What is this product?

Type

The product is a share of the US Value Equity sub-fund (the “sub-fund”) which is part of Popso (Suisse) Investment Fund SICAV (the “umbrella fund”), a “société d’investissement à capital variable” (SICAV) and authorised as an undertaking for collective investment in transferable securities (UCITS) under Part I of the Law of 17 December 2010 on undertakings for collective investment (the “Law of 2010”).

Term

The Fund has no maturity date. The Fund could be closed under the conditions set down in the current prospectus of the Fund.

Objectives

Investment Objective

The objective of the sub-fund (hereinafter, the “Fund”) is to obtain maximum capital gains in US dollars. Under the principle of risk diversification, the Fund will invest primarily in US companies.

Investment Policy

The Sub-fund must invest at least two thirds of its assets directly or indirectly in:

- equities and/or securities whose underlying instruments consist of equities, as well as in participation certificates or similar securities issued by companies whose registered office is in the United States;
- investment grade bonds and money market securities (up to 30% of its assets).

The remaining assets may be invested in securities issued by foreign companies, that are listed in the United States and/or in other financial markets, and/or in convertible bonds and bonds with embedded options.

The Fund may use complex financial instruments (e.g. derivatives). It may also invest up to 10% of its assets in other regulated investment funds.

The fund is actively managed. In order to calculate the performance-related fee the fund follows the benchmark S&P 500 Value Net USD Index. However, the Fund has freedom of choice concerning investments and their weighting. It is able to invest in assets included in the benchmark index, although is independent from it.

Share Class Policy:

Income is reinvested in the share class.

The Fund offers one share class.

Processing of subscription and redemption orders

Investors may buy or sell the Fund on any bank working day in Luxembourg.

Intended retail Investor

The fund is intended for retail and professional clients and eligible counterparties, who are seeking to build up capital across the various categories and who have a short-term investment horizon. This fund is intended for investors with some basic knowledge or experience of financial products. Investors should be able to bear financial losses and should not require any capital guarantees.

Depository

The custodian is State Street Bank International GmbH, Luxembourg Branch, 49, Avenue J.F. Kennedy, L-1855 Luxembourg.

Further Information

Please refer to the “Other relevant information” section below.

Unless otherwise defined in this document, all words and expressions defined in the Fund’s current prospectus shall have the same meaning herein.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose

money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. If you choose a foreign currency share class you will be exposed to currency risk and your final return will depend on the exchange rate between the foreign currency and your local currency. The risk is not considered in the indicator shown above.

You can find more information about the other risks in the prospectus at www.carnegroup.com.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		USD 10 000	
Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	USD 1 270	USD 1 320
	Average return each year	-87,30%	-33,30%
Unfavourable	What you might get back after costs	USD 8 140	USD 9 270
	Average return each year	-18,60%	-1,50%
Moderate	What you might get back after costs	USD 10 490	USD 13 830
	Average return each year	4,90%	6,70%
Favourable	What you might get back after costs	USD 13 900	USD 16 190
	Average return each year	39,00%	10,12%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between March 2022 and March 2023.

Moderate scenario: This type of scenario occurred for an investment between November 2014 and November 2019.

Favourable scenario: This type of scenario occurred for an investment between October 2016 and October 2021.

What happens if Carne Global Fund Managers (Luxembourg) S.A. is unable to pay out?

The assets and liabilities of the Sub-fund are segregated from those of the other sub-funds and from those of the manufacturer or the custodian. If the SICAV is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario

- USD 10 000 is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	USD 588	USD 2 282
Annual cost impact (*)	5,9%	3,3% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10,00 % before costs and 6,70 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2,00% of the amount you pay in when entering this investment. This is the maximum and in some cases you might pay less.	Up to USD 200
Exit costs	1,25% of your investment before it is paid out to you. This is the maximum and in some cases you might pay less.	USD 127
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2,23% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 223
Transaction costs	0,38% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 38
Incidental costs taken under specific conditions		
Performance fees (and carried interest)	There is no performance fee for this product.	USD 0

(*) For products with performance fees, the actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years. You may buy or sell shares in the product, without penalty, on any normal business day as further documented in the fund's documents. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares. If you cash in at an early stage this might increase the risk of lower investment returns or a loss.

How can I complain?
