This Annual Report is authorized for use by existing shareholders. Prospective shareholders must receive a current Davis Funds (SICAV) prospectus, which contains more information about investment strategies, risks, charges, and expenses. Please read the prospectus carefully before investing or sending money.

Shares of Davis Funds (SICAV) are not deposits or obligations of any bank, are not guaranteed by any bank, are not insured by the FDIC or any other agency, and involve investment risks, including possible loss of the principal amount invested.

DAVIS FUNDS SICAV DAVIS VALUE FUND

Performance Overview

Davis Value Fund's Class A shares delivered a total return on net asset value of 0.54% for the year ended 31 July 2012. Over the same time period, the Standard & Poor's 500[®] Index ("Index") returned 9.13%. The sectors within the Index that turned in the strongest performance over the year were telecommunication services, consumer staples, and utilities. The sectors within the Index that turned in the weakest performance over the year were materials, energy, and financials with materials and energy turning in negative performance.

Factors Impacting the Fund's Performance

Energy companies were the most important detractor² from the Fund's performance. The Fund's energy companies underperformed the corresponding sector within the Index and had a slightly higher relative average weighting in this weaker performing sector. Canadian Natural Resources³, Devon Energy, OGX Petroleo e Gas Participacoes, Occidental Petroleum, and China Coal Energy were among the most important detractors from performance.

Material companies were another important detractor from the Fund's performance. The Fund's material companies underperformed the corresponding sector within the Index and had a higher relative average weighting in this weaker performing sector. Sino-Forest and Rio Tinto were among the most important detractors from performance. Monsanto was among the most important contributors to performance. The Fund no longer owns Sino-Forest.

Information technology companies contributed slightly to the Fund's absolute performance, but detracted from performance relative to the Index. The Fund's information technology companies under-performed the corresponding sector within the Index and had a lower relative average weighting. Hewlett-Packard was among the most important detractors from performance.

Consumer staple companies were the most important contributor to the Fund's performance. The Fund's consumer staple companies out-performed the corresponding sector within the Index and had a higher relative average weighting in this stronger performing sector. CVS Caremark, Costco Wholesale, Coca-Cola, and Diageo were among the most important contributors to performance.

The Fund had more invested in financial companies than any other sector over the year and they were the second most important contributor to the Fund's performance. The Fund's financial companies out-performed the corresponding sector within the Index, but had a higher relative average weighting in this weaker performing sector. Wells Fargo, American Express, and Berkshire Hathaway were among the most important contributors to performance while Bank of New York Mellon was among the most important detractors from performance.

The Fund had approximately 15% of its net assets in non-U.S. companies at 31 July 2012. As a whole, those companies under-performed the U.S. companies held by the Fund.

Davis Value Fund's investment objective is long-term growth of capital. There can be no assurance that the Fund will achieve its objective. Davis Value Fund's principal risks are: market risk, company risk, financial services risk, non-U.S. country risk, fees and expenses risk, headline risk, and selection risk. See the prospectus for a full description of each risk.

- The companies included in the Standard & Poor's 500[®] Index are divided into ten sectors. One or more industry groups make up a sector.
- A company's or sector's contribution to or detraction from the Fund's performance is a product both of its appreciation or depreciation and its weighting within the Fund. For example, a 5% holding that rises 20% has twice as much impact as a 1% holding that rises 50%.
- ³ This Management Discussion of Fund Performance discusses a number of individual companies. The information provided in this report does not provide information reasonably sufficient upon which to base an investment decision and should not be considered a recommendation to purchase or sell any particular security. The Schedule of Investments lists the Fund's holdings of each company discussed.

Management's Discussion of Fund Performance

DAVIS FUNDS SICAV DAVIS VALUE FUND - (CONTINUED)

AVERAGE ANNUAL TOTAL RETURN FOR PERIODS ENDED 31 JULY 2012 (Based on U.S. Dollars)

| | | | | SINCE FUND'S INCEPTION | EXPENSE |
|--|---------|---------|---------|---------------------------|---------|
| FUND & BENCHMARK INDEX | 1-YEAR | 5-YEAR | 10-YEAR | (10/04/95) | RATIO |
| Class A - without sales charge | 0.54% | (2.95)% | 4.28% | 6.45% | 1.80% |
| Class A - with 5.75% sales charge | (5.25)% | (4.09)% | 3.66% | 6.09% | 1.80% |
| Standard & Poor's 500 [®] Index | 9.13% | 1.13% | 6.34% | 7.92% | |

The Standard & Poor's 500[®] Index is an unmanaged index of 500 selected common stocks, most of which are listed on the New York Stock Exchange. The Index is adjusted for dividends, weighted towards stocks with large market capitalizations, and represents approximately two-thirds of the total market value of all U.S. common stocks. Investments cannot be made directly in the Index.

