## Note

---

The investment funds named in this report are governed by German law. Fund units are bought on the basis of the currently valid prospectus and investment conditions, supplemented by the most recent annual report concerned and also by the semi-annual report if such a report exists that is more recent than the last annual report.

The annual and semi-annual reports were drawn up in German and translated into English.

Only the German version is legally binding.

## Note on Licenses

---

### Legal Information

The German iShares funds mentioned in this document are investment funds subject to the German Investment Code. These funds are managed by BlackRock Asset Management Deutschland AG and are regulated by the Federal Financial Supervisory Authority (BaFin).

### For Investors in Germany

The sales prospectuses of the funds issued in Germany are available free of charge electronically and in hard copy from BlackRock Asset Management Deutschland AG, Max-Joseph-Str. 6, D-80333 Munich, Tel: +49 (0) 89 42729 – 5858, Fax: +49 (0) 89 42729 – 5958, info@iShares.de.

### Risk Warnings

The value of investments in all the iShares funds may fluctuate, and investors may not get back the amount invested. Past performance may not be repeated and is no guarantee of future returns. Investment risks from market and currency losses as well as high volatility and concentration risk cannot be excluded.

31/12/2013 – 31/12/2014: +4.31%  
31/12/2014 – 31/12/2015: +2.73%

## Report of the Management Board

---

Dear Investors,

BlackRock Asset Management Deutschland AG is able to look back on a successful year in 2015. In the past year, the number of private and institutional investors investing in exchange-traded index funds (ETFs) has increased. In 2015, new funds amounting to USD 350.9 billion flowed into ETFs worldwide, which was a new record. BlackRock is the global market leader for ETFs under the iShares brand.

As at 31 May 2016, the volume of assets under management for the 58 iShares funds currently issued in Germany was around EUR 36.370 billion. Making BlackRock Asset Management Deutschland AG the fifth-largest retail fund company in Germany (source: BVI – Bundesverband Investment und Asset Management e.V.). This annual report provides detailed information about the performance of our index funds.

Our ETF product range includes 241 iShares funds currently approved in Germany, providing investors with easy and diversified access to a large number of worldwide markets and asset classes. Around a quarter of these exchange-traded index funds are issued in Germany. The code (DE) in the fund name identifies them as such.

Institutional and private investors alike value iShares ETFs not only as building blocks that enable them to put their own investment ideas into practice in their portfolios, but as the funds become more widespread, demand also rises for ETF-based asset management products. In light of this, together with respected partners we have developed models that enable different types of investor with differing risk/return profiles to create suitable asset inventories. Over the course of 2015, this included developing sample portfolios for a major retail bank, various online brokers and digital asset management product providers, a.k.a "Robo Advisors".

2015 marks an anniversary of the success story of ETFs in Germany and Europe. On 11 April 2000, iShares DJ Euro STOXX 50 (now iShares EURO STOXX 50 UCITS ETF (Dist) and iShares DJ STOXX 50 (now iShares STOXX Europe 50 UCITS ETF) were the first exchange-traded index funds to be listed on Deutsche Börse. This listing has been instrumental in making a lasting change to the European investment landscape. ETFs have provided investors with new avenues in portfolio management, particularly through their high level of liquidity, efficiency and transparency. Today in Europe there are more than 2,200 ETFs, which are available in 22 countries from 45 providers.

As a provider from the outset, iShares retains its outstanding positioning on the European ETF market. We continue to invest in excellent service and products that meet the needs of our clients.

We intend to develop our market leadership further through the continuous and innovative extension of our product range. Among the strategic competitive advantages of iShares ETFs are high market liquidity, narrow bid/ask spreads and a high level of precision in index replication.

Please visit our website at [www.iShares.de](http://www.iShares.de) or call us on +49 (0) 89 42729 - 5858 for further information.

We would like to thank you for your trust and we are looking forward to continuing to work together in partnership.

