INFORMATION ON THE MAIN REPRESENTATIVE OFFICES ABROAD

The information documents concerning the Fund, including the articles of incorporation, the complete prospectus and the Key Information Documents (KIDs), the annual reports, including audited financial statements and unaudited semi-annual reports and the statement of changes in investments for the year referring to this report are available free of charge at the registered office of the Fund, 287-289, route d'Arlon, L-1150 Luxembourg and at the office of the following financial intermediaries:

- General distributor, marketing agent, representative and paying agent in Switzerland

Union Bancaire Privée, UBP SA, 96-98, rue du Rhône, P.O. Box 1320, CH-1211 Geneva 1
Tél: + 41 (0) 58 819 21 11

Payment services, execution place and jurisdiction place are established, for the shares offered in Switzerland, in the place here-above mentioned.

Supplementary information concerning the offering of the different types and classes of shares of the Fund in Switzerland are specified in the prospectus and the Key Information Documents (KIDs).

The Articles of Incorporation, the prospectus, the KIDs (for Switzerland) and the annual and semi-annual reports can be obtained free of charge at the representative's premises in Switzerland.

Information in Switzerland concerning the Fund are published on the electronic platform Swiss Fund Data (www.swissfunddata.ch). The subscription and redemption prices of the shares of the different sub-funds are daily published on this electronic platform at the time of each issue and redemption.

Investors liable to a tax in Switzerland are hereby informed that transactions made on the Fund's shares may be subject to a different tax treatment depending on the canton in which the investor is taxed. Potential investors in the Fund's shares must nevertheless inquire about the legislation and rules applicable to the acquisition, holding, selling and redemption of shares, in the light of their place of residence.

Additional information for Swiss investors regarding the payment of retrocessions and rebates in accordance with the Code of Conduct of 5 August and 23 September 2021 of the Asset Management Association Switzerland (AMAS) - (marginal numbers 127 to 141) :

The Fund and its agents may pay retrocession to finance the distribution and marketing activities of the shares in the Fund in Switzerland. In addition, the Fund and its agents may directly pay rebates to investors, upon request, within the framework of the distribution in Switzerland. The purpose of these rebates is to reduce the investment-related costs borne by the investors (e.g. management fee). Rebates are permitted upon certain conditions. Investors are kindly requested to read the Fund's latest prospectus for more information regarding the payment of retrocessions and rebates (annex "Information for Swiss investors" of the prospectus).

Report of the Board of Directors

I. MANAGER'S REPORT

1. REVIEW OF THE MARKETS

Robust economic activity and inflation more persistent than expected

The world economy grew by an estimated 2.8% in 2023, and so was more resilient and buoyant than expected, particularly given the very rapid monetary tightening carried out by central banks in their fight against inflation.

In the United States, growth was 2.5%, far outpacing that of other developed countries. However, US domestic activity was volatile: weak in the second quarter but stronger in the second half of the year. Consumer spending and certain investment-driven sectors continued to show good momentum, helping to avoid a recession. Strong job creation, rising wages and lower energy prices underpinned household demand, particularly for services. The IRA and the CHIPS Act provided strong support for investment, partly via companies reshoring activities to the US.

Relations between China and the US remained tense, with new restrictions on bilateral trade introduced in strategic sectors such as electronic components. China's reopening at the start of the year brought major hopes for growth, both in Asia and worldwide. However, bankruptcies in China's real-estate sector dragged down consumer spending and investment. This forced the authorities to provide targeted support to certain participants in the real-estate sector and adopt measures to stimulate consumer spending. Growth stabilised at the end of the year, but confidence in the manufacturing sector remained depressed. Meanwhile, India's output was boosted by production being relocated there from China, and by high levels of infrastructure investment.

The eurozone economy stagnated for several quarters. On the plus side, rapid declines in oil and gas prices, despite the ongoing conflict in Ukraine, provided some welcome support to economic activity. The jobs market remained firm and, together with government aid to help households cope with the initial surge in energy prices, this supported consumer demand for services. However, demand for manufactured goods was much weaker. Manufacturing activity saw large swings, particularly in the automotive sector, due to supply-chain problems. There were also wide variations between countries, with Germany flirting with recession while Spain achieved average growth of more than 2%.

Inflation slowed sharply in 2023, although at different rates in different countries, and there were often large discrepancies between overall and core inflation. Lower energy prices were good news for inflation, which fell to 3% in the US at the end of the year, around 2.5% in the eurozone and below 4% in the UK. Inflation in industrial goods prices also fell as supply chains returned to normal and commodity prices moderated. However, inflation remained high in services because wages continued to see upward pressure in some sectors while demand remained firm.

One key feature of 2023 was the resilience of the jobs market in developed countries. Although unemployment rates rose slightly in the second half, job creation remained strong. US wage growth started to slow mid-year. In Europe, after a lag, wages followed the rise in prices and several sectors were still experiencing rapid wage growth at the end of the year.

To combat inflation, central banks tightened their monetary policies sharply, taking them into restrictive territory. The Fed raised rates from 4.50% to 5.50%, the ECB from 2% to 4%, the Bank of England from 3.5% to 5.25% and the SNB from 1% to 1.75%. At the same time, some central banks reduced the size of their balance sheets by no longer reinvesting coupons received on their bond holdings. China and Japan were the exceptions. The Bank of China injected liquidity on numerous occasions and cut both its official interest rates and the reserve requirement ratio for banks in order to stabilise the real-estate sector and support consumer spending. The Bank of Japan maintained its accommodative monetary policy but loosened its grip over long bond yields during the year, allowing the 10-year yield to rise towards 1%.

The first quarter of the year brought a banking crisis in the US and the disappearance of Credit Suisse. Several US regional banks had to close during the spring. First, Silicon Valley Bank and Silvergate Bank, both heavily exposed to the tech sector and cryptocurrencies, were caught up in a wave of panic and saw large-scale withdrawals in early March. As a result, these banks were forced to sell their bond holdings, which had fallen in value because of the rise in interest rates. The crisis then spread to Signature Bank and First Republic, which were the subject of fire sales to New York Community Bank and JPMorgan Chase respectively. The Fed and the Treasury Department took extraordinary measures to guarantee the deposits of these failed banks and put in place emergency loans to provide liquidity to US financial institutions. The crisis clearly accelerated the loss of confidence in Credit Suisse, which in the end suffered a bank run and was no longer able to refinance its liabilities by itself. In the space of a weekend, the Swiss authorities were forced to take action and announce Credit Suisse's takeover by UBS, which received extensive government guarantees, in order to restore confidence in global markets. Despite the systemic risks related to this crisis, central banks did not waver from their commitment to raising rates.

Very large movements in interest rates

From February, economic data showed stronger-than-expected economic output and inflation in both the US and Europe, and this gave rise to very rapid increases in both short- and long-term interest rates. After yields saw a near-record decline during the banking crisis in March, they quickly reverted to their upward trend, which stayed in place until mid-October. Higher yields were driven mainly by the prospect of central-bank official rates remaining high because of persistent inflation and the fading risk of recession in the US. Growing public-sector deficits in the US, Fitch's move to downgrade its credit rating on US sovereign debt and the expected change in Japanese monetary policy also played a part. US 10-year yields briefly rose above 5% in October for the first time since 2007, having started the year at 3.9%. Then, lower-than-expected inflation figures and the cooling US labour market led to renewed expectations of a pivot by the US Federal Reserve. This caused yields to fall again during the last two months of the year, taking the long end of the curve very close to early-2023 levels in the US and UK, and even lower in the eurozone. As a result, having spent most of 2023 in negative territory, returns from sovereign bonds turned positive at the very end of the year. US government debt returned 3.9% in 2023 as a whole. Returns were similar in the UK (+3.6%) but higher in the eurozone (+6.7%) and even more so in Switzerland (+12.2%).

Report of the Board of Directors

Credit spreads widened sharply during the banking crisis, but gradually tightened again over the following months. As a result, high-yield paper (+13.4% in dollars and +12.0% in euros) and the external debt of emerging-market countries (+11.1%) posted double-digit returns over the year as a whole. Investment-grade corporate bonds returned around 8%.

Sharp rises for the Swiss franc and gold

Volatility in the forex market remained relatively low. The Swiss franc was one of the strongest currencies in 2023, rising 10% against the dollar and 7% against the euro. In its December meeting, the SNB sent a message that the franc had risen enough, taking into account its inflation target. Against a basket of other major currencies, the dollar ended the year almost unchanged.

