Date of production of the Key Information Document:	12/10/2023

WHAT IS THIS PRODUCT?

Type: Organisme de Placement Collectif en Valeurs Mobilières (OPCVM), Fonds Commun de Placement (FCP)

Term: The UCI's term is 99 years from 08/12/2006, except in the event that the Fund is dissolved before the end of the term or extended pursuant to these regulations.

Objectives:

The investment objective is to achieve, over the recommended investment horizon of 5 years, a return (net of charges) above the following simple benchmark: MSCI Emerging Markets. The benchmark is expressed in EUR. Nets dividends or coupons are reinvested.

Lazard Frères Gestion delegated the financial management of the Fund to Lazard Asset Management LLC, New York. The investment objective is achieved by investing in the shares of companies that are domiciled, or have most of their operations, in emerging countries and which deliver the best results over a long period, giving preference to those that are undervalued by the stock market.

The strategy implemented is based on:

- identifying companies with the best economic performance profiles;
- verifying that performance through financial analysis and examination of underlying strategies;
- selecting stocks from such companies according to the market's undervaluation of that performance at a given time;
- building a diversified portfolio characterised by risk management and control.

The Fund invests at least 90% of its net assets in emerging market equities or in ETFs exposed to emerging market equities.

The Fund may invest in listed American Depositary Receipts (ADRs) and/or Global Depositary Receipts (GDRs).

For treasury management purposes (up to 10% of net assets), the Fund may invest in French short-term money market AIFs or UCITS as well as in French and foreign negotiable debt securities. The Fund may invest a maximum of 10% of its net assets in negotiable debt securities. Investment is solely in UCIs that in turn invest less than 10% of their net assets in other UCIs.

The Fund may invest up to 10% of its net assets in securities with embedded derivatives.

The Fund may use currency futures and swaps and currency forward contracts on regulated, organised and/or OTC markets to hedge the portfolio against currency risk.

The Fund may be exposed to currency risk up to 100% of net assets.

Other information: Environmental, social and governance (ESG) criteria are integrated into management through an internal analysis and rating model that directly influences management without being a determining factor in decision-making.

Allocation of distributable income:

- Allocation of net income: Accumulation
- Allocation of net realised capital gains: Accumulation

Right of redemption: Orders are executed as indicated in the table below

The business day prior to the valuation day (D-1)	Day on which NAV is set (d)	The business day following the valuation day (D+1)	Two business days following the valuation day (D+2)
Daily order reception and Daily centralisation of redemption orders before 02:00 p.m. (Paris time)	Order executed by the latest on d	Publication of the net asset value	Settlement of redemptions

Targeted retail investors: This product may be suitable for retail investors with a limited level of knowledge of financial markets and products who seek international equities exposure and who accept the risk of losing part of the invested capital. The UCI may not be offered or sold in the United States. For further information, please refer to section "11. Eligible subscribers and typical investor profile" in the prospectus.

Recommendation: This UCI may not be suitable for investors planning to withdraw their investment within 5 years

Name of custodian: CACEIS BANK

Where/how to obtain information on the UCI :

All other practical information on this product, including the latest unit price, the prospectus, the latest annual and periodic reports, the composition of assets and the standards of LAZARD FRERES GESTION SAS with regard to the exercise of voting rights, as well as the

WHAT ARE THE RISKS AND WHAT'S IN IT FOR ME?

Risk indicator:

The risk indicator assumes that you keep the product for 5 years. The actual risk may be very different if you opt to exit before the end of the recommended holding period, and you may get less in return.

Other sizeable risks not taken into account in the indicator:

Recommended holding period:

5 years

- Risks associated with derivatives

The synthetic risk indicator is used to assess the risk level of this product compared with others. It indicates the probability that this product will incur losses in the event of market movements or if we are unable to pay you. We have classified this product in the risk class 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity LAZARD FRERES GESTION SAS to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios:

The figures shown include all costs of the product itself, but not necessarily all fees due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you will receive.