Your BlackRock Asset Management Deutschland AG Directors

Christian Staub

## Annual report for iShares DivDAX® UCITS ETF (DE) for the period from 1/06/2015 to 31/05/2016

### Fund Management Activity Report

#### Investment objectives and policies

The investment fund iShares DivDAX® UCITS ETF (DE) is an exchange-traded index fund (ETF) that tracks the performance of the DivDAX® index as closely as possible. The index replicates the 15 equities with the highest dividend yields in the DAX® index. This index, in turn, comprises the 30 largest and most-traded German equities traded in the Prime Standard Segment on the Frankfurt Stock Exchange. The Index selects companies that are domiciled either in Germany or in the EU or in an EFTA state. Companies domiciled in an EFTA state must have at least 33% of their trading volume on the Frankfurt Stock Exchange. The index is weighted by free float market capitalisation. In order to replicate the index, the investment fund uses a passive investment approach to invest directly in the securities included in the index in accordance with their weighting in the index.

#### Structure of the investment fund with regard to investment objectives and significant changes during the reporting period

The duplication percentage of the fund in comparison with the benchmark index was 100.000% at the end of the reporting period. Inflows during the reporting period were also invested in line with the weighting of the shares in the index. Dividends are accumulated in the fund. The fund may enter into securities lending transactions. iShares DivDAX® UCITS ETF (DE) is a distributing fund. Income is distributed after expenses have been offset in the course of interim distributions or, as the case may be, six weeks after the end of the financial year. The realised profits and losses are primarily the result of transactions involving bonds that were carried out as a consequence of changes in indices, corporate actions and the redemption of shares. Changes to the index published by the index provider were directly taken into account in the fund.

#### Material risks and events in the reporting period

##### Market price risk

In order to achieve the investment objective of tracking as closely as possible the performance of the DivDAX® index in the reporting period, fund management pursued an exclusively passive investment approach. Accordingly, as part of the fund management activities affecting this investment fund, no risks were actively managed or entered into. The investment fund was subject in the reporting period to the general and specific market price risk arising from individual stocks. Throughout the reporting period, the investment fund implemented the individual selection of securities within the investment universe prescribed by the provider of the index. The investment fund was thus subject to a high market price risk.

##### Currency risk

As prescribed by the index, the investment fund invested in German equities in the reporting period. There was thus no currency risk for EUR investors.

##### Liquidity risk

The assets held in the investment fund were at all times liquid, so that the liquidity risk is to be regarded as low.

##### Operational risk

Operational risks for the investment fund are managed using BlackRock Asset Management Deutschland AG's risk management system. Business areas and processes that are relevant to this investment fund and which are outsourced by BlackRock Asset Management Deutschland AG to external companies are subject to an outsourcing controlling process within BlackRock Asset Management Deutschland AG. This includes the outsourcing of fund accounting to State Street Bank International GmbH, Munich, as well as the intragroup outsourcing of the trade management process to BlackRock Investment Management (UK) Limited, London. Processes that are material to this investment fund and its related operational risks are subject to a process of regularly identifying, analysing and monitoring operational risks. If operational risks materialise, these events are recorded immediately in a risk database for appropriate documentation and analysis and steps are initiated and taken to minimise the operational risks.

1. Interim distribution	EUR	1,266,037.50	0.03
2. Final year-end distribution	EUR	13,282,196.90	0.36

3) Difference from previous year because of income adjustment calculated on carryforwards.

4) Transfer in the amount of the realised losses of the financial year.

#### Comparative overview of the last three financial years

Financial year		Fund assets at the end of the financial year	Unit value
2015/2016	EUR	548,170,192.60	15.00
2014/2015	EUR	564,359,753.91	17.23
2013/2014	EUR	460,452,666.56	15.88
2012/2013	EUR	384,343,194.65	13.23

#### Notes

#### Information pursuant to the German Derivatives Ordinance [Derivateverordnung, DerivateV]:

Pursuant to the Derivatives Ordinance, the utilisation of the market risk ceiling for this investment fund was calculated in accordance with the simple approach.

## Annual report for iShares DivDAX® UCITS ETF (DE) for the period from 1/06/2015 to 31/05/2016

### Notes

#### Other information

##### Number of fund units in circulation and value of a fund unit on the reporting date pursuant to Section 16 Para. 1 No. 1 of the German Capital Investment Accounting and Valuation Ordinance (KARBV)

Unit value	EUR	15.00
Units in circulation	UNITS	36,550,000

##### Information on the evaluation process for assets pursuant to Section 16 Para. 1 No. 2 KARBV

##### Security Prices and Market Prices

The fund assets are valued on the basis of the following market prices:

All securities: Closing prices on the respective valuation dates

The valuation of assets generally took place during the financial year and at the balance sheet date on the basis of the last traded stock exchange price. Assets not admitted for trading on stock exchanges nor admitted to another regulated market or included in such market, or for which no tradable value is available, are valued at current market values, which shall be assessed with due care using appropriate valuation models and taking into consideration current market conditions.

