Janus Henderson Fund

Absolute Return Fund Class A2 HUSD ISIN: LU0953998514

A sub-fund of Janus Henderson Fund, a Luxembourg SICAV managed by Janus Henderson Investors Europe S.A.
Fund Currency: GBP Share Class Currency: USD

Objective and investment policy

Objective

The Fund aims to achieve a positive (absolute) return, regardless of market conditions, over any 12-month period. A positive return is not guaranteed over this or any time period and, particularly over the shorter term, the Fund may experience periods of negative returns. Consequently, your capital is at risk. Performance target: To outperform the Bank of England Base Rate, after the deduction of charges, over any 3 year period.

Investment policy

The Fund invests in shares and makes extensive use of derivatives (complex financial instruments) to take both 'long' and 'short' positions in companies the Investment Manager believes will either rise in value (long positions) or fall in value (short positions) meaning that the Fund may benefit from either scenario.

The Fund will hold a significant proportion of its assets in cash and money market instruments as a result of holding derivatives and for when the Investment Manager wishes to take a defensive stance. Conversely, the Fund may also employ 'leverage' (so that the Fund can invest a greater amount than its actual value) when the Investment Manager has greater confidence in the opportunities available. Typically, at least 60% of the exposure to the long and short positions (in aggregate) will be to companies of any size, in any industry, in the UK. Companies may be incorporated or headquartered in the UK, deriving significant revenue from the UK, or listed on the London Stock Exchange. Up to 40% of the long and short exposure may be to non-UK companies. The Fund may also invest at the Investment Manager's discretion in other Transferable Securities, derivative instruments and collective investment schemes.

The Investment Manager may also use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the Bank of England Base Rate as this forms the basis of the Fund's performance target and the level above which performance fees may be charged (if applicable). For currency hedged Share Classes, the central bank rate that corresponds with the relevant Share Class currency is used as the basis of the performance comparison

and for calculating performance fees. The Investment Manager has complete discretion to choose investments for the Fund and is not constrained by a benchmark.

Strategy

The Investment Manager blends core long term and tactical short term ideas to construct the portfolio. Ideas come from a variety of sources including proprietary research, external research and other Janus Henderson investment teams, with the intention of taking long positions in companies with unexpected earnings growth or value creation potential, and short positions in companies where earnings are priced in or where long term value is impaired.

Other Information The Investment Manager will seek to promote environmental, social and/or governance (ESG) principles in managing the Fund, which may include the exclusion of issuers that the Investment Manager considers could contribute to significant ESG harm, as further described in the prospectus.

Transaction costs In addition to the charges set out in the Charges section below, the Fund involves a high level of buying and selling activity and will incur higher portfolio transaction costs which are paid from the assets of the Fund. These may have a material impact on your returns.

Distribution policy This share class accumulates income which is retained within the price of the share class.

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any dealing day, as defined in the Company's Prospectus.

Risk and reward profile

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The rating above is based on the historic volatility of the share class. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.

The share class appears at 4 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.

Other material risks not captured by the rating:

Equities Shares/Units can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.

Country or Region If a Fund has a high exposure to a particular country or geographical region it carries a higher level of risk than a Fund which is more broadly diversified.

Derivatives and Leverage The Fund may use derivatives to help achieve its investment objective. This can result in leverage (higher levels of debt),

which can magnify an investment outcome. Gains or losses to the Fund may therefore be greater than the cost of the derivative. Derivatives also introduce other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

Exchange Rates If the Fund holds assets in currencies other than the base currency of the Fund, or you invest in a share/unit class of a different currency to the Fund (unless hedged, i.e. mitigated by taking an offsetting position in a related security), the value of your investment may be impacted by changes in exchange rates.

Currency Hedging When the Fund, or a share/unit class, seeks to mitigate exchange rate movements of a currency relative to the base currency (hedge), the hedging strategy itself may positively or negatively impact the value of the Fund due to differences in short-term interest rates between the currencies.

Liquidity Securities within the Fund could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

Counterparty Risk and Operational Risk The Fund could lose money if a counterparty with which the Fund trades becomes unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Company's Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Entry Charge	5.00%
Exit Charge	0.00%

* The charges shown are maximum figures. In some cases you may pay less.

-----------------	-------

Past performance

The ongoing charges are based on actual annualised expenses for the period ending 30 September 2023. Ongoing charges may vary from year to year. The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

Charges taken from the Fund under certain specific conditions

Performance fee	20.00%*
-----------------	---------

*20% of any returns that, subject to a High Water Mark, the Fund achieves above the US Federal Funds Rate. The actual amount charged in the Fund's last financial period ending 30 September 2023 amounted to 0.00%.

For more information about Charges please see the Company's Prospectus.

The past performance is calculated in USD.

The Fund was launched in March 2005 and the share class was launched in October 2013.

Past performance does not predict future returns.

The past performance takes into account all charges except one-off charges.

The Fund does not aim to track the performance of the benchmark.
