## OSSIAM BLOOMBERG JAPAN PAB NR

UCITS ETF 1C (EUR) | ISIN: LU1655103643

**Manufacturer:** Ossiam, part of the Natixis group of companies · **Regulator:** Autorité des Marchés Financiers (AMF) · **Contact:** www.ossiam.com | +33 1 84 79 42 70

This product is authorised in Luxembourg and is regulated by the Commission de Surveillance du Secteur Financier (CSSF) in respect of this Key Information Document.

### 1. What is this product?

**Product Type:** The Fund is a passively managed Undertakings for Collective Investments in Transferable Securities (UCITS) ETF under Luxembourg law in the form of a sub-fund of a Société d'Investissement à Capital Variable (SICAV).

**Maturity:** This product has no specific maturity date. However, this product may be dissolved or merged, in which case you will be informed by any appropriate means provided for by the regulations.

**Objectives:** The OSSIAM BLOOMBERG JAPAN PAB NR Fund (the "Fund") aims to replicate, before fees and expenses charged to it, the performance of the Bloomberg PAB Japan Large & Mid Cap Net Return Index (the "Index") at the close of business. The Sub-Fund is a financial product which, in accordance with Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on the publication of sustainability information in the financial services sector (the "SFDR Regulation"), promotes the reduction of carbon emissions through replication of the Index. The Index is a Bloomberg index of global equities aligned with the Paris Agreement, which aims to provide: (i) relative decarbonisation, with a long term return, by investing in a portfolio of equities seeking a 50% reduction in greenhouse gas (GHG) intensity relative to its parent index, namely the Bloomberg Japan Large & Mid Cap EUR Index (the "Parent Index"), and (ii) self-decarbonisation, with an average reduction in GHG intensity of at least 7% per year. The Index is expressed in yen (JPY). Under normal conditions, the tracking error measured over one year is expected to be 1.00%. The Index is calculated and published by Bloomberg (the "Index Provider"). For a detailed description of the Index, see "Description of the Index" in the Prospectus.

**Investment Policy:** In order to achieve its investment objective, the Fund will primarily invest, through physical replication, in all or part of the equity securities comprised in the Index and in substantially the same weights as in the Index (the "Investable Universe") The Fund invests in equity securities, equity rights and depositary receipts, which constitute the eligible assets. The Fund excludes from the Investable Universe companies that meet exclusion criteria baseline or activity exclusion, as defined in the Index Provider's methodology (e.g., violation of the United Nations Global Compact principles). The remaining eligible companies will be weighted following an optimisation process applied at each rebalancing with the underlying objective to minimize the ex-ante tracking error relative to the parent index under constraints such as decarbonisation trajectory in line with PAB regulation. The requirements of the EU Taxonomy "Do no Significant Harm" principle shall also be respected.

**SFDR Category:** Article 8

**Allocation of distributable amounts:** Capitalization.

**Intended Investors:** Investors who understand the Fund's risks and plan to invest for the long term (minimum 5 years). The Fund is aimed at investors who : (i) are looking for a growth-oriented investment with a sustainable investment approach, (ii) are interested in exposure to Japanese equity markets, either for core investment or diversification purposes, (iii) have a high risk profile and can withstand substantial losses. The shares of this Fund have not been registered under the "US Securities Act of 1933" and may not be offered or sold directly or indirectly for the account or benefit of a "U.S. Person" as defined by US "Regulation S" and/or the "Foreign Account Tax Compliance Act".

In view of the provisions of EU Regulation No. 833/2014 and EU Regulation 2022/398 the subscription of shares in this Fund is prohibited to any Russian or Belarusian national, any natural person residing in Russia or Belarus or any legal person, entity or body established in Russia or Belarus except nationals of a Member State and natural persons holding a temporary or permanent residence permit in a Member State.

**Depository:** State Street Bank International GmbH, Luxembourg Branch

### 2. What are the risks and what could I get in return?

#### Risk Indicator

The risk indicator assumes that you hold this product **for 5 years**. The real risk may be very different if you opt to exit before maturity, and you may get less in return. The risk indicator allows you to assess the level of risk of this product compared with others. It indicates the probability of this product incurring losses in the event of market movements or our inability to pay you.