Money in bank accounts and existing receivables are valued at their current nominal value. Existing liabilities are reported at the amounts payable.

##### Information on transparency and the total expense ratio (TER) pursuant to Section 16 Para. 1 No. 3 KARBV

**Total expense ratio** pursuant to Section 101 Para. 2 of the German Investment Code (KAGB): 0.31%.

The total expense ratio expresses all costs and payments (not including transaction costs) borne by the investment fund during the year in relation to the average net asset value of the investment fund's assets.

A fee of 0.0002% p.a. of average net fund assets was also incurred due to **additional income from securities lending transactions**.

##### Performance-related or a supplementary management fee pursuant to Article 16 Para. 1 No. 3 a) KARBV (German Capital Investment Accounting and Valuation Ordinance)

The management fee includes the following:

a) Fixed fee from lending income:	EUR	1,012.61
-----------------------------------	-----	----------

In accordance with the terms and conditions of investment, a fixed fee of 0.30% p.a. based on the average net asset value and payable to the investment management company has been agreed for the investment fund. This fixed fee covers services rendered by the company, in particular the expenses of the depository, costs of legally required printing, mailings and publications associated with the investment fund, and for the auditing of the annual report. Of this amount, 0.0080% p.a. is due to the depository based on the average net asset value, and 0.0805% p.a. to third parties (printing and publication expenses, auditing and miscellaneous costs). The company does not pay any fees to brokers.

The following expenses are not included in the fixed fee:

- Expenses resulting from the purchase and sale of assets (transaction costs);
- Customary bank custody fees, including the customary bank charges for the custody of foreign securities abroad and related taxes, if applicable;
- Expenses related to day-to-day account management;
- Expenses incurred in the assertion and enforcement of the legal claims of the investment fund;
- Expenses for providing information to investors of the investment fund by means of a durable medium, with the exception of expenses for providing information in the case of fund mergers.

Details of the fee structure are provided in the current sales prospectus.

##### Expenses paid and repayments received pursuant to Section 16 Para. 1 No. 3 c) KARBV

In the reporting period 01 June 2015 to 31 May 2016, the investment management company BlackRock Asset Management Deutschland AG received no repayment of fees or reimbursement of expenses paid from the investment fund to the depository or to third parties for the investment fund DivDAX® UCITS ETF (DE).

##### Information concerning other income and other expenses pursuant to Section 16 Para. 1 No. 3 e) KARBV

Other expenses amounting to EUR 68,084.73 are broken down as follows:

a) Bank custody fees:	EUR	67,282.61
b) Other expenditure:	EUR	802.12

## Annual report for iShares DivDAX® UCITS ETF (DE) for the period from 1/06/2015 to 31/05/2016

### Information concerning transaction costs pursuant to Section 16 Para. 1 No. 3 f) KARBV

The **transaction costs** pursuant to Section 16 Para. 1 No. 3 f) of the German Capital Investment Accounting and Valuation Ordinance ("KARBV") paid during the reporting period totalled EUR 6,708.30.

Transaction costs take into account all costs that were separately recognised or invoiced for the account of the investment fund and that are in direct connection with the purchase or sale of assets.

The share of the securities transactions executed during the reporting period for account of the investment fund through brokers that are closely affiliated companies and persons was 0.00%. Their total amount was EUR 0.00.

### Index fund information pursuant to Section 16 Para. 2 KARBV

Tracking error level at the end of the reporting period pursuant to Section 16 Para. 2 No. 1 KARBV	0.17 percentage points
Annual tracking difference level	-0.22 percentage points
The DivDAX® Index (Net Total Return Index) posted a performance of -10.02% during the period under review. Taking into account costs, distributions and taxes, iShares DivDAX® UCITS ETF (DE) recorded a performance of -10.24% during the same period.	