The performance data for Davis Value Fund contained in this report represents past performance, assumes that all dividend and capital gain distributions were reinvested, and should not be considered as an indication of future performance from an investment in the Fund today. The performance data does not take into account the commissions and costs incurred on the issue and redemption of units. The investment return and principal value will fluctuate so that shares may be worth more or less than their original cost when redeemed. Fund performance changes over time and current performance may be higher or lower than stated. Returns and expense ratios for other classes of shares will vary from the returns and expense ratio stated above. The operating expense ratio may vary in future years.

DAVIS FUNDS SICAV DAVIS GLOBAL FUND

Performance Overview

Davis Global Fund's Class A shares delivered a negative return on net asset value of 11.67% for the year ended 31 July 2012. Over the same time period, the Morgan Stanley Capital International All Country World Index ("Index") declined 3.64%. The sectors within the Index that turned in the strongest performance over the year were consumer staples, health care, and information technology. The sectors within the Index that turned in the weakest performance over the year were materials, energy, and financials. The Fund's holdings in U.S. companies made the largest contribution to the Fund's performance while the Fund's holdings in Chinese, Canadian, and Swiss companies were the largest detractors from the Fund's performance.

Factors Impacting the Fund's Performance

Material companies were an important detractor from the Fund's performance. The Fund's material companies underperformed the corresponding sector within the Index, but benefited from a lower relative average weighting in this weaker performing sector. Sino-Forest³ was among the most important detractors from performance. The Fund no longer owns Sino-Forest.

Industrial companies were another important detractor from the Fund's performance. The Fund's industrial companies underperformed the corresponding sector within the Index and had a higher relative average weighting. Kuehne & Nagel and Schneider Electric were among the most important detractors from performance.

Consumer discretionary companies also detracted from the Fund's performance. The Fund's consumer discretionary companies under-performed the corresponding sector within the Index and had a higher relative average weighting. Groupon, Compagnie Financiere Richemont, and Netflix were among the most important detractors from performance. Walt Disney was among the most important contributors to performance.

Consumer staple companies were the most important contributor to the Fund's performance. The Fund's consumer staple companies out-performed the corresponding sector within the Index and benefited from a higher relative average weighting in this stronger performing sector. Coca-Cola, CVS Caremark, and Brazil Pharma were among the most important contributors to performance. The Fund no longer owns CVS Caremark.

Other important detractors from the Fund's performance included OGX Petroleo e Gas Participacoes, Youku, and China Merchants Bank. Other important contributors to the Fund's performance included America Movil, Wells Fargo, and Hang Lung Group.

Davis Global Fund's investment objective is long-term growth of capital. There can be no assurance that the Fund will achieve its objective. Davis Global Fund's principal risks are: market risk, company risk, non-U.S. country risk, non-U.S. currency risk, emerging market risk, small- and medium-capitalization risk, over-the-counter risk, fees and expenses risk, and headline risk. See the prospectus for a full description of each risk.

- ¹ The companies included in the Morgan Stanley Capital International All Country World Index are divided into ten sectors. One or more industry groups make up a sector.
- A company's or sector's contribution to or detraction from the Fund's performance is a product both of its appreciation or depreciation and its weighting within the Fund. For example, a 5% holding that rises 20% has twice as much impact as a 1% holding that rises 50%.

DAVIS FUNDS SICAV DAVIS GLOBAL FUND - (CONTINUED)

AVERAGE ANNUAL TOTAL RETURN FOR PERIODS ENDED 31 JULY 2012 (Based on U.S. Dollars)

| | | | | SINCE FUND'S INCEPTION | EXPENSE |
|-----------------------------------|----------|---------|---------|---------------------------|---------|
| FUND & BENCHMARK INDEX | 1-YEAR | 5-YEAR | 10-YEAR | (10/04/95) | RATIO |
| Class A - without sales charge | (11.67)% | (5.17)% | 4.56% | 4.57% | 2.50% |
| Class A - with 5.75% sales charge | (16.74)% | (6.28)% | 3.94% | 4.22% | 2.50% |
| MSCI ACWI® | (3.64)% | (2.13)% | 6.81% | 5.70% | |

Davis Global Fund invests primarily in equity securities selected on a worldwide basis, including countries with developed or emerging markets. Prior to 2 May 2011, Davis Global Fund was named Davis Opportunities Fund and invested primarily in U.S. equity securities. The performance prior to that date is unlikely to be relevant to future performance.