We have classified the Fund in risk class 4, which is a medium risk class. In other words, the potential losses linked to the product's future results are at a medium level, and if the situation were to deteriorate on the markets, it is possible that our ability to pay you could be affected. The market liquidity risk could amplify the variation of product performances.

Beware of currency risk. If the sums paid to you are in another currency, your final profit will depend on the exchange rate between the two currencies. This risk is not taken into account in the above indicator.

In addition to the risks included in the risk indicator, other risks may influence the Fund's performance. Please refer to the Fund's prospectus.

As this Product does not provide protection against the vagaries of the market, you could lose all or part of your investment.

## Performance Scenarios

		1 year	5 years (recommended holding period)
<b>Stress Scenario</b>	<b>What you might get back after costs</b>	EUR 5 842	EUR 3 130
	Average annual return	-41.6%	-20.7%
<b>Unfavorable Scenario</b>	<b>What you might get back after costs</b>	EUR 8 350	EUR 10 635
	Average annual return	-16.5%	1.2%
<b>Moderate Scenario</b>	<b>What you might get back after costs</b>	EUR 9 787	EUR 15 135
	Average annual return	-2.1%	8.6%
<b>Favorable Scenario</b>	<b>What you might get back after costs</b>	EUR 14 817	EUR 16 990
	Average annual return	48.2%	11.2%

The figures shown include all costs of the product itself, but not necessarily all fees due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you will receive.

What you will receive from this product depends on future market performance. Future market trends are random and cannot be accurately predicted. The unfavorable, moderate and favorable scenarios presented represent examples using the best and worst performances, as well as the average performance of the product over the last 10 years. Markets may evolve very differently in the future. The stress scenario shows what you could achieve in extreme market situations.

## 3. What happens if the Issuer is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the portfolio management company. In the event of the latter's default, the product's assets held by the custodian will not be affected. In the event of the custodian's default, the risk of financial loss to the product is mitigated by the legal segregation of the custodian's assets from those of the product.

## 4. What are the costs?

The person selling or advising you on this Fund may ask you to pay additional costs. If this is the case, they will tell you about these costs and show you how they affect your investment. Reduction in yield (RIY) shows the impact of the total costs you pay on the return on investment you could achieve. Total costs take into account one-off, ordinary and ancillary costs.

### Cost over time

	Total Cost	Impact on return (RIY) per year*
<b>If you cash in after 1 year</b>	EUR 18	0.2%
<b>If you cash in at the end of the recommended holding period</b>	EUR 139	0.3%

The tables show the amounts deducted from your investment to cover the various types of costs. These amounts depend on the amount you invest, the period of time you hold the product and the product's performance. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed :

- That in the first year you would get back the amount you invested (0% annual return). That for the remaining holding periods, the product evolves as indicated in the moderate scenario.

- EUR 10.000 invested

\*This illustrates the extent to which costs reduce your return annually over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per annum is expected to be 8.9% before deducting costs and 8.6% after deducting costs.

### Composition of costs

This table shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

			If you cash in after 1 year
<b>One-off costs</b>	<b>Entry costs*</b>	Up to 0.00% of the amount you receive when you enter the investment.	EUR 0
	<b>Exit costs*</b>	Up to 0.00% of the amount you receive when you exit the investment.	EUR 0
<b>Ongoing costs</b>	<b>Portfolio transaction costs</b>	0% of the value of your investment per year.	EUR 0
	<b>Other ongoing costs</b>	0.19% of the value of your investment per year.	EUR 19
<b>Incidental costs</b>	<b>Performance fees</b>	There is no performance fee for this product.	---
	<b>Carried interests</b>	There is no carried interest for this product.	---

\* Secondary Market: because the Fund is an ETF, Investors who are not Authorized Participants will generally only be able to buy or sell shares on the secondary market. Accordingly, investors will pay brokerage fees and/or transaction costs in connection with their dealings on stock exchange(s). These brokerage fees and/or transaction costs are not charged by, or payable to, the Fund nor the Management Company but to the investor own intermediary. In addition, the investors may also bear the costs of "bid-ask" spreads; meaning the difference between the prices at which shares can be bought and sold.

Primary Market: Authorized Participants dealing directly with the Fund will pay related primary market transaction costs.

## 5. How Long should I hold it and can I take my money out earlier?
