What is this product?

Type: Units of AMUNDI ULTRA SHORT TERM BOND SRI, a UCITS (Undertaking for Collective Investment in Transferable Securities), established in the form of an FCP.

Term: The Fund has an unlimited duration. The Management Company may dissolve the Fund by means of liquidation or merger with another fund in accordance with legal requirements.

AMF Classification ("Autorité des Marchés Financiers"): Bonds and other international debt securities

Objectives: By subscribing to AMUNDI ULTRA SHORT TERM BOND SRI, you are investing in international fixed income products.

The objective is, over a minimum investment horizon of six months, to outperform the composite benchmark (80% capitalised ESTER + 20% ICE BofA 1-3Year Euro Corporate Index) through bond premiums, after taking into account ongoing charges, while incorporating ESG criteria into the Fund's security selection process.

To achieve this, the management team uses an investment process structured around a triple approach: extra-financial analysis on environmental, social and governance (ESG) criteria combined with a "bottom-up" analysis for securities selection and a "top-down" analysis for portfolio optimisation.

The non-financial analysis results in an ESG rating for each issuer on a scale ranging from A (highest rating) to G (lowest rating). At least 90% of securities in the portfolio have an ESG rating. ESG criteria are considered through several approaches: "rating improvement" approach (the average ESG rating of the portfolio must be higher than that of the investment universe after eliminating at least 20% of the lowest-rated securities);

regulatory by excluding certain issuers: exclusion of issuers rated F and G on purchase, legal exclusions on controversial weapons, exclusion of companies that seriously and repeatedly contravene one or more of the ten principles of the United Nations Global Compact and sectoral exclusions on coal and tobacco.

Best-in-Class, which aims to favour the leading issuers in their sector of activity according to ESG criteria identified by the management company's team of extra-financial analysts.

The Best-in-Class approach does not exclude any business sectors a priori; the Fund may therefore be exposed to certain controversial sectors. To limit the potential non-financial risks of these sectors, the Fund applies the exclusions set out above, coupled with a commitment policy that aims to promote dialogue with issuers and support them in improving their ESG practices.

Up to 100% of net assets are invested in euro-denominated private or public debt securities from all geographical areas. These are mainly bonds (fixed rate, indexed variable rate, subordinated financial securities) and, on an ancillary basis, money market instruments.

The Fund may also invest up to 50% of its assets in debt securities denominated in OECD currencies (these positions are systematically hedged against currency risk; a residual currency risk of 2% may still remain). At any time, the portfolio consists of at least 20% of securities over two years of age. The sensitivity range is 0 to 2.

Portfolio securities are selected at the discretion of the management team in accordance with the Management Company's internal credit risk monitoring policy. For the selection of securities, the management team does not rely, either exclusively or mechanically, on ratings issued by rating agencies, but rather bases its convictions about buying and selling a security on its own credit and market analyses. For information purposes, the management team may notably use securities with ratings as described below.

In terms of rating, the Fund invests in securities of issuers belonging to the "Investment Grade" universe, i.e. securities rated AAA to BBB- on the Standard & Poor's or Fitch rating scale, or rated Aaa to Baa3 on the Moody's rating scale, or deemed equivalent by the management company.

The Fund may enter into temporary purchases and sales of securities. Eligible forward financial instruments may be used for exposure and hedging purposes.

The UCI is actively managed. The index is used a posteriori as a performance comparison indicator. The management strategy is discretionary and has no index-related constraints.

The mutual fund is classified under article 8 of Regulation (EU) 2019/2088 on the publication of sustainability information in the financial services sector (the «Disclosure Regulation»).

Intended retail investors: This product is intended for investors with a basic knowledge and little or no experience of investing in funds, who are seeking to increase the value of their investment while preserving all or part of their invested capital over the recommended holding period and who are able to bear a loss of up to the full amount invested.

The product is not open to residents of the United States of America/"U.S. Person" (the definition of "U.S. Person" is available on the Management Company's website www.amundi.fr and/or in the prospectus).

Redemption and transaction: Units may be sold (redeemed) daily as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the AMUNDI ULTRA SHORT TERM BOND SRI prospectus.

Distribution Policy: As this is a non-distributing unit class, investment income is reinvested.

The Net Asset Value of the Fund is available on www.amundi.fr.

Depositary: CACEIS Bank.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for 6 months.

Lowest risk

Highest risk

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

The use of complex products such as derivatives can lead to increased movement of securities in your portfolio.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Fund's performance. Please refer to the AMUNDI ULTRA SHORT TERM BOND SRI prospectus.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

What happens if Amundi Asset Management is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the Management Company. In the event of default by the Management Company, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated due to the legal segregation of the depositary's assets from those of the product.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product, and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

COMPOSITION OF COSTS

| | One-off costs upon entry or exit | If you exit after six months |
|--|--|------------------------------------|
| Entry costs | We do not charge an entry fee for this product. | Up to EUR 0 |
| Exit costs | We do not charge an exit fee for this product, but the person selling you the product may do so. | EUR 0.00 |
| | Ongoing costs taken each year | |
| Management fees and other administrative or operating costs | 0.34% of the value of your investment per year. This percentage is based on the actual costs over the last year. | EUR 17.25 |
| Transaction costs | 0.15% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on the volume of our purchases and sales. | EUR 7.73 |
| | Incidental costs taken under specific conditions | |
| Performance fees | 20.00% of the annual outperformance of the reference asset. The calculation applies on each Net Asset Value calculation date in accordance with the terms described in the prospectus. Past underperformances over the last five years must be recovered before any new performance fee accrual. The actual amount will vary depending on how well your investment performs. The aforementioned estimate of total costs includes the average over the past five years. The performance fee is paid even if the performance of the unit over the observation period is negative, while remaining higher than the performance of the Reference Asset. | EUR 2.15 |

How long should I hold it and can I take money out early?

Recommended holding period: 6 months. This period is based on our assessment of the risk and reward characteristics and costs of the Fund. This product is designed for short-term investment; you should be prepared to stay invested for at least 0.5 years. You can redeem your investment at any time, or hold the investment longer.

Order schedule: Redemption orders must be received before 12:25 (Paris time) on the net asset value calculation date. Please refer to the AMUNDI ULTRA SHORT TERM BOND SRI prospectus for more information about redemptions.
