

KEY INVESTOR INFORMATION

The subject matter of this document is the KEY INVESTOR INFORMATION relating to this fund. The document does not constitute promotional material. This information is prescribed by law so that you can be aware of the nature of this fund and the risks involved in investing in it. We advise you to read this document to enable you to make an informed investment decision.

LOYS Sicav – LOYS Global P ISIN: LU0107944042

Sub-fund of LOYS Sicav
Management company: LOYS Investment S.A.

Objectives and investment policy

- The Fund's investment objective is to invest the Fund's assets internationally in securities in accordance with the principle of risk diversification in order to achieve appropriate income and the highest possible long-term growth in value.
- To this end, the fund invests in shares at a rate of at least 60%, which qualify as equity participations. Moreover, annuities of all types, certificates that contain shares as their underlying asset and that are officially listed or traded on stock exchanges or other regulated markets that are recognised and open to the public and that operate regularly – "regulated markets" – and convertible bonds and option bonds can be acquired for the fund. Investments in bonds with a rating worse than B- (S&P / Fitch) or B3 (Moody's) are not permissible. If several ratings are available for one bond, the worst rating is used as a basis. An acquisition of asset-backed securities or CoCo bonds as structured products is not permitted (this prohibition explicitly does not include warrants, convertible bonds and option bonds or certificates; they are therefore permitted as acquirable assets for the company). Units in investment funds are not acquired for the fund. The fund is thus eligible as a target fund. Depending on the situation on the financial markets, the fund may also, in the short term, hold up to 40% of its cash and cash equivalents or invest in similar assets.
- The fund is not focused on any specific geographical area, industry or sector.
- The selection of individual securities is made by the fund management. The fund may use derivative transactions to reduce potential losses or to achieve higher capital gains.
- The income may be paid out to you.
- You may fundamentally demand the redemption of your units from the management company on any trading day.
- The Management Company may, however, suspend redemption if exceptional circumstances make this appear necessary, taking into account the interests of the investors.
- The fees for the acquisition and sale of securities are borne by the fund. They are incurred in addition to the percentage rates listed under Costs and they may reduce the returns generated by the fund.
- This fund is an actively managed fund that does not follow a benchmark.

Risk and income profile

The following risks do not affect the rating directly, but may however be of importance to the fund:

- The Fund LOYS Sicav – LOYS Global has been categorized 6, because its net asset value shows its share price fluctuates strongly and therefore both risks of loss and opportunities for gain are clearly pronounced.
- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may shift over time.
- Even a fund classified in category 1 is not a completely risk-free investment.
- A detailed description of the risks can be found in the section „GENERAL RISK INFORMATION“ of the sales prospectus.
- Operational Risk: The Fund may be exposed to significant operational risks, such as processing errors, misconduct, communications failures or misunderstanding on the part of those involved in fund management and administration.
- Derivate Risk: Derivatives, especially when used to seek higher gains or to speculate on price movements, can expose the Fund to additional risk of loss.
- Liquidity risks: The fund can invest part of its assets in papers for which no buyer can be found in the short term due to the size of the company or the low trading volumes. This can increase the risk that the Fund may have to suspend the redemption of its shares.
- Counterparty Risk: The Fund's transactions with counterparties may be significant, increasing its exposure to losses if a counterparty becomes unable to meet its obligations to the Fund.

Costs

The ongoing management and custody of the fund's assets and the marketing of fund units are financed through fees and other costs. Costs incurred reduce the investor's opportunities to obtain income.

One-off costs incurred before and after investment:		The one-off costs constitute a maximum sum that can be deducted from your investment before you invest / before your returns are paid out.
Sales commission	5 %	
Redemption commission	None	
Exchange commission		The sales commission / redemption commission given here is a maximum amount. It may be lower in individual cases. To find out what sum applies to you, ask the marketer of the fund's units.
None		
Costs that are deducted from the fund in the course of the year:		
Ongoing costs	1,79 %	
Costs that are borne by the fund under particular circumstances:		
Fees connected with the performance of the fund (performance fee)	In the fund's last fiscal year, these were 0,33 %.	The current expenses stated here were incurred in the fund's last fiscal year, which ended in December. They can fluctuate from year to year.
The amount of the performance fee is 10 % of the absolute increase in the net asset value per unit, per accounting period -annually.		These costs do not include fees for the acquisition / sale of securities (portfolio transaction costs) or costs for fees connected with the fund's performance.

More detailed information on the costs can be found in the "Costs" section of the sales prospectus. The ongoing costs do not include the performance-based remuneration or the transaction costs.

Previous performance

Past performance is not a guarantee for future performance. In the calculation, all costs and fees were deducted with the exception of the sales. The unit class shown has been active since 30/12/2011. The previous performance was calculated in EUR.
