Letter to Shareholders

Annual report as of 31 December 2022

We are pleased to present the 21st annual report for UBS (Lux) Fund Solutions formerly UBS ETF covering the reporting period from 1 January 2022 to 31 December 2022. In 2022, inflation stayed high, interest rates rose, growth expectations fell and both equity and bond markets suffered. Most equity markets declined considerably in 2022, driving valuations much lower and bond yields increased sharply as investors repriced the outlook for interest rates. Equities and bonds failed to act as counterweights to each other's performance. Fund AuM decreased during the year.

The Fund range saw total net outflows of EUR 2.6 billion, decreasing the total AuM in UBS (Lux) Fund Solutions to EUR 38 billion as at 31 December 2022.

In 2022, sales activities were heavily influenced by volatile markets and the war in Ukraine. Positive inflows continued to be driven by our Sustainable offering, as these topical ETFs remained front-of-mind with our clients despite the overall challenging environment. In line with this focus, a total of 6 new ETF share classes were launched, 5 of which focused on the continued expansion of our SI ETF shelf – the Bloomberg MSCI US Liquid Corporates 1-5 Year Sustainable UCITS ETF (USD) A-acc share class, the Bloomberg MSCI US Liquid Corporates 1-5 Year Sustainable UCITS ETF (hedged to CHF) A-acc share class, the Bloomberg MSCI US Liquid Corporates 1-5 Year Sustainable UCITS ETF (hedged to EUR) A-acc share class, the SBI® Foreign AAA-BBB 1-5 ESG UCITS ETF (CHF) A-acc share class, and the Bloomberg MSCI Global Liquid Corporates Sustainable UCITS ETF (hedged to CHF) A-acc share class. We also launched the MSCI EMU Value UCITS ETF (EUR) A-acc share class, underlining our additional efforts in the Factor ETF space. On 28 June UBS (Lux) Fund Solutions – MSCI World ex USA Index Fund was launched which is the first index fund in the umbrella enlarging the product scope.

The new year is expected to remain challenging, as interest rate movements, global conflicts and equity market volatility have been predicted by many, at least through the first half of the year. The UBS ETF sales efforts will continue to focus on our core strengths – our Sustainable shelf, client servicing, selective Fixed Income exposures, our broad Commodity shelf – and will look to use these as a continued stepping stone to positive flows within the overall book throughout the year.

In the end of 2022, UBS ETFs ranked 5th amongst ETF providers in Europe (by AuM), following a challenging year marked by the war in Ukraine, energy price movements, market volatility and continued uncertainty around interest rates and central bank policy. The ETF business of UBS AM continued to gather NNM in its Sustainable ETF shelf, despite all of the afore-mentioned headwinds. A small set of select ETF core markets in Europe registered positive YTD NNM, specifically Germany, Benelux, the Nordics, and France. The remaining core markets saw both in- and out-flows across all client segments, as ETF investors looked to remain optimally invested during the various market movements of the past year. Moving forward, ETF sales activities remain focused on providing our clients with best-in-class services, the promotion of our market leading SI offering, and the continued expansion of our Fixed Income shelf – the last being specifically in focus during H1-2023. Additionally, the servicing of all of our investors in the after-sales space in the areas of regulatory support and reporting remains essential for the continued success of the business, as both industry-wide and SI specific regulation continues to evolve at an ever-increasing speed. Passive investing and the ETF offering in particular remain strategically important to UBS Asset Management and its on-going efforts to expand and grow efficiently and at scale over the mid to long term.

After entering 2022 close to record highs, global equities came under pressure in January and February amid concerns over outlook for growth, inflation, tighter central bank policy and the conflict in Ukraine. Then, most major equity markets regained ground in March. The relative resilience of equities in March came despite continued uncertainty over the war in Ukraine, increasingly hawkish central bank policy—including the first Federal Reserve rate hike since 2018—and concerns about the economic growth outlook in light of high inflation and commodity prices.

Bond yields rose sharply in the first quarter, as investors priced in a faster withdrawal of monetary stimulus. The German 10-year bund yields broke into positive territory for the first time since 2019. Yield curves generally flattened, with the spread between two and 10-year US Treasury yields even briefly inverting prior to the end of the quarter. The path for higher policy rates was revised to the upside across developed economies, particularly in the US, Canada, New Zealand and Australia. Credit also posted a negative performance on the quarter. Both spread widening and higher sovereign bond yields contributed to the decline.

The figures stated in this report are historical and not necessarily indicative of future performance.

Growth concerns continued to weigh on global equities through the second quarter. Geopolitical and economic uncertainties have showed no sign of abating. The Russia-Ukraine war continued, China's COVID-19 challenges persisted, and fears of a Federal-Reserve induced recession have intensified.

Equities and fixed income fell in tandem in June, capping the end to a challenging second quarter and one of the worst first halves of a year in decades for investors. In equity markets, the slide was led by the US market amid concerns over the pace of monetary tightening and the drag on consumer spending from inflation. Moreover, Eurozone equities fell amid mounting concerns over the impact of a reduction in gas supplies from Russia. This has been a particular worry for the region's largest economy, Germany, since its heavy industrial base is reliant on gas from Russia. This hawkish twist in central bank policy, along with high inflation, was also negative for fixed income investors, who have also faced on of the worst starts to a year on record. All major segments lost ground in the quarter. US and European government bond yields rose, amid more hawkish signals from both the Fed and the European Central Bank in response to elevated inflation. Riskier parts of the credit market such as high yield bonds were also affected by a broader risk-off mood in markets.

Global stocks had a volatile third quarter. Equity markets rallied in July, reflecting a sense among some investors that the market had become oversold. However, the summer rally in stocks that started in mid-June went into reverse in August. The main driver over the month was shifting perceptions over Federal Reserve policy, with hopes fading later in the month that the central bank was on the brink of a more dovish turn. The Fed's steadfast line on inflation was echoed by top policy-makers at the European Central Bank, while the Bank of England raised rates for the sixth meeting in a row. Global equities fell for a second straight month in September amid persistent concern that stubbornly high inflation would lead central banks to continue raising rates at a rapid pace. Emerging market equities were also down, with a hawkish Fed, strong US dollar, and geopolitical uncertainty among the headwinds

The third quarter continued to see heightened volatility with bond market selling off sharply, fixed income yields notably higher and credit spreads wider. Disappointment over the persistence of elevated inflation hurt fixed income markets, with negative returns in all segments. Investor concern over fiscal sustainability in the UK—after the new government unveiled GBP 45 billion tax cuts—spilled over into global fixed income markets and led to an emergency program of long-dated gilt purchases by the Bank of England. The risk of recession and rising defaults caused a further widening of credit spreads across the board.

Equity rebounds in the fourth-quarter were also relatively short-lived. Global equities rose in October, breaking a two-month losing streak, amid renewed hopes of a dovish pivot from the Federal Reserve. Investors were cheered by comments from top Fed officials that discussions had started over pausing rate hikes. Perceptions of global financial risks also abated after the UK government abandoned plans for an unfunded fiscal expansion. Investors were in a risk-on mood for a second consecutive month in November, amid rising hopes that the worst of the inflation scare has passed and central banks will soon slow the pace of rate rises. Positive news on US inflation drove continued gains worldwide. Investor sentiment was also encouraged by the minutes of the Federal Reserve's November policy meeting, which indicated a substantial majority of policymakers believed a slower pace of rate rises would be appropriate following four consecutive 75-basispoint hikes. The advance in equities was broad based, with all major markets producing positive returns. However, the global equity market rally that started in October ran out of the steam in the last month of the year, amid renewed anxiety over the pace of central bank tightening and the deteriorating growth outlook. All major markets except China moved lower. While optimism has continued to mount that price pressures are easing, policymakers in the US, Eurozone, UK, and Switzerland all warned in December that it was too early to declare victory in the effort to curb inflation. Notably, top officials at the Federal Reserve scaled up their forecasts for where they see rates peaking.

Risk-free rates in the US bond market were less volatile than equities in in the fourth quarter, with the yields on US Treasuries rising slightly in general, while the overall return on the Bloomberg US Treasury index was slightly positive due to the positive carry. In European fixed income markets, there was a bigger shift, driven by higher rates during the month of December. This followed a more hawkish statement from ECB President Christine Lagarde than markets had been expecting. EUR government bonds therefore delivered negative total returns. However, even after this weak end of the year, fixed

Letter to Shareholders (continued)

Annual report as of 31 December 2022

income also reflected the risk-on shift for the fourth quarter overall, with credit spreads tightening across the board which led to positive absolute performance numbers across different investment grade and high yield indices.

Our Sub-Funds seek to closely track the performance of the underlying market indices. The investment returns of the Sub-Funds reflected the underlying market environment in 2022 and are shown in the table on the following page, expressed in the base currency of each share class as well as the tracking difference and the tracking error.

We thank you for the confidence you have shown in our family of UBS (Lux) Fund Solutions funds. We look forward to your continued support and to meeting your investment goals in the years ahead.

Sincerely,

23 February 2023

Chairman of the Board of Directors

The figures stated in this report are historical and not necessarily indicative of future performance.

Performance tables (continued)

Annual report as of 31 December 2022

Performance from 1 January 2022 to 31 December 2022 (continued)

* Management fee changes took place during the reporting year. Please refer to Note 3 within the notes of the Financial Statements for further details.

** The ETF Share Class launched during the reporting year. Please refer to Note 1 within the notes of the Financial Statements for further details.

*** The ETF Share Class was launched less than 12 months before the end of the reporting year. Therefore, no tracking error (ex post) has been calculated for this ETF Share Class.

**** Sub-Fund's name change took place during the reporting year. Please refer to Note 3 within the notes of the Financial Statements for further details.

***** Effective 1 April 2022 the index changed from Bloomberg Euro HQLA 1-5 Years Bond Index (Total Return) (I33712EU) to Bloomberg MSCI Euro Area Liquid Corporates 1-5 Year Sustainable Index (Total Return) (I36689EU).

***** The positive relative performance was mainly driven by the exposure in Russian bonds given that Russia was excluded from the index on 31 March 2022 and that the index market value for all Russian debt was set to zero, reflecting a total return loss (i.e. price and accrued interest set to zero) on index level.

1) The figures relating to the performances of the Sub-Funds reflect the percentages changes of official NAV's per shares (cum dividends) over the reporting period. 30 December was the last official NAV's per shares unless otherwise stated. The same period was used for the figures relating to the performance of the tracked index.

2) The figures relating to the performances of the index against which an investment fund's performance is measured. The tracking difference is attributable to fund expenses (see "TER"), as well as non-reclaimable withholding taxes and to generation of securities lending income.

The Sub-Fund's portfolio manager aims to achieve a level of tracking accuracy whereby the expected annual difference in returns, after expenses, between the performance of the shares of a Sub-Fund and that Sub-Fund's index will not exceed 1% under normal market conditions. However, exceptional circumstances may arise which cause a Sub-Fund's tracking accuracy to exceed 1%.

3) Tracking error: annualised standard deviation.

The Sub-Fund's portfolio manager aims to keep the tracking error, defined as the volatility of the tracking difference between the performance of the shares of a Sub-Fund and that Sub-Fund's index, below or equal to 1% under normal market conditions. However, exceptional circumstances may arise which cause a Sub-Fund's tracking error to exceed 1%.

Tracking error calculation:

The tracking error for the last 12 months is calculated as follows: $-\text{STANDARD DEVIATION}(\text{Monthly Excess calculated each month over a 12-month period}) \times \text{SQARE ROOT}(12)$

4) Total Expense Ratio (TER): this ratio is calculated in accordance with the Asset Management Association Switzerland (AMAS) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming units.

Performance tables (continued)

Annual report as of 31 December 2022

Performance from 1 January 2021 to 31 December 2021 (continued)

* Management fee changes took place during the reporting year. Please refer to Note 3 within the notes of the 2021 Financial Statements for further details.

** Sub-Fund's name change took place during the reporting year. Please refer to Note 1 within the notes of the 2021 Financial Statements for further details.

*** The ETF Share Class launched during the reporting year. Please refer to Note 1 within the notes of the 2021 Financial Statements for further details.

**** The ETF Share Class was launched less than 12 months before the end of the reporting year. Therefore, no tracking error (ex post) has been calculated for this ETF Share Class.

(a) effective 1 December 2021 the index changed from MSCI China ESG Universal 5% Issuer Capped Index (Net Return) (NU723009) to MSCI China ESG Universal Low Carbon Select 5% Issuer Capped Total Return Net (NU738333).

(b) effective 1 September 2021 the index changed from SBI® Foreign AAA-BBB 1-5 Index (Total Return) (SF15T) to SBI® ESG Foreign AAA-BBB 1-5 Total Return (SESF5T).

(c) effective 1 September 2021 the index changed from SBI® Foreign AAA-BBB 5-10 Index (Total Return) (SF51T) to SBI® ESG Foreign AAA-BBB 5-10 Total Return (SEF51T).

