Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

DWS Invest Chinese Equities, a sub-fund of the SICAV DWS Invest

Share class LC Security code: DWS0BJ ISIN: LU0273157635

Management Company: DWS Investment S.A., a member of the Deutsche Bank Group.

Objectives and investment policy

The objective of the investment policy is to achieve sustained capital appreciation that exceeds the benchmark (MSCI China 10/40 (EUR)). In order to achieve this, the fund invests primarily in equities issued by issuers having their registered office outside China but their principal business activity in China. The securities issued by these companies may be listed on Chinese or other foreign securities exchanges or traded on other regulated markets in a member country of the Organisation for Economic Co-operation and Development (OECD) that operate regularly and are recognized and open to the public. In this context, the selection of individual investments is the responsibility of the fund management. The fund is oriented to the benchmark. It does not track it exactly but attempts to exceed its performance and can therefore deviate substantially - both positively and negatively - from the benchmark. The fund is subject to various risks. A more detailed description of risks can be found under 'Risks' in the sales prospectus. The currency of DWS Invest Chinese Equities is EUR, the currency of the LC share class is EUR. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares on each valuation day. The redemption may only be suspended in exceptional cases taking into account your interests as an investor.

Risk and reward profile

<	Typically lower return				Typically higher return			
<	– Lower risk				Higher risk –			
	1	2	3	4	5	6	7	

The calculation of the risk and reward profile is based on historical data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 7 because its share price may fluctuate very strongly and the likelihood of both losses and gains may therefore be very high. The following are key risks for the fund and are not covered adequately by the risk and reward profile:

The fund invests a substantial portion of its assets in one region.Concentrating on one region poses the risk that the fund may be very strongly influenced by the economic and political conditions in the respective region.The fund is impacted to a greater extent by developments than a broadly diversified fund.

Charges

The costs and fees borne by you are used for the management, administration and custody of the fund, as well as for its distribution and marketing. These costs restrict the potential growth of your investment.

One-off charges taken before or after you invest					
Entry charge	5,00 %. This is the maximum amount that will be deducted from your investment prior to investment. This initial sales charge applies for the calculation according to the gross method; further information on the initial sales charge calculated according to the net method can be found in the "Special section" of the sales prospectus.
