AB FCP I Global Equity Blend Portfolio Class I / LU0232552199 / A0JMG5 / AllianceBernstein LU

Investment strategy

Under normal circumstances, the Portfolio invests mainly in equities of companies anywhere in the world, including in emerging market countries. The Portfolio aims to invest, roughly equally, in securities (i) that have the potential to achieve superior earnings growth (growth component) and (ii) that it believes are attractively priced relative to their potential for future earnings (value component). The relative weightings of both components will vary within a range of maximum +/- 10% in response to markets.

Investment goal

The Portfolio seeks to increase the value of your investment over the long term.

Assessment Structure
