What is this product?

Type: Shares of a Sub-Fund of Amundi Funds, a SICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: To achieve a combination of income and capital growth (total return) the recommended holding period. Specifically, the Sub-Fund invests as a feeder fund in Amundi Revenus (master fund).

The Sub-Fund invests at least 85% of net assets in units of the master fund (OR class). The Sub-Fund may invest up to 15% in deposits and derivatives that are used for hedging only.

The master fund invests at least 70% of net assets in debt instruments. The master fund may invest in

- high-yield bonds,
- subordinated corporate bonds and
- up to 20% of net assets in mortgage-backed securities (MBS) and asset-backed securities (ABS).

The master fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit).

Management Process : The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. The master fund's investment team seeks to exploit yield premiums from a broad investment universe (primarily

bonds), using a flexible approach based on high-conviction choices. It analyses interest rate and economic trends to identify strategies, country and asset class allocations that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including risk premium and credit analysis, to select securities based on their potential to generate income and to construct a highly diversified portfolio that can provide a regular return.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment and to receive income over the recommended holding period and who are prepared to take on a high level of risk to their original capital.

Redemption and Dealing: Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Amundi Funds prospectus.

Distribution Policy: As this is a distributing share class, investment income is distributed.

More Information: You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Luxembourg S.A. at 5, allée Scheffer 2520 Luxembourg, Luxembourg.
