Investment strategy

The Portfolio will mostly invest in fixed income securities of emerging market companies. Such companies are either based in or earn most of their profits or revenues from emerging markets. The Portfolio may also invest in fixed income securities of companies which are based anywhere in the world. The Portfolio will not invest more than 33% of its assets in other securities and instruments. Additionally, it will not invest more than 10% in convertibles (securities that can be converted into other types of securities). These convertibles may include contingent convertible bonds ("CoCos") of banks, finance and insurance companies which have a particular risk profile as set out below. The Portfolio may, under certain circumstances, have limited holdings in shares and similar instruments. The Portfolio may invest, up to 30%, in mainland China debt securities.

Investment goal

The Portfolio seeks to provide income and capital growth over the longer term.
