Notes

General

CS Investment Funds 1 (the "Company") is an undertaking for collective investment in transferable securities in the legal form of an investment company with variable capital (société d'investissement à capital variable, SICAV) subject to Part I of the Law of December 17, 2010, as amended on undertakings for collective investment ("Law of December 17, 2010") transposing Directive 2009/65/EC of the European Parliament and of the Council of July 13, 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities.

As of 30.04.2023 the Company had 13 Subfunds.

Changes :

Effective as per 12.12.2022 Credit Suisse Investment Partners (Lux) Global Convertible Bond Fund has been renamed into Credit Suisse Investment Partners (Lux) Global Investment Grade Convertible Bond Fund.

Summary of significant accounting policies

a) Presentation of financial statements

The financial statements are presented in accordance with Luxembourg legal and regulatory requirements concerning Undertakings for Collective Investment in Transferable Securities. The financial statements are presented on the basis of the latest net asset value calculated during the financial period (i.e. 30.04.2023).

b) Computation of the net asset value of each Subfund

The net asset value of the Shares of each Subfund shall be calculated in the reference currency of the respective Subfund and shall be determined under the responsibility of the Company's Board of Directors in Luxembourg on each banking day in Luxembourg (each such day being referred to as a "Valuation Day"). A banking day is defined as being a day on which banks are normally open for business in Luxembourg. The financial statements reflect the net asset values as of 30.04.2023 based on the market prices of the investments as of 28.04.2023.

The Investment Manager needs to undertake transactions in order to maintain the desired asset allocation as a result of subscriptions or redemptions, which may generate additional costs for the Subfund and its shareholders. As a consequence, in order to protect the existing investors' interest, from these capital movements, when net capital movements exceed a threshold pre-defined by the Board of Directors, an adjustment of the NAV per share used is applied. This adjustment reflects the estimated tax and dealing costs that may be incurred by the Subfund as a result of these transactions, and the estimated bid-off spread of the assets in which the fund invests. A periodical review is undertaken in order to verify the appropriateness of the swing factor being applied.

For the active Subfunds, the Net Asset Value calculated will be increased by up to a maximum of 2% per Share in the event of a net surplus of subscription applications or reduced by up to a maximum of 2% per Share in the event of a net surplus of redemption applications in respect of the applications received on the respective Valuation Day.

The NAV per share as disclosed in the statistical information is the published NAV per share whereas the total net assets disclosed in the statement of net assets is the total net asset value excluding period end swing adjustment.

As per 30.04.2023, swing pricing was applied to Credit Suisse (Lux) Global Value Bond Fund.

c) Valuation of investment securities of each Subfund

Securities which are listed on a stock exchange shall be valued at the last traded price. If such a price is not available for a particular trading day, the closing bid price may be taken as a basis for the valuation. If a security is traded on several stock exchanges, the valuation shall be made by reference to the exchange on which it is primarily traded.

In the case of securities for which trading on a stock exchange is not significant although a secondary market with regulated trading among securities dealers does exist, the valuation may be based on this secondary market. Securities traded on a regulated market shall be valued in the same way as securities listed on a stock exchange.

Securities that are not listed on a stock exchange and are not traded on a regulated market shall be valued at their last available market price. If no such price is available, the Company shall value these securities in accordance with other criteria to be established by the Board of Directors and on the basis of the probable sales price, the value of which shall be estimated with due care and in good faith.

Shares and units in UCIs shall be valued on the basis of their most recently calculated net asset value, taking due account of the redemption fee where necessary. Where no net asset value and only buy and sell prices are available, the shares or units in such UCIs may be valued at the mean of such buy and sell prices.

The amounts resulting from such valuations shall be converted into the reference currency of each Subfund at the prevailing mid-market rate.

If a valuation in accordance with the above rules is rendered impossible or incorrect owing to special or changed circumstances, then the Board of Directors of the Company shall be entitled to use other generally recognised and auditable valuation principles in order to value the Subfund's assets. Because of the inherent uncertainty, these estimated values may significantly differ from the values that would have been used had a readily market for the securities existed, and from the values that may be ultimately recovered.

d) Cash at banks and at brokers

Cash at banks and at brokers includes cash in hand, margin calls and deposits held at call with banks and bank overdrafts.

e) Net realised gain/loss on sales of investments of each Subfund

The realised gains or losses on the sales of securities are calculated on the basis of the average acquisition cost.

f) Foreign exchange conversion

The financial statements are kept in the reference currency of each Subfund and the combined financial statements are kept in CHF.

Cash at banks, other net assets and the value of portfolio securities in currencies other than the reference currency of each Subfund are converted into the reference currency at the foreign exchange rate prevailing on the date of valuation.