It rose sharply between mid-July and end-October because of the US economy's resilience, before losing ground at the end of the year due to the growing likelihood that official interest rates would be cut several times in 2024. In the end, the euro (+3%) and sterling (+5%) rose against the dollar in 2023, while the yen fell 7% as Japan's central bank maintained its ultra-loose monetary policy. In terms of emerging-market currencies, the Mexican peso (+15% against the dollar) and Brazilian real (+9%) were boosted by their high interest rates. In Europe, the Polish zloty (+8% against the euro) was particularly in demand.

Most commodity prices fell in 2023, with oil down 10% and natural gas in Europe down 58%. Despite the post-Covid recovery in China, base metals were down 5% on average in 2023, although the copper price rose 2%. The economic and geopolitical environment was clearly helpful for gold, which rose by 13% during the year and hit a new all-time high in December.

Equity markets: exceptional performance in some segments

After big losses in 2022, which caused investors to start 2023 in a very depressed mood, equity markets rallied strongly last year: the MSCI AC World index gained 21.6% in local-currency terms, net dividends reinvested. Markets did not rise in a straight line: there were corrections of around 7% during the banking crisis and 10% between August and October, mainly caused by the sharp rise in long bond yields and the eurozone's deteriorating economic outlook. The last two months of the year brought an impressive rally, due to growing hopes that the US economy would see a soft landing and that 2024 would see a number of official rate cuts. The artificial intelligence theme prompted much excitement among investors from spring onwards, and this clearly contributed to the exceptional performance of the "Magnificent Seven", which saw their share prices double on average during the year. They accounted for over half of the rise in the S&P 500, which delivered a net return of 26%. The Japanese market did even better, with the MSCI index posting a 28.6% gain, helped by the decline in the yen. In Europe, eurozone markets rose 18.8% on average, significantly outperforming the UK (+7.7%) and Switzerland (+5.3%). The Swiss market was held back by the mediocre performance of its blue-chip stocks. A number of emerging markets delivered very strong gains. In Latin America, they included Mexico (+41% in dollars) and Brazil (+33%), and in Asia, Taiwan (+30%), South Korea (+23%) and India (+21%). However, with a decline of 11%, the Chinese market was one of the year's big losers.

To achieve outperformance, investors had to be exposed to the tech (+51.1% globally), communication services (+37.8%) and consumer discretionary (+29.1%) sectors; those same sectors had declined by around 30% in 2022. The utilities (-0.6%), consumer staples (+1.0%), healthcare (+2.6%) and energy (+3.7%) sectors brought up the rear, while the financial sector only slightly underperformed (+14.7%), helped by the good performance of European banks (+20%).

2024 OUTLOOK: moderate global growth

The world economy should see moderate growth of just under 3% in 2024. Disparities between developed and emerging-market countries are likely to remain significant, but the economic cycle is expected to become gradually more positive in G7 countries.

Among developed countries, the US is likely to see growth in excess of the OECD average. US growth is expected to slow due to the delayed impact of the monetary tightening that has taken place in the last two years. Nevertheless, it should rebound to around 2% by the end of 2024 as investment recovers and consumer spending stabilises. The European economy is likely to remain sluggish in the first half, particularly in Germany, but growth should also recover slowly in the second half. Japanese growth is likely to be moderate, supported by fiscal support measures.

Despite its real-estate crisis, China should see growth stabilise at around 4.5%. Steps taken in late 2023 to support the real-estate sector will eventually have a positive impact on growth. Among emerging-market countries, India and certain Latin American countries are likely to post relatively strong growth rates.

Inflation should continue to decline during 2024, moving close to central-bank targets in Europe and the US. The disinflation process was boosted in 2023 by the fall in energy prices and, at the end of the year, by lower prices of certain manufactured goods. That process should also become more pronounced in the service sector in the next few quarters, allowing both overall and core inflation to fall towards 2.5% in the US. In Europe, inflation could drop below 2% in the middle of the year, barring a further shock in energy prices. However, wages and service prices could remain volatile in Europe. In developed countries, tension in jobs markets is likely to fade and unemployment rates should rise gradually.

After numerous rate hikes in 2022 and 2023, monetary policies will be loosened in 2024, with rate cuts likely to start at the end of the second quarter in the US, followed by more widespread reductions in the second half. The contraction in central-bank balance sheets should continue in 2024, but central banks are expected to provide more details on this, and particularly on the optimal level of banks' surplus reserves.

U ACCESS

Report of the Board of Directors

Budget deficits will remain large in 2024, due in particular to heavy investments in strategic industrial sectors and those connected with climate transition. Overall, assuming moderate economic growth, deficits will remain close to their 2023 levels. Debt/GDP ratios should rise again in 2024 in most countries, pushing up debt servicing costs.

Geopolitical risks will remain high, with numerous elections scheduled for 2024, including the US presidential election. Armed conflicts begun in recent years could also have a major impact on the scenario.

REPORT OF THE *REVISEUR D'ENTREPRISES AGRÉÉ*

Opinion

We have audited the financial statements of U ACCESS (the "Fund") and of each of its sub-funds, which comprise the statement of net assets and the statement of investments and other net assets as at December 31, 2023 and the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at December 31, 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of July 23, 2016 on the audit profession (Law of July 23, 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the *Commission de Surveillance du Secteur Financier* (CSSF). Our responsibilities under the Law of July 23, 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the *réviseur d'entreprises agréé* for the Audit of the Financial Statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the *réviseur d'entreprises agréé* thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the Financial Statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the *réviseur d'entreprises agréé* for the Audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the *réviseur d'entreprises agréé* that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law dated July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law dated July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the *réviseur d'entreprises agréé* to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the *réviseur d'entreprises agréé*. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

For Deloitte Audit, *Cabinet de révision agréé*

Virginie Ng Wing Lit-Boulot, *Réviseur d'entreprises agréé*

Other notes to the financial statements

U ACCESS

Other notes to the financial statements

1 - General information

U ACCESS (hereinafter the "Fund") is a variable capital investment company incorporated in Luxembourg on 7th August 2014 in accordance with part I of the amended law of 17th December 2010 relating to undertakings for collective investment in transferable securities, (the "2010 Law"). The Articles of incorporation of the Fund were filed with the Luxembourg district Court Registry and published in the Luxembourg *Mémorial C, Recueil des Sociétés et Associations* on 21st August 2014.

The Fund is structured as an umbrella fund to provide its shareholders with a variety of sub-funds to which a specific investment objective, investment policy, reference currency and other specific features particular to each sub-fund apply.

UBP Asset Management (Europe) S.A. (the "Management Company") has been appointed as the Management Company of the Fund. It was incorporated on 17th May 2013 for an indefinite period under the laws of the Grand Duchy of Luxembourg and is licensed as an authorised management company under the chapter 15 of the 2010 Law. The Management Company is in charge of the management, administration and distribution of the Fund.

As at 31st December 2023, the following sub-funds are active:

- U ACCESS - BEST SELECTION CHINA A
- U ACCESS - CHINA CONVERTIBLE BOND
- U ACCESS - CHINA EURO CREDIT OBIETTIVO 2028
- U ACCESS - GLOBAL CREDIT 2024
- U ACCESS - GLOBAL CREDIT 2025
- U ACCESS - GLOBAL CREDIT 2026
- U ACCESS - GLOBAL LIQUID CREDIT STRATEGY
- U ACCESS - LONG / SHORT JAPAN CORPORATE GOVERNANCE
- U ACCESS - UBP FLEXIBLE LEADERS

Types of shares

Within each sub-fund, shareholders may be offered various Types of Shares:

- Type A shares;
- Type I shares, reserved exclusively for institutional investors who may subscribe on their own behalf or on behalf of third parties, who must also be institutional investors.
- Type I+ shares, reserved exclusively for institutional investors who may subscribe on their own behalf or on behalf of third parties, who must also be institutional investors. These shares will be subject to a lower Management Fee and will not have any marketing or general distributor fees. For this Type I+, the minimum initial subscription amount is:
 - for U ACCESS - LONG / SHORT JAPAN CORPORATE GOVERNANCE, USD 30 million or equivalent
- Type U shares are only available for:
 - investors who need to be pre-approved by the Fund's Board of Directors and who purchase the Shares indirectly through a financial intermediary (such as a fund platform or wealth management firm) which provides either:
 - (i) portfolio management services; or
 - (ii) independent investment advisory services; or
 - (iii) similar services based on agreements specifically providing for investment in retrocession-free share or unit classes;
 - investors in the United Kingdom, the Netherlands and such other countries as may be decided by the Fund's Board of Directors from time to time who purchase the Shares directly;
 - other investors having received a specific approval given by the Fund's Board of Directors.These Shares do not entitle to any retrocessions. The Class U Shares are retail distribution review (RDR) compliant.
- Type R shares;
- Type K shares, which are reserved for investors in the United Kingdom, the Netherlands and such other countries as may be decided by the SICAV's Board of Directors and who have received specific approval given by the Fund's Board of Directors. K shares do not entitle to any retrocessions.
- Type Y shares, reserved for institutional investors who have signed a specific cooperation agreement with Union Bancaire Privée, UBP SA or with any other member of the UBP Group;
- Type Z shares, which are reserved for institutional investors who have signed a specific remuneration agreement with Union Bancaire Privée, UBP SA or with any other member of the UBP Group.