1) The figures relating to the performances of the Sub-Funds reflect the percentages changes of official NAV's per shares (cum dividends) over the reporting period. 31 December was the last official NAV's per shares unless otherwise stated. The same period was used for the figures relating to the performance of the tracked index.

2) The tracking difference is attributable to fund expenses (see "TER"), as well as non reclaimable withholding taxes and to generation of securities lending income.

The Sub-Fund's portfolio manager aims to achieve a level of tracking accuracy whereby the expected annual difference in returns, after expenses, between the performance of the shares of a Sub-Fund and that Sub-Fund's index will not exceed 1% under normal market conditions. However, exceptional circumstances may arise which cause a Sub-Fund's tracking accuracy to exceed 1%.

3) Tracking error: annualised standard deviation.

The Sub-Fund's portfolio manager aims to keep the tracking error, defined as the volatility of the tracking difference between the performance of the shares of a Sub-Fund and that Sub-Fund's index, below or equal to 1% under normal market conditions. However, exceptional circumstances may arise which cause a Sub-Fund's tracking error to exceed 1%.

Tracking error calculation:

The tracking error for the last 12 months is calculated as follows: $\text{STANDARD DEVIATION}(\text{Monthly Excess calculated each month over a 12-month period}) \times \text{SQRT}(12)$

4) Total Expense Ratio (TER): this ratio is calculated in accordance with the Asset Management Association Switzerland (AMAS) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming units.

Performance tables (continued)

Annual report as of 31 December 2022

Performance from 1 January 2020 to 31 December 2020 (continued)

* Management fee changes took place during the reporting year. Please refer to Note 3 within the notes of the 2020 Financial Statements for further details.

** The ETF Share Class launched during the reporting year. Please refer to Note 1 within the notes of the 2020 Financial Statements for further details.

*** The ETF Share Class was launched less than 12 months before the end of the reporting year. Therefore, no tracking error (ex post) has been calculated for this ETF Share Class.

**** Sub-Fund's name change took place during the reporting year. Please refer to Note 1 within the notes of the 2020 Financial Statements for further details.

(a) effective 1 December 2020 the index changed from MSCI Emerging Markets SRI 5% Issuer Capped Index (Net Return) (M1EMSI5) to MSCI Emerging Market SRI Low Carbon Select 5% Issuer Capped Index (Net Return) (NU734917)

(b) effective 1 December 2020 the index changed from MSCI EMU SRI 5% Issuer Capped Index (Net Return) (M7EMSI5C) to MSCI EMU SRI Low Carbon Select 5% Issuer Capped Index (Net Return) (NE734914)

(c) effective 1 December 2020 the index changed from MSCI EMU SRI 5% Issuer Capped 100% hedged to CHF Index (Net Return) (MAEMSI5CH) to MSCI EMU SRI Low Carbon Select 5% Issuer Capped 100% hedged to CHF Index (Net Return) (HF735828)

(d) effective 1 December 2020 the index changed from MSCI EMU SRI 5% Issuer Capped 100% hedged to GBP Index (Net Return) (HG731140) to MSCI EMU SRI Low Carbon Select 5% Issuer Capped 100% hedged to GBP Index (Net Return) (HG735829)

(e) effective 1 December 2020 the index changed from MSCI EMU SRI 5% Issuer Capped 100% hedged to USD Index (Net Return) (M1CXUBSO) to MSCI EMU SRI Low Carbon Select 5% Issuer Capped 100% hedged to USD Index (Net Return) (HU735830)

(f) effective 1 December 2020 the index changed from MSCI Japan Socially Responsible 5% Issuer Capped Index (Net Return) (M7CXUBO) to MSCI Japan SRI Low Carbon Select 5% Issuer Capped Index (Net Return) (NU734905)

(g) effective 1 December 2020 the index changed from MSCI Japan Socially Responsible 5% Issuer Capped 100% hedged to CHF Index (Net Return) (M7CXUBQ) to MSCI Japan SRI Low Carbon Select 5% Issuer Capped 100% hedged to CHF Index (Net Return) (HF735831)

(h) effective 1 December 2020 the index changed from MSCI Japan Socially Responsible 5% Issuer Capped 100% hedged to EUR Index (Net Return) (M7CXUBR) to MSCI Japan SRI Low Carbon Select 5% Issuer Capped 100% hedged to EUR Index (Net Return) (HE735832)

(i) effective 1 December 2020 the index changed from MSCI Japan Socially Responsible 5% Issuer Capped 100% hedged to USD Index (Net Return) (M1CXUBT) to MSCI Japan SRI Low Carbon Select 5% Issuer Capped 100% hedged to USD Index (Net Return) (HU735833)

(j) effective 1 December 2020 the index changed from MSCI Pacific Socially Responsible 5% Issuer Capped Index (Net Return) (M1CXUBN) to MSCI Pacific SRI Low Carbon Select 5% Issuer Capped Index (Net Return) (NU734933)

(k) effective 1 December 2020 the index changed from MSCI USA Socially Responsible 5% Issuer Capped Index (Net Return) (M1CXUBP) to MSCI USA SRI Low Carbon Select 5% Issuer Capped Index (Net Return) (NU734911)

(l) effective 1 December 2020 the index changed from MSCI USA Socially Responsible 5% Issuer Capped 100% hedged to CHF Index (Net Return) (M7CXUBU) to MSCI USA SRI Low Carbon Select 5% Issuer Capped 100% hedged to CHF Index (Net Return) (HF735819)

(m) effective 1 December 2020 the index changed from MSCI USA Socially Responsible 5% Issuer Capped 100% hedged to EUR Index (Net Return) (M7CXUBV) to MSCI USA SRI Low Carbon Select 5% Issuer Capped 100% hedged to EUR Index (Net Return) (HE735820)

(n) effective 1 December 2020 the index changed from MSCI World Socially Responsible 5% Issuer Capped Index (Net Return) (M1CXUBM) to MSCI World SRI Low Carbon Select 5% Issuer Capped Index (Net Return) (NU734908)

1) The figures relating to the performances of the Sub-Funds reflect the percentages changes of official NAV's per shares (cum dividends) over the reporting period. 31 December was the last official NAV's per shares unless otherwise stated. The same period was used for the figures relating to the performance of the tracked index.

2) The tracking difference is attributable to fund expenses (see "TER"), as well as non reclaimable withholding taxes and to generation of securities lending income.

The Sub-Fund's portfolio manager aims to achieve a level of tracking accuracy whereby the expected annual difference in returns, after expenses, between the performance of the shares of a Sub-Fund and that Sub-Fund's index will not exceed 1% under normal market conditions. However, exceptional circumstances may arise which cause a Sub-Fund's tracking accuracy to exceed 1%.

3) Tracking error: annualised standard deviation.

The Sub-Fund's portfolio manager aims to keep the tracking error, defined as the volatility of the tracking difference between the performance of the shares of a Sub-Fund and that Sub-Fund's index, below or equal to 1% under normal market conditions. However, exceptional circumstances may arise which cause a Sub-Fund's tracking error to exceed 1%.

Tracking error calculation:

The tracking error for the last 12 months is calculated as follows: $\text{STANDARD DEVIATION}(\text{Monthly Excess calculated each month over a 12-month period}) \times \text{SQUARE ROOT}(12)$

4) Total Expense Ratio (TER): this ratio is calculated in accordance with the Asset Management Association Switzerland (AMAS) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming units.

Independent auditor's report

To the Shareholders of
UBS (Lux) Fund Solutions
49, Avenue J.F. Kennedy
L-1855 Luxembourg

Opinion

We have audited the financial statements of UBS (Lux) Fund Solutions (the "Fund") and of each of its sub-funds, which comprise the statement of net assets and the statement of investments as at 31 December 2022 and the statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 December 2022, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with EU Regulation N° 537/2014, the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the EU Regulation N° 537/2014, the Law of 23 July 2016 and ISAs are further described in the "Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters

How our audit addressed the Key audit matter

Valuation of investment portfolio

Valuation of investment portfolio is considered to be a Key Audit Matter as potential misstatements could have a significant impact as investments comprise virtually all of the Fund's net assets and are the source of income, gains and losses.

- Obtaining an understanding and evaluating the key controls that have been implemented over the valuation process for of all investment securities. This includes obtaining the service auditor's report of the Administrator and identifying the key controls in place at the Administrator over the investment valuation process.
- Performing an independent valuation testing for all securities as at 31 December 2022.

Existence of Investment portfolio

Existence of investment portfolio is considered to be a Key Audit Matter as potential misstatements could have a significant impact as investments comprise virtually all of the Fund's net assets and are the source of income, gains and losses.

- Obtaining an understanding and evaluating the key controls that have been implemented over the reconciliation process of all investment securities. This includes obtaining the service auditor's report of the Administrator and identifying the key controls in place at the Administrator over the investment reconciliation process.
- Obtaining independent confirmations of all investment securities held at year-end and investigating any material differences identified to confirm the existence of these securities.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund and of those charged with governance for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and of each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with EU Regulation N° 537/2014, the Law of 23 July 2016 and with the ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with EU Regulation N° 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the “réviseur d'entreprises agréé” to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the “réviseur d'entreprises agréé”. However, future events or conditions may

cause the Fund or any of its sub-funds (except for the sub-fund where a decision to close exists) to cease to continue as a going concern.

- In respect of sub-fund where a decision to close exists, we conclude on the appropriateness of the Board of Directors of the Fund's use of the non-going concern basis of accounting. We also evaluate the adequacy of the disclosures describing the non-going basis of accounting and reasons for its use. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé".
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our report unless law or regulation precludes public disclosure about the matter.

Report on other legal and regulatory requirements

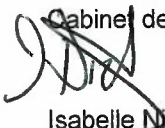

We have been appointed as "réviseur d'entreprises agréé" at the General Meeting of the Shareholders on 19 April 2022 and the duration of our uninterrupted engagement, including previous renewals and reappointments, is 1 year.

We confirm that the prohibited non-audit services referred to in EU Regulation No 537/2014 were not provided and that we remained independent of the Fund in conducting the audit.

We provided the following permitted services in addition to the statutory audit:

- Issuance of the Separate Report in the context of CSSF Circular 21/790;
- Issuance of contribution / redemption in kind reports.

Ernst & Young
Société anonyme
Cabinet de révision agréé

Isabelle Nicks

(*) A separate cash account is opened at the Company level in different currencies (the "Company Cash Account"). The Company Cash Account is held with the Depository and is solely used for fee and cost processing related to the Sub-Funds and the SICAV. The Company Cash Account is excluded in the regular NAV calculation of the share-classes as it serves as a transit account for the fee and invoice payment process. The Company Cash Account is subject neither to fees nor interest. As at 31 December 2022, the total balance of the Company Cash Account amounted to a position of EUR 4,950,852. This amount is not recognised on the Company's Statement of Net Assets as at 31 December 2022 and is noted here only.

(**) The Share Class is in the Sub-Fund's base currency.

(***) As of initial dealing day. Please refer to Note 1 within the notes of the Financial Statements for further details.

Note 1 Description of the Fund

UBS (Lux) Fund Solutions, formerly UBS ETF (the "Company") was incorporated in the Grand Duchy of Luxembourg as an open-ended investment company (a "Société d'Investissement à Capital Variable") on 7 September 2001 for an unlimited period under the original name of "Fresco". The Company is governed by the Luxembourg Law of 10 August 1915 on commercial companies, as amended, and by Part I of the Luxembourg Law of 17 December 2010 on undertakings for collective investments, as amended. Accordingly, each Sub-Fund has been established for an unlimited period. The registered office of the company is established at 49, Avenue J.F. Kennedy, L-1855 Luxembourg.

The Company has appointed UBS Fund Management (Luxembourg) S.A. to act as its management company (the "Management Company") with effect as of 1 July 2012.

The Company's Articles of Incorporation (the "Articles") have been published in their original version in the Mémorial, Recueil des Sociétés et Associations (the "Mémorial") dated 11 October 2001. The notarial deed containing the minutes of the extraordinary general meeting held on 29 November 2004 deciding the change of the denomination of the company into UBS ETF has been published in the Mémorial dated 23 December 2004. Additionally, the notarial deed containing the minutes of the extraordinary general meeting held on 27 December 2005, amending the Articles related to the compliance by the Company with the rules of the amended directive 85/611/EEC, has been published in the Mémorial dated 30 January 2006. Finally, the notarial deed containing the minutes of the extraordinary general meeting held on 18 January 2016, amending the Articles as to allow for the issuance of registered shares only has been published in the Mémorial dated 7 April 2016. All bearer shares were converted to registered shares as of 8 February 2016. Moreover, the consolidated version of the Articles has been deposited with the Luxembourg company register. On 7 April 2021 an extraordinary meeting of shareholders was held, amending the Articles, in order to, inter alia, update outdated references to laws and regulations contained and change the name of the Company from "UBS ETF" to "UBS (Lux) Fund Solutions. Articles has been published in the Mémorial dated 30 April 2021.

