Website: www.gam.com

Call +352 26 48 44 01 for further information.

The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising GAM (Luxembourg) S.A. in relation to this Key Information Document.

This PRIIP and the Management Company are authorised in Luxembourg.

Date of Production of the KID: 01/02/2024

What is this product?

Type

The product is a unit of the sub-fund Emerging Bond (the sub-fund) of GAM Multibond (the "Umbrella Fund"), a "société d'investissement à capital variable" (SICAV) and is authorised as an undertaking for collective investment in transferable securities (UCITS) in accordance with Part I of the Law of 17 December 2010 on undertakings for collective investment (the "Law of 2010").

Term

The Fund has no maturity date. The Fund could be closed under the conditions set down in the current prospectus of the Fund.

Objectives

Investment Objective

The aim of the sub-fund ("Fund") is to achieve an above-average return over the long term. For this purpose, the Fund invests in debt securities which are issued by borrowers from emerging economies. Emerging economies are those which are in the process of developing into modern industrialised economies and therefore offer a high level of potential but also harbour an increased level of risk.

Investment Policy

The Fund invests at least 2/3 of its assets in fixed-rate or floating-rate debt securities which are issued or guaranteed by governments from emerging economies. The Fund may also invest in debt securities from borrowers in industrialised countries. The debt securities are denominated in US dollars (USD). The Fund may also invest in debt securities in other currencies. If it does so, the Fund may hedge against currency fluctuations vis-à-vis the US dollar (USD).

The Fund may use complex financial instruments to hedge the Fund assets and to profit from promising investments.

The Fund is actively managed with reference to the JP Morgan Emerging Market Bond Index Global Diversified (the "benchmark") by virtue of the fact

that it uses the latter in the appropriate currency for performance comparison purposes. However, the benchmark is not used to determine the Fund's portfolio composition or as a performance target, and the Fund can only be invested in securities that are not represented in the benchmark.

Share Class Policy:

The Fund has several share classes. These may differ with regard to fees, minimum investment, use of revenues and investor qualification.

Income in the share class is distributed annually to investors.

The share class is denominated in CHF. This is hedged against the Fund's base currency.

Processing of subscription and redemption orders

Investors may buy or sell the Fund on any bank working day in Luxembourg.

Intended retail Investor

This Fund is aimed at retail and professional clients and eligible counterparties, who are seeking capital accumulation across categories and have a medium-term investment horizon. This Fund is aimed at investors with basic knowledge or experience of financial products. The investor is prepared to bear financial losses and does not require any capital guarantees.

Depository

The custodian is State Street Bank International GmbH, Luxembourg Branch, 49, Avenue J.F. Kennedy, L-1855 Luxembourg.

Further Information

Please refer to the "Other relevant information" section below.

Unless otherwise defined in this document, all words and expressions defined in the Fund's current prospectus shall have the same meaning herein.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 4 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Be aware of currency risk. If you choose a foreign currency share class you will be exposed to currency risk and your final return will depend on the exchange rate between the foreign currency and your local currency. The risk is not considered in the indicator shown above.

You can find more information about the other risks in the prospectus at www.gam.com.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		4 years	
Example Investment:		10,000 CHF	
		If you exit after 1 year	If you exit after 4 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	4,390 CHF	5,020 CHF
	Average return each year	-56.10%	-15.83%
Unfavourable	What you might get back after costs	6,660 CHF	7,110 CHF
	Average return each year	-33.40%	-8.17%
Moderate	What you might get back after costs	9,590 CHF	9,620 CHF
	Average return each year	-4.10%	-0.96%
Favourable	What you might get back after costs	11,090 CHF	11,410 CHF
	Average return each year	10.90%	3.35%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between September 2018 and September 2022.

Moderate scenario: This type of scenario occurred for an investment between February 2017 and February 2021.

Favourable scenario: This type of scenario occurred for an investment between August 2013 and August 2017.

What happens if GAM (Luxembourg) S.A. is unable to pay out?

For your protection the company's assets are held separately with the custodian, so the Fund's ability to pay out would not be affected by the insolvency of the Fund Management Company. If the Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment. The assets and liabilities of the Fund are segregated from other sub-funds in the GAM Multibond, subject to the provisions of Luxembourg law. This document describes a share class of a sub-fund of the GAM Multibond. Subject to the conditions set down in the prospectus of the GAM Multibond, you are entitled to switch from one share class to another, either in the Fund or in another sub-fund of the GAM Multibond. Please refer to the "How to Switch Shares" section of the prospectus for further information on how to switch.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- CHF 10,000 is invested

	If you exit after 1 year	If you exit after 4 years
Total costs	708 CHF	1,349 CHF
Annual cost impact (*)	7.1%	3.3% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.3 % before costs and -1.0 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3.00% of the amount you pay in when entering this investment. This is the maximum and in some cases you might pay less.	Up to 300 CHF
Exit costs	2.00% of your investment before it is paid out to you. This is the maximum and in some cases you might pay less.	Up to 204 CHF
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.46% of the value of your investment per year. This is an estimate based on actual costs over the last year.	146 CHF
Transaction costs	0.58% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	58 CHF
Incidental costs taken under specific conditions		
Performance fees (*)	There is no performance fee for this product.	0 CHF

(*) For products with performance fees, the actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.

How long should I hold it and can I take money out early?

Recommended holding period: 4 years

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 4 years. You may buy or sell shares in the product, without penalty, on any normal business day as further documented in the fund's documents. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares. If you cash in at an early stage this might increase the risk of lower investment returns or a loss.

How can I complain?

Should you wish to complain about the Fund or any aspect of the service provided to you by GAM, you may contact GAM (Luxembourg) S.A., 25, Grand-Rue, L-1661 Luxembourg or submit your complaint via the contact form on our website, www.gam.com or via email to info@GAM.com.