For some new sub-funds, certain Types of shares with reduced fees may be offered to early investors. These Types of shares will then include the letter "E" in their denomination. Their availability will be at the discretion of the Fund's Board of Directors and will not entitle to any retrocessions, unless otherwise exceptionally authorized by the Fund's Board of Directors. However, and in any event, Type U (including Type UE) Shares will not entitle to any retrocessions.

Shares with performance fees

The Types of shares which include the letter "P" in their name bear a performance fee.

Shares in currencies other than the sub-fund's Base Currency

Shares in currencies other than the Base Currency of each sub-fund may be offered. These Shares bear all exchange-related costs concerning the subscription price and/or redemption price respectively received or paid in the sub-fund's Base Currency, costs relating to the calculation of the Net Asset Value and any related costs. Depending on the sub-fund, the currency risk for these Shares may or may not be hedged. The hedged Shares are covered largely by hedging transactions.

Other notes to the financial statements

1 - General information

The objective of the hedging transactions is to cover the exchange-related risks between the Base Currency of a sub-fund and the share's currency. All the costs and risks resulting from hedging transactions will be borne by the Shares denominated in these currencies respectively. Currency hedged Shares include the letter "H" in their denomination.

Capitalisation or Distribution Shares

For all the sub-funds, each Type of Shares may be issued in distribution Shares (including the letter "D") or capitalisation Shares (including the letter "C"). As a general rule for distribution Shares, the Fund distributes all net income from investments as annual dividends. The dividends may be paid on income, capital gains and losses and the capital of the sub-fund provided that after distribution, the Fund's net assets exceed the minimum capital required by the 2010 Law. However, if the amount available for distribution is less than the equivalent of EUR 0.05 per share, no dividend will be declared and the amount will be carried forward to the next financial year.

The Board of Directors of the Fund may decide, for some Sub-Funds, to distribute a semi-annual ("Ds"), quarterly ("Dq") or monthly ("Dm") dividend. For these semi-annual, quarterly and/or monthly dividends, the dividend may exceed the net income.

The Board of Directors of the Fund reserves the right to determine the Types and Classes of Shares that will be issued for each sub-fund.

2 - Principal accounting policies

2.1 - Presentation of the financial statements

The financial statements are prepared in accordance with legal and regulatory requirements relating to undertakings for collective investment in transferable securities and generally accepted accounting principles in Luxembourg.

2.2 - Portfolio valuation

The value of cash at hand or in deposits, bills and notes payable on sight and accounts receivable, accrued expenses, dividends and interest announced or accrued but not yet received, is based on the nominal value of such assets, unless it is unlikely that this value may be received; in this last case, the value is determined by deducting a certain amount as deemed appropriate by the Fund in order to reflect the actual value of such assets.

The valuation of any security traded on a regulated market is based on the closing price. Where securities held in the portfolio are not traded or listed on a stock exchange or another regulated market, or where the price determined in respect of securities listed or traded on a stock exchange or another regulated market is not representative of the real value of those securities, such securities are valued on the basis of realisable value estimated with caution and in good faith by the Board of Directors of the Fund.

If such price is not representative of the fair market value of such assets, then the price shall be determined by the SICAV on a fair and equitable basis or at their last unofficial net asset values (i.e. estimates of net asset values) as determined by the Board of Directors or its delegates, provided that due diligence has been carried out by the Board of Directors or its delegates, in accordance with instructions and under the overall control and responsibility of the Board of Directors, as to the reliability of such unofficial net asset values. The net asset value calculated on the basis of unofficial net asset values of the target UCI may differ from the net asset value which would have been calculated, on the relevant NAV Date, on the basis of the official net asset values determined by the administrative agents of the target UCI. The net asset value is final and binding notwithstanding any different later determination.

2.3 - Net realised profits or losses on sales of investments

The net realised gain/loss on securities portfolio are determined on the basis of the average cost of the securities sold and are recorded in the Statement of operations and other changes in net assets.

Other notes to the financial statements

2 - Principal accounting policies

2.4 - Foreign currency translation

Bank balances, other net assets and liabilities and the market value of the securities portfolio expressed in currencies other than the base currency of the sub-fund are converted into this currency at the exchange rate prevailing at the closing date. Income and charges expressed in currencies other than the base currency of the sub-fund are converted into this currency at the exchange rate prevailing on the date of the transaction. Net realized gain and loss on foreign exchange are recorded in the statement of operations and other changes in net assets.

In each sub-fund, the cost of acquiring securities denominated in another currency than the base currency of the sub-fund is converted into this currency at the exchange rate on the date of purchase.

The acquisition cost of the Fund's securities portfolio is equal to the sum of the acquisition costs of the securities portfolio of each sub-fund, converted into USD at the exchange rate prevailing at the closing date.

The following exchange rates were used by the Fund as at 31st December 2023:

1 USD =	0.84162	CHF	1 USD =	7.12063	CNH	1 USD =	7.0922	CNY
1 USD =	6.74834	DKK	1 USD =	0.90526	EUR	1 USD =	0.78446	GBP
1 USD =	7.80858	HKD	1 USD =	140.97999	JPY	1 USD =	10.07785	SEK

2.5 - Combined financial statements

The various items appearing in the combined financial statements of the Fund are equal to the sum of the corresponding items in the financial statements of each sub-fund and are drawn up in USD.

Opening net assets are maintained at the closing exchange rate of the previous year. Exchange differences arising are included in the combined statement of operations and other changes in net assets for the year under "Reevaluation of opening combined NAV".

2.6 - Valuation of options

Option contracts outstanding at the closing date are valued at the last known price on the stock exchanges or regulated markets for that purpose. Net realised profits or losses and net variation of the unrealised appreciation or depreciation are disclosed in the Statement of operations and changes in net assets.

2.7 - Valuation of forward foreign exchange contracts

Forward foreign exchange contracts that have not matured on the valuation date are valued on the basis of the forward rates applicable on that date. Net unrealised profit or loss are disclosed in the Statement of net assets. Net realised profit or loss and movement in net unrealised appreciation or depreciation are disclosed in the Statement of operations and changes in net assets.

For the details of outstanding forward foreign exchange contracts, please refer to section "Notes to the financial statements - Schedule of derivative instruments".

2.8 - Valuation of financial futures

Futures contracts are posted off-balance sheet and valued at their last known price on the stock exchanges or regulated markets for that purpose. The unrealised profit or loss is disclosed in the statement of net assets. Realised profits or losses and movement in net unrealised appreciation or depreciation are disclosed in the Statement of operations and changes in net assets.

For the details of outstanding Futures contracts, please refer to section "Notes to the financial statements - Schedule of derivative instruments".

2.9 - Valuation of Contracts for Difference ("CFD")

Contract for Difference ("CFD") is a bilateral agreement between buyer and seller to pay the difference between opening and closing value of the underlying security in cash when the contract is terminated. CFD is valued based on the closing market price of the underlying security, less any financing charges attributable to each contract. Upon entering into Contract for Difference, the Fund may be required to pledge to the broker an amount of cash and/or other assets equal to a certain percentage of the contract amount ("initial margin"). Subsequently, payments known as "variation margin" are made or received by the Fund periodically, depending on fluctuations in the value of the underlying security. During the year the contract is open, changes in the value of contract are recognised as unrealised gains and losses by marking to market at each valuation date in order to reflect the value of the underlying security.

