What is this product?

Type: Shares of Amundi Weltportfolio, an undertaking for collective investment in transferable securities (UCITS), established as an investment fund.

This is a UCITS investment fund established in Germany. The Amundi Weltportfolio investment fund is a collective investment undertaking which collects capital from a number of investors in order to invest it in accordance with a defined investment strategy for the benefit of these investors.

Term: The term of the Fund is open-ended. The Management Company may terminate the Fund by dissolution or merger with another fund, in accordance with the legal provisions.

Objectives: The Fund's objective is to achieve an attractive increase in value with a growth-oriented investment policy, in addition to a minimum payout of 1.7% per Fund financial year. At the same time, Fund Management aims to limit the fluctuations (volatility) in the value of the Fund. The Fund is managed independently of a benchmark. The investments are actively managed.

The Fund is classified in accordance with Article 6 of the Disclosure Regulation.

To achieve its objective, the Fund can invest up to 70% of its value in equities. Up to 20% of the value of the Fund may be invested in securities that reflect the performance of commodities and/or commodity indices. Up to 20% of the value of the Fund may be invested in interest-bearing securities with a minimum rating ranging from "BB+" according to Standard & Poor's, "BB+" according to Fitch or "Ba1" according to Moody's, to "CCC-" according to Standard & Poor's, "CCC-" according to Fitch or "Caa3" according to Moody's.

The Fund may use derivative transactions for hedging, speculative purposes and for efficient portfolio management. In addition, the

Fund may invest in accordance with the "General and Special Conditions of Investment".

The Fund includes sustainability criteria in its investment process, as described in more detail in the section "Amundi – Responsible Investment Policy" of the prospectus.

The Fund does not track a securities index, nor does the company base itself on a fixed benchmark for the Fund. At its own discretion, the Fund Management actively decides on the selection of assets, taking into account analyses and valuations of issuers of securities as well as economic and political developments. It aims to achieve positive performance.

Intended retail investors: This product is intended for investors with a basic knowledge and with no or limited experience of investing in funds, seeking to increase the value of their investment over the recommended holding period and who are able absorb losses up to the investment amount.

Redemption and dealing: Shares may be sold (redeemed) as stated in the prospectus and investor information document at the respective dealing price (net asset value), subject to suspension of redemption by the Management Company owing to extraordinary circumstances. Further details can be found in the prospectus or the investor information document of Amundi Weltportfolio.

Distribution policy: The Fund income is ordinarily distributed.

More information: You can obtain further information about the Fund, including the prospectus, investor information document and financial report, free of charge on request from:

What are the risks and what could I get in return?

RISK INDICATOR

Lower risk

Higher risk

The risk indicator assumes you keep the product for four years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is medium-low risk class. The risk of potential losses from future performance is therefore classified as medium-low. In very unfavourable market conditions, it is unlikely that the ability to execute your redemption requests will be compromised.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Product's performance. Further information can be found in the prospectus or the investor information document of Amundi Weltportfolio.