The Company has been established to provide investors with an opportunity to purchase Shares in its Sub-Funds, the investment objective of each of which is to aim to track a specific Index. Each Sub-Fund aims to replicate or track, before expenses, the price and income performance of its Index by holding a portfolio of transferable securities that comprises all or substantially all of the component securities of its Index.

Each Sub-Fund will have Shares listed on one or more Listing Stock Exchanges to be an Exchange Traded Fund ("ETF"). With the exceptions detailed in the prospectus, only institutions qualifying as Authorised Participants are able to subscribe or redeem Shares by delivery of in kind stocks, which mostly are stocks composing the relevant index or versus cash. Those subscriptions and redemptions minimise fund turnover and lower trading expenses. A secondary market is created through such Authorised Participants. Persons who are not Authorised Participants are able to buy or sell Shares in a Sub-Fund on a Listing Stock Exchange at prices which should approximate to the Indicative Intra-Day NAV per Share from other investors in Shares who are acting as market makers or broker/dealers.

In order to allow participants in the secondary market to have access to a real-time estimate of the Daily NAV per Share, an Indicative Intra-Day NAV per Share is calculated by a calculation agent.

For Index Sub-Funds the board of directors is authorised without limitation to issue shares of any sub-fund and share class at any time; and shareholders have the right to request, at any time, to have their shares redeemed by the Management Company, under the conditions as described in the prospectus.

The Index Sub-fund must invest its net assets predominantly in shares, transferable securities, money market instruments, units of UCIs, deposits with credit institutions, structured notes listed or dealt in on a Regulated Market, other assets and derivatives detailed in the prospectus.

Notes to Financial Statements

Additional technical listings on the Irish Stock Exchange exist for some ETF Share Classes.

The Index Fund is listed on the Luxembourg Stock Exchange.

JDRs are negotiable securities which indicate ownership of shares issued by foreign companies. They are listed on the Tokyo Stock Exchange, can be traded like domestic Japanese stocks, and give investors access to UBS (Lux) Fund Solutions listed in Europe. All of the UBS (Lux) Fund Solutions now listed on the TSE are transparent indexing solutions, following the UCITS guidelines established in Europe.

Seven of the ten UBS (Lux) Fund Solutions track major European equity indices. The remaining ETFs replicate the MSCI USA, the MSCI Pacific (ex Japan) and the MSCI World indices. A complete list of the funds which will be listed in Tokyo can be found below.

Note 2 Summary of Significant Accounting Policies

A) Presentation of Financial Statements

The Financial Statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg.

B) Main Investment Valuation Principles

Securities listed on a recognised stock exchange or dealt in on any other Regulated Market are valued at their last available closing prices, or, in the event that there are several such markets, on the basis of their last available closing prices on the principal market for the relevant security provided that such closing prices used are normally the same as those used by the Index Provider in calculating the value of each Sub-Fund's Index, but in the event that the last available price does not truly reflect the fair market value of the relevant securities, the value of such securities is defined by the Board of Directors based on the reasonably foreseeable sales price determined prudently and in good faith.

Securities not listed or traded on a stock exchange or not dealt in on another Regulated Market are valued on the basis of the probable sales price determined prudently and in good faith by the Board of Directors.

The liquidating value of futures, forward or options contracts traded on exchanges or on other Regulated Markets are based upon the last available settlement prices of these contracts on exchanges and Regulated Markets on which the particular futures, forward or options contracts are traded by the Company; provided that if a futures, forward or options contract cannot be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract is such value as the Board of Directors may deem fair and reasonable.

C) Treatment of Currencies

The books and records of each Sub-Fund are denominated in the Base Currencies. All assets and liabilities of the Sub-Funds expressed in a currency other than the Base Currency are converted into the Base Currency at the exchange rate prevailing on the principal Regulated Market of such asset on the Dealing Day preceding the Valuation Time.

Note 2 Summary of Significant Accounting Policies (continued)

C) Treatment of Currencies (continued)

In order to prepare combined financial statements, financial statements of each Sub-Fund that is not EUR denominated have been converted into EUR at the following exchange rates:

1 EUR = 1.4461 CAD	1 EUR = 8.3298 HKD
1 EUR = 0.9874 CHF	1 EUR = 140.8182 JPY
1 EUR = 7.4192 CNY	1 EUR = 1.4314 SGD
1 EUR = 0.8872 GBP	1 EUR = 1.0673 USD

D) Security Transactions and Investment Income

The net realised gain or loss on portfolio securities sold or paid out in kind as part of the redemption price for shares is determined on the average cost basis.

The assets of the Company include all stocks, stock dividends, cash dividends and cash distributions receivable by the Company to the extent that information therein is reasonably available to the Company and all interest accrued on any interest-bearing portfolio securities owned by the Company, except to the extent that it is included or reflected in the principal amount of such security. Dividends and interest income are accrued net of related withholding tax.

E) Options and Future Contracts

For the purpose of efficient portfolio management, the Company may enter into future contracts as set forth in the prospectus.

Initial margin deposits made upon entering into future contracts are included in deposits on financial future contracts in the Statement of Net Assets. The unrealised appreciation or depreciation on open future contracts is calculated as the difference between the contract price at trade date and the current day price on the last Business Day of the reporting year or period.

For the purpose of efficient portfolio management, the Company may furthermore purchase and write (sell) options as set forth in the prospectus.

The risk associated with purchasing an option is that the Company pays a premium whether or not the option is exercised. Additionally, the Company bears the risk of loss of the premium and any change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of portfolio securities acquired through the exercise of call options is increased by premium paid. The proceeds from portfolio securities sold through the exercise of put options are decreased by the premiums paid.

When the Company writes an option the premium received by the Company is recorded as a liability and is subsequently adjusted to the current market value of the option written. The Company records premiums received from written options that expire unexercised on the expiration date as realised gains from option transactions. The difference between the premium and the amount paid on the effective closing purchase transaction, including brokerage commissions, is also treated as a realised gain, or if the premium is less than the amount paid for the closing purchase transaction, as a realised loss.

If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Company has realised a gain or a loss.

If a written put option is exercised, the premium reduces the cost basis of the security purchased by the Company.

In writing covered options, the Company bears the market risk of unfavourable change in the price of the security underlying the written option. Exercise of an option written by the Company could result in the Company selling or buying a security at a price different from the current market value. Losses from written market index options may be unlimited.

Notes to Financial Statements

Annual report as of 31 December 2022

Note 2 Summary of Significant Accounting Policies (continued)

E) Options and Future Contracts (continued)

As of 31 December 2022, the Company had no outstanding options contracts and had outstanding future contracts as disclosed in the Schedule of Investments.

F) Forward Foreign Exchange Contracts

As described in the prospectus, each Sub-Fund is authorised to enter into forward foreign exchange contracts in order to protect a Sub-Fund against adverse movement in the value of a Sub-Fund's Base Currency. Each Sub-Fund may enter into contracts for the purchase or sale of a specific foreign currency at a fixed price on a future date as a hedge or crosshedge against either specific transactions or portfolio positions.

The aggregate principal amounts are reflected net in the accompanying Statement of Net Assets if a Sub-Fund intends to settle the contract prior to delivery. All commitments are marked-to-market at the applicable translation rates and any resulting unrealised gains or losses are recorded in each Sub-Fund's financial statements.

Each Sub-Fund/share class records realised gains or losses at the time the forward foreign exchange contract is offset by entry into a closing transaction or extinguished by delivery of the currency. Risks may arise upon entering these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the Base Currency.

As of 31 December 2022, the Company had outstanding forward foreign exchange contracts as disclosed in the Schedules of Investments.

G) Swap Contracts

The Company may enter into swap contracts in which the Company and the counterparty agree to exchange the returns generated by a security, instrument, basket or index thereof for the return generated by another security, instrument, basket or index thereof. The payments made by the Company to the counterparty and vice versa are calculated by reference to a specific security, index, or instrument and an agreed upon notional amount. The relevant indices include, but are not limited to, currencies, fixed interest rates, prices and total return on interest rate indices, fixed income indices and stock indices.

The commitment arising on a swap transaction is equal to the value of the net position under the contract marked to market daily.

As of 31 December 2022, the Company had no outstanding swap contracts.

H) Cross sub-fund investments

As of 31 December 2022, the Company had no cross investment.

Note 3 Agreements

For all ETF share classes, each Sub-Fund pays a Management Fee. The Management Fee is allocated by the Company among the Sub-Funds and paid directly to the Management Company. The Management Company will pay out of its fees the company administrator, the depositary, the portfolio manager and the distributor, each of which is a service provider.

The Management Fee also includes the costs for the Sub-Funds' administration (comprising the costs of the Company administrator and depositary bank), asset management and distribution, as well as other costs and expenses incurred in the Sub-Fund's course of business, as detailed in the Prospectus.

The Management Fee is a flat fee calculated on the average daily NAV of the Sub-Fund attributable to the relevant class of shares and is payable monthly in arrears.

Company Administrator, Domiciliary, Depositary, Corporate, Paying Agent and Securities Lending Agent

Notes to Financial Statements

Annual report as of 31 December 2022

Note 3 Agreements (continued)

State Street Bank International GmbH, Luxembourg Branch, 49, Avenue J.F. Kennedy, L-1855 Luxembourg, acts as the Company's administrator, domiciliary, depositary, corporate and paying agent in Luxembourg, registrar and transfer agent and is responsible for the general administrative duties involved in administering the Company as prescribed by Luxembourg laws and acting as the transfer agent. These duties include domiciliation, calculation of the Daily NAV per Share and the keeping of the Company's accounts, as well as reporting. Moreover, the administrative agent will be responsible for the issue and redemption of shares in the Company, and all related operations, including processing all subscriptions, redemptions and conversions to or from Authorized Participants.

State Street Bank International GmbH Frankfurt Branch, Solmsstrasse 83, 60486 Frankfurt am Main, Germany acts as the Company's securities lending agent.

Note 4 Taxation

Investors should be aware that tax regulations and their application or interpretation by the relevant taxation authorities can change periodically. The following should not be taken as constituting legal or tax advice. Investors should obtain information and, if necessary, should consult their professional advisers on the possible tax or other consequences of buying, holding, transferring or selling the Shares under the laws of their countries of origin citizenship, residence or domicile.

Under current laws and practice, the Company is not liable to any Luxembourg income tax, nor are dividends paid by the Company liable to any Luxembourg withholding tax.

No stamp duty or other tax is payable in Luxembourg on the issue of shares by the Company.

In general the Directors intend that each Fund available to UK investors will be certified by HM Revenue & Customs in the UK as reporting funds. The reporting fund status will remain in place permanently provided that the annual reporting requirements are satisfied. In broad terms, a "reporting fund" is an offshore fund that meets certain annual reporting requirements to HM Revenue & Customs and its investors. The Directors intend to manage the affairs of the Company so that these annual duties are met and will continue to be met on an ongoing basis.

Each Sub-Fund of the Company is subject to taxation on capital gains, interest and dividends in certain jurisdictions in which each Sub-Fund invests. It is the policy of each Sub-Fund to accrue for such taxes when the dividend is declared or interest is earned. At each valuation date, taxation on unrealised appreciation of securities is accrued for at applicable rates.

The Common Reporting Standard ("CRS") has been developed by the OECD to address the issue of offshore tax evasion on a global basis. Prospective investors will be required to provide to the Fund information about themselves and their tax status prior to investment in order to enable the Fund to satisfy its obligations under CRS, and to update that information on a continuing basis. Prospective investors should note the Fund's obligation to disclose such information to the Luxembourg tax authority. The Luxembourg tax authorities will exchange the information with other tax authorities in participating CRS jurisdictions on an annual basis. Each investor acknowledges that the Fund may take such action as it considers necessary in relation to such investor's holding in the Fund to ensure that any withholding tax suffered by the Fund and any other related costs, interest, penalties and other losses and liabilities arising from such investor's failure to provide the requested information to the Fund is economically borne by such investor.

German equity ratios are calculated and distributed daily.

FATCA is the Foreign Account Tax Compliance Act which aims to gather information on overseas accounts held by US Persons and ultimately ensure that the correct amount of tax is paid by US taxpayers.

FATCA enforces reporting obligations on foreign Financial Institutions ("FIs") where these accounts are held.

Notes to Financial Statements

Annual report as of 31 December 2022

Note 4 Taxation (continued)

UBS (Lux) Fund Solutions has been classified as a Sponsored Investment Entity. The sponsoring entity is UBS Fund Management (Luxembourg) S.A. with the GIIN: 9D0VT6.00000.SP.442

Section 871(m) of the US Tax Code requires withholding (up to 30%, depending on whether a treaty applies) on certain financial instruments to the extent that the payments or deemed payments on the financial instruments are contingent upon or determined by reference to U.S.-source dividends. Under these regulations, withholding may be required even in the absence of any actual dividend-related payment or adjustment made pursuant to the terms of the instrument. If the Company becomes subject to a withholding tax as a result of 871(m), the value of the Shares held by the Shareholders may be materially affected. All prospective investors/Shareholders should consult with their own tax advisors regarding the possible implications of 871(m) on an investment in the Company.