Other notes to the financial statements

2 - Principal accounting policies

2.9 - Valuation of Contracts for Difference ("CFD")

Realised gains or losses upon closure of the contract are equal to the difference between the value of the contract at the time it was opened including financing charges and the value at the time it was closed. Dividends receivable and payable attributable to open Contract for Difference are recorded under "Dividend receivable and dividend payable" in the Statement of net assets and under "Net realised profit / loss on CFD" in the Statement of operations and changes in net assets. Dividends receivable on CFD amount to 82,859.27 USD and Dividends payable on CFD amount to 88,507.60 USD for the sub-fund U ACCESS - LONG / SHORT JAPAN CORPORATE GOVERNANCE.

For the details of outstanding contracts for difference, please refer to section "Notes to the financial statements - Schedule of derivative instruments".

2.10 - Valuation of swaps

Swap contracts are posted off-balance sheet and their values are determined each day on a reliable basis and verified by a competent professional appointed by the Fund (the calculation is done through the system Kondor, fed by the data coming from the independent provider "ICAP"), in line with market practices. Resulting net unrealised gain or loss are disclosed in the statement of net assets. Net realised gain or loss and movement in net unrealised appreciation or depreciation are disclosed in the statement of operations and changes in net assets.

Valuation of CDS (Credit Default Swaps) contracts is essentially depending on the issuer's credit risk, this being defined via a spread listed in basis points.

The interests to be received and to be paid on swap contracts are accrued at each net asset value calculation according to their rate, the coupon payments frequency and the maturity date of the contracts.

For the details of outstanding swap contracts, please refer to section "Notes to the financial statements - Schedule of derivative instruments".

2.11 - Dividend and interest income

Dividends are accounted net at the ex-date. Interests are accounted net on a prorata temporis basis.

2.12 - Formation expenses

Expenses in connection with the incorporation of the Fund, if any, are amortised on a straight line basis over five years period.

2.13 - Transaction fees

The transaction fees, i.e. fees charged by the brokers for securities transactions and similar transactions, are recorded separately in the Statement of operations and changes in net assets under the caption "Transaction fees". This caption also includes transaction fees paid to the Management Company.

3 - Placement fee

For the sub-fund U ACCESS - EURO CREDIT OBIETTIVO 2028, especially for RC and RD shares, a redemption charge, paid to the sub-fund to protect remaining investors for the portion of the Placement Fee not yet amortised, is levied depending on the timing of the redemption.

For the sub-fund U ACCESS - UBP FLEXIBLE LEADERS, especially for R1C shares, a redemption charge, paid to the sub-fund to protect remaining investors for the portion of the Placement Fee not yet amortised, is levied depending on the timing of the redemption.

4 - Management fees

UBP Asset Management (Europe) S.A., the Management Company, is in charge of the investment management of the Fund and its sub-funds.

At its costs and under its responsibility and supervision, the Management Company may appoint one or more third parties of its choice to fulfil all or part of its duties linked to investment management of the sub-funds.

The Management fee will enable the Management Company to remunerate the Managers in consideration of their services.

Currently, Z shares are only active in the sub-funds U ACCESS - CHINA CONVERTIBLE BOND and U ACCESS - GLOBAL LIQUID CREDIT STRATEGY and no management fee is levied for this type of shares.

U ACCESS

Other notes to the financial statements

4 - Management fees

In consideration of its services, the Management Company receives an annual management fee payable quarterly and based on the average net assets of each Type of Shares of the various sub-funds managed during the relevant quarter, in accordance with the table below:

5 - Performance fees

In addition to its management fee, and for the shares which include the letter "P" in their name, the Management Company is also entitled to receive a performance fee from the relevant sub-fund, payable on a yearly basis in arrears at the end of each 12-month period (financial year) and equivalent to a percentage of the net assets performance when it's higher than the benchmark Net Asset Value and a minimum return rate or benchmark index.

The table below summarizes the benchmark used for concerned sub-funds:

Sub-fund	Performance fee percentage									Benchmark index or Minimum return p.a. (Hurdle)
	AEP (in %)	AP (in%)	IEP (in %)	IP (in %)	I+P (in %)	UEP (in%)	UP (in%)	YEP (in%)	RP (in %)	
U ACCESS - BEST SELECTION CHINA A		20		20			20		20	MSCI China A NR
U ACCESS - LONG / SHORT JAPAN CORPORATE GOVERNANCE	10	20	10	15	12.5	10	15	7.5	20	High Water Mark + Hurdle 0%

Performance fees due by the sub-fund U ACCESS - LONG / SHORT JAPAN CORPORATE GOVERNANCE during the year are 378,993.78 USD.

In application of the ESMA Guidelines on performance fees (ESMA34-39-992) and CSSF Circular 20/764, the table below displays the actual amount of performance fees charged by each relevant Share Class and the percentage of these fees based on the Share Class Net Asset Value ("NAV"). Only the Share Classes for which performance fees have been charged are shown below.

During the year, performance fees accrued are the following:

Sub-fund	Share Class	ISIN Code	Sub-fund currency	Amount of performance fees as at 31/12/2023 (in Sub-fund currency)	Average NAV of the Share Class (in Sub-fund currency)	% in the Share Class average NAV

	Total			378,993.78		

No performance fee has been recorded for the year ended 31st December 2023 for the sub-fund U ACCESS - BEST SELECTION CHINA A.

6 - Service fees

A Service fee based on the sub-fund's average net assets, payable monthly and representing up to 0.35% per annum, will be paid to the Management Company. The maximum effective rate currently in force is 0.27%.

This Service fee includes but is not limited to the fees for the Administrative, Registrar and Transfer Agent as well as the Depository Bank. The Depository Bank fee covers both the fees for custody and monitoring of the assets.

7 - General Distributor and Marketing fees

Union Bancaire Privée, UBP SA, Geneva has been appointed as General Distributor (the "General Distributor") for the Fund's Shares, in order to organise and oversee the marketing and distribution of the Fund's Shares, and centralise investors' subscription, redemption or conversion orders for the Fund's Shares that are submitted directly to Union Bancaire Privée, UBP SA.

As remuneration for its service as marketing agent, Union Bancaire Privée, UBP SA, Geneva, receives an annual marketing Fee up to 0.20%, accrued on each Valuation Day and payable monthly in arrears calculated monthly on the average net assets of Types A, U and R shares of the sub-fund. The maximum effective rate currently in force is 0.10%.

As remuneration for its service as General Distributor, Union Bancaire Privée, UBP SA, Geneva, receives an annual distribution fee up to 0.20%, accrued on each Valuation Day and payable quarterly in arrears, calculated on the average net assets of Types A, U and R shares of the sub-fund. The maximum effective rate currently in force is 0.10%.

Only the sub-funds U ACCESS - BEST SELECTION CHINA A, U ACCESS - CHINA CONVERTIBLE BOND, U ACCESS - GLOBAL CREDIT 2023 (liquidated) and U ACCESS - LONG/SHORT JAPAN CORPORATE GOVERNANCE are concerned by distribution fees during the year.

Union Bancaire Privée, UBP SA, Geneva has been also appointed as Marketing Agent (the "Marketing Agent"). Union Bancaire Privée, UBP SA, will promote and market the Fund in Europe, coordinate the marketing activities of the local distributors and the reporting duties in consideration of the distribution activities.

Only the sub-funds U ACCESS - BEST SELECTION CHINA A, U ACCESS - CHINA CONVERTIBLE BOND, U ACCESS - GLOBAL CREDIT 2023 (liquidated), U ACCESS - GLOBAL CREDIT 2024, U ACCESS - GLOBAL CREDIT 2025, U ACCESS - GLOBAL CREDIT 2026 and U ACCESS - LONG / SHORT JAPAN CORPORATE GOVERNANCE are concerned by marketing fees during the year.

8 - Subscription tax ("*Taxe d'abonnement*")

The Fund is subject in Luxembourg to an annual subscription duty ("*taxe d'abonnement*") representing 0.05% of the Fund's net assets for Types of shares that are not exclusively reserved to institutional investors. This tax is payable quarterly and is calculated at the end of the relevant quarter.

