## AB FCP I Short Duration Bond Pf.AT GBP H / LU0689626090 / A3CP2C / AllianceBernstein LU

### Investment strategy

The Portfolio may utilise all bond markets where these debt securities are traded including Bond Connect. In addition, the Portfolio will, under normal market conditions, maintain an average duration of less than 5 years. The Portfolio may use derivatives (i) for efficient portfolio management and (ii) in seeking to reduce potential risks.

### Investment goal

Under normal circumstances, the Portfolio invests mainly in higher rated (Investment Grade) debt securities of governments, economic development organisations or companies anywhere in the world. It compares interest rate levels in different countries to determine where to invest, and also aims to identify securities that have the potential to increase in value. Under normal market conditions, at least 70% of the Portfolio's net assets will be denominated in or hedged to US Dollars (USD).
