

Key Information Document

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Product: Craton Capital Precious Metal Fund Klasse A

Manufacturer: LLB Fund Services AG

The fund is a OGAW of the umbrella funds (Craton Capital Funds) launched in Liechtenstein. It is managed by LLB Fund Services AG (hereafter "we").

Hints:

- A prospectus and semi-annual and annual reports are prepared for the umbrella fund, in which the individual sub-funds are presented separately.
- Because each sub-fund is a separate legal fund, the assets and liabilities of each sub-fund are legally separate; due to the segregation of the assets and liabilities of each sub-fund, there will be no impact on the respective investors.
- Shares in one sub-fund cannot be exchanged for shares in another sub-fund.

LLB Fund Services AG belongs to the Liechtensteinische Landesbank Aktiengesellschaft.

I. What is this product?

Type: The fund is a OGAW of the umbrella funds (Craton Capital Funds) launched in Liechtenstein.

Term: The Fund does not have a pre-determined maturity, it is established for an indefinite period. For the recommended holding period, see section "V. How long should I hold it and can I take my money out early?". The Fund may be dissolved by resolution of LLB Fund Services AG. This is particularly the case if significant changes in the actual ratios occur that justify dissolution. The Fund must be dissolved by operation of law if it falls below the minimum capitalisation required by law.

Objectives: The objective of the Fund is to generate substantial increases in value. To achieve this, the Fund invests mainly in shares of companies active in the sectors of gold, platinum group metals, silver and diamonds. The fund Management company is responsible for choosing the individual securities within this framework. The Fund may deploy derivative transactions in order to reduce possible losses resulting from Price fluctuations, as well as in order to generate higher increases in value. The fees for the purchase and sale of securities are borne by the Fund. These are incurred in addition to the percentages shown below under "Costs", and may reduce the returns of the Fund. Earnings shall be retained by the Fund, and raise the value of the units. Investors may demand to redeem the units from the management company on a daily basis. The management company may however suspend the redemption if extraordinary circumstances means this appears necessary, taking account of investor interests. The fund takes ecological and social criteria into account in its investments. The fund is managed actively and measures its outperformance against the index mentioned. The benchmark composition has changed as of 01.06.2020 and can be requested from the Management Company.

The depositary of the fund is Liechtensteinische Landesbank Aktiengesellschaft. The Prospectus and the current annual and semi-annual reports, the current unit prices and further information on the Fund can be found free of charge in the legally-binding language according to the Prospectus at www.llb.li.

Intended retail investor: The fund is aimed at private clients who are pursuing the goal of general asset accumulation/asset optimization and have a medium term investment horizon. This product is a fund for investors with advanced knowledge and/or experience in financial products. The investor can bear losses up to the complete loss of the invested capital and places no value on capital protection.

II. What are the risks and what could I get in return?

Summary Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 6 out of 7, which is the second-highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very likely to impact the capacity of the product manufacturer to pay you. **Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Other substantial risks: In addition, there are risks that are not included in the risk indicator. Comprehensive explanations can be found in the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could incur significant losses.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 7 years. Markets could develop very differently in the future.

Recommended holding period: 7 years Example Investment: USD 10,000		If you exit after 1 year	If you exit after 7 years (Recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario¹⁾	What you might get back after costs	USD 650	USD 610
	Average return each year	-94.0 %	-33.0 %
Unfavourable scenario²⁾	What you might get back after costs	USD 3,980	USD 2,090
	Average return each year	-60.0 %	-20.0 %
Moderate scenario³⁾	What you might get back after costs	USD 8,660	USD 5,160

The figures do not take into account your personal tax situation, which may also affect how much you get back. ¹⁾The stress scenario shows what you could get back under extreme market conditions. ²⁾This type of scenario occurred when investing in the fund between Sep 2011 - Sep 2018. ³⁾This type of scenario occurred when investing in the fund between Feb 2009 - Feb 2016. ⁴⁾This type of scenario occurred when investing in the fund between Mar 2015 - Mar 2022.

III. What happens if LLB Fund Services AG is unable to pay out?

The failure of LLB Fund Services AG has no direct impact on your payout, since the legal regulation stipulates that in the event of insolvency of LLB Fund Services AG, the special assets are not included in the insolvency estate, but remain independent.

IV. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return).
For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 per year is invested

	If you exit after 1 year	If you exit after 7 years
Total costs	USD 825	USD 2,204
Annual cost impact (*)	9.00 %	4.00 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -5.00 % before costs and return -9.00 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.

These figures include the maximum distribution fee that the person selling you the product may charge (5.0 % of amount invested / USD 500.0).

This person will inform you of the actual distribution fee.

Composition of costs

The table below shows the following:

- how the different types of charges affect the investment return you could get at the end of the recommended holding period each year;
- what is included in the different cost categories.

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.00 % of the amount you pay in when entering this investment.	USD 500
Exit costs	0.00 % of your investment before it is paid out to you.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.20 % of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 220
Transaction costs	0.60 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 60
Incidental costs taken under specific conditions		
Performance fees	The actual amount depends on how well your investment performs. The above estimate of the cumulative cost includes the average of the last five years.	USD 100

V. How long should I hold it and can I take my money out early?

Recommended holding period: 7 years

This product has no minimum holding period. It is suitable for medium-term investments. There are no costs or fees for such a transaction. You should therefore be prepared to remain invested with your investment for at least 7 years. However, you can return your investment on any Liechtenstein banking day and without penalty.

VI. How can I complain?

In the event of complaints, you can contact LLB Fund Services AG, Äulestrasse 80, 9490 Vaduz, fundservices@llb.li. Complaints about the person advising on or selling the product can be addressed to that person directly.