No subscription tax is applied in case of investments in Luxembourg funds.

Types of shares that are exclusively reserved to institutional investors benefit from a reduced "*taxe d'abonnement*", representing 0.01% of the value of their dedicated net assets.

9 - Dividend distributions

Sub-funds	Share class	ISIN	Ccy	Dividend	Ex-date	Payment date
U ACCESS - GLOBAL CREDIT 2026	UDq USD Shares	LU2400362070	USD	2.15	05/07/23	07/07/23
				1.48	02/10/23	05/10/23

10 - Swing pricing

The sub-funds may suffer a reduction in value of the Net Asset Value per Share due to transaction costs incurred in the purchase and sale of its underlying investments and/or the spread between the buying and selling prices of such investments when underlying investment trades are undertaken by the Investment Manager to accommodate subscriptions, redemptions and/or conversions.

In order to counter this and to protect Shareholders' interests, the Management Company adopted a Swing Pricing Mechanism.

The Swing Pricing Mechanism means that in certain circumstances, the Management Company will make adjustments in the calculation of the Net Asset Values per Share. The Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and net outflows respectively. The extent of the adjustments will be set by the Management Company to reflect the above mentioned transaction costs and/or spread when these are deemed to be significant. The maximum adjustment will not exceed 2% of the original Net Asset Value per Share.

The swing pricing has been only applied to the sub-fund U ACCESS - CHINA CONVERTIBLE BOND during the year.

11 - Pledge of the assets

The assets of the Fund are pledged in favour of BNP Paribas S.A, Luxembourg Branch in case of any potential bank liabilities.

12 - Other liquid assets and liabilities

The amounts disclosed under "Other liquid assets" and "Other liquid liabilities" in the Statement of net assets are composed of collateral held or paid and margin deposit in order to reduce exposure on OTC.

13 - Prepaid expenses

The amount mentioned in the caption "Prepaid expenses" of the sub-fund U ACCESS - EURO CREDIT OBIETTIVO 2028 is mainly composed of placement fee for the RC and RD share classes only. It equals 2.40% of the amount subscribed during the initial subscription period. This placement fee is levied on the sub-fund's collected assets attributable only to the RC and RD share classes and is amortised over 3 years.

Shares submitted for redemption are processed at the Net Asset Value as at the relevant NAV Date, adjusted for potential Redemption Charges, provided that redemption applications are received by the SICAV or transfer agent by 1pm (Luxembourg time) one Business Day before the relevant NAV Date.

For the RC and RD shares, a Redemption Charge is paid to the Sub-Fund to protect remaining investors for the portion of the Placement Fee not yet amortised and will be levied depending on the timing of the redemption (see Redemption Charges table).

Redemption Charges table for RC and RD shares:

Period (Valuation Day)	Redemption Charge
From 06/10/2023 until 05/01/2024	2.40%
From 06/01/2024 until 05/04/2024	2.20%
From 06/04/2024 until 05/07/2024	2.00%
From 06/07/2024 until 05/10/2024	1.80%
From 06/10/2024 until 05/01/2025	1.60%
From 06/01/2025 until 05/04/2025	1.40%
From 06/04/2025 until 05/07/2025	1.20%
From 06/07/2025 until 05/10/2025	1.00%
From 06/10/2025 until 05/01/2026	0.80%
From 06/01/2026 until 05/04/2026	0.60%
From 06/04/2026 until 05/07/2026	0.40%
From 06/07/2026 until 05/10/2026	0.20%
After 06/10/2026	0.00%

The amount mentioned in the caption "Prepaid expenses" of the sub-fund U ACCESS - UBP FLEXIBLE LEADERS is mainly composed of placement fee for the R1C share class only. It equals 1.80% of the amount subscribed during the initial subscription period. This placement fee is levied on the sub-fund's collected assets attributable only to the R1C share class and is amortised over 3 years.

U ACCESS

Other notes to the financial statements

13 - Prepaid expenses

Shares submitted for redemption are processed at the Net Asset Value as at the relevant Valuation Day, adjusted for potential Redemption Charges (for R1C shares only), provided that redemption applications are received by the Fund or transfer agent by 1pm (Luxembourg time) one Business Day before the relevant Valuation Day.

For R1C shares a Redemption Charge, paid to the sub-fund to protect remaining investors for the portion of the Placement Fee not yet amortised, will be levied depending on the timing of the redemption (see Redemption Charges table).

Redemption Charges table for R1C shares:

Period (Valuation Day)	Redemption Charge
- From 06/12/2021 until 05/03/2022	1.80%
- From 06/03/2022 until 05/06/2022	1.65%
- From 06/06/2022 until 05/09/2022	1.50%
- From 06/09/2022 until 05/12/2022	1.35%
- From 06/12/2022 until 05/03/2023	1.20%
- From 06/03/2023 until 05/06/2023	1.05%
- From 06/06/2023 until 05/09/2023	0.90%
- From 06/09/2023 until 05/12/2023	0.75%
- From 06/12/2023 until 05/03/2024	0.60%
- From 06/03/2024 until 05/06/2024	0.45%
- From 06/06/2024 until 05/09/2024	0.30%
- From 06/09/2024 until 05/12/2024	0.15%
- After 06/12/2024	0.00%

No redemption charge is applicable for the R2C and I share classes.

Payments for share redemptions are made two Business Days after the relevant Calculation Day.

14 - Related party

During the year ended 31st December 2023, the sub-fund U ACCESS - UBP FLEXIBLE LEADERS invested in shares of UCITS and/or other UCIs managed directly or indirectly by the Fund or by a company with which it is affiliated through common management or control or by a direct or indirect stakeholding of more than 10% of the capital or voting rates. No subscription or redemption fees were charged to the Fund for investments in such UCITS or other UCIs.

The transactions occurred during the year ended 31st December 2023 on shares of UCITS and/or other UCIs affiliated to the Fund as presented below have been made at fair market conditions.

At year end, the Fund has investments in the following fund which is a related party : UBAM.

15 - Portfolio valuation adjustment

The annual report has been prepared based on the latest available information for the valuation of the portfolio whereas the net asset value at 31st December 2023 was calculated based on the latest available information at the date of the net asset value calculation in accordance with the valuation principles of the latest prospectus, estimated with caution and in good faith by the Board of Directors of the Fund.

In the Sub-fund U ACCESS - GLOBAL CREDIT 2025, the security GTLK EUROPE CAPITAL (XS2010044381) has been valued with caution and in good faith by the Board of Directors.

On April 8, 2024, the Board of Directors of the Fund obtained the confirmation of the impossibility of settlement of the security. Following this information, the valuation committee of the Management Company and the Board of Directors of the Fund decided to value the security GTLK EUROPE CAPITAL at 0, and to write-off the accrued and pending interests.

Following the receipt of this information, the Board of the Directors of the Fund decided to amend these Financial Statements to reflect this information in the valuation of the security GTLK EUROPE CAPITAL. The impact on the Net Asset Value of the Sub-Fund is USD 491'153.92, and represents 0.59% of the NAV of the Sub-fund as at 31st December 2023.

16 - Changes in the composition of securities portfolio

Details of changes in the securities portfolio for the year referring to this report are available upon request - free of charge - at the Fund's registered office.

17 - Significant events during the year

Mr. André JOVET resigned from his mandate as Member of the Board of Directors of U ACCESS with effect on 29th November 2023.

By a circular resolution dated 25th January 2023, the Board of Directors of U ACCESS has decided to launch the sub-fund U ACCESS - GLOBAL CREDIT 2026 with effective date on 21st February 2023.

By a circular resolution dated 16th August 2023, the Board of Directors of U ACCESS has decided to launch the sub-fund U ACCESS - EURO CREDIT OBIETTIVO 2028 with effective date on 17th August 2023. This launch has been postponed on 06th October 2023.

According to the provisions set out in the prospectus, the sub-fund U ACCESS - GLOBAL CREDIT 2023 matured on the NAV dated 26th June 2023. As at 31st December 2023, the cash amount as per bank statement set aside to pay the remaining fees accrued is equal to 33,299.59 EUR.

