Benchmark uses and resemblance

- Performance comparison.

The Sub-Fund is actively managed. The majority of the Sub-Fund's holdings (excluding derivatives) are likely to be components of the benchmark and it is managed within indicative risk parameters that typically limit the Investment Manager's discretion to deviate from its securities, weightings and risk characteristics.

As a result, the Sub-Fund will bear a resemblance to the composition and risk characteristics of its benchmark; however, the Investment Manager's discretion may result in performance that differs from the benchmark.

POLICIES

The Sub-Fund invests at least 10% of assets excluding cash, cash equivalents, Money Market Funds and derivatives for EPM, in Sustainable Investments, as defined under SFDR, contributing to environmental or social objectives.

The Investment Manager evaluates and applies values and norms based screening to implement exclusions. To support this screening, it relies on third party provider(s) who identify an issuer's participation in or the revenue which they derive from activities that are inconsistent with the values and norms based screens. The list of screens applied that may result in exclusions can be found on the Management Company's Website (www.jpmorganassetmanagement.lu).
