

## Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## DWS Covered Bond Fund

Share class IC Security code: DWS1UP ISIN: DE000DWS1UP1

Management Company: Deutsche Asset & Wealth Management Investment GmbH, a member of the Deutsche Bank Group.

## Objectives and investment policy

The objective of the investment policy is to achieve sustained capital appreciation that exceeds the benchmark (iBoxx Euro Covered (RI)). In order to achieve this, the fund invests in covered bonds denominated in euro, such as German mortgage bonds and Spanish cedulas. The selection of the individual investments is at the discretion of the fund management. The fund is oriented to the benchmark. It does not track it exactly but attempts to exceed its performance and can therefore deviate substantially - both positively and negatively - from the benchmark. The currency of the sub-fund is EUR, the currency of the share class is EUR. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares on each valuation day. The redemption may only be suspended in exceptional cases taking into account your interests as an investor.

## Risk and reward profile

The calculation of the risk and reward profile is based on simulated data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 3 because its share price fluctuates comparatively little and the likelihood of both losses and gains is therefore relatively low. The following risks could be of particular significance for the fund. These risks can impair the performance of the fund and thus impact negatively on the net asset value per unit and on the capital invested by the investor. The unit value may at any time fall below the purchase price paid by the client.

The fund invests in equities. Equities are subject to strong price fluctuations and thus also to the risk of price decreases. The fund invests in bonds, the value of which depends on whether the issuer is able to afford its payments. The deterioration of credit quality (ability and willingness to repay) may have an adverse affect on the value of the bond. A more detailed description of risks and other general information can be found under "Risks" in the sales prospectus.

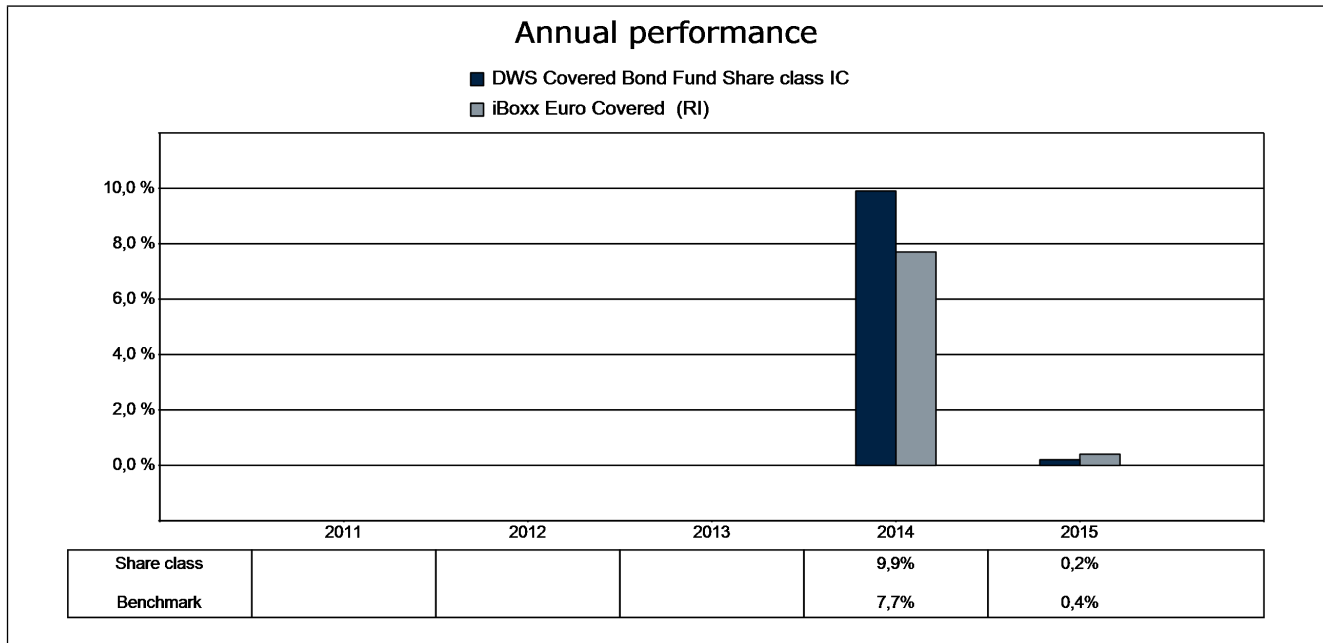

## Charges

The costs and fees borne by you are used for the management, administration and custody of the fund, as well as for its distribution and marketing. These costs restrict the potential growth of your investment.

One-off charges taken before or after you invest	
<b>Entry charge</b>	No initial sales charge
<b>Exit charge</b>	No redemption fee
Charges taken from the fund over a year	
<b>Ongoing charge</b>	0,35 %
Charges taken from the fund under certain specific conditions	
<b>Performance fee</b>	None
<b>Fees from securities lending</b>	0,01 %

The current costs specified here were incurred in the fiscal year of the fund, which ended on 30.09.2015. They may change from year to year. The current costs do not include the performance-based fee and the transaction costs. Additional information on costs can be found under "Costs" in the sales prospectus.

## Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from the IC share class of DWS Covered Bond Fund were deducted during the calculation. The IC share class of DWS Covered Bond Fund was launched in 2013. The performance was calculated in EUR.
