It is based on historical data and is not a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time. The lowest category does not mean a risk-free investment. The Fund is classified in the category indicated above due to past movements in the Fund's price. There is no capital guarantee. - Derivative instruments can make a profit or a loss. The use of derivatives can increase the amount by which the Fund's value rises and falls.
- Country specific funds have a narrower focus than those which invest broadly across markets and are therefore considered to be more risky.
