The Compartment may use derivatives to reduce various risks (hedging) and for efficient portfolio management, and may use structured products to gain exposure to portfolio assets.