The MSCI ACWI® is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets. The Index includes reinvestment of dividends, net of foreign withholding taxes. Investments cannot be made directly in the Index.

The performance data for Davis Global Fund contained in this report represents past performance, assumes that all dividend and capital gain distributions were reinvested, and should not be considered as an indication of future performance from an investment in the Fund today. The performance data does not take into account the commissions and costs incurred on the issue and redemption of units. The investment return and principal value will fluctuate so that shares may be worth more or less than their original cost when redeemed. Fund performance changes over time and current performance may be higher or lower than stated. Returns and expense ratios for other classes of shares will vary from the returns and expense ratio stated above. The operating expense ratio may vary in future years.

STATISTICAL INFORMATION

^{*}Class I commenced operations on 1 June 2012.

TOTAL EXPENSE RATIO

The following table shows the total expenses, excluding transaction fees, charged to each Class, calculated net of reimbursements, and expressed as a percentage of average daily net assets for the year ended 31 July 2012. The calculation of each Class's total expense ratio ("TER") complies with the guidelines of the Swiss Fund Association ("SFA").

| | Davis | Davis |
|----------|------------|-------------|
| | Value Fund | Global Fund |
| Class A | 1.80% | 2.50% |
| Class B | 2.88% | 3.50% |
| Class I* | 0.75%** | 1.10%** |

^{*}Class I commenced operations on 1 June 2012.

PORTFOLIO TURNOVER RATE

The portfolio turnover rate ("PTR") for each Fund, calculated by dividing the sum of security purchases and sales (excluding securities with a maturity or expiration date at the time of acquisition of one year or less), less the sum of investor subscriptions and redemptions, by the monthly average assets for the year ended 31 July 2012. The calculation of each Fund's PTR complies with the guidelines of the SFA.

| Davis Value Fund | 19.86% |
|-------------------|--------|
| Davis Global Fund | 57.37% |

RISK MANAGEMENT

The Funds and Davis Advisors, the Funds' investment adviser, will use a risk-management process that enables them to monitor and measure at any time the risk of the Funds' portfolio positions and their contribution to the overall risk profile of each Fund. The commitment approach is used for the risk measurement and the calculation of global exposure of the Funds. The Funds do not invest in derivative instruments.

NOTE 1 – GENERAL

Davis Funds SICAV ("SICAV") is an investment company organized under the laws of the Grand-Duchy of Luxembourg, qualifying as a Société d'Investissement à Capital Variable ("SICAV"). The SICAV is governed by Part I of the Luxembourg law of 17 December 2010. The SICAV is registered under number B 49.537 at the Register of Commerce at the District Court of Luxembourg, where its Articles of Incorporation are available for inspection (as well as at the SICAV's registered office at 49, Avenue J.F. Kennedy, 1855 Kirchberg, Luxembourg).

The SICAV was incorporated in Luxembourg on 19 December 1994 for an unlimited period. The initial capital was 45,000 USD, represented by 4,500 shares. At the time of incorporation, Davis Selected Advisers, L.P. ("Davis Advisors") purchased 4,499 shares. The SICAV issues different classes of shares. The subscription proceeds of each class are invested in a specific pool of assets ("Fund"), which is invested in accordance with the specific investment policy applicable to such Fund. Prior to 2 May 2011, the SICAV had four such Funds, Davis Value Fund and Davis Opportunities Fund, which commenced operations on 10 April 1995, and Davis Financial Fund and Davis Real Estate Fund, which commenced operations on 15 September 1997. On 2 May 2011 Davis Financial Fund and Davis Real Estate Fund merged into Davis Value Fund. On 2 May 2011 Davis Opportunities Fund changed its name to Davis Global Fund and its new investment strategy is to invest, without limit, in equity securities selected on a worldwide basis (including countries with developed or emerging markets) and without reference to any particular market capitalization range. On 5 September 2000 each Fund commenced the offering of shares in two classes, Class A and Class B. Class A shares are sold with a front-end sales charge and Class B shares are sold at net asset value and may be subject to a contingent deferred sales charge upon redemption. On 1 June 2012 each Fund commenced the offering of Class I shares, which are sold at net asset value and are not subject to a contingent deferred sales charge. Class I shares are only available to certain qualified investors. Income, expenses (other than those attributable to a specific class), and gains and losses are allocated daily to each class of shares based upon the relative proportion of net assets represented by each class. Operating expenses directly attributable to a specific class are charged against the operations of that class.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements are prepared in accordance with generally accepted accounting principles in the Grand-Duchy of Luxembourg. The following is a summary of significant accounting policies followed by the SICAV in the preparation of its financial statements.