### Information concerning employee remuneration pursuant to Section 101 Para. 3 KAGB in conjunction with Section 7 No. 9 c) aa) KARBV

The below disclosures are made in respect of the remuneration policies of the BlackRock Group ("BlackRock"), as they apply to BlackRock Asset Management Deutschland AG (the "Manager"). The disclosures are made in accordance with the Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities ("UCITS"), as amended, including in particular by Directive 2014/91/EU of the European Parliament and of the Council of 23 July 2014, (the "Directive"), and the "Guidelines on sound remuneration policies under the UCITS Directive and AIFMD" issued by the European Securities and Markets Authority.

BlackRock's UCITS Remuneration Policy (the "UCITS Remuneration Policy") will apply to the EEA entities within the BlackRock group authorised as a manager of UCITS funds in accordance with the Directive, and will ensure compliance with the requirements of Article 14b of the Directive.

The Manager has adopted the UCITS Remuneration Policy, a summary of which is set out below.

#### Role of the Compensation Committees

Remuneration governance is a tiered structure including the Management Development and Compensation Committee ("MDCC") of BlackRock, Inc.'s Board of Directors (the "BlackRock, Inc. Board") (BlackRock Inc.'s independent remuneration committee), complemented by the EMEA Compensation Committee (the "Committee") and the Manager's Board of Directors (the "Manager's Board"). These bodies are responsible for the determination of the Manager's remuneration policies.

#### **a) MDCC**

The MDCC's primary purposes include:

- to provide oversight of:
  - BlackRock's executive compensation programs;
  - BlackRock's employee benefit plans;
  - such other compensation plans as may be established by BlackRock from time to time for which the MDCC is deemed to be administrator; and
- to review and discuss the compensation discussion and analysis included in the BlackRock, Inc. annual proxy statement with management and approval of the MDCC report for inclusion in the proxy statement.

The MDCC directly retains its own independent compensation consultant, Semler Brossy Consulting Group LLC, which has no relationship with BlackRock, Inc. or the BlackRock, Inc. Board that would interfere with its ability to provide independent advice to the MDCC on compensation matters.

The MDCC is currently composed of Messrs. Gerber (Chairman), Komansky, Grosfeld, Maughan and Mills. The BlackRock, Inc. Board has determined that all of the members of the MDCC are "independent" within the meaning of the listing standards of the New York Stock Exchange (NYSE), which require that each member meet a "non-employee director" standard.

The MDCC held 10 meetings during 2015. The MDCC charter is available in English on BlackRock, Inc.'s website ([www.blackrock.com](http://www.blackrock.com)).

## Annual report for iShares DivDAX® UCITS ETF (DE)

for the period from 1/06/2015 to 31/05/2016

### b) EMEA Compensation Committee

The Committee is established for the purpose of reviewing compensation policies, practices and principles as required by local/regional rules set by regulatory bodies. Specifically, the Committee's primary purposes are to review and make recommendations concerning:

- executive compensation programs;
- employee benefit plans;
- such other compensation plans as may be established from time to time; and
- other local/regional compensation policies, practices, and principles as required to comply with local/regional rules as set by regulators.

The Committee consists of a minimum of three members and is constituted in a way that enables it to exercise its judgement and demonstrate its ability to make decisions which are consistent with the current and future financial status of the business. The current members are: David Blumer, Head of the EMEA Region; Dan Dunay, Global Head of Compensation; and Karen Dennehy, EMEA Head of Human Resources. Only members of the Committee have the right to attend Committee meetings and the Committee may request the attendance of any executive or other person as deemed appropriate to facilitate the review of remuneration recommendations and policy design to ensure that the remuneration practices are consistent with effective risk management and do not encourage excessive risk taking.

Examples of additional attendees may include individuals from the Operational Risk and Regulatory Compliance functions.

#### Decision-making process

Compensation decisions for employees are made once a year in January following the end of the performance year. This timing allows full-year financial results to be considered along with other non-financial goals and objectives. Although the framework for compensation decision-making is tied to financial performance, significant discretion is used to determine individual compensation based on achievement of strategic and operating results and other considerations such as management and leadership capabilities.

