

Key Information Document

Purpose

This information sheet provides you with key information about this investment product. It is not marketing material. This information is required by law to help you understand the type of product, the risks and costs involved as well as the potential profits and losses, and to help you compare it with other products.

Product

Product name	Global Opportunities Access - High Yield and EM Bonds, a sub-fund of Global Opportunities Access, JPY-hedged F-acc
Manufacturer	UBS Fund Management (Luxembourg) S.A.
ISIN	LU1490152995
Telephone number	Call +352 27 1511 for more information.
Website	www.ubs.com/funds

The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising UBS Fund Management (Luxembourg) S.A in relation to this Key Information Document.

This PRIIP is authorized in Luxembourg.

The Management Company is authorised in Luxembourg and supervised by the Commission de Surveillance du Secteur Financier (CSSF).

Date of production of the KID: 27 March 2024.

What is this product?

Type

Global Opportunities Access is an undertaking for collective investment in transferable securities (UCITS) incorporated in the legal form of an investment company with variable capital (SICAV) under Part I of the Luxembourg 2010 Law on undertakings for collective investment.

Term

The Product does not have a maturity date (the Product has been established for an indefinite period of time). The Manufacturer may terminate the Product early. The amount you will receive upon early termination may be less than the amount you invested.

Objectives

The investment objective of the actively managed sub-fund is the appreciation of assets in the long term by seeking indirect exposure to primarily high yield and emerging market bonds. The reference currency of the sub-fund is USD.

In order to implement the investment strategy, the Portfolio Manager may invest in different types of investment instruments such as deposits, shares or units of UCITS or other UCI funds, UCITS eligible certificates, and derivative instruments. The Portfolio Manager will not invest in single bonds.

The assets of the sub-fund are invested following the principle of risk diversification. The sub-fund is actively managed and is not constrained by a benchmark index. A benchmark index is not used for performance comparison purposes.

Sustainability risks are not systematically integrated on the basis of the investment strategy and the type of underlying investments.

The return of the fund depends primarily on the development of interest rates and creditworthiness of the issuers and the interest income. The return may also be affected by currency fluctuations, where active or unhedged positions exist.

The income in respect of an accumulation share class is not distributed but is retained in the sub-fund. The exchange rate risk of the share class currency is to a large extent hedged against the currency of the fund.

Intended retail investor

This fund applies to retail investors with a basic financial understanding, who can accept a possible loss on the investment amount. The fund is aimed at generating a substantial part of its yield through recurring income, while granting daily access to the capital under normal market conditions. With their investment in this fund, investors can satisfy medium term investment needs. The fund is only suited to be acquired within a discretionary mandate.

Depositary

UBS Europe SE, Luxembourg Branch

Latest price can be found at www.ubs.com/funds

What are the risks and what could I get in return?

Indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level. The past may be a poor predictor of the future and, hence, the actual risk of losing money may vary significantly.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The product may be exposed to further risk factors such as operational, political and legal risks which are not included in the summary indicator. Please refer to the prospectus for more detail.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performances of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		JPY 1 000 000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	JPY 538 970	JPY 566 130
	Average return each year	-46.1%	-10.8%
Unfavourable	What you might get back after costs	JPY 765 700	JPY 809 010
	Average return each year	-23.4%	-4.2%
Moderate	What you might get back after costs	JPY 977 470	JPY 1 043 330
	Average return each year	-2.3%	0.9%
Favourable	What you might get back after costs	JPY 1 163 940	JPY 1 191 100
	Average return each year	16.4%	3.6%

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all costs of the product itself. The figures do not take account of your personal tax situation, which can also have an impact on how much you receive back.

Unfavourable scenario: This type of scenario occurred for an investment between 2024 and 2022.

Moderate scenario: This type of scenario occurred for an investment between 2014 and 2019.

Favourable scenario: This type of scenario occurred for an investment between 2016 and 2021.

What happens if UBS Fund Management (Luxembourg) S.A. is unable to pay out?

Losses are not covered by an investor compensation or guarantee scheme. Furthermore, with respect to UBS Europe SE, Luxembourg Branch as depositary of the Fund, which is responsible for the safekeeping of the assets of the Fund (the "Depositary"), there is a potential default risk if the assets of the Fund held with the Depositary are lost. However, such default risk is limited as the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary is liable to the Fund or to the investors of the Fund for the loss by the Depositary or one of its delegates of a financial instrument held in custody unless the Depositary is able to prove that the loss has arisen as a result of an external event beyond its reasonable control.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The table shows the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed that the product performs as shown in the moderate scenario.
- 1 000 000 JPY is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	JPY 42 640	JPY 93 497
Annual cost impact (*)	4.3%	1.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 2.8% before costs and 0.9% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3.0% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to JPY 30 000
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	JPY 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.2% of the value of your investment per year. This is an estimate based on actual costs over the last year.	JPY 11 698
Transaction costs	0.2% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	JPY 1 557
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	JPY 0

The figures shown here do not include any additional fees that may be charged by your distributor, advisor or any insurance wrapper in which the fund may be placed. For additional information about costs, refer to the prospectus, which is available at www.ubs.com/funds

How long should I hold it and can I take money out early?

Recommended holding period: 5 Year(s)

The recommended holding period for this product is 5 year(s). This is our recommended holding period based on the risk and expected return with the product. Please note that the expected return is not guaranteed. The more the actual holding period deviates from the recommended holding period for the product, the more your actual return will also deviate from the product assumptions. Depending on your needs and limitations, a different holding period may be suitable for you. Consequently, we recommend that you discuss this issue with your customer service representative.

Investors may demand to redeem their units every normal bank business day in Luxembourg.

How can I complain?

If you have a complaint about the product, the manufacturer of the product or the person who recommended or sold the product to you, please speak to your client advisor or contact us at www.ubs.com/fml-policies