What you get from this product depends on future market performance. Future market developments are uncertain and cannot be accurately predicted.

The unfavourable, intermediate and favourable scenarios presented represent examples using best and worst case performance, as well as the average performance of the product over the past 10 years. The scenarios presented represent examples based on past performance and certain assumptions. Markets could evolve very differently in the future.

Recommended holding period: 5 years Investment example: 10000 €			
Scenarios		If you exit after 1 year	If you exit after 5 years
<i>Minimum</i>	<i>There is no guaranteed minimum return. You could lose all or part of your investment.</i>		
Pressure	<i>What you could get after deducting costs</i>	2270 €	4480 €
	Average annual return	-77.3%	-14.9%
Unfavourable	<i>What you could get after deducting costs</i>	7320 €	4480 €
	Average annual return	-26.8%	-14.9%
Intermediary	<i>What you could get after deducting costs</i>	9790 €	10930 €
	Average annual return	-2.1%	1.8%
Favourable	<i>What you could get after deducting costs</i>	13790 €	13070 €
	Average annual return	37.9%	5.5%

The stress scenario shows what you could get in extreme market situations.

Unfavourable scenario: This type of scenario occurred for an investment between 30/03/2019 - 30/03/2020

Intermediate scenario: This type of scenario occurred for an investment between 30/05/2017 - 30/05/2018

Favourable scenario: This type of scenario occurred for an investment between 30/03/2020 - 30/03/2021

WHAT HAPPENS IF LAZARD FRERES GESTION SAS IS UNABLE TO MAKE THE PAYMENTS?

The product is a co-ownership of financial instruments and deposits separate from the portfolio management company. In the event of default by the latter, the assets of the product held by the custodian will not be affected. In the event of default by the custodian, the risk of financial loss to the product is mitigated by the legal segregation of the assets of the custodian from those of the product.

WHAT WILL THIS INVESTMENT COST ME?

The person who sells you this product or who gives you advice about it may ask you to pay additional costs. If so, this person will inform you about these costs and show you the impact of these costs on your investment.

Costs over time:

The tables show the amounts deducted from your investment to cover the different types of costs. These amounts depend on the amount you invest, how long you hold the product and the performance of the product. The amounts shown here are illustrations based on an example of an investment amount and different possible investment periods.

We have assumed: - that in the first year you would get back the amount you invested (annual return of 0.0%) - that for the remaining holding periods, the product evolves as indicated in the intermediate scenario - that 10000 EUR are invested

	If you exit after 1 year	If you exit after 5 years
Total costs	534 €	1685 €
Impact of annual costs (*)	5.4%	3.1% every year

(*) It shows how costs reduce your return annually over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per year is expected to be 4.9% before deduction of costs and 1.8% after that deduction.

Breakdown of costs:

One-off costs at entry or exit		If you exit after 1 year
Entry costs	3.00% of the amount invested. This is the maximum amount you could be required to pay. The person selling you the product will inform you of the actual costs.	Up to 300 €
Exit costs	We do not charge exit costs.	0 €
Recurring costs incurred each year		
Management fees and other administrative and operating costs	1.97% of the value of your investment per year. This estimate is based on actual costs over the past year.	191 €
Transaction costs	0.44% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on how much we buy and sell.	43 €
Incidental costs incurred under specific conditions		
Performance-related fees	There are no performance fees for this product.	0 €

HOW LONG DO I HAVE TO HOLD IT AND CAN I WITHDRAW MONEY EARLY?

Recommended holding period: 5 years

This product does not have a minimum holding period requirement. The recommended holding period (5 years) has been calculated to be consistent with the product's investment objective.

You may withdraw your investment before the end of the recommended holding period, without any charges or penalties under the conditions set out in the "Right of redemption" section. The risk profile of the product may be very different if you opt to exit before the end of the recommended holding period.

HOW CAN I MAKE A CLAIM?