No set formulas are established and no fixed benchmarks are used in determining annual incentive awards. In determining specific individual compensation amounts, a number of factors are considered including non-financial goals and objectives and overall financial and investment performance. These results are viewed in the aggregate without any specific weighting, and there is no direct correlation between any particular performance measure and the resulting annual incentive award.

Annual incentive awards are generated from a bonus pool.

The size of the projected bonus pool, including cash and equity awards, is reviewed throughout the year by the MDCC and the final total bonus pool is approved after year-end. As part of this review, the MDCC receives actual and projected financial information over the course of the year as well as final year-end information. The financial information that the MDCC receives and considers includes the current year projected income statement and other financial measures compared with prior year results and the current year budget. The MDCC additionally reviews other metrics of Blackrock's financial performance (e.g., net inflows of AUM and investment performance) as well as information regarding market conditions and competitive compensation levels.

The MDCC regularly considers management's recommendation as to the percentage of pre-incentive operating income that will be accrued and reflected as a compensation expense throughout the year for the cash portion of the total annual bonus pool (the "accrual rate"). The accrual rate for the cash portion of the total annual bonus pool may be modified by the MDCC during the year based on its review of the financial information described above. The MDCC does not apply any particular weighting or formula to the information it considers when determining the size of the total bonus pool or the accruals made for the cash portion of the total bonus pool.

Following the end of the performance year, the MDCC approves the final bonus pool amount.

As part of the year-end review process the Operational Risk and Regulatory Compliance departments report to the Committee on any activities, incidents or events that warrant consideration in making compensation decisions.

Individuals are not involved in setting their own remuneration.

## Annual report for iShares DivDAX® UCITS ETF (DE) for the period from 1/06/2015 to 31/05/2016

### Control functions

Each of the control functions (Operational Risk, Legal & Compliance, and Internal Audit) has its own organisational structure which is independent of the business units. The head of each control function is either a member of the Global Executive Committee, BlackRock's global management committee, or has a reporting obligation to the Manager's Board.

Functional bonus pools are determined with reference to the performance of each individual function. The remuneration of the senior members of control functions is directly overseen by the Committee.

### Link between pay and performance

There is a clear and well defined pay-for-performance philosophy and compensation programs which are designed to meet five key objectives as detailed below:

- attracting, retaining and motivating employees capable of making significant contributions to the long-term success of the business;
- aligning the interests of senior employees with those of shareholders by awarding BlackRock, Inc. stock as a significant part of both annual and long-term incentive awards;
- controlling fixed costs by ensuring that compensation expense varies with profitability;
- linking a significant portion of an employee's total compensation to the financial and operational performance of the business as well as its common stock performance; and
- discouraging excessive risk-taking.

Driving a high-performance culture is dependent on the ability to measure performance against objectives, values and behaviours in a clear and consistent way. Managers use a 5-point rating scale to provide an overall assessment of an employee's performance, and employees also provide a self-evaluation. The overall, final rating is reconciled during each employee's performance appraisal. Employees are assessed on the manner in which performance is attained as well as the absolute performance itself.

In keeping with the pay-for-performance philosophy, ratings are used to differentiate and reward individual performance – but do not pre-determine compensation outcomes. Compensation decisions remain discretionary and are made as part of the year-end compensation process.

When setting remuneration levels other factors are considered, as well as individual performance, which may include:

- the performance of the Manager, the funds managed by the Manager and/or the relevant functional department;
- factors relevant to an employee individually (e.g. relevant working arrangements (including part-time status if applicable); relationships with clients and colleagues; teamwork; skills; any conduct issues; and, subject to any applicable policy, the impact that any relevant leave of absence may have on contribution to the business);
- the management of risk within the risk profiles appropriate for BlackRock's clients;
- strategic business needs, including intentions regarding retention;
- market intelligence; and
- criticality to business.

## Annual report for iShares DivDAX® UCITS ETF (DE) for the period from 1/06/2015 to 31/05/2016

A primary product tool is risk management and, while employees are compensated for strong performance in their management of client assets, they are required to manage risk within the risk profiles appropriate for their clients. Therefore, employees are not rewarded for engaging in high-risk transactions outside of established parameters. Compensation practices do not provide undue incentives for short-term planning or short-term financial rewards, do not reward unreasonable risk and provide a reasonable balance between the many and substantial risks inherent within the business of investment management, risk management and advisory services.

