

Invesco

Invesco Energy Transition Fund (the "Fund")

A sub-fund of Invesco Funds (the "Umbrella Fund")

Class A annual distribution - USD (ISIN: LU0482499067) (the "Share Class")

The Fund is managed by Invesco Management S.A., part of the Invesco Group.

Objectives and Investment Policy

- The objective of the Fund is to contribute towards the global transition towards lower-carbon sources of energy and achieve long-term capital growth.
- The Fund integrates a thematic and an environmental, social and governance (ESG) approach with a particular focus on environmental criteria.
- The Fund invests primarily in shares of companies worldwide which contribute positively to a transition to alternative energies (energy transition) and more efficient and sustainable energy usage across the economy.
- The Fund is managed using "quantitative methods". "Quantitative methods" are defined as mathematical, logical and statistical techniques used for stock selection purposes.
- The Fund selects companies that either are significantly exposed to energy transition and clean energy activities or, in the view of the investment manager, show potential to be leaders in supporting the transition to a low carbon economy.
- In order to assess the companies' exposure, key themes pertaining to energy transition are identified using Natural Language Processing (NLP) algorithms based on unstructured news data, in particular clean energy themes and energy transition and efficiency themes.
- NPL is a field of artificial intelligence which deals with the interaction between computers and humans with the aim to read, decipher and understand the human language in a manner that is valuable for the portfolio construction.
- Screening will be employed to exclude companies and/or issuers that do not meet the Fund's criteria on a range of other environmental and social metrics, including but not limited to the principal adverse impacts required to be considered pursuant to the applicable EU regulation and the level of involvement in activities such as (but not limited to) fossil fuel industries, activities related to coal or nuclear power, extraction of tar sands and oil shale, fracking or arctic drilling activities.
- Finally, the Fund will be constructed using a proprietary score together with a third party indicator that measures a company's ability to transition to a lower carbon economy, so that the final allocation will reflect an overweighting on companies with higher scores and an underweighting on those with lower scores.
- The Fund is actively managed and is not constrained by its benchmark, the MSCI World AC Index (Net Total Return), which is used for comparison purposes. However, the majority of the Fund's holdings are likely to be components of the benchmark. As an actively managed fund, this overlap will change and this statement may be updated from time to time.
- The Fund has broad discretion over portfolio construction and therefore securities, weightings and risk characteristics will differ. As a result, it is expected that over time the risk return characteristics of the Fund may diverge materially to the benchmark.
- Please refer to the Past Performance section below where a benchmark will be displayed if relevant.
- The Fund has a sustainable investment as its objective as covered under Article 9 of the Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector.
- You can buy and sell shares in the Fund on any Dealing Day (as defined in the Prospectus).
- Any income from your investment will be paid annually.

Risk and Reward Profile

- The Share Class is in risk category 6 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- The value of investments, and income from them, can go down as well as up and you may not get back the full amount you invested.
- The lack of common standards may result in different approaches to setting and achieving ESG objectives. In addition, the respect of the ESG criteria may cause the Fund to forego certain investment opportunities.
- Shares of companies are generally considered high risk investments and may result in fluctuations in the value of the Fund due to external factors.
- Return on your investment may be adversely affected by variations in exchange rates.
- The Fund may use Stock Connect to access China A Shares traded in Mainland China. This may result in additional liquidity risk and operational risks including settlement and default risks, regulatory risk and system failure risk.
- The Fund may use derivatives (complex instruments) in an attempt to reduce the overall risk of its investments or reduce the costs of investing, although this may not be achieved. The use of derivatives transactions may expose the Fund to counterparty risks that may result in losses to the Fund associated with the bankruptcy or insolvency of a counterparty.
- A more detailed description of risk factors that apply to this Fund is set out in Section 8 of the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	None
Any charges shown above are the maximum that might be taken out of your money before it is invested.	
Charges taken from the Share Class over a year	
Ongoing charge	1.35%
Charges taken from the Share Class under certain specific conditions	
Performance fee	None

- Any entry charge shown is a maximum figure. Where charges are shown, in some cases you might pay less; you can find this out from your financial adviser or distributor.
- As a result of the introduction of a material change in the fee structure, the ongoing charges figure is estimated based on the expected total of charges. This figure may vary from year to year. It excludes portfolio transaction costs except in the case of an entry or exit charge paid by the Fund when buying or selling shares/units in another fund.
- There is currently a discretionary cap on the ongoing charge of 1.35% in place. This discretionary cap may positively impact the performance of the Share Class.
- If you switch funds, you will pay a maximum switching charge of 1% on your new fund.
- In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund. These may have a material impact on your returns.
- For more information about charges please see Section 4, Section 9 and Appendix A of the Fund's Prospectus.

Past Performance

- Fund launch date: 01 February 2001.
 - Share Class launch date: 31 March 2010.
 - The base currency of the Fund is USD.
 - Past performance of the Share Class is calculated in USD.
 - Performance is calculated after deduction of ongoing charges, portfolio transactions costs and is inclusive of gross income reinvested. Any entry /exit charges shown are excluded from the calculation.
 - As the Fund is actively managed, it is not intended that the performance of the Share Class will track the performance of MSCI World AC (the "Benchmark"). Prior to 08.04.2021, the performance of the Share Class was compared to another benchmark: MSCI World Energy Index (Net Total Return).
 - Past performance is not a guide to future performance.
- The performance shown in the chart prior to 08.04.2021 was based on an objective and investment policy that no longer applies. For further details, please see www.invesco.com/managementcompany.lu.

Practical Information

- Depository: The Bank of New York Mellon SA/NV, Luxembourg Branch.
- The Luxembourg tax regime may have an impact on your personal tax position and there may be tax implications in your country of residence and/or origin.
- Invesco Management S.A. may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.