DAC6 – Disclosure requirements for reportable cross-border tax arrangements

On 25 June 2018, Council Directive (EU) 2018/822 (“DAC6”) entered into force introducing rules regarding the mandatory automatic exchange of information in the field of taxation in relation to reportable cross-border arrangements (“RCBAs”). DAC6 is intended to provide the tax authorities of EU member states with comprehensive and relevant information about potentially aggressive tax-planning arrangements with the aim that this information will enable the authorities to react promptly against harmful tax practices and close loopholes by enacting legislation or by undertaking adequate risk assessments and carrying out tax audits.

The DAC6 obligations apply from 1 July 2020, but may require reporting of arrangements implemented between 25 June 2018 and 30 June 2020. The Directive generally requires EU intermediaries to report to their local tax authorities information about RCBAs, including details of the arrangement as well as identification information about the involved intermediaries and relevant taxpayers, i.e. the persons to whom the RCBA is made available. Subsequently, the local tax authorities exchange the information with the tax authorities of other EU member states. As such, the Fund may be legally required to file information that is within its knowledge, possession or control on any RCBA to the respective tax authorities. This legislation is capable of applying to arrangements that do not necessarily constitute aggressive tax planning.

Note 5 Distribution

Within the limits provided by Luxembourg law, the Board of Directors determines how the income of each Sub-Fund shall be dealt with, and may from time to time declare distributions. The Board of Directors may decide to pay interim dividends in compliance with the conditions set forth by Luxembourg law.

The Company intends for each Sub-Fund to distribute its net income in order to achieve the maximum tracking accuracy of the relevant Index. An income equalization amount will be calculated by reference to the amount of the Daily NAV Per Share representing the accrued net income (or deficit) at the time when a subscription or a redemption in kind is made so that the dividend representing the net investment income corresponds to the net income return of the Index.

For UK dis share classes, as defined in the prospectus, Net Investment Income used for determination of distributions may be different than Net Investment Income as per accounting records due to UK tax reporting requirements.

During the period from 1 January 2022 to 31 December 2022, the Company resolved to pay to all shareholders of the Sub-Funds mentioned below dividends which are mainly composed of the income net of all costs and expenses incurred by the respective Sub-Fund as detailed in the following table.

* Dividend was paid in Share Class currency. Currency of Share Class is included in column Sub-Funds (ETF Share Classes).

** Sub-Fund's name changed. Please refer to Note 20 within the notes of the Financial Statements for further details.

Note 6 Transactions by the Company

As a result of each Sub-Fund typically receiving (or delivering) securities through in kind subscriptions (or redemptions) made by Authorized Participants or versus cash, Sub-Funds will normally not incur high levels of investment transactions. In accordance with the investment policy of each Sub-Fund investment transactions may be entered into periodically by the Company in seeking to achieve the Sub-Fund's Investment Objectives.

Authorized Participants are in general not involved in subscriptions and redemptions in the Index Funds.

Subject to the investment policy established by the Board of Directors, the Portfolio Manager of each Sub-Fund is responsible for the execution of each Sub-Fund's investment transactions and the allocation of the brokerage commissions and will select brokers who will provide the best overall service to the Company. The Company has no obligation to deal with any specific broker or group of brokers in execution of transactions in securities for a Sub-Fund. However, the Company contemplates that a substantial amount of such transactions will be conducted through Authorized Participants or their affiliates or affiliates of the relevant Portfolio Manager; provided always that any such person will endeavor to transact such transactions on a best execution basis. Certain transactions may be subject to a commission or dealer mark-up which may not be the lowest commission or spread available.

Note 7 Securities Lending

Securities lending is the temporary transfer of securities from the lender (UBS (Lux) Fund Solutions) to a third party borrower through an appointed lending agent. In exchange for the lent security the borrower provides collateral, prior to the delivery of securities, and pays a fee over the period of the loan. All loans within the lending program are open and rolled daily such that they can be terminated on demand.

UBS (Lux) Fund Solutions engage in securities lending for selected, physically replicated Funds with the aim of reducing the investor's net costs. Securities lending with UBS (Lux) Fund Solutions is always overcollateralised with at least 105% margin across all asset classes. An additional safeguard, introduced 1 April 2014, is that on loan balances are capped at 50% of each Sub-Fund's AUM except for UBS (Lux) Fund Solutions – EURO STOXX 50 UCITS ETF. For this Sub-Fund on-loan balance is capped at 25% of the sub-fund's AUM.

Effective 4 May 2017, Sub-Funds tracking fixed Income Indices and "ESG", "Paris Aligned" and "Socially Responsible" indexes were not in the security lending program anymore.

In general, lending may only be effected via the Securities Lending Agent (State Street Bank International GmbH, Frankfurt Branch) with the protection of an indemnity against borrower default provided for by State Street Bank and Trust Company. Collateral is held in a depositary account that is ring-fenced from the lending agents balance sheet. Mark to markets take place on a daily basis to ensure that the required margin levels are consistently maintained. Whilst State Street Bank and Trust Company provides a borrower indemnity and carefully selects its underlying list of borrowers an additional level of oversight is provided for by UBS Credit & Risk to structure a bespoke approved borrower list.

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions cannot be sold, re-invested or pledged.

It should be noted that securities lending is subject to a certain risk where the borrower does not return the borrowed securities according to their obligation, and where the value of the collateral provided does not cover the costs of repurchase of the securities. In such cases, State Street Bank and Trust Company, under the terms of the borrower default indemnity, shall cover the cost of purchasing the replacement securities, subject to certain conditions.

Currently, at least 60 percent of the gross revenue received in the context of securities lending transactions is credited to the relevant sub-fund while UBS Asset Management Switzerland AG receives approximately 20% of the gross revenues to cover the due diligence and 20% of the gross revenues are paid to the Securities Lending Agent as normal compensation for its services in the context of such efficient portfolio management techniques.

UBS Asset Management Switzerland AG receives approximately 20% of the gross revenues to cover for services performed by UBS Asset Management Switzerland AG and the Securities Lending Agent approximately 20% to cover operational costs resulting from the transactions carried out in relation to the securities lending. The services include due diligence on the borrowers (careful borrower selection and monitoring), website disclosure of daily adjusted lending data like daily publication of collateral assets, disclosure in the financial statements. In terms of collateral liquidity checks are performed and collateralization level are monitored.

Notes to Financial Statements

Notes to Financial Statements

Annual report as of 31 December 2022

Note 9 Changes in Investment Portfolio

A copy of the list of changes in the portfolio during the reference period may be obtained free of charge at the depositary, at the paying agents and information agent in Germany, at the Swiss representation office in Switzerland as well as at the Austrian representative and French centralizing and financial agent.

Note 10 Fund documentation

Information about UBS (Lux) Fund Solutions and available ETF share classes, the full prospectus as well as the key investor information documents, the latest annual and semi-annual reports, can be obtained free of charge, in English from the Fund Management Company, the Central Administrator, the Depositary, the Funds distributors or online at www.ubs.com/etf or from the Swiss representative or paying agent, or from the French centralizing and financial agent.

Note 11 Facilities for Retail investors

The Prospectus, the Fund's constitutive documents, the Key Investor Information Documents (KIIDs), where applicable, as well as financial statements are available for the purpose of inspection and obtaining copies thereof at www.ubs.com/etf.

In accordance with Directive 2019/1160[1], we hereby confirm that the following tasks are performed electronically and available to all retail investors located in all host member states where a fund managed by UBS Fund Management (Luxembourg) S.A., acting as management company or AIFM is marketed. In case you would need any assistance or information on the below tasks, you can contact us through the following email address: sh-ubsfacilities@ubs.com

a) process subscription, repurchase and redemption orders and make other payments to investors relating to the shares/units of a fund managed by UBS Fund Management (Luxembourg) S.A. in accordance with the fund's constitutive documents;

b) information on how orders referred to in point a) can be made and how repurchase and redemption proceeds are paid;

c) procedures and arrangements referred to in Article 15 of the Directive 2009/65/EC[2] relating to the investors' exercise of their rights arising from their investment in the UCITS in the Member State where the UCITS is marketed, or handling of information relating to the exercise of their investors' rights arising from your investment in the AIF in the Member State where the AIF is marketed. More information on investor rights can be found here: UBS Fund Management (Luxembourg) S.A.;

For further information on the above tasks, please access the following link: <https://www.ubs.com/global/en/asset-management/investment-capabilities/white-labelling-solutions/fund-management-company-services.html>

Note 12 For Swiss residents only

The Company has appointed UBS Fund Management (Switzerland) AG, Aeschenvorstadt 1, CH-4051 Basel as representation agent of the Company in Switzerland.

The Company has appointed UBS Switzerland AG, Bahnhofstrasse 45, CH-8098 Zurich and its branches in Switzerland as paying agent of the Company in Switzerland.

The prospectus, the KIID, management regulations, annual and semi-annual reports as well as the portfolio movements of the investment fund mentioned in this publication are available free of charge from UBS Switzerland AG, Bahnhofstrasse 45, CH-8098 Zurich and from UBS Fund Management (Switzerland) AG, Aeschenvorstadt 1, CH-4051 Basel.

Note 13 For French residents only

The Company has appointed Société Générale S.A., 29, Boulevard Haussmann, F-75009 Paris as centralizing and financial agent in France.

Notes to Financial Statements

Annual report as of 31 December 2022

Note 14 For UK residents only

The Company has appointed UBS Asset Management (UK) Ltd, 5 Broadgate, EC2M 2QS London as paying agent in the United Kingdom.

Note 15 Commission arrangements

During the year ended 31 December 2022, no commission sharing arrangements (CSAs) were entered into on behalf of UBS (Lux) Fund Solutions.

Note 16 Transaction Fees

Transaction Fees are the brokerage costs and commissions and correspondence fees for transferring securities or investments or other interests.

Note 17 Risk Management

In terms of risk management the Board of Directors of the Management Company decided to adopt the commitment approach as a method of determining the global exposure.

Note 18 Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the shareholders, the Company, the Management Company and the Depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the Company, Management Company and/or depositary can elect to make themselves subject to the jurisdictions of the countries in which the shares were bought and sold. The English version of the prospectus is the authoritative version. This prospectus may also be translated into other languages. To the extent that there is any inconsistency between the English language prospectus and a version in another language, the English language prospectus will prevail, except, to the extent required by the law of any jurisdiction where the shares are sold.

Note 19 Replication Strategy

Our approach to passive equity investment is to use full replication where possible depending on the characteristics of the benchmark index, the size of portfolio and the client's desired tracking accuracy. In some situations, the portfolio manager may utilize stratified sampling where the portfolio manager deems this to be more efficient.

We typically utilize "stratified sampling" approach for our passive fixed income funds. "Stratified Sampling" is a quantitative based process, bolstered with qualitative input from our portfolio managers, that aims to construct an optimal portfolio that efficiently replicates benchmark risk characteristics with fewer securities that are sufficiently liquid and diversified. However, for certain cases, the optimal portfolio may be achieved by full replication.

In practice, the majority of our Equity ETFs are typically full replication (holding all or virtually all the underlying constituents at weights at or close to the index) and Fixed Income ETFs utilize stratified sampling.

As at 31 December 2022 the following Fixed Income sub-funds utilize full replication:

UBS (Lux) Fund Solutions – Bloomberg Euro Inflation Linked 1-10 UCITS ETF
UBS (Lux) Fund Solutions – Bloomberg Euro Inflation Linked 10+ UCITS ETF
UBS (Lux) Fund Solutions – Bloomberg Japan Treasury 1-3 Year Bond UCITS ETF
UBS (Lux) Fund Solutions – Bloomberg TIPS 1-10 UCITS ETF
UBS (Lux) Fund Solutions – Bloomberg TIPS 10+ UCITS ETF
UBS (Lux) Fund Solutions – Bloomberg US 1-3 Year Treasury Bond UCITS ETF
UBS (Lux) Fund Solutions – Bloomberg US 7-10 Year Treasury Bond UCITS ETF
UBS (Lux) Fund Solutions – Bloomberg US 10+ Year Treasury Bond UCITS ETF

Notes to Financial Statements

Annual report as of 31 December 2022

Note 19 Replication Strategy (continued)

For equity ETFs investing in emerging markets we may make use of stock substitutions such as Depository Receipts or foreign listings where we deem this to be more efficient.

Note 20 Significant events during the reporting period

Directors

Frank Müsel was a Board Member until 31 December 2022.

Ian Ashment was a Board Member until 31 December 2022.

Josée Lynda Denis was appointed as an Independent Board Member as of 19 April 2022.

Jörgen Jessen was an Independent Board Member until 18 August 2022.