Security Valuation – The value of securities, which are quoted or dealt in on any stock exchange, is based on the last closing price known/last available price. Securities traded in the over-the-counter market (e.g. NASDAQ) are stated at the average of closing bid and ask prices. Securities which are not quoted and do not trade on any stock exchange, but for which an active trading market exists, are valued in a similar manner to that provided for securities which are quoted or dealt in on any stock exchange. Securities, which are not quoted or dealt in on a regulated market, as well as quoted and non-quoted securities on such other markets, for which no current market prices are available, or for which current market prices are not representative of the fair market value, are valued at fair value as determined prudently and in good faith by, or at the direction of, the Board of Directors of the Fund. Investments in short-term securities (maturing in sixty days or less) are valued at amortized cost, which approximates market value.

Securities Transactions and Related Investment Income – Security transactions are accounted for on the trade date (date the order to buy or sell is executed) with gain or loss on the sale of securities being determined based upon average cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Dividend income may be subject to withholding taxes in the distributing country. These taxes may not be recoverable. The amount of taxes withheld during the year ended 31 July 2012 amounted to \$1,633,047 and \$44,762 for Davis Value Fund and Davis Global Fund, respectively.

Dividends and Distributions to Shareholders – Dividends and distributions to shareholders are recorded on the ex-dividend date. Dividends are declared by the Funds on its outstanding Class A, Class B, and Class I shares at the annual meeting of shareholders. Dividends so declared are automatically reinvested in additional shares at net asset value unless a shareholder specifically requests for the dividends to be paid out in cash.

Repurchase Agreements – The Funds may transfer uninvested cash balances into repurchase agreement accounts secured by U.S. Government securities. A custodian bank holds securities pledged as collateral for repurchase agreements until the agreements mature. Each agreement requires that the market value of the collateral be sufficient to cover payments of interest and principal; however, in the event of default by the other party to the agreement, retention of the collateral may be subject to legal proceedings.

Transaction Fees – Transaction fees associated with the acquisition and/or disposal of investments are expensed to the Statements of Operations.

Period from 1 August 2010 through

NOTE 3 – PURCHASES AND SALES OF SECURITIES

The cost of purchases and proceeds from sales of investment securities (including transaction fees and excluding short-term securities) during the year ended 31 July 2012 were as follows:

| | Purchases | | | Sales | | |
|-------------------|-----------|------------|----|-------------|--|--|
| Davis Value Fund | \$ | 40,618,221 | \$ | 155,890,181 | | |
| Davis Global Fund | | 4,899,891 | | 5,561,436 | | |

NOTE 4 – INVESTMENT ADVISORY FEES AND OTHER TRANSACTIONS WITH AFFILIATES

Advisory fees are paid monthly to Davis Advisors, the Funds' investment adviser ("Investment Adviser"), at the annual rate of 1.50% of the average daily net assets of Class A and Class B shares and 0.55% of the average daily net assets of Class I shares of Davis Value Fund and Davis Global Fund. The Investment Adviser also charges a trail commission, payable monthly, of 1.00% per annum on the average daily net assets of Class B shares of each Fund. Out of such commission, the Investment Adviser may make payments to dealers who act in the distribution of shares on the basis of the value of the shares owned by such dealers' clients during any given period. The Investment Adviser has agreed to reimburse each Fund's expenses to the extent necessary to cap the total annual operating expenses (Class A shares, 2.50%; Class B shares, 3.50%; Class I shares, 1.10% for each Fund). During the year ended 31 July 2012, such reimbursements amounted to \$10,756 for Davis Global Fund.

Certain directors of the SICAV are also officers of the Investment Adviser.