The compensation model includes a basic salary, which is contractual, and a discretionary bonus scheme. Although all employees are eligible to be considered for a bonus, there is no contractual obligation to make any award to an employee under the discretionary bonus scheme. In exercising discretion to award a discretionary bonus, the factors listed above (under the heading "Link between pay and performance") may be taken into account in addition to any other matters which become relevant to the exercise of discretion in the course of the performance year.

Discretionary bonus awards for all employees, including executive officers, are subject to a guideline that determines the portion paid in cash and the portion paid in stock and subject to additional vesting/clawback conditions. As annual compensation increases, a greater portion is paid in stock. The MDCC adopted this approach in 2006 to substantially increase the retention value and shareholder alignment of the compensation package for eligible employees, including the executive officers. The portion deferred into stock vests in equal instalments over the three years following grant.

Supplementary to the annual discretionary bonus as described above, equity awards from the "Partner Plan" and "Enterprise Leadership Acceleration at BlackRock Plan" are made to select senior leaders to provide greater linkage with future business results. These long-term incentive awards have been established individually to provide meaningful incentives for continued performance over a multi-year period recognizing the scope of the individual's role, business expertise and leadership skills. These awards usually vest fully three years after they are granted.

Selected senior leaders are eligible to receive performance-adjusted equity-based awards from the "BlackRock Performance Incentive Plan" ("BPIP"). Awards made from the BPIP have a three-year performance period based on a measurement of the adjusted operating margin\* and organic revenue growth\*\*. Determination of pay-out will be made based on BlackRock's achievement relative to target financial results at the conclusion of the performance period. The maximum number of shares that can be earned is 165% of the award in those situations where both metrics achieve pre-determined financial targets. No shares will be earned where BlackRock's financial performance in both of the above metrics is below a pre-determined performance threshold. These metrics have been selected as key measures of shareholder value which endure across market cycles.

A limited number of investment professionals have a portion of their annual discretionary bonus (as described above) awarded as deferred cash that notionally tracks investment in selected products managed by the relevant employee. The intention of these awards is to align investment professionals with the investment returns of the products they manage through the deferral of compensation into those products. Clients and external evaluators have increasingly viewed more favourably those products where key investors have "skin in the game" through significant personal investments. These awards vest in equal instalments over the three years following grant.

### **Identified Staff**

The UCITS Remuneration Policy sets out the process that will be applied to identify staff as Identified Staff, being categories of staff of the Manager, including senior management, risk takers, control functions and any employee receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profiles of the Manager or of the funds it manages.

The list of Identified Staff will be subject to regular review, being formally reviewed in the event of, but not limited to:

- organisational changes
- new business initiatives
- changes to the lists of functions with significant influence
- changes to the job description
- changes to the regulatory guidelines

---

\* Adjusted operating margin: As reported in BlackRock, Inc.'s external filings, this reflects adjusted operating income divided by total revenue net of distribution and servicing expenses and amortisation of deferred sales commission.

\*\* Organic revenue growth: Equal to net new base fees plus net new Aladdin revenue generated in the year (in dollars).

## Annual report for iShares DivDAX® UCITS ETF (DE) for the period from 1/06/2015 to 31/05/2016

### Numerical disclosure of the fee

The Manager is obliged, according to the Directive, to disclose numerical information on the remuneration. These disclosures are made in line with BlackRock's interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops BlackRock may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other BlackRock fund disclosures in that same year.

Disclosures are provided in relation to (a) the staff of the Manager; (b) Board members; and (c) staff who have the ability to materially affect the risk profile of the Manager or the Fund.

All individuals included in the aggregated figures disclosed are rewarded in line with BlackRock's remuneration policy for their responsibilities across the relevant BlackRock business area. As all individuals have a number of areas of responsibilities, only the portion of remuneration for those individuals' services attributable to the Manager's UCITS activities is included in the aggregate figures disclosed. Members of staff and senior management of the Manager typically provide both UCITS and non-UCITS related services in respect of multiple funds, clients and functions of the Manager and across the broader BlackRock group. However, the figures disclosed are a sum of each individual's portion of remuneration attributable to the Manager's UCITS activities according to an objective apportionment methodology which acknowledges the multiple-service nature of the Manager. Accordingly the figures are not representative of any individual's actual remuneration or their remuneration structure.