Fund name	ISIN	Old Benchmark name	New Benchmark name
UBS (Lux) Fund Solutions – Bloomberg MSCI Euro Area Liquid Corporates 1-5 Year Sustainable UCITS ETF	LU1805389258	Bloomberg Euro HQLA 1-5 Years Bond Index (Total Return)	Bloomberg MSCI Euro Area Liquid Corporates 1-5 Year Sustainable Index (Total Return)

Cross Border Directive

On 2nd August 2021, the EU Cross Border Distribution of Funds Directive (EU 2019/1160) came into effect. Notable changes include the new concept of pre-marketing, a de-notification process to cease cross-border fund marketing and changes around the local facilities available to retail investors. Where applicable, UBS Asset Management has amended its internal processes accordingly. As of 1st of August 2019, the EU Regulation on Cross-border Fund Distribution (EU 2019/1156) entered into force,

Notes to Financial Statements

Annual report as of 31 December 2022

Note 20 Significant events during the reporting period (continued)

which introduced requirements around marketing communications. On 2nd February 2022, ESMA's guidelines on marketing communications started to apply. UBS updated the content and format of marketing materials and the associated production processes to align to the revised requirements.

Central Securities Depositories Regulation

The European Union has adopted a settlement discipline regime under Regulation (EU) No 909/2014 and the settlement discipline regulatory technical standards with phased compliance dates from February 2022 onwards ("CSDR"). CSDR aims to reduce the number of settlement fails that occur in EEA central securities depositories (CSDs) and to address settlement fails where they occur. The implementation of the CSDR settlement discipline regime for the Company when it enters into in-scope transactions may result in increased operational and compliance costs being borne directly or indirectly by the Company. CSDR may also affect liquidity and increase trading costs associated with relevant securities.

Note 21 Subsequent events

Share classes to be launched:

Sub-Funds	Share Class	Initial Dealing Day
UBS (Lux) Fund Solutions – MSCI World ex USA Index Fund	(USD) I-A3-acc	30 January 2023

Note 22 Portfolio Turnover Ratio

The Portfolio Turnover Ratio (PTR), expressed as a percentage, reflects the volume of dealing in the Sub-Fund. It is equal to the total of purchases and sales of securities netted against the value of the subscriptions and redemptions, over the average net assets of the Sub-Fund for the year.

The PTR for the year ending 31 December 2022 is as follows:

Sub-Funds	Portfolio Turnover Ratio

Appendix I - Supplementary Information (unaudited)

Securities Financing Transactions Regulation (Regulation (EU) 2015/2365) ("SFTR") came into force on 12 January 2016 and, amongst other requirements, introduces new disclosure requirements in the UBS (Lux) Fund Solutions annual and half-yearly reports published after 13 January 2017 detailing the UBS (Lux) Fund Solutions use of securities financing transactions. As a result, additional disclosures have been included in this appendix.

The following table details the value of securities on loan in EUR as a proportion of the Fund's Net Assets Value, as at 31 December 2022.

Fund	Securities on loan % of Net Assets	Securities on loan % of Total Lendable Securities

For all sub-funds, the maturity tenor of securities on loan is open as there are all equities.

The following table details the value of securities on loan and associated non cash collateral received, analysed by Lending Borrowers, as at 31 December 2022. Please refer to Note 7 for further information on reuse of non-cash collateral received.

No cash is received as collateral in relation to securities lending activities.

The figures are disclosed in EUR which is the base currency of the Company but the currency in which the non-cash collateral is received is always USD.

Appendix I - Supplementary Information (unaudited) (continued)

The Company has collateral both bilaterally (State Street Bank and Trust) and via tri-party agents (Bank of New York and JP Morgan Chase). In the case of Bank of New York and JP Morgan Chase agents, State Street Bank and Trust delegates some collateral management duties to these tri-party agents. In all cases the depository has delegated collateral management duties to State Street Bank and Trust. State Street Bank and Trust are then permitted to further delegate responsibilities to tri-party agents if they see fit.

Appendix II - Remuneration Policy (unaudited)

Remuneration disclosure

The Board of Directors of UBS Fund Management (Luxembourg) S.A. (the "Management Company" or the "AIFM") has adopted a remuneration framework (the "Framework") whose objectives are:

on one hand; to ensure that the remuneration framework is in line with the applicable laws and regulations, and more specifically with provisions defined under

(i) the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities as amended from time to time (the "UCITS Law") transposing the UCITS Directive 2009/65/EC (the "UCITS Directive") as amended by Directive 2014/91/EU (the "UCITS V Directive");

(ii) the Alternative Investment Fund Managers Directive ("AIFMD") 2011/61/EU, transposed into the Luxembourg AIFM Law dated from 12 July 2013, as amended from time to time;

(iii) the ESMA's guidelines on sound remuneration policies under the UCITS Directive - ESMA/2016/575 and ESMA's guidelines on sound remuneration policies under the AIFMD - ESMA/2016/579 both published on 14 October 2016;

(iv) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector issued on 1 February 2010;

(v) the Directive 2014/65/EU on markets in financial instruments (MiFID II);

(vi) the Commission Delegated Regulation 2017/565/EC of 25 April 2016 supplementing Directive 2014/65/EU (MiFID II Level 2);

(vii) Regulation (EU) 2019/2088 of the European parliament and of the council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR");

(viii) the CSSF Circular 14/585, transposing the ESMA Guidelines 2013/606 on remuneration policies and practices (MiFID ESMA Guidelines);

and on the other hand, to comply with the UBS Group AG (the "UBS Group") Total Reward Principles.

The Framework is meant not to encourage excessive risk taking, to contain measures to avoid conflicts of interest, to be consistent with, and promote, sound and effective risk management, including sustainability risk where applicable, and to be consistent with the UBS Group business strategy, objectives and values.

More details about the Policy of the Management Company/the AIFM, which describes, but not limited to, how remuneration and benefits are determined, are available at <https://www.ubs.com/global/en/asset-management/investment-capabilities/white-labelling-solutions/fund-management-company-services/fml-procedures.html>

The Policy is subject to an annual review by the control functions of the Management Company/the AIFM after review and update by the Human Resources department; and is approved by the Board of Directors of the Management Company/the AIFM. Last approval by the Board of Directors took place on 23 September 2022. The changes made to the Framework relate to the extension of the Management Company/the AIFM license to cover non-core services investment advice and reception and transmission of orders in relation to financial instruments.

Application of the requirements and remuneration disclosure

In accordance with the Article 151 of the UCITS Law and Article 20 of the AIFM Law, the Management Company/the AIFM is required to disclose at least annually certain information concerning its remuneration framework and the practices for its Identified Staff.

The Management Company/the AIFM complies with the UCITS Directive/AIFMD principles in a way and to the extent that is appropriate to its size, internal organization and the nature, scope and complexity of its activities.

Considering the total size of funds under management, both UCITS and AIFs although a significant portion is not complex or risky investment, the Management Company/the AIFM judges that the proportionality principle may not be applicable at the level of the company but at the level of the Identified Staff.

By application of the proportionality principle for the Identified Staff, the following requirements on pay-out processes for Identified Staff are not applied:

- The payment of variable remuneration in instruments related mainly to the funds in relation to which they perform their activities;

Appendix II - Remuneration Policy (unaudited) (continued)

- Deferral requirements;
- Retention periods;
- Incorporation of ex-post risk factors (i.e. malus or clawback arrangements);

The deferral requirements remain however applicable when the employee's total annual compensation is exceeding the threshold defined under the UBS Group Compensation Framework; the variable compensation will be treated in line with the plan rules defined under the UBS Group Compensation Framework.

Remuneration of Management Company/AIFM staff

The aggregate amounts of total remuneration, split into fixed and variable, paid by the Management Company/the AIFM to its staff and its Identified Staff during the financial year ended as at 31 December 2022 are as follows:

EUR 1000	Fixed remuneration	Variable remuneration	Total remuneration	No of beneficiaries
All staff	10,669	1,787	12,456	100
- whereof Identified Staff	4,644	985	5,629	33
- thereof Senior Management*	2,341	714	3,055	11
- thereof Other Identified Staff	2,303	271	2,574	22

*Senior Management includes the CEO, the Conducting Officers, the Head of Compliance and the Independent Director.

Remuneration of delegates staff

As market or regulatory practice develops UBS AM may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other UBS fund disclosures in that same year.

For the year ending 31 December 2021 (last available information), the aggregate total remuneration paid by all delegated Investment Managers to their Identified Staffs in relation to the Fund amounted to EUR 216,570 of which EUR 134,687 represented the variable remuneration (3 beneficiaries).

Appendix III - Sustainable Finance Disclosure Regulation (unaudited)

ESG is an abbreviation for Environmental, Social and Governance (factors). These factors are used to evaluate companies and countries on how advanced they are with respect to sustainability. Once sufficient data on these factors is available, they can be used to assess and compare assets and also to inform the investment process when deciding what assets to buy, hold or sell.

MSCI ESG scores are provided by MSCI ESG Research and are measured on a scale from 0 (lowest/worst score) to 10 (highest/best score). The score is based on the underlying company's exposure to industry-specific ESG risks and their ability to mitigate those risks relative to their peers. ESG scores are also shown as a breakdown of the E, S and G scores, in reference to the different components that are considered for the Environmental, Social and Government pillars. The components are also rated on a scale of 0-10. Based on the individual E, S and G values, a weighted average can be calculated. This is dynamic and takes into account the direct changes of all underlying results, which affect the individual E, S and G values. The ESG Score measures the most financially significant environmental, social and governance risks and opportunities of companies. In addition, sectoral differences are taken into account through key industry specific ESG issues. This makes the ESG score a rather static measure, as the relative valuation of a sector remains constant over a longer period of time.

Weighted Average Carbon Intensity (tons CO₂e / USDm sales): The Weighted Average Carbon Intensity (WACI) measures a portfolio's exposure to carbon-intensive companies. The WACI metric provides insight into potential risks related to the transition to a lower-carbon economy because companies with higher carbon intensity are likely to face more exposure to carbon related market and regulatory risks. These metrics are applicable across asset classes, including fixed income, as it's not based on equity ownership basis. It's the sum product of the portfolio weights and individual carbon intensities (carbon emissions scope 1+2 / USDm sales). Data provider: MSCI ESG Research.

ANNEX 4

ANNEX

to the

Commission Delegated Regulation (EU) .../...

supplementing Regulation (EU) 2019/2088 of the European Parliament and of the Council with regard to regulatory technical standards specifying the details of the content and presentation of the information in relation to the principle of ‘do no significant harm’, specifying the content, methodologies and presentation of information in relation to sustainability indicators and adverse sustainability impacts, and the content and presentation of the information in relation to the promotion of environmental or social characteristics and sustainable investment objectives in pre-contractual documents, on websites and in periodic reports

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:	Legal entity identifier
UBS (Lux) Fund Solutions – EURO STOXX 50 ESG UCITS ETF	549300XYJK1EYGOERY56

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 60.86% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 3.30% higher than that of the parent benchmark (EURO STOXX 50® Index (Net Return)) (8.16 vs. 7.90)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

Please note that while the parent benchmark is provided by STOXX Ltd., the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The objectives of the sustainable investments that the financial product partially intends to make, is to contribute to environmental and/or social objectives.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The financial product exclude investments in companies which are involved in the following business activities: Controversial Weapons, Tobacco, Thermal Coal and Military Contracting.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

STOXX monitors company involvement in notable ESG controversies related to the company's operations and/or products, possible breaches of international norms and principles such as the United Nations Global Compact (UNGC) Principles, the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights (UNGPs), and their underlying conventions, and performance with respect to these norms and principles.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022

Largest investments	Sector	% Assets	Country
<i>ASML Holding</i>	<i>Semiconductors</i>	<i>9.12</i>	<i>Netherlands</i>

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 99.99%. The minimum proportion of sustainable investments of the financial product was 60.86%.

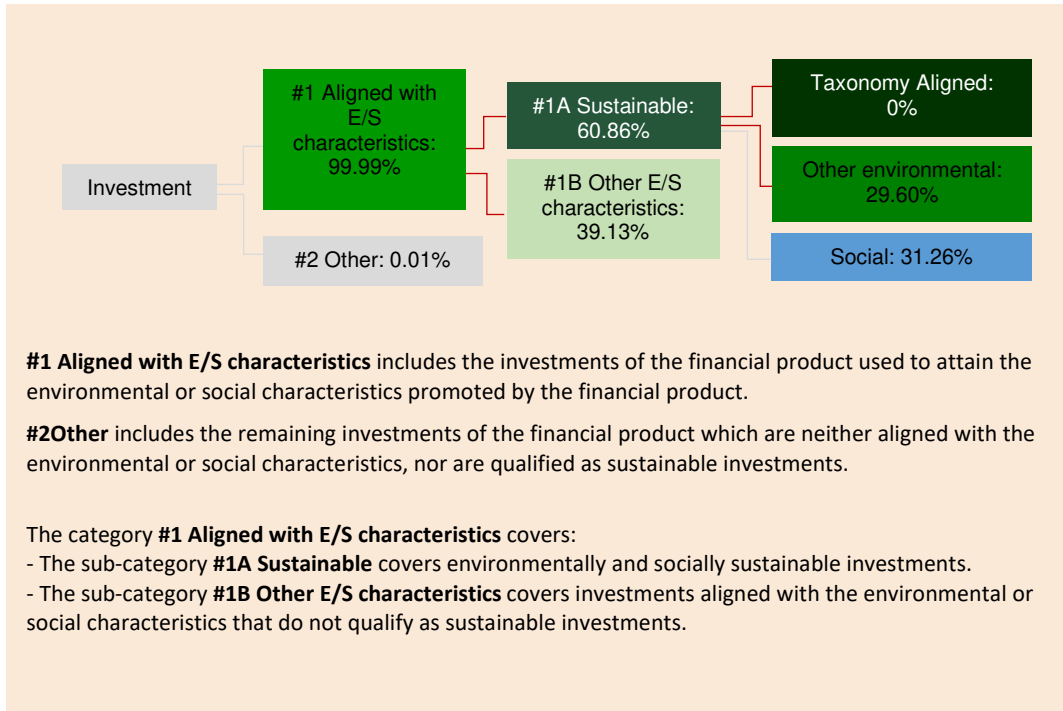

- ***What was the asset allocation?***

Asset allocation describes the share of investments in specific assets.