18 - Subsequent events

By a circular resolution dated 21st December 2023, the Board of Directors of U ACCESS has decided to merge the sub-fund U ACCESS - BEST SELECTION CHINA A into the sub-fund U ACCESS - CHINA CONVERTIBLE BOND. The merger occurred on the NAV dated 5th February 2024. The merger ratio are the following:

Isin codes / Absorbed sub-fund	Absorbed Share classes	Ratio	Isin codes / Absorbing sub-fund	Absorbing Share classes
LU1223210961	APC CNH Shares	0.480802451	LU2065541422	AC CHN Shares
LU1223405116	APHC EUR Shares	0.367800077	LU2065542156	AHC EUR Shares
LU1223211001	APC USD Shares	0.413552712	LU2065543048	AHC USD Shares
LU1223404903	APHC USD Shares	0.412957636	LU2065543048	AHC USD Shares
LU1223406510	IPHC EUR Shares	0.496062812	LU2065543980	IHC EUR Shares
LU1223211936	IPC USD Shares	0.434348659	LU2065544871	IHC USD Shares
LU1223406353	IPHC USD Shares	0.433389853	LU2065544871	IHC USD Shares

By Circular Resolution dated 10th January 2024, the Board of Directors of the SICAV decided to launch the following sub-funds with effective date on 1st February 2024 :

- U ACCESS - EUR CREDIT 2028
- U ACCESS - USD CREDIT 2028

Remuneration policy

UCITS V

Remuneration

As of December 31, 2023, UBP Asset Management (Europe) S.A. (or "UBP AM") as a management company authorized under Chapter 15 of the amended Law of 17 December 2010, and Chapter 2 of the amended Law of 12 July 2013 and Law of 23 July 2016, manages three (3) Luxembourg UCITS, five (5) Luxembourg either Part II funds or specialized investment funds qualifying as AIFs and three (3) Reserved Alternative Investment Funds, which represent a total of EUR 19.59bn Assets Under Management ("AUMs").

This section relates to the remuneration paid by UBP Asset Management (Europe) S.A., acting as Management Company of U ACCESS, either to its staff, its senior management or its Board of Directors. Total staff is 21 people, out of which 7 are considered as Identified Staff under the meaning of the UCITS Directive (including senior management & control functions).

Remuneration principles

According to the remuneration policy, the global remuneration includes fixed and variable remuneration. As a general principle, fixed remuneration must represent a sufficiently high proportion of the total remuneration so that a fully flexible policy may be enacted as regards the variable component, including the option of not paying a variable component at all;

Variable remuneration is limited insofar as the remuneration of independent control functions is predominantly oriented towards adequate fixed remuneration and cannot, in principle, exceed 30% of the total fixed remuneration.

The variable part, in the form of a non-contractual and purely discretionary payment, is fixed considering the individual performance of the employee on the one hand and the economic situation of the UBP Group on the other hand. The employee's individual performance is assessed based on quantitative and qualitative criteria. The remuneration policy encourages the performance sustainability and long-term stability and aims to avoid excessive or inconsiderate risk-taking.

The variable remuneration is never linked to the AIF or UCITS performance nor to their risk profile and takes into account the potential conflicts of interest.

The UBP AM Remuneration Policy also sets out the specific rules that will be applied to staff members considered as "Identified Staff", being categories of staff, including senior management, risk takers, control functions and any employee receiving a total remuneration that takes him/her into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profiles of UBP AM, of its delegates for portfolio management activities or of the funds it manages (including persons capable of entering into contracts, positions and taking decisions that materially affect the risk positions of the AIFs or management company).

The list of Identified Staff will be subject to regular review, being formally reviewed in the event of, but not limited to:

- Organizational changes
- New business initiatives
- Changes in role responsibilities
- Relevant changes in applicable regulatory framework

More information related to the remuneration policy content and implementation is available to the U ACCESS shareholders at the registered office of UBP Asset Management (Europe) S.A., 287-289, route d'Arlon, L-1150 Luxembourg.

Quantitative Remuneration Disclosure

UBP AM as appointed management company is required under the UCITS Directive to make quantitative disclosures of remuneration. These disclosures are made in line with UBP AM's interpretation of currently available regulatory guidance on quantitative remuneration disclosures. In any case where market or regulatory practice will develop or change, UBP AM may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated or disclosed.

Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other UBP funds disclosures in that same year.

Remuneration policy

<i>U ACCESS</i>	<i>Headcount</i>	<i>Total Remuneration EUR</i>		<i>Remuneration attributable to U ACCESS</i>	
<i>UBP Asset Management (Europe) S.A. staff</i>	<i>21.30</i>	<i>4 367 045</i>		<i>105 262</i>	
of which					
Fixed remuneration		3 533 035		85 159	
Variable remuneration		834 010		20 103	
<i>UBP Asset Management (Europe) S.A. "Identified Staff" (incl. by extension Identified Staff at the level of portfolio managers delegates)</i>					
of which		<i>Fixed</i>	<i>Variable</i>	<i>Fixed</i>	<i>Variable</i>
Senior Management	7	1 664 130	550 000	40 112	13 257
Other "Identified Staff" (for UBP AM and delegate portfolio managers)	18	6 810 773	5 373 413	520 073	169 054
<i>Total</i>	<i>25</i>	<i>8 474 903</i>		<i>560 184</i>	
			<i>5 923 413</i>	<i>182 311</i>	

Disclosures are provided in relation to (a) the whole staff of UBP AM; (b) the senior managers – as specific category of material risk takers (MRTs); (c) other MRTs identified within UBP AM (including control functions) aggregated together with the MRTs identified by UBP AM's delegate portfolio managers as having the ability to materially affect the risk profile of the Fund.

All individuals considered for the calculation of the aggregated figures disclosed are remunerated in line with UBP Group remuneration policy for their responsibilities across the relevant UBP business area. As all individuals have different areas of responsibilities and several portfolios to manage, only the portion of remuneration for those individuals' services attributable to the Fund is included in the aggregate figures disclosed.

Staff members and senior management typically provide both UCITS and non-UCITS related functions and services in respect of several funds under management of UBP AM, and across the broader UBP group. Therefore, the figures disclosed are a sum of each individual's (staff, senior management and other MRTs) portion of remuneration - split into fixed and variable, and into different categories of members - and attributable to the Fund according to an objective apportionment methodology which takes into account the related assets under management of the Fund vis-à-vis the whole assets managed either by UBP AM or by the portfolio manager. Those figures are based on the amount paid in respect of the previous fiscal year and calculated on an AUM pro-rata basis. Accordingly, the figures are not representative of any individual's actual remuneration payment or remuneration structure.

Information for Swiss investors

Total expense ratio ("TER")

The TER is calculated for the last 12 months preceding the closing date.

For Switzerland, the TER, according to the AMAS guideline, was calculated based on the TER of the target funds.

Transaction fees are not taken into account in the calculation of the TER.

If a performance-related fee is foreseen and has been calculated, the TER is disclosed including this fee. Moreover the performance fee ratio is calculated in percentage of the average net assets for the last 12 months preceding indicated reference date.

As at 31st December 2023, the TER calculated for each Class of Shares is as follows:

ISIN codes	Sub-Fund and Class of share	TER in %	Ratio of performance fee (in % of average net assets)

SFDR (Sustainable Finance Disclosure Regulation)

In line with the Sustainable Finance Disclosure Regulation, 1 active sub-fund of U ACCESS is classified as Article 8, promoting environmental and/or social characteristics.

Other sub-funds of U ACCESS are classified as Article 6.

Article 6 sub-funds:

Article 6 sub-funds do not promote environmental or social characteristics, nor do they have sustainable investments as their objective. As a result, investments underlying these sub-funds did not take into account the EU criteria for environmentally sustainable economic activities.

Article 8 sub-fund:

U ACCESS - UBP FLEXIBLE LEADERS

SFDR SCHEDULE- Annex IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: U ACCESS – UBP Flexible Leaders

Legal entity identifier: O00008329_00000021

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** %

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 0.6% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It made **sustainable investments with a social objective**%

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund invests in a combination of two different sub-strategies, namely “30 Global Leaders Equity” and “Corporate Euro Bond”.

The allocation between the two sub-strategies can vary as follows:

- 30 Global Leaders Equity (Strategy 1) 60% to 80%
- Corporate Euro Bond (Strategy 2) 20% to 40%

The Investment Manager actively manages the allocation between the two sub-strategies. As of 29 december 2023, the breakdown was 66.10% toward Strategy 1 and 36% toward Strategy 2. The remaining 2.2% is composed of cash and derivatives.