Income and expenses in currencies other than the reference currency of each Subfund are converted into the reference currency at the foreign exchange rate applicable at the date they accrue to the Subfund.

Realised gains or losses on foreign currencies are accounted for in the statement of operations / changes in net assets.

The acquisition cost of securities in currencies other than the reference currency of each Subfund is converted into the reference currency at the foreign exchange rate valid at the date of acquisition.

g) Transactions on investments in securities of each Subfund

The transactions on investments in securities are booked on a trade date basis.

h) Valuation of financial futures contracts of each Subfund

Unmatured financial futures contracts are valued at valuation date at market rates prevailing at this date and resulting changes in unrealised gains or losses are posted to the statement of operations / changes in net assets and are shown under "net unrealised gain/loss on financial futures contracts" in the statement of net assets.

i) Valuation of forward foreign exchange contracts of each Subfund

Unmatured forward foreign exchange contracts are valued at valuation date at forward exchange rates prevailing at this date and resulting changes in unrealised gains or losses are posted to the statement of operations / changes in net assets and are shown under "net unrealised gain/loss on forward foreign exchange contracts" in the statement of net assets.

j) Valuation of swap contracts of each Subfund

On each valuation day, swap agreements are valued at the net present value of the future cash flows, using the relevant interest rate yield curve on valuation day.

Assets swaps and the securities linked to the assets swaps are not revalued as the security and the asset swap are considered for the purpose of the valuation as a single instrument and unrealised results are posted to the statement of operations / changes in net assets and are shown under "net unrealised gain/loss on swaps contracts" in the statement of net assets.

k) Allocation of accrued expenses

Accrued expenses which can be allocated directly to a Subfund are charged to this Subfund. Accrued expenses which cannot be allocated directly are divided among the Subfunds in proportion to the net assets of each Subfund.

l) Securities Lending

The Company can practise lending of securities included in its portfolios of its Subfunds. The Company may only lend securities within a standardized system of securities lending organised by a recognised institution of securities compensation or by first class financial institutions specialised in this type of operations.

m) Income recognition

Dividends are recorded on ex-dividend date, net of withholding tax. Interests are accrued on a daily basis.

n) Valuation of options of each Subfund

Unmatured options are valued at valuation date at market rates prevailing at this date and resulting changes in unrealised gains or losses are posted to the statement of operations / changes in net assets.

Management fee

(see detail at Subfund level)

As remuneration for its services and reimbursement of its expenses, the Management Company is entitled to a monthly management fee, payable at the end of each month and calculated on the basis of the average of the daily net asset value of the relevant share class during that month.

Class DA, DAH, DB and DBH Shares are not subject to a management fee but only to a management service fee, payable to the Management Company covering all fees and expenses excluding the fees payable to the Depositary Bank, of not more than 0.35% p.a.

Class DAP, DAHP, DBP and DBHP Shares are not subject to a management fee but only to a management service fee, payable to the Management Company covering all fees and expenses excluding the fees payable to the Depositary Bank, of not more than 0.35% p.a., and a performance fee, payable to the Management Company.

Performance fee

In addition to the Management fees, the following Subfunds are subject to a fee linked to the performance of the assets that the relevant Investment Manager is managing ("Performance Fee"):

Credit Suisse Investment Partners (Lux) Global Investment Grade Convertible Bond Fund (previously Credit Suisse Investment Partners (Lux) Global Convertible Bond Fund)

Credit Suisse (Lux) Credit Special Situation Fund

Credit Suisse (Lux) Global Value Bond Fund

Below the detailed calculation method of the performance fees for Credit Suisse (Lux) Credit Special Situation Fund and Credit Suisse (Lux) Global Value Bond Fund:

The Management Company is entitled to a Performance Fee which is calculated with every net asset value calculation on the basis of the unswung Net Asset Value before performance fee accrual for the relevant Valuation Day of the Share Class concerned ("Calculation Date").

The Performance Fee may only be charged and set aside, if the following two criteria are fulfilled cumulatively:

a) The performance of the unswung Net Asset Value of a Share Class, as calculated on a daily basis, must be greater than the performance of the reference value further defined below ("Hurdle-Rate-Index-Value"), which is also calculated on a daily basis. At the time of launch, the Hurdle-Rate-Index-Value is equal to the issue price of the respective Share Class.

b) The unswung Net Asset Value of a Share Class, which is used for the calculation of a Performance Fee, must be greater than the previous unswung Net Asset Values ("High Watermark"). Each preceding decline in the unswung Net Asset Value per Share of the respective Share Class must be offset by a further increase above the last maximum value at which a Performance Fee was crystallized.