The amount of the total remuneration awarded by the Manager to its staff which has been attributed to the Manager's UCITS activities in respect of the Manager's financial year ending 31 December 2015 is EUR 1.45 million. This figure is comprised of fixed remuneration of EUR 0.91 million and variable remuneration of EUR 0.54 million. There were a total of 23 beneficiaries of the remuneration.

The amount of the total remuneration awarded by the Manager to the Board which has been attributed to the Manager's UCITS activities in respect of the Manager's financial year ending 31 December 2015 was EUR 0.33 million, and remuneration awarded to members of its staff whose actions have a material impact on the risk profile of the Manager or the Fund is EUR 0.14 million. The individual members of staff of the Manager whose actions have a material impact on the risk profile of the Manager or the Fund are those within the Manager's senior management and monitoring functions.

The Directive entered into force on 18 March 2016. The remuneration outlined above is included on a best efforts basis but relates to awards made before the Directive became effective. As this remuneration was awarded before the Directive became effective, subsequent remuneration disclosures in relation to the Fund may not be comparable.

## **Further information necessary for understanding the report pursuant to Section 7 No. 9 d) KARBV**

### **Explanation of the calculation of net change in unrealised gains and losses**

Determination of net change in unrealised gains and losses takes place by means of comparing, in each financial year, the valuations of assets included in the unit price with the relevant historical purchase prices, the level of the positive differences in the sum of unrealised gains included, the level of the negative differences in the sum of unrealised losses included and by determining the net changes from a comparison of the sum totals at the end of the financial year with those at the beginning.

In the years from 2010 to 2015, some dividends and certain capital measures were recorded incorrectly, which led to errors being posted in the profit and loss accounts for those years. In this annual report, these errors have been corrected collectively in the corresponding items of the profit and loss account. The following corrections have been made:

- I.1. Dividends from domestic issuers amounting to EUR -5,992,196.16 (reported too high at EUR 5,992,196.16),
- Total income amounting to EUR -5,992,196.16 (reported too high at EUR 5,992,196.16),
- V. Realised net income for the financial year amounting to EUR -5,992,196.16 (reported too high at EUR 5,992,196.16),
- VI.1. Net change in unrealised gains amounting to EUR 4,975,643.70 (reported too low at EUR 4,975,643.70),
- VI. Unrealised net income for the financial year amounting to EUR 4,975,643.70 (reported too low at EUR 4,975,643.70),
- Net income for the financial year amounting to EUR -1,016,552.46 (reported too high at EUR 5,992,196.16/reported too low at EUR 4,975,643.70).

**Auditor's Report**

---

**To BlackRock Asset Management Deutschland AG, Munich**

In accordance with Section 102 of the German Investment Code (KAGB), BlackRock Asset Management Deutschland AG, Munich, has commissioned us to review the annual report for the investment fund iShares DivDAX® UCITS ETF (DE) for the financial year from 01 June 2015 to 31 May 2016.

**Responsibility of the legal representatives**

The preparation of the annual report in accordance with the KAGB is the responsibility of the legal representatives of the investment management company.

**Responsibility of the auditor**

Our responsibility is to express an opinion on the annual report based on our audit.

We conducted our audit in accordance with Section 102 of the KAGB and German generally accepted standards for the audit of financial statements issued by the German Institut der Wirtschaftsprüfer (IDW). These standards require us to plan and perform the audit in such a way that inaccuracies and infringements materially affecting the annual report are detected with reasonable assurance. Knowledge of the management of the investment fund and assessment of potential misstatements are taken into account when determining audit procedures. The effectiveness of the internal control system used when accounting and the evidence supporting the disclosures in the annual report are examined, primarily on a test basis, within the framework of the audit. The audit includes the appraisal of the accounting principles applied for the annual report and the main estimates of the legal representatives of the investment management company. We are of the opinion that our audit forms a reasonable basis for our audit assessment.

**Opinion**

According to our appraisal, based on the findings gained during our audit, the annual report for the financial year 01 June 2015 to 31 May 2016 complies with the legal regulations.

Munich, 20 September 2016
