Schroder International Selection Fund Global Cities A Distribution EUR / LU0683716608 / A1JK7K / Schroder IM (EU)

Investment strategy

The fund is actively managed and invests its assets in (i) sustainable investments, which are investments that contribute towards more environmentally resilient and innovative cities and infrastructure, and (ii) investments that the investment manager deems to be neutral under its sustainability criteria. The fund invests at least two-thirds of its assets in equities of real estate companies worldwide with a focus on companies that invest in cities that the investment manager believes will exhibit continued economic growth, supported by factors such as strong infrastructure and supportive planning regimes. The fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash (subject to the restrictions provided in the prospectus).

Investment goal

The fund aims to provide income and capital growth in excess of the FTSE EPRA NAREIT Developed Index (Net TR, USD) after fees have been deducted over a three to five year period by investing in equities of real estate companies worldwide and which the investment manager deems to be sustainable investments.