The Hurdle-Rate-Index-Value described in a) above is composed of the Reference Rate set by the Benchmark Administrator, for the respective Reference Currency of the Share Class as per the table below, and increased by 100 basis points, calculated on a daily, indexed basis).

Reference Currency of the Share Class	Reference Rate	Benchmark Administrator
USD	SOFR	FED
EUR	ESTR	ECB
CHF	SARON	SIX
GBP	SONIA	BOE
JPY	TONAR	BOJ

Calculation of the Performance Fee and the necessary provisioning takes place on a daily basis.

If, on the Calculation Date, the unswung Net Asset Value of a Share Class is above the Hurdle-Rate-Index-Value and is greater than the preceding unswung Net Asset Values (prior to deduction of the Performance Fee), a Performance Fee of 15% shall be deducted on the difference between the unswung Net Asset Value of the Share Class and the greater value between Hurdle-Rate-Index-Value and High Watermark. The calculation of the Performance Fee takes place on the basis of the Shares of the respective Class that are currently in circulation.

The payment of the Performance Fee amounts calculated for each quarter and set aside according to the above described method takes place at the beginning of the following quarter.

This Performance Fee cannot be refunded if the unswung Net Asset Value falls again after deduction of the Performance Fee. This means that a Performance Fee may also be charged and paid if, at the end of the calendar quarter, the unswung Net Asset Value per Share of the respective Class is lower than the value at the beginning of the calendar quarter.

Credit Suisse (Lux) Global Value Bond Fund :

All active share classes are not subject to performance fees. No performance fees have been charged for the Subfund over the reporting period.

Credit Suisse Investment Partners (Lux) Global Investment Grade Convertible Bond Fund (previously Credit Suisse Investment Partners (Lux) Global Convertible Bond Fund) :

The Management Company is entitled to a performance fee which is calculated with every net asset value calculation on the basis of the unswung Net Asset Value of the Share Class concerned. The performance fee may only be charged and crystallized, if the following conditions are fulfilled cumulatively:

a) The unswung Net Asset Value of a Share Class, which is used in the calculation of a performance fee must be greater than the previous Net Asset Values ("high water mark"). Each preceding decline in the unswung Net Asset Value per Share of the respective Share Class must be offset by a further increase above the last maximum value at which a Performance Fee was incurred.

b) The performance of the unswung Net Asset Value of a Share Class, as calculated on a daily basis, must exceed a quarterly performance of 1% ("hurdle rate") (the "hurdle NAV").

The hurdle NAV is reset at the beginning of each quarter to start with the last net asset value calculated in the previous quarter which is used as a basis for the calculation of the new hurdle NAV.

The performance fee calculation, together with the necessary provisioning and crystallization, takes place with every net asset value calculation.

If, on the Calculation Date, the unswung net asset value of a Share Class is above the hurdle NAV and is greater than the high water mark, a performance fee of 20% shall be deducted on the difference between the unswung net asset value of the relevant Share Class and the high water mark and/or the hurdle NAV (whichever is the greater of the two). The performance fee is calculated on the basis of the Shares of the relevant Share Class that are currently in circulation.

The payment of the Performance Fee amounts calculated and crystallized according to the above described method takes place at the beginning of the following quarter.

This Performance Fee cannot be refunded if the unswung Net Asset Value falls again after deduction of the Performance Fee. This means that a Performance Fee may also be charged and paid if, at the end of the calendar quarter, the unswung Net Asset Value per Share of the respective Class is lower than the value at the beginning of the calendar quarter.

QA	USD	15%	-	-
QAH	CHF	15%	-	-
QAH	EUR	15%	-	-

No performance fees have been paid for the Subfund over the reporting period.

"Taxe d'abonnement"

Under the prevailing laws and regulations, the Fund is subject in Luxembourg, on the basis of its investments, to a "taxe d'abonnement" at the annual rate of 0.05%, payable quarterly and calculated on the basis of the net assets of each Subfund at the end of each quarter. In the case of Share Classes that may only be acquired by institutional investors, this annual tax rate is 0.01%.

This tax does not apply for those assets of the Fund which are invested in other undertakings for collective investment under Luxembourg law.

Total Expense Ratio (TER)

(see detail at Subfund level)

The TER expresses the sum of all costs and commissions charged on an ongoing basis to the fund's assets, taken retrospectively as a percentage of the average assets.

