## What is this product?

#### Type

This product is a share of an investment company qualifying as an undertaking for collective investment in transferable securities (UCITS).

#### Term

This sub-fund has no maturity date. However, the board of directors may decide to close the sub-fund under certain circumstances.

#### Objectives

The investment objective of the East Capital Global Emerging Markets Sustainable is to provide long-term capital growth through exposure to companies in Emerging Markets.

Sustainable investing means recognising that, environmental, social and governance factors may directly influence the long-term business profitability of companies. The sub-fund intends to gain exposure to companies that manage sustainability risks and/or contribute to sustainable development in Emerging Markets. Environmental, social and governance factors are fully integrated into the investment process.

The sub-fund will invest at least 75% of its assets directly or indirectly in equity or equity-related securities (such as, but not limited to, ADRs and GDRs) of companies domiciled in Emerging Markets or that exercise a significant part of their economic activity there.

Indirect exposure to companies located in Emerging Markets will be achieved, inter alia, by investing in UCITS, other UCIs, as well as through UCITS eligible structured products such as participatory notes and/or equity-linked notes.

The sub-fund may invest directly up to 30% of its net assets in China A-Shares through the Shanghai-Hong Kong Stock Connect and/or through the Shenzhen-Hong Kong Stock Connect, or through any other eligible means providing PRC stock market access.

**Benchmark:** The portfolio is actively managed on a discretionary basis with

reference to a benchmark. While the product compares its performance against the MSCI Emerging Markets Index (Total Return Net), it does not try to replicate this benchmark and freely selects the securities that it invests in. The deviation with this benchmark can be significant.

#### Intended retail investor

This fund may not be appropriate for investors who plan to withdraw their money within 5-10 years.

#### Other information

**Depositary:** Skandinaviska Enskilda Banken. AB (publ) – Luxembourg Branch

**Dividend income:** This class is a capitalisation class meaning that income is reinvested.

**Conversion right:** The investor has the right to convert his investment in shares in one sub-fund for shares in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

**Segregation:** The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

**Additional information:** Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of shares may be obtained free of charge from the management company or on [www.eastcapital.com](http://www.eastcapital.com). The prospectus and the periodic reports are prepared for the entire fund and are available in English. The management company may inform you about other languages in which these documents are available.

This sub-fund was launched in 2005 and this share class in 2008.

The currency of the share class is expressed in EUR.

# What are the risks and what could I get in return?

## Risk indicator

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

**Be aware of currency risk.** You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: Currency risk, emerging market risk, Risks associated with the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

## Performance scenarios

	Average return each year	79.7 %	16.0 %	11.5 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 15 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment between February 2021 and December 2023.

Moderate scenario: This type of scenario occurred for an investment between July 2009 and July 2019.

Favourable scenario: This type of scenario occurred for an investment between February 2009 and February 2019.

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if East Capital is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary Skandinaviska Enskilda Banken. AB (publ) – Luxembourg Branch. Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 year	If you exit after 5 years	If you exit after 10 years
<b>Total costs</b>	204 EUR	1,415 EUR	4,089 EUR
Annual cost impact (*)	2.0 %	2.0 % each year	2.0 % each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.1% before costs and 7.0% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

### Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	We do not charge an entry fee for this product.	0 EUR
<b>Exit costs</b>	We do not charge an exit fee for this product.	0 EUR
<b>Ongoing costs taken each year</b>		
<b>Management fees and other administrative or operating costs</b>	1.2% of the value of your investment per year. This is an estimate based on actual costs over the last year.	121 EUR
<b>Transaction costs</b>	0.3% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	26 EUR
<b>Incidental costs taken under specific conditions</b>		
<b>Performance fees</b>	15% a year of any returns the fund achieves above the benchmark for these fees, the MSCI Emerging Markets Index (Total Return Net). The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years. *	57 EUR

\* This methodology implies that a Daily Performance Fee accrual may apply on a day of negative absolute performance as long as the Daily Share Class Return exceeds the Daily Benchmark Return and any under-performance versus the Performance Fee Benchmark has been clawed back.

The conversion of part or all of the shares is free of charge.

## How long should I hold it and can I take money out early?

**Recommended holding period: 10 years**

You should be prepared to stay invested for 10 years. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. Redemptions are possible on each full bank business day in Luxembourg. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.

## How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person that advised on or sold this product, you can use different communication channels: by e-mail to [luxembourg@eastcapital.com](mailto:luxembourg@eastcapital.com), by letter to East Capital Asset Management S.A. 11, rue Sainte-Zithe L-2763 Luxembourg, by phone calling the number +352 20 882 191.

In all cases, the complainant must clearly indicate his/her contact details (name, address, phone number or email address) and provide a brief explanation of the claim. More information is available on our website [www.eastcapital.com](http://www.eastcapital.com).
