Investment strategy

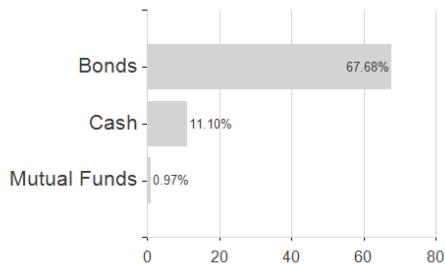

The Portfolio will mostly invest in publicly traded securities, currencies and financial derivative instruments, mostly in the global fixed income and currency markets. Cash and cash like instruments such as money market funds may also be held for temporary purposes to meet operational needs and to maintain liquidity or otherwise as the Investment Adviser sees fit. These convertibles may include contingent convertible bonds ("CoCos") of banks, finance and insurance companies which have a particular risk profile as set out below. The Portfolio promotes environmental and/or social characteristics, however, does not commit to making any sustainable investments. As part of its investment process, the Investment Adviser will implement a multi-strategy approach to ESG which may consist of the application of exclusionary screens and the integration of ESG factors alongside traditional factors.
