

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you to understand the nature and the risk of this fund. You are advised to read it so you can make an informed decision about whether to invest.

Lord Abbett Ultra Short Bond Fund - Class AZ USD Accumulating - ISIN: IE00BLGJRZ13
A Class of a sub-fund of Lord Abbett Global Funds I plc (the "Company")
The Company is managed by Lord Abbett (Ireland) Ltd. (the "Manager")

Objectives and Investment Policy

The Fund's investment objective is to seek current income consistent with preservation of capital.

The Fund pursues its investment objective by investing in short term, high quality securities issued by U.S. and non-U.S. issuers (which may be in emerging markets). Under normal conditions, the Fund invests only in securities that, at the time of purchase, are rated (i) within the four highest tiers assigned by any rating agency recognised by any national regulatory or governmental agency (including but not limited to the Central Bank), such as Moody's (Aaa, Aa, A, Baa), S&P's (AAA, AA, A, BBB), or Fitch Ratings (AAA, AA, A, BBB), (ii) within the three highest short-term ratings tiers assigned by such rating agencies such as Moody's (P-1, P-2, P-3), S&P's (A-1, A-2, A-3) or Fitch Ratings (F1, F2, F3), or (iii) are unrated but determined by the Investment Manager to be of comparable quality ("Investment Grade Debt Securities"). In the event, subsequent to initial purchase, such securities are downgraded and deemed to be below Investment Grade Debt Securities, the Fund may continue to hold such securities at the Investment Manager's discretion.

The Fund seeks to invest in fixed-rate debt securities and floating rate debt securities. Under normal conditions, the Fund expects to maintain a dollar-weighted average portfolio duration of one year or less and a dollar-weighted average portfolio maturity of two years or less.

The Fund's investments primarily include corporate debt securities of U.S. and non-U.S. issuers that are denominated in U.S. Dollars; mortgage-backed, mortgage-related and other asset-backed securities; and securities issued or guaranteed by the U.S. government, its agencies or government-sponsored enterprises.

Under normal conditions, the Fund concentrates its investments in the financial services industry by investing more than 25% of its net assets in securities issued by companies in the financial services industry.

The Fund employs a relative value-oriented investment process that emphasizes securities believed to be undervalued.

The Fund may invest in financial derivative instruments ("FDIs"), which are two-party contracts whose values depend on the rise and fall of an underlying reference asset or index. The Fund may use FDIs to seek to enhance returns, to attempt to hedge some of its investment risk, to manage portfolio duration, or as a substitute for holding the underlying reference asset on which the FDI is based. Leverage of up to 100% of assets may be obtained using FDIs.

Any income less expenses realised will only be distributed to investors in distributing classes and will be accumulated in the net asset value per share for accumulation classes.

The Fund is actively managed. It uses the ICE BofA ML U.S. Treasury Bill Index as a 'comparator benchmark' to compare performance of the Fund against, but which is not used to constrain portfolio composition or as a target for the performance of the Fund.

Investors can redeem shares each day (except Saturdays, Sundays, and normal bank holidays) on which banks in Dublin and New York are open for regular business.

For full investment objective and policy details, please refer to the "Investment Objective" and "Investment Policies" sections of the Fund's supplement.

Risk and Reward Profile

The Fund is in category 2, as under normal conditions the Fund invests only in Investment Grade Debt Securities. The Fund has a limited operating history.

The risk indicator was calculated using simulated data and may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time.

In pursuing its investment objective the Fund will be exposed to additional risks including without limitation:

Reliance on Management Risk: the success of the Fund will depend on the ability of the Investment Manager to identify suitable investments and to dispose of such investments at a profit.

Issuer Risk: the issuer of a security may fail to pay interest or principal on time, or negative market perceptions of an issuer's ability to make such payments could cause the security to decline in value, causing a financial loss to the Fund.

Credit Risk: the failure of a counterparty or an issuer of a financial asset held within the Fund to meet its payment obligations will have a negative impact on the Fund.