Strategy 1: Over the period, the environmental and social characteristics promoted by the equity portion of the portfolio were both met, thanks to the investment manager’s

investment process which limits exposure to high emitters through exclusion or ESG integration considerations, and excludes issuers in breach of the UN Global Compact:

- The weighted average carbon intensity of equity holdings was below that of the global equity universe, as measured by the MSCI ACWI index

- None of the equity issuers held in the portfolio was in breach of UN Global Compact

During the reporting period 100% of the Sub-Fund strategy portfolio's equity holdings were covered with the ESG analysis.

Strategy 2: the sustainability indicator used to assess the environmental characteristic promoted by this Sub-Fund is the percentage of corporate bond issuers in this Sub-Fund with a net zero emission plan.

The sustainability indicator used to assess the social characteristic is breach to United Nations Global Compact (UNGC).

As shown in the following section, the share of issuers with transparent policies towards net zero emission path was 16.7% of the bond portion of the portfolio at the reporting date, and the share of companies in breach of the UN Global Compact was 0.0%. Those indicators showed that the environmental and social characteristics promoted by this Sub-Fund on its bond holdings were met.

The sustainability indicators were not subject to an assurance provided by one or more auditors/third parties.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

● **How did the sustainability indicators perform?**

Strategy	Sustainability indicator	Sub-fund	Index*
Strategy 1	Weighted Average Carbon Intensity (tCO2e/\$ mi. invested)	58.3	128.9
	Share of companies in breach of the UN Global Compact	0.0%	0.7%
Strategy 2	Share of companies with transparent policies towards NZ path	16.7%	
	Share of companies in breach of the UN Global Compact	0.00%	

Past performance is not a guide for current or future returns.

Source: UBP, MSCI ESG Research, as of 29 December 2023

*Index: Strategy 1 - MSCI AC World Net Return USD

The benchmark is a standard reference representing the Sub-Fund's universe but is not aligned with the sustainable objective of the Sub-Fund.

Strategy 1: To measure the achievement of the environmental and social characteristics promoted by the Sub-Fund, the sub-fund's performance relative to its benchmark based on the following indicators were considered:

- The Weighted Average Carbon Intensity of the companies in which the portfolio is invested; The WACI of the portfolio (58.33 CO2e) was 55% lower than the benchmark (128.9 CO2e).
- The share of companies in breach of UN Global Compact; The portfolio did not have any exposure to companies that do not comply with the UN Global Compact principles during the reference period, whereas the benchmark had a share of 0.7%.

Strategy 2: The share of companies with transparent policies towards net zero emission path was 16.7% at the reporting date, and the share of companies in breach of the UN Global Compact was 0.0%. Those indicators showed that the environmental and social characteristics promoted by this Sub-Fund were met.

● **And compared to previous periods?**

Strategy	Sustainability indicator	Sub-fund	Index*
Strategy 1	Weighted Average Carbon Intensity (tCO2e/\$ mi. invested)	71.5	161.0
	Share of companies in breach of the UN Global Compact	0.0%	0.8%
Strategy 2	Share of companies with transparent policies towards NZ path	34.0%	
	Share of companies in breach of the UN Global Compact	0.0%	

Past performance is not a guide for current or future returns.

 *Index: Strategy 1 - MSCI AC World Net Return USD

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The sub-fund had no commitment to invest in sustainable investments. However, based on reported data it held 0.6% taxonomy-aligned investments, whose objectives were primarily climate mitigation.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The sub-fund had no commitment to invest in sustainable investments. However, it held some taxonomy-aligned investments which were reported by companies. These were thus compliant with Do No Significant Harm (DNSH) criteria required by the EU Taxonomy regulation.

In addition, all taxonomy-aligned investments disclosed here also passed all DNSH and Minimum Safeguards criteria set by our internal methodology, in line with the SFDR regulation. This methodology covers Principal Adverse Impacts, controversies,

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

misalignment with SDGs, exclusion of harmful sectors and ESG/governance quality checks.

● ***How were the indicators for adverse impacts on sustainability factors taken into account?***

Our in-house methodology referred above allowed us to test compliance with mandatory PAIs either directly, where data was available, or indirectly through the consideration of Controversies (social, environmental, governance, labour compliance), SDG alignment (environmental activities strongly misaligned with environmental SDGs and social activities strongly misaligned with social SDGs are not deemed sustainable), overall ESG and governance quality as well as through the exclusion of some harmful sectors.

Were sustainable investments aligned with the OECD Guidelines for Multinational and the UN Guiding Principles on Business and Human Rights? Details:

Yes. All sustainable investments that the sub-fund made were compliant with the UN Guiding Principles on Business and Human Rights and the OECD Guidelines for Multinationals Enterprises, according to the analysis of external data providers.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Indicator	Metrics	As at 30/12/2022			As at 29/12/2023			Planned actions
		Value	Covered assets	Eligible Assets	Value	Covered assets	Eligible Assets	
PAI 3	GHG intensity of investee companies Scopes 1+2 (tCO2eq/EURm revenue)	86.2	94.7%	97.3%	59.1	87.0%	88.5%	The investment team continues to consider PAI 3 by paying attention to issuers' activities, greenhouse gas (GHG) emissions and climate strategy, including net zero commitments. It also continues to integrate ESG consideration, including climate change, in companies' financial equity valuation modelling.
PAI 10	Share of investments that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises (%)	0.1%	95.7%	97.3%	0	88.0%	88.5%	Investments in companies in breach of UN Global Compact are banned. In addition, the investment team aims to limit any exposure to companies which violated OECD guidelines for multinationals.
PAI 14	Share of investments involved in the manufacture or selling of controversial weapons (%)	0.0%	97.3%	97.3%	0	88.5%	88.5%	Investments in companies involved in controversial weapons are banned.

Source : UBP, Morningstar Sustainalytics, MSCI ESG Research, as of 29 December 2023

Due to limited disclosure, Scope 3 data are generally estimated. Estimations are volatile and based on methodologies for which there is a lack of consensus and a risk of double counting. We intend to include Scope 3 emissions for PAI 2 and 3 once data are available and of sufficient quality.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial Product during the reference period which is: Calendar year 2023

Largest investments	Sector	Country	% Assets
MICROSOFT CORP	Technology	United States	3.82
VISA INC -A-	Financial	United States	2.93
SCHNEIDER ELECTRIC SE	Industrial	France	2.84
LINDE PLC	Basic Materials	United Kingdom	2.69
NESTLE SA PREFERENTIAL SHARE	Consumer, Non-cyclical	Switzerland	2.41
ALPHABET INC -C-	Communications	United States	2.38
S&P GLOBAL INC	Consumer, Non-cyclical	United States	2.36
JOHNSON CONTROLS INTL	Industrial	Ireland	2.34
RELX PLC	Consumer, Non-cyclical	United Kingdom	2.27
LVMH MOET HENNESSY LOUIS VUITTON SE	Consumer, Cyclical	France	2.24
AON PREFERENTIAL SHARE	Financial	Ireland	2.17
MCDONALD'S CORP	Consumer, Cyclical	United States	2.17
NASDAQ INC	Financial	United States	2.11
JOHNSON & JOHNSON	Consumer, Non-cyclical	United States	2.08
THERMO FISHER SCIENT SHS	Consumer, Non-cyclical	United States	2.04

What was the proportion of sustainability-related investments?

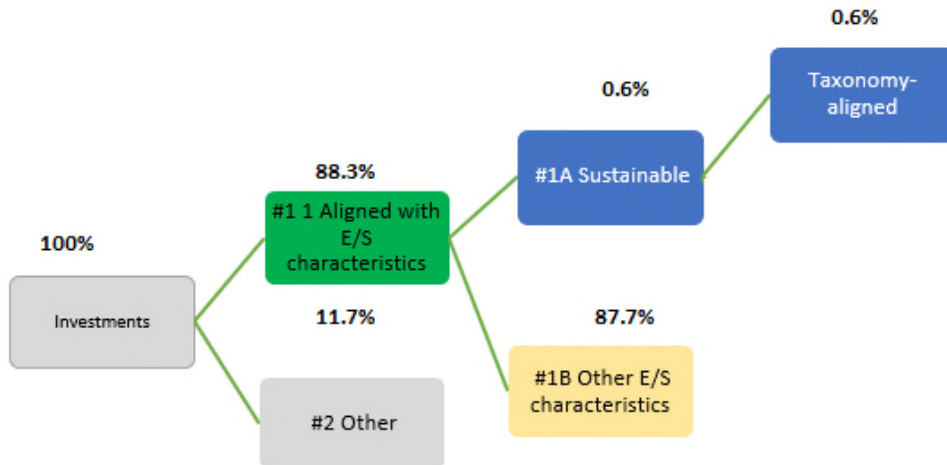

0.6%

Asset allocation describes the share of investments in specific assets.