If a Subfund invests at least 10% of its net assets as a fund of fund in target funds, a composite TER of the fund of funds is to be calculated as follows:

The prorated TER of the individual target funds including a performance related remuneration, weighted according to the share they represent in the overall assets of the fund of funds as of the closing date and the TER of the fund of funds minus the retroceded commissions received from the target funds during the reporting period. The TER is calculated following the Asset Management Association Switzerland (AMAS) guideline.

No TER is disclosed for share classes launched less than 6 months before closing or closed during the period.

Exchange Rates

The combined financial statements are kept in CHF. For this purpose, the financial statements of the Subfunds are converted into CHF at the foreign exchange rates as of 30.04.2023:

1 EUR = 0.982650 CHF
1 USD = 0.890082 CHF

Fund performance

(see detail at Subfund level)

The performance is based on the net asset values as calculated on the last business day of the year Y respectively Y-1. Those net asset values reflect the market prices of the investments as of the last business day of the year Y respectively Y-1.

The YTD (Year-To-Date) Performance includes the period from 01.01.2023 until 30.04.2023.

Historical performance is no indicator of current or future performance. The performance data given does not take into account commissions and costs incurred in the purchase or redemption of Subfund shares.

For shares launched more than 3 years ago no performance since inception is disclosed.

The performances are calculated based on the swung NAV per share.

Cross-Subfund investments

The following investments were not eliminated from the combined figures.

As at 30.04.2023, the total combined NAV without these investments would amount to CHF 3,659,736,033.49.

The collateral delivered by the securities lending counterparty to the Company is composed of a well-diversified portfolio of securities consisting of

- highly rated bonds issued or guaranteed by governments, government agencies, bodies regulated by public law or corporations (excluding Credit Suisse affiliates) from selected OECD countries.
- highly rated bonds from supranational organisations
- equities listed on selected stock exchanges within the OECD on the condition that the shares are included in a main and liquid index.

The determination of the market value of the collateral is subject to the application of appropriate haircuts adapted to the volatility of the collateral type.

The revenues mentioned in the statement of operations / changes in net assets under "Security Lending Income" are the net amounts received from the lending principal. Any direct and indirect operational costs and fees are borne by the principal out of its fee and include the liability risk assumed by the principal.

For the period ended on 30.04.2023, the fees paid to the principal and the Subfunds amounted to as follows:

Risk Management

For all Subfunds the global exposure is calculated on the basis of the commitment approach, the global exposure is calculated under the VaR approach.

Financial Derivative Instruments

The Subfunds may engage in derivative transactions for the purpose of efficient portfolio management. Details of the derivatives are displayed in the Notes pages. Depending on the type of derivatives held, collateral might be received from the different counterparties to reduce the counterparty exposure. For other type of derivatives, margin accounts might be used.

As at 30.04.2023, in order to reduce the counterparty risk, the following Subfund received the following assets as collateral from the following counterparty for an amount of:

Subfund	Type	Counterparty	Amount
Credit Suisse (Lux) Floating Rate Credit Fund	Cash	Goldman Sachs International (London)	USD 190,000.00

Changes in the composition of the security portfolio

Changes in the composition of the security portfolio during the reporting period are available to Shareholders free of charge at the registered office of the Company or the local representatives in the countries where the Company is registered.

Expenses reimbursement

Since the beginning of November 2021, the Subfund Credit Suisse (Lux) High Yield USD Bond Fund pays expenses based on a capped TER (management fees + 20 bps). On a monthly basis, the total amount of the expenses actually incurred by the Subfund is determined and compared to the accrued amount of expenses calculated on the basis of the capped TER. Where the level of actual expenses is higher than the cap, the difference is booked as a decrease of expense (the "waiver fees"). On a quarterly basis the waiver fees are invoiced to Credit Suisse Fund Management S.A. The amount of waiver fees is disclosed as "Expense reimbursed or waived" in the "Statement of Operations / Change in Net Assets".

Significant events during the period

In response to the war in Ukraine since late February 2022, the US, EU, UK, Switzerland and other countries across the world imposed severe sanctions against Russia's financial system and on Russian government officials and Russian business leaders. The sanctions included limitations on the ability of Russian banks to access the SWIFT financial messaging service and restrictions on transactions with the Russian central bank. The Russian government has also imposed certain countermeasures, which include restrictions relating to foreign currency accounts and security transactions.

The Company is assessing the impact of the sanctions already imposed, and potential future escalations, on its business on an ongoing basis.

On March 19, 2023, Credit Suisse Group AG and UBS Group AG entered into an agreement and plan of merger ("the merger"), to be completed at a date yet to be determined. The Fund receives various services and has banking relationships with consolidated subsidiaries of Credit Suisse Group AG, and as such these relationships and service providers may change in the future.

Subsequent events

No significant event occurred after the period end.
