Investment strategy

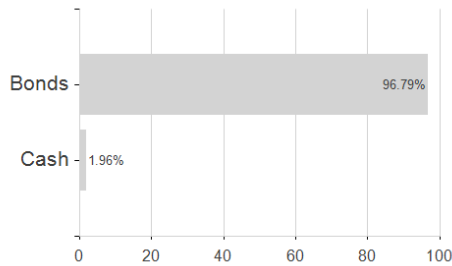

Under normal market conditions, the Portfolio typically invests at least 80% of its assets in debt securities of issuers that are organised, or have substantial business activities, in emerging market countries. The Portfolio may invest in both Investment Grade and below Investment Grade debt securities. The Portfolio may invest in, or be exposed up to 20% in structured products such as asset-backed and mortgage-backed securities securities and 10% in convertible contingent bonds (CoCos). The Portfolio's exposure to USD is at least 75%. The Portfolio uses derivatives for hedging (reducing risks), efficient portfolio management and other investment purposes.

Investment goal

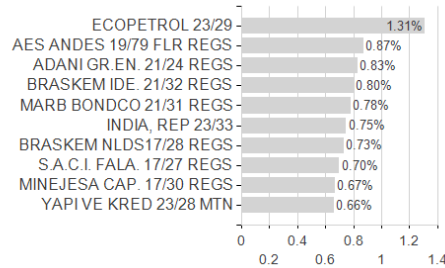

The Portfolio seeks to increase the value of your investment over time through total return, using a combination of income and capital growth.