● **What was the asset allocation?**

#1 Sustainable covers sustainable investments with environmental or social objectives.

#2 Not sustainable includes investments which do not qualify as

	2022	2023
Investments	100%	100%
#1 Aligned with E/S characteristics	92.80%	88.30%
#2 Other	7.20%	11.70%
#1A Sustainable	0.20%	0.60%
#1B Other E/S characteristics	92.60%	87.70%
Taxonomy-aligned	0.20%	0.60%
Other environmental	0.00%	0.00%
Social	0.00%	0.00%

Source: UBP, as of 29 December 2023

Aligned with E/S characteristics:

- Strategy 1: 99.6% (61.8% of the total assets)

Strategy2: 86.7% (36.0% of the total assets)

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.

- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● **In which economic sectors were the investments made**

Sector	% Assets
Financials	31.78%
Information Technology	14.02%
Health Care	10.51%
Consumer Staples	8.19%
Industrials	7.86%
Consumer Discretionary	6.14%
Materials	6.12%
Communication Services	4.97%
Other	4.34%
Cash	2.49%
Energy	2.27%
Utilities	1.19%
Real Estate	0.13%
Total	100.00%

Source: Fund administration data with average calculation of the 4 quarter ends in 2023

The use of different data sources and systems may result in limited variations across the various sections of the present report.

To comply with the EU taxonomy, the criteria for **fossil gas**

Include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance

● **To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The Sub-Fund did not commit to holding sustainable investments with an environmental objective aligned with the EU Taxonomy. However, at the time of writing this report, a few companies in which the sub-fund is invested have reported EU taxonomy aligned revenues, such as Schneider Electric. Taking into account the weight of these companies in the portfolio, this resulted in a revenue-based investment of 0.6% of total assets.

The Investment Manager ensured that this company did not significantly harm any other sustainable investment objectives by applying its in-house methodology that covers Adverse Impacts, controversies, misalignment with SDGs and ESG/governance quality checks.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?**

YES

In fossil gas

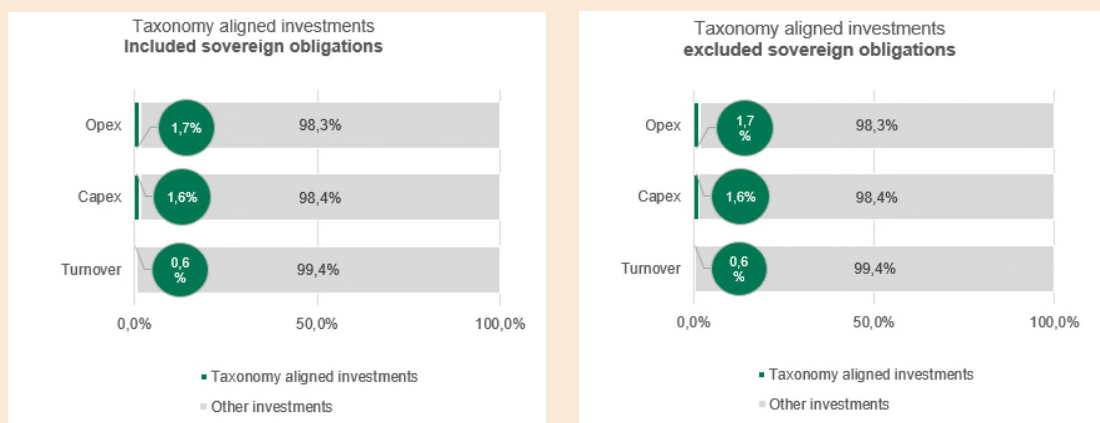

in nuclear energy

NO

"1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214."

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Reported Taxonomy-alignment, Morningstar Sustainalytics, as of 29 December 2023

The graph 'taxonomy aligned investments-excluded sovereign obligations' represents 97.3% of the total net assets.

The sub-fund had no investment in taxonomy-aligned fossil gas and nuclear. As a result all taxonomy aligned turnover, capex, opex mentioned in the charts above refer to Taxonomy-aligned investments, excluding fossil gas and nuclear.

Taxonomy aligned investments mean Taxonomy aligned (no gas and nuclear)

Other investments mean Non Taxonomy-aligned

- **What was the share of investments in transitional and enabling activities?**

Transitional activities :0%

Enabling activities: 0.6%

As per reported data available at the time of writing, all taxonomy-aligned investments were made in enabling activities.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

As per reported data available at the time of writing, investments in taxonomy-aligned activities slightly increase over the year to 0.6% from 0.2% at the end of 2022.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

N/A

What was the share of socially sustainable investments?

N/A

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

11.7%

Investment included under “Other” included primarily an investment in another fund, for which minimum environmental and social safeguards were met as the investee fund is classified as Article 8 under SFDR. It also included, to a lesser extent, cash (for liquidity management and efficient portfolio management), and investments in non ESG-rated issuers, for which there were no minimum E and S safeguards.

Source: UBP, as of 29 December 2023

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Strategy 1:

The investment framework is not intended to focus on a company's ESG credentials at the expense of its financial performance potential. Indeed, the approach is intended to be holistic as ESG and sustainability factors are fully integrated across the investment process.

During the reporting period the Sub-Fund has applied exclusion rules, which, among other aspects, reduce the exposure to carbon-intensive sectors. These rules include the exclusion of companies with certain exposure to conventional oil & gas revenues (5%), any exposure to revenues from unconventional oil and gas extraction, exposure to other revenues associated to unconventional oil and gas (5%) and any exposure to thermal coal extraction and sale to external parties as well as no revenues or installed capacities in power generation derived from coal, nuclear sources or oil & gas. In addition, any company in breach of the UN Global Compact principles, global norms, if flagged by both MSCI ESG Research and Sustainalytics, Morningstar Sustainalytics, is excluded as well.

In 2023, the team engaged with several portfolio holdings on topics such as Biodiversity or ESG disclosure, including on EU-Taxonomy reporting as detailed above.

This Sub-Fund generally avoided biodiversity laggards to the extent possible and engaged with companies with any potential impact on biodiversity. The Investment Team namely engaged with a company in the Consumer Staples sector on issues related to palm oil production and deforestation allegations as well as plastic pollution. The company provided a constructive feedback on the current status and their action plan.

Furthermore, the Investment Manager continued to perform its duty as a responsible shareholder through proxy voting. Institutional Shareholder Service (ISS-Sustainability package) votes on behalf of the Sub-Fund. ISS recommendations for voting do not necessarily have to be followed and UBP may prefer to vote independently based on the team's understanding and discussions with company management. In practice, portfolio managers can instruct ISS to vote on their behalf as per their recommendations. Portfolio managers can consult ISS recommendations and make their own decisions, under the supervision (involving a veto and a final decision right) of the relevant Management Company / Fund's arbitration body, or according to client requirements. Exceptions are documented and agreed upon by the relevant ManCo Conducting Officer. Several cases of such overrides have been recorded in 2023.

Finally, during 2023, the team sold its position in a Consumer Discretionary company due to deteriorating CFROI® and ESG profiles. The company was downgraded to BBB by MSCI ESG Research following its reassessment of the company exposure to reputational risks tied to alleged unethical sourcing, and potential weaknesses in corporate governance practices.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

Strategy 2:

During the reporting period, the investment team engaged with:

- companies in the real estate sector in relation to their governance and sustainability disclosure policies
- companies in the staple sector in relation to their governance and good practices in processed food production

How did this financial product perform compared to the reference benchmark?

No reference benchmark.

Reference

benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- *How did the reference benchmark differ from a broad market index?*

N/A

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

N/A

- *How did this financial product perform compared with the reference benchmark?*

N/A

- *How did this financial product perform compared with the broad market index?*

N/A