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Please refer to the section “Schedule of Investments” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 31.26%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible.

The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

● **How does the reference benchmark differ from a broad market index?**

The index is designed to reflect the EURO STOXX 50 Net Return index with standardized ESG exclusion screens. The EURO STOXX 50 ESG Net Return index is a free float-adjusted market capitalization index which excludes companies that are facing controversies pertaining to ESG issues. The exclusion criteria are described in the methodology of index provider. The ESG rating is generated by Sustainalytics’ research and is based on an analysis of each company's management of its environmental, social and governance (ESG) performance. The index is rebalanced on a quarterly basis and may also be re-balanced at other times in order to comply with applicable investment restrictions or to reflect corporate activity such as mergers and acquisitions.

At least 90% of the securities have an ESG rating. As the investment policy of the UBS (Lux) Fund Solutions - EURO STOXX 50 ESG UCITS ETF sub-fund is to track the Index, the portfolio management of the sub-fund is passive. As a result, the approach taken in relation to the consideration of ESG criteria is the one taken by STOXX and therefore dependent on the approach and methodology defined by a third party.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The ESG Score was 0.35% lower than that of the reference benchmark (EURO STOXX 50 ESG Net Return Index) (8.16 vs. 8.19).

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Please note that while the parent benchmark is provided by STOXX Ltd., the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

● ***How did this financial product perform compared with the reference benchmark?***

The ESG Score was 0.35% lower than that of the reference benchmark (EURO STOXX 50 ESG Net Return Index) (8.16 vs. 8.19).

Please note that while the parent benchmark is provided by STOXX Ltd., the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

● ***How did this financial product perform compared with the broad market index?***

The ESG Score was 3.30% higher than that of the broad market Index (EURO STOXX 50® Index (Net Return)) (8.16 vs. 7.90).

Please note that while the parent benchmark is provided by STOXX Ltd., the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 29.54% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 10.52% higher than that of the parent benchmark (MSCI China Index) (5.12 vs. 4.63)

The Weighted average carbon intensity (Scope 1+2) MSCI was 76.15% lower than that of the parent benchmark (MSCI China Index) (57.52 vs. 57.32)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The financial product intends to make sustainable investment by investing at least 90% of its total net assets in securities that are constituents of the Index. MSCI China ESG Universal 5% Issuer Capped Total Return Net Indices aim to represent the performance of an investment strategy that by re-weighting free-float market cap weights based upon certain ESG metrics seeks to increase exposure to those companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile, while excluding companies based on various ESG and climate change criteria.

MSCI Climate Change Metrics provides climate data & tools to support investors integrating climate risk & opportunities into their investment strategy and processes. It supports investors seeking to achieve a range of objectives, including measuring and reporting on climate risk exposure, implementing low carbon and fossil fuel-free strategies, align with temperature pathways and factoring climate change research into their risk management processes, in particular through climate scenario analysis for both transition and physical risks.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

Indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

The indices incorporate the MSCI ESG Controversies score, screening out on a timely basis any issuers in significant breach of ESG norms.

MSCI ESG Controversies are designed to provide timely and consistent assessments of ESG controversies involving issuers. Any issuer with a “Red” MSCI ESG Controversies Score (score less than 1) is excluded from Sustainability indices. The Controversy Score measures an issuer’s involvement in major ESG controversies and how well the issuer adheres to international norms and principles

The financial product exclude investments in companies involved directly in the use, development, manufacturing, stockpiling, transfer or trade of cluster munitions and/or anti-personnel landmines, nuclear weapons, biological weapons or chemical weapons.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The MSCI ESG Controversies tool monitors company involvement in notable ESG controversies related to the company’s operations and/or products, possible breaches of international norms and principles such as the UN Global Compact, and performance with respect to these norms and principles.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 2022

Asset allocation describes the share of investments in specific assets.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

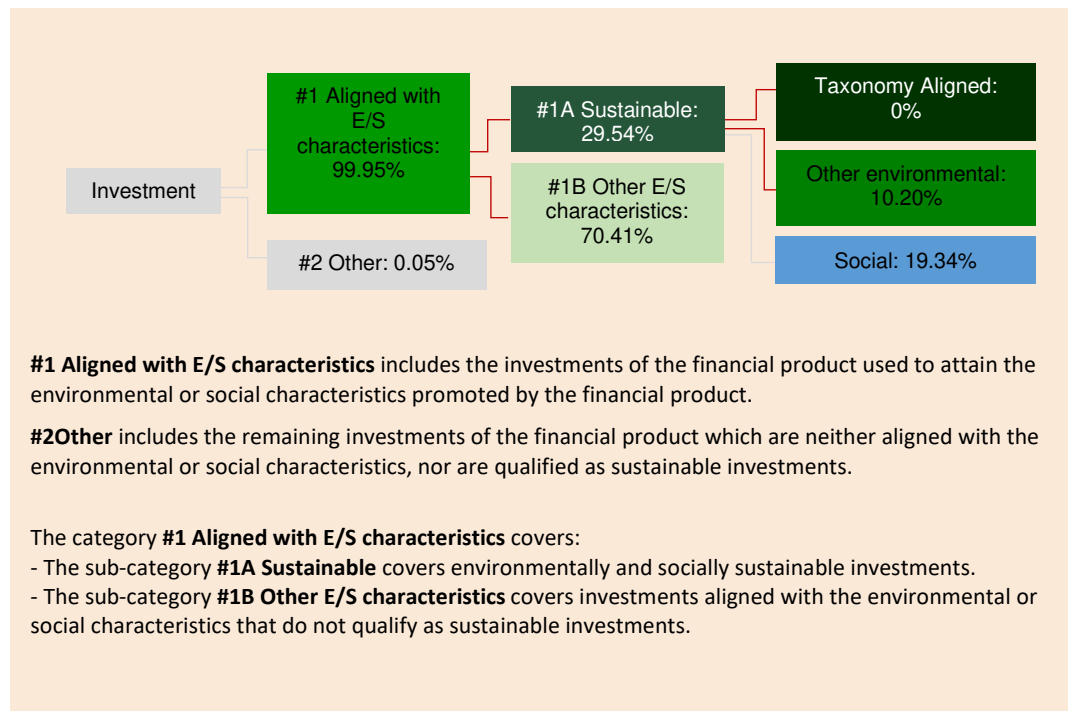

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 99.95%. The minimum proportion of sustainable investments of the financial product was 29.54%.

● What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

● In which economic sectors were the investments made?

Please refer to the section "Schedule of Investments" of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 19.34%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible. The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

How does the reference benchmark differ from a broad market index?

The Index draws its constituents from the MSCI China ESG Universal Index (the "Parent Index"), being an equity index calculated, maintained and published by international index supplier MSCI® and denominated in USD. The Index tracks the total return net dividend performance of large and mid-capitalisation US companies.

The Index is designed to reflect the performance of an investment strategy that, by tilting away from free-float market cap weights, seeks to gain exposure to those companies demonstrating both a robust Environmental, Social and Governance (ESG) profile as well as a positive trend in improving that profile, using minimal exclusions from the Parent Index.

The Index constituent selection is based on research provided by MSCI ESG Research which provides research, ratings and analysis of ESG-related business practice. The Index Provider excludes companies facing controversies (MSCI Red Flag, being an indication of at least one very severe controversy), companies which have a poor ESG Rating (rating of CCC), companies which have revenues in certain business activities (controversial weapons, nuclear weapons, civilian firearms, tobacco, thermal coal, fossil fuel extraction), as well as the top 5% companies by number based on carbon emission intensity levels (being scope 1 and 2 emissions as categorised by the Greenhouse Gas Protocol) up to a cumulative weight of less than 30% of the weight of that sector in the Parent Index. The index also selects companies with low exposure to fossil fuel reserves and ranks the Parent Index constituents in descending order of the potential carbon emissions per dollar of the market capitalization of the company. Securities are then excluded until the cumulative potential carbon emission

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

of the excluded securities reaches 50% of the sum of the potential carbon emission of the constituents of the Parent Index.

The free-float adjusted market cap weight is adjusted by a "Combined ESG score" that is a combined product of an "ESG rating score" based on the MSCI ESG Research rating (i.e. 1.5 (AAA, AA), 1 (A, BBB, BB) or 0.5 (B)) and a "ESG Rating trend score" based on the change in a company's ESG rating score against the previous assessment carried out by the Index Provider (i.e.1.2 for an increased rating, 1.0 for a neutral rating and 0.8 for a decreased rating). The Combined ESG Score of a company is determined by multiplying the ESG Rating Score by the ESG Rating Trend Score. This Combined ESG Score is used to re-weight the constituent from the Parent Index by multiplying the Combined ESG Score by the market capitalisation weight of the security in the Parent Index. The maximum weight of any issuer of the Parent Index is capped at 5% in order to construct the Index.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

The ESG Score was 0.03% higher than that of the reference benchmark (MSCI China ESG Universal 5% Issuer Capped Index) (5.12 vs. 5.12).

A combined weighted Scope 1 and 2 average carbon intensity was 0.34% higher than that of the reference benchmark (MSCI China ESG Universal 5% Issuer Capped Index) (57.52 vs. 57.32).

● ***How did this financial product perform compared with the reference benchmark?***

The ESG Score was 0.03% higher than that of the reference benchmark (MSCI China ESG Universal 5% Issuer Capped Index) (5.12 vs. 5.12).

A combined weighted Scope 1 and 2 average carbon intensity was 0.34% higher than that of the reference benchmark (MSCI China ESG Universal 5% Issuer Capped Index) (57.52 vs. 57.32).

● ***How did this financial product perform compared with the broad market index?***

The ESG Score was 10.52% higher than that of the broad market Index (MSCI China Index) (5.12 vs. 4.63).

The Weighted average carbon intensity (Scope 1+2) MSCI was 76.15% lower than that of the broad market index (MSCI China Index) (57.52 vs. 241.20).

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 44.35% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 33.64% higher than that of the parent benchmark (MSCI Emerging Markets Index) (7.14 vs. 5.34)

The Weighted average carbon intensity (Scope 1+2) MSCI was 79.09% lower than that of the parent benchmark (MSCI Emerging Market Index) (67.58 vs. 323.26)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The financial product intends to make sustainable investment by investing at least 90% of its total net assets in securities that are constituents of the Index. MSCI Emerging Markets SRI Low Carbon Select Indices aim to represent the performance of an investment strategy that by re-weighting free-float market cap weights based upon certain ESG metrics seeks to increase exposure to those companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile, while excluding companies based on various ESG and climate change criteria.

MSCI Climate Change Metrics provides climate data & tools to support investors integrating climate risk & opportunities into their investment strategy and processes. It supports investors seeking to achieve a range of objectives, including measuring and reporting on climate risk exposure, implementing low carbon and fossil fuel-free strategies, align with temperature pathways and factoring climate change research into their risk management processes, in particular through climate scenario analysis for both transition and physical risks.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

Indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

The indices incorporate the MSCI ESG Controversies score, screening out on a timely basis any issuers in significant breach of ESG norms.

MSCI ESG Controversies are designed to provide timely and consistent assessments of ESG controversies involving issuers. Any issuer with a “Red” MSCI ESG Controversies Score (score less than 1) is excluded from Sustainability indices. The Controversy Score measures an issuer’s involvement in major ESG controversies and how well the issuer adheres to international norms and principles.

The financial product exclude investments in companies involved directly in the use, development, manufacturing, stockpiling, transfer or trade of cluster munitions and/or anti-personnel landmines, nuclear weapons, biological weapons or chemical weapons.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The MSCI ESG Controversies tool monitors company involvement in notable ESG controversies related to the company’s operations and/or products, possible breaches of international norms and principles such as the UN Global Compact, and performance with respect to these norms and principles.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

Asset allocation describes the share of investments in specific assets.