Liquidity Risk: there may be insufficient buyers or sellers to allow the Fund to buy or sell certain types of securities readily.

Interest Rate Risk: when interest rates rise, bond prices may fall, reflecting the ability of investors to obtain a more attractive rate of interest on their money elsewhere.

Mortgage and Asset-Backed Securities Risk: impairment of the value of underlying assets of mortgage-backed securities may result in a reduction in the value of the security and a financial loss to the Fund.

Non-U.S. Risk: investment in non-U.S. markets including emerging markets may expose the Fund to more social, political, regulatory and currency risks than securities in developed markets.

FDI Risk: the use of FDIs may create leverage, leading to greater fluctuations in assets as well as potentially resulting in gains or losses that are greater than the amount originally invested in FDI.

Counterparty Risk: a party with whom the Fund contracts for securities or to safekeep the Fund's assets may fail to meet its obligations or become bankrupt, which may expose the Fund to a financial loss.

For more information on risks please refer to the "Investment Risks and Special Considerations" section of the Company's prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest:

| | |
|--------------|------|
| Entry charge | None |
| Exit charge | None |

This is the maximum that might be taken out of your money before it is invested or the proceeds of your investment are paid out.

Charges taken from the fund over a year:

| | |
|----------------|-------|
| Ongoing charge | 0.44% |
|----------------|-------|

Charges taken from the fund under certain specific conditions:

| | |
|-----------------|------|
| Performance fee | None |
|-----------------|------|

The entry and exit charges shown are the maximum charges you may pay. In some cases you may pay less – you can find this out from your financial advisor.

The ongoing charges figure, which is based on last year's expenses, is subject to a commitment by the Manager to limit ongoing charges of the share class to the expense limitation. This commitment may be lifted at any time upon prior notice to shareholders. The ongoing charges exclude portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking. This figure may vary from year to year. The exact charges will be included in the financial statements for each year.

For more information about fees and expenses, please see the section titled "Fees and Expenses" of the Company's prospectus and the Supplement prepared for the Fund available from the Manager at www.passportportfolios.com.

Past Performance

Performance data quoted reflects past performance and is no guarantee of future results. Current performance may be higher or lower than the performance quoted. The net asset value performance shows the annual total returns of the share class after the payment of ongoing charges and transaction costs but excluding any entry or exit fees. The investment return and principal value of an investment in the share class will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than their original cost.

The performance of the benchmark is shown for comparison purposes only. It is not used to constrain portfolio composition or as a target for the performance of the Fund.

The Fund was authorised on 05 December 2017. The share class was launched on 18 March 2020.

Past performance is calculated in USD.

Practical Information

The Fund's assets are held with its depositary, Brown Brothers Harriman Trustee Services (Ireland) Limited.

The Investment Manager is Lord, Abnett & Co. LLC.

The current share price and further information on the Fund (including the current prospectus and the most recent financial statements prepared for the Company as a whole), as well as information on other share classes of the Fund and other sub-funds of the Company are available at www.lordabbett.com/LordAbbettGlobalFunds or from the Manager in English free of charge.

The up-to-date remuneration policy of the Manager, which describes how remuneration and benefits are determined and awarded, is available at www.lordabbett.com/LordAbbettGlobalFunds. Paper copies are available free of charge from the office of the Manager on request.

The Fund is subject to Irish taxation legislation which may have an impact on the personal tax position of an investor in the Fund. Investors should consult their own tax advisers before investing in the Fund.

The Fund is a sub-fund of the Company, an open-ended investment company with segregated liability between sub-funds. This means that the assets of the Fund cannot be used to pay the liabilities of other sub-funds of the Company.

Shares in the Fund may be switched for the shares of another share class of the Fund or another sub-fund of the Company, subject to certain conditions and meeting the requirements for investment in such other share classes or sub-funds. See the section titled "Conversion of Shares" of the Company's prospectus for more information.

The Manager may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Company's prospectus.