NOTE 6 – TAXATION

It is the SICAV's policy to comply with the requirements of Luxembourg's current taxation laws and practices. The only tax for which the SICAV is liable is a tax calculated based on the net asset value at the end of each calendar quarter of 0.05% per annum for Class A and Class B shares and 0.01% per annum for Class I shares, which is payable quarterly at the end of the relevant quarter.

NOTE 7 - CHANGES IN THE INVESTMENT PORTFOLIO

A schedule of changes in the investment portfolio for the year may be requested from the registered office of the Funds.

NOTE 8 – RESTRICTED SECURITIES

Restricted securities may have contractual restrictions on resale. They are valued under methods approved by the Board of Directors of the Fund as reflecting fair value. The aggregate value of restricted securities in Davis Value Fund amounted to \$1,239,743 or 0.39% of the Fund's net assets as of 31 July 2012.

Information regarding restricted securities is as follows:

| Fund | Security | Acquisition Date | Shares | Cost per Share | Valuation per Share as of 31 July 2012 |
|---------------------|--|---------------------|--------|-------------------|--|
| Davis Value Fund | Fairfax Financial Holdings Ltd., 144A | 23/02/10 | 3,290 | \$ 355.00 | \$ 376.82 |

To the Shareholders of DAVIS FUNDS SICAV

Following our appointment by the annual general meeting of the Shareholders of the SICAV dated 24 November 2011, we have audited the accompanying financial statements of Davis Funds SICAV and of each of its sub-funds, which comprise the statement of net assets and the schedule of investments and other net assets as at 31 July 2012, and the statement of operations and the statement of changes in net assets for the year then ended, and a summary of significant accounting policies and other explanatory notes to the financial statements.

Responsibility of the Board of Directors of the SICAV for the financial statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the réviseur d'entreprises agréé

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the *Commission de Surveillance du Secteur Financier*. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the *réviseur d'entreprises agréé*'s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the *réviseur d'entreprises agréé* considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the SICAV, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of Davis Funds SICAV as of 31 July 2012, and of the results of its operations and changes in its net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements.

Other matter

Supplementary information included in the annual report has been reviewed in the context of our mandate but has not been subject to specific audit procedures carried out in accordance with the standards described above. Consequently, we express no opinion on such information. However, we have no observation to make concerning such information in the context of the financial statements taken as a whole.

Notes with respect to the income tax treatment of earnings from shares in Davis Funds SICAV for investors resident in Germany with shares as private holdings:

For investors with unlimited tax liabilities in Germany who own shares as part of their private holdings, ordinary income generated by Davis Funds SICAV is subject to income tax. The tax is payable in the year of distribution. If earnings are not distributed but retained, they must be recorded for tax purposes in the year in which the fiscal year of the Fund ends (amounts equal to earnings that would be distributed). Even after the implementation of the German flat tax (as from January 1, 2009) investors are obliged to file tax returns, if no flat tax has been deducted (e.g. retaining funds). The individual income subject to taxation is calculated by multiplying the taxable income per share as stated for the respective fund by the number of shares held on the day of distribution or retention (accrual day). For investors with unlimited tax liabilities, the interim profits realized in the calendar year 2011/12 through the sale or return of fund shares are subject to income tax. Taxable income from distributions as well as earnings equal to amounts that would be distributed must be entered in attachment KAP and in attachment AUS.

Notes with respect to the income tax treatment of earnings from shares in Davis Funds SICAV for investors resident in Germany with shares as private holdings:

For investors with unlimited tax liabilities in Germany who own shares as part of their private holdings, ordinary income generated by Davis Funds SICAV is subject to income tax. The tax is payable in the year of distribution. If earnings are not distributed but retained, they must be recorded for tax purposes in the year in which the fiscal year of the Fund ends (amounts equal to earnings that would be distributed). Even after the implementation of the German flat tax (as from January 1, 2009) investors are obliged to file tax returns, if no flat tax has been deducted (e.g. retaining funds). The individual income subject to taxation is calculated by multiplying the taxable income per share as stated for the respective fund by the number of shares held on the day of distribution or retention (accrual day). For investors with unlimited tax liabilities, the interim profits realized in the calendar year 2011/12 through the sale or return of fund shares are subject to income tax. Taxable income from distributions as well as earnings equal to amounts that would be distributed must be entered in attachment KAP and in attachment AUS.