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Please refer to the section “Schedule of Investments” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 26.15%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible. The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

● **How does the reference benchmark differ from a broad market index?**

The broad market index is the MSCI Emerging Markets Index. The reference benchmark is the MSCI Emerging Markets SRI Low Carbon Select 5% Issuer Capped Total Return Net. The Index (MSCI Emerging Markets SRI Low Carbon Select 5% Issuer Capped Total Return Net) is part of the MSCI Global Socially Responsible (SRI) Index series. The Index draws its constituents from the MSCI Emerging Markets Index (the "Parent Index"), being an equity index calculated, maintained and published by international index supplier MSCI® and denominated in USD. The Index tracks the total return net dividend performance of large and mid-capitalisation US companies.

The Index is designed to reflect the performance of an investment strategy that, by tilting away from free-float market cap weights, seeks to gain exposure to those companies demonstrating both a robust Environmental, Social and Governance (ESG) profile as well as a positive trend in improving that profile, using minimal exclusions from the Parent Index.

More information can be found in the fund supplement and the annex.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The ESG Score was 0.14% lower than that of the reference benchmark (MSCI Emerging Markets SRI Low Carbon Select 5% Issuer Capped Index) (7.14 vs. 7.15).

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

A combined weighted Scope 1 and 2 average carbon intensity was 0.93% higher than that of the reference benchmark (MSCI Emerging Markets SRI Low Carbon Select 5% Issuer Capped Index) (67.58 vs. 66.69).

● ***How did this financial product perform compared with the reference benchmark?***

The ESG Score was 0.14% lower than that of the reference benchmark (MSCI Emerging Markets SRI Low Carbon Select 5% Issuer Capped Index) (7.14 vs. 7.15).

A combined weighted Scope 1 and 2 average carbon intensity was 0.93% higher than that of the reference benchmark (MSCI Emerging Markets SRI Low Carbon Select 5% Issuer Capped Index) (67.58 vs. 66.69).

● ***How did this financial product perform compared with the broad market index?***

The ESG Score was 33.64% higher than that of the broad market Index (MSCI Emerging Markets Index) (7.14 vs. 5.34).

The Weighted average carbon intensity (Scope 1+2) MSCI was 79.09% lower than that of the broad market index (MSCI Emerging Markets Index) (67.58 vs. 323.26).

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:	Legal entity identifier
UBS (Lux) Fund Solutions – MSCI EMU Socially Responsible UCITS ETF	549300396NMQ603QA011

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 73.76% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 15.74% higher than that of the parent benchmark (MSCI EMU Index) (8.82 vs. 7.62)

The Weighted average carbon intensity (Scope 1+2) MSCI was 68.53% lower than that of the parent benchmark (MSCI EMU Index) (41.89 vs. 133.14)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The financial product intends to make sustainable investment by investing at least 90% of its total net assets in securities that are constituents of the Index. MSCI EMU SRI Low Carbon Select Indices aim to represent the performance of an investment strategy that by re-weighting free-float market cap weights based upon certain ESG metrics seeks to increase exposure to those companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile, while excluding companies based on various ESG and climate change criteria.

MSCI Climate Change Metrics provides climate data & tools to support investors integrating climate risk & opportunities into their investment strategy and processes. It supports investors seeking to achieve a range of objectives, including measuring and reporting on climate risk exposure, implementing low carbon and fossil fuel-free strategies, align with temperature pathways and factoring climate change research into their risk management processes, in particular through climate scenario analysis for both transition and physical risks.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

The indices incorporate the MSCI ESG Controversies score, screening out on a timely basis any issuers in significant breach of ESG norms.

MSCI ESG Controversies are designed to provide timely and consistent assessments of ESG controversies involving issuers. Any issuer with a “Red” MSCI ESG Controversies Score (score less than 1) is excluded from Sustainability indices. The Controversy Score measures an issuer’s involvement in major ESG controversies and how well the issuer adheres to international norms and principles

The financial product exclude investments in companies involved directly in the use, development, manufacturing, stockpiling, transfer or trade of cluster munitions and/or anti-personnel landmines, nuclear weapons, biological weapons or chemical weapons.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The MSCI ESG Controversies tool monitors company involvement in notable ESG controversies related to the company’s operations and/or products, possible breaches of international norms and principles such as the UN Global Compact, and performance with respect to these norms and principles.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 99.95%. The minimum proportion of sustainable investments of the financial product was 73.76%.

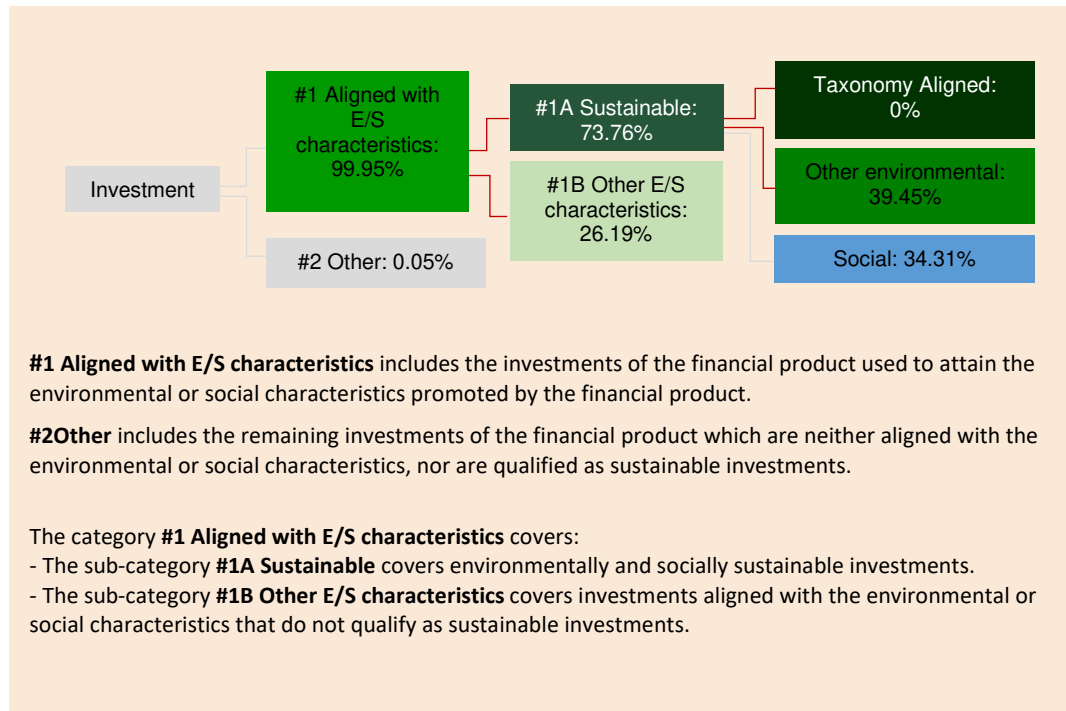

- **What was the asset allocation?**

Asset allocation describes the share of investments in specific assets.

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Please refer to the section “Schedule of Investments” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 34.31%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible.

The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

● *How does the reference benchmark differ from a broad market index?*

The broad market index is the MSCI EMU Index. The reference benchmark is the MSCI EMU SRI Low Carbon Select 5% Issuer Capped Index (Net Return). The Index (MSCI EMU SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) is part of the MSCI Global Socially Responsible (SRI) Index series. The Index draws its constituents from the MSCI EMU Index (the "Parent Index"), being an equity index calculated, maintained and published by international index supplier MSCI® and denominated in USD. The Index tracks the total return net dividend performance of large and mid-capitalisation US companies.

The Index is designed to reflect the performance of an investment strategy that, by tilting away from free-float market cap weights, seeks to gain exposure to those companies demonstrating both a robust Environmental, Social and Governance (ESG) profile as well as a positive trend in improving that profile, using minimal exclusions from the Parent Index.

More information can be found in the fund supplement and the annex.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

The ESG Score was 0.06% lower than that of the reference benchmark (MSCI EMU SRI Low Carbon Select 5% Issuer Capped Index) (8.82 vs. 8.83).

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

A combined weighted Scope 1 and 2 average carbon intensity was 0.50% higher than that of the reference benchmark (MSCI EMU SRI Low Carbon Select 5% Issuer Capped Index) (41.89 vs. 42.11).

● ***How did this financial product perform compared with the reference benchmark?***

The ESG Score was 0.06% lower than that of the reference benchmark (MSCI EMU SRI Low Carbon Select 5% Issuer Capped Index) (8.82 vs. 8.83).

A combined weighted Scope 1 and 2 average carbon intensity was 0.50% higher than that of the reference benchmark (MSCI EMU SRI Low Carbon Select 5% Issuer Capped Index) (41.89 vs. 42.11).

● ***How did this financial product perform compared with the broad market index?***

The ESG Score was 15.74% higher than that of the broad market Index (MSCI EMU Index) (8.82 vs. 7.62).

The Weighted average carbon intensity (Scope 1+2) MSCI was 68.53% lower than that of the broad market index (MSCI EMU Index) (41.89 vs. 133.14).

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:	Legal entity identifier
UBS (Lux) Fund Solutions – MSCI Europe Socially Responsible UCITS ETF	549300ECBOSXHR2IZB62

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 70.70% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 15.28% higher than that of the parent benchmark (MSCI Europe Index) (8.88 vs. 7.70)

The Weighted average carbon intensity (Scope 1+2) MSCI was 72.64% lower than that of the parent benchmark (MSCI Europe Index) (31.10 vs. 113.68)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The financial product intends to make sustainable investment by investing at least 90% of its total net assets in securities that are constituents of the Index. MSCI Europe SRI Low Carbon Select Indices aim to represent the performance of an investment strategy that by re-weighting free-float market cap weights based upon certain ESG metrics seeks to increase exposure to those companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile, while excluding companies based on various ESG and climate change criteria.

MSCI Climate Change Metrics provides climate data & tools to support investors integrating climate risk & opportunities into their investment strategy and processes. It supports investors seeking to achieve a range of objectives, including measuring and reporting on climate risk exposure, implementing low carbon and fossil fuel-free strategies, align with temperature pathways and factoring climate change research into their risk management processes, in particular through climate scenario analysis for both transition and physical risks.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

The indices incorporate the MSCI ESG Controversies score, screening out on a timely basis any issuers in significant breach of ESG norms.

MSCI ESG Controversies are designed to provide timely and consistent assessments of ESG controversies involving issuers. Any issuer with a “Red” MSCI ESG Controversies Score (score less than 1) is excluded from Sustainability indices. The Controversy Score measures an issuer’s involvement in major ESG controversies and how well the issuer adheres to international norms and principles

The financial product exclude investments in companies involved directly in the use, development, manufacturing, stockpiling, transfer or trade of cluster munitions and/or anti-personnel landmines, nuclear weapons, biological weapons or chemical weapons.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The MSCI ESG Controversies tool monitors company involvement in notable ESG controversies related to the company’s operations and/or products, possible breaches of international norms and principles such as the UN Global Compact, and performance with respect to these norms and principles.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 99.92%. The minimum proportion of sustainable investments of the financial product was 70.70%.

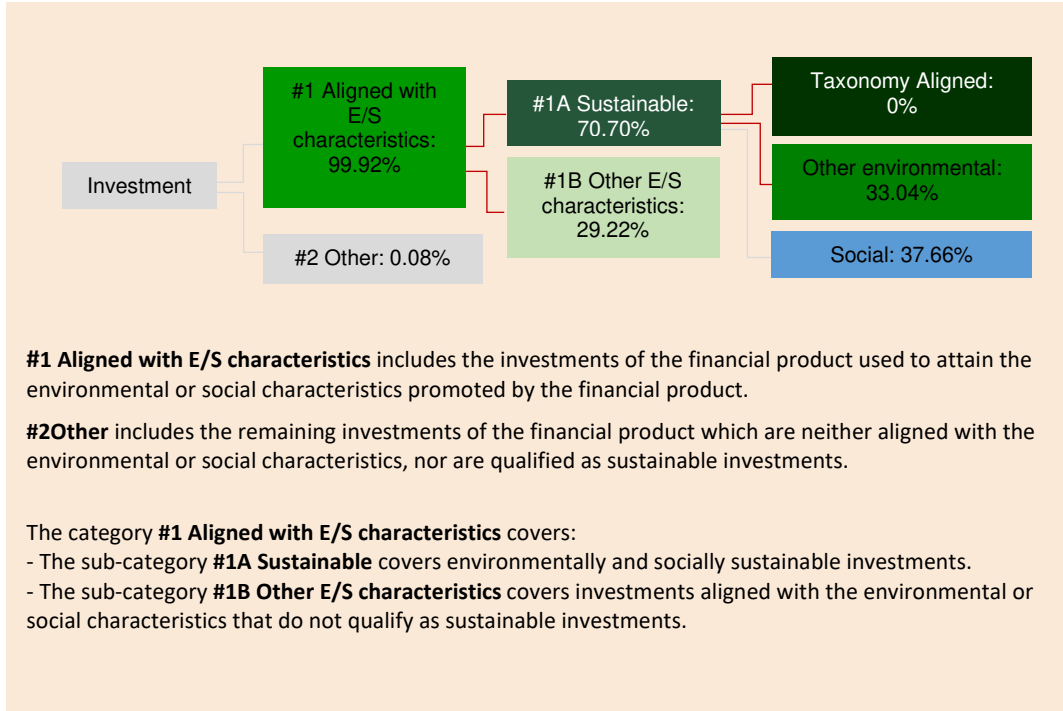

- ***What was the asset allocation?***

Asset allocation describes the share of investments in specific assets.

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Please refer to the section “Schedule of Investments” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 37.66%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible.

The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

● *How does the reference benchmark differ from a broad market index?*

The broad market index is the MSCI Europe Index. The reference benchmark is the MSCI Europe SRI Low Carbon Select 5% Issuer Capped Index (Net Return). The Index (MSCI Europe SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) is part of the MSCI Global Socially Responsible (SRI) Index series. The Index draws its constituents from the MSCI Europe Index (the "Parent Index"), being an equity index calculated, maintained and published by international index supplier MSCI® and denominated in USD. The Index tracks the total return net dividend performance of large and mid-capitalisation US companies.

The Index is designed to reflect the performance of an investment strategy that, by tilting away from free-float market cap weights, seeks to gain exposure to those companies demonstrating both a robust Environmental, Social and Governance (ESG) profile as well as a positive trend in improving that profile, using minimal exclusions from the Parent Index.

More information can be found in the fund supplement and the annex.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

The ESG Score was 0.11% lower than that of the reference benchmark (MSCI Europe SRI Low Carbon Select 5% Issuer Capped Index) (8.88 vs. 8.89).

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

A combined weighted Scope 1 and 2 average carbon intensity was 0.11% lower than that of the reference benchmark (MSCI Europe SRI Low Carbon Select 5% Issuer Capped Index) (31.10 vs. 31.14).

● ***How did this financial product perform compared with the reference benchmark?***

The ESG Score was 0.11% lower than that of the reference benchmark (MSCI Europe SRI Low Carbon Select 5% Issuer Capped Index) (8.88 vs. 8.89).

A combined weighted Scope 1 and 2 average carbon intensity was 0.11% lower than that of the reference benchmark (MSCI Europe SRI Low Carbon Select 5% Issuer Capped Index) (31.10 vs. 31.14).

● ***How did this financial product perform compared with the broad market index?***

The ESG Score was 15.28% higher than that of the broad market Index (MSCI Europe Index) (8.88 vs. 7.70).

The Weighted average carbon intensity (Scope 1+2) MSCI was 72.64% lower than that of the broad market index (MSCI Europe Index) (31.10 vs. 113.68).

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:	Legal entity identifier
UBS (Lux) Fund Solutions – MSCI Japan Socially Responsible UCITS ETF	549300KYJGFWC8UBD468

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 69.55% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 21.86% higher than that of the parent benchmark (MSCI Japan Index) (8.21 vs. 6.73)

The Weighted average carbon intensity (Scope 1+2) MSCI was 52.06% lower than that of the parent benchmark (MSCI Japan Index) (36.91 vs. 76.99)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The financial product intends to make sustainable investment by investing at least 90% of its total net assets in securities that are constituents of the Index. MSCI Japan SRI Low Carbon Select Indices aim to represent the performance of an investment strategy that by re-weighting free-float market cap weights based upon certain ESG metrics seeks to increase exposure to those companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile, while excluding companies based on various ESG and climate change criteria.

MSCI Climate Change Metrics provides climate data & tools to support investors integrating climate risk & opportunities into their investment strategy and processes. It supports investors seeking to achieve a range of objectives, including measuring and reporting on climate risk exposure, implementing low carbon and fossil fuel-free strategies, align with temperature pathways and factoring climate change research into their risk management processes, in particular through climate scenario analysis for both transition and physical risks.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

The indices incorporate the MSCI ESG Controversies score, screening out on a timely basis any issuers in significant breach of ESG norms.

MSCI ESG Controversies are designed to provide timely and consistent assessments of ESG controversies involving issuers. Any issuer with a “Red” MSCI ESG Controversies Score (score less than 1) is excluded from Sustainability indices. The Controversy Score measures an issuer’s involvement in major ESG controversies and how well the issuer adheres to international norms and principles.

The financial product exclude investments in companies involved directly in the use, development, manufacturing, stockpiling, transfer or trade of cluster munitions and/or anti-personnel landmines, nuclear weapons, biological weapons or chemical weapons.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The MSCI ESG Controversies tool monitors company involvement in notable ESG controversies related to the company’s operations and/or products, possible breaches of international norms and principles such as the UN Global Compact, and performance with respect to these norms and principles.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 99.93%. The minimum proportion of sustainable investments of the financial product was 69.55%.

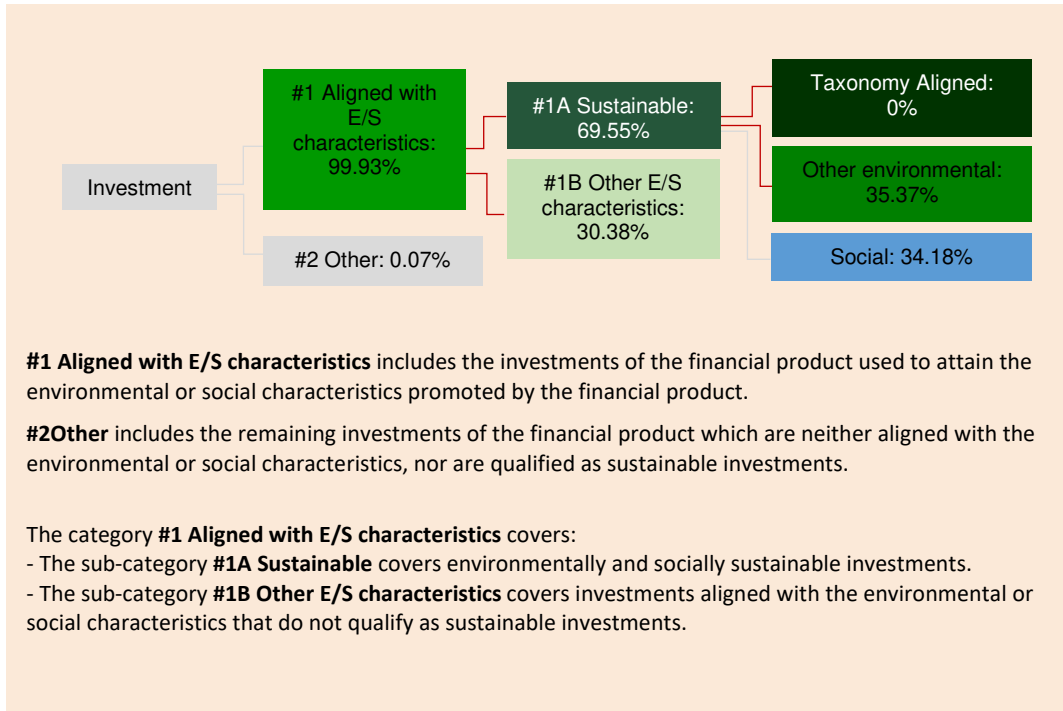

- *What was the asset allocation?*

Asset allocation describes the share of investments in specific assets.

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Please refer to the section “Schedule of Investments” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 34.18%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible. The investment strategy is to replicate the index by applying stratified sampling managing the tracking error.

The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

How does the reference benchmark differ from a broad market index?

The broad market index is the MSCI Japan Index. The reference benchmark is the MSCI Japan SRI Low Carbon Select 5% Issuer Capped Index (Net Return). The Index (MSCI Japan SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) is part of the MSCI Global Socially Responsible (SRI) Index series. The Index draws its constituents from the MSCI Japan Index (the "Parent Index"), being an equity index calculated, maintained and published by international index supplier MSCI® and denominated in USD. The Index tracks the total return net dividend performance of large and mid-capitalisation US companies.

The Index is designed to reflect the performance of an investment strategy that, by tilting away from free-float market cap weights, seeks to gain exposure to those companies demonstrating both a robust Environmental, Social and Governance (ESG) profile as well as a positive trend in improving that profile, using minimal exclusions from the Parent Index.

More information can be found in the fund supplement and the annex.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The ESG Score was 0.29% lower than that of the reference benchmark (MSCI Japan SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) (8.21 vs. 8.23).

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

A combined weighted Scope 1 and 2 average carbon intensity was 1.02% lower than that of the reference benchmark (MSCI Japan SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) (36.91 vs. 37.29).

It is not the intention of the sub-fund to have an indicator which is better than that of the reference benchmark. The intention is to have an indicator which is better than that of the parent benchmark (broad market index). The portfolio manager aims to be in line with the reference benchmark and will review the deviation.

● ***How did this financial product perform compared with the reference benchmark?***

The ESG Score was 0.29% lower than that of the reference benchmark (MSCI Japan SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) (8.21 vs. 8.23).

A combined weighted Scope 1 and 2 average carbon intensity was 1.02% lower than that of the reference benchmark (MSCI Japan SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) (36.91 vs. 37.29).

It is not the intention of the sub-fund to have an indicator which is better than that of the reference benchmark. The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

How does the reference benchmark differ from a broad market index?

The broad market index is the MSCI Pacific Index. The reference benchmark is the MSCI Pacific SRI Low Carbon Select 5% Issuer Capped Index (Net Return). The Index (MSCI Pacific SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) is part of the MSCI Global Socially Responsible (SRI) Index series. The Index draws its constituents from the MSCI Pacific Index (the "Parent Index"), being an equity index calculated, maintained and published by international index supplier MSCI® and denominated in USD. The Index tracks the total return net dividend performance of large and mid-capitalisation US companies.

The Index is designed to reflect the performance of an investment strategy that, by tilting away from free-float market cap weights, seeks to gain exposure to those companies demonstrating both a robust Environmental, Social and Governance (ESG) profile as well as a positive trend in improving that profile, using minimal exclusions from the Parent Index.

More information can be found in the fund supplement and the annex.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The ESG Score was 0.21% lower than that of the reference benchmark (MSCI Pacific SRI Low Carbon Select 5% Issuer Capped Index) (8.39 vs. 8.41).

A combined weighted Scope 1 and 2 average carbon intensity was 0.64% lower than that of the reference benchmark (MSCI Pacific SRI Low Carbon Select 5% Issuer Capped Index) (43.01 vs. 43.28).

● ***How did this financial product perform compared with the reference benchmark?***

The ESG Score was x % higher than that of the reference benchmark (MSCI Pacific SRI Low Carbon Select 5% Issuer Capped Index).

The Weighted average carbon intensity (Scope 1+2) MSCI y was 0.64 % lower than that of the reference benchmark (MSCI Pacific SRI Low Carbon Select 5% Issuer Capped Index).

● ***How did this financial product perform compared with the broad market index?***

The ESG Score was 21.87% higher than that of the broad market Index (MSCI Pacific Index) (8.39 vs 6.89).

The Weighted average carbon intensity (Scope 1+2) MSCI was 73.35% lower than that of the broad market index (MSCI Pacific Index) (43.01 vs 161.36).

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 4.28% higher than that of the parent benchmark (MSCI Switzerland IMI Extended Index) (7.85 vs. 7.53)

The Weighted average carbon intensity (Scope 1+2) MSCI was 83.13% lower than that of the parent benchmark (MSCI Switzerland IMI Extended Index) (17.59 vs. 104.27)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The financial product intends to make sustainable investment by investing at least 90% of its total net assets in securities that are constituents of the Index. MSCI Switzerland IMI Extended SRI Low Carbon Select Indices aim to represent the performance of an investment strategy that by re-weighting free-float market cap weights based upon certain ESG metrics seeks to increase exposure to those companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile, while excluding companies based on various ESG and climate change criteria.

MSCI Climate Change Metrics provides climate data & tools to support investors integrating climate risk & opportunities into their investment strategy and processes. It supports investors seeking to achieve a range of objectives, including measuring and reporting on climate risk exposure, implementing low carbon and fossil fuel-free strategies, align with temperature pathways and factoring climate change research into their risk management processes, in particular through climate scenario analysis for both transition and physical risks.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

Indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

The indices incorporate the MSCI ESG Controversies score, screening out on a timely basis any issuers in significant breach of ESG norms.

MSCI ESG Controversies are designed to provide timely and consistent assessments of ESG controversies involving issuers. Any issuer with a “Red” MSCI ESG Controversies Score (score less than 1) is excluded from Sustainability indices. The Controversy Score measures an issuer’s involvement in major ESG controversies and how well the issuer adheres to international norms and principles.

The financial product exclude investments in companies involved directly in the use, development, manufacturing, stockpiling, transfer or trade of cluster munitions and/or anti-personnel landmines, nuclear weapons, biological weapons or chemical weapons.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The MSCI ESG Controversies tool monitors company involvement in notable ESG controversies related to the company’s operations and/or products, possible breaches of international norms and principles such as the UN Global Compact, and performance with respect to these norms and principles.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 99.99%. The minimum proportion of sustainable investments of the financial product was 50.44%.

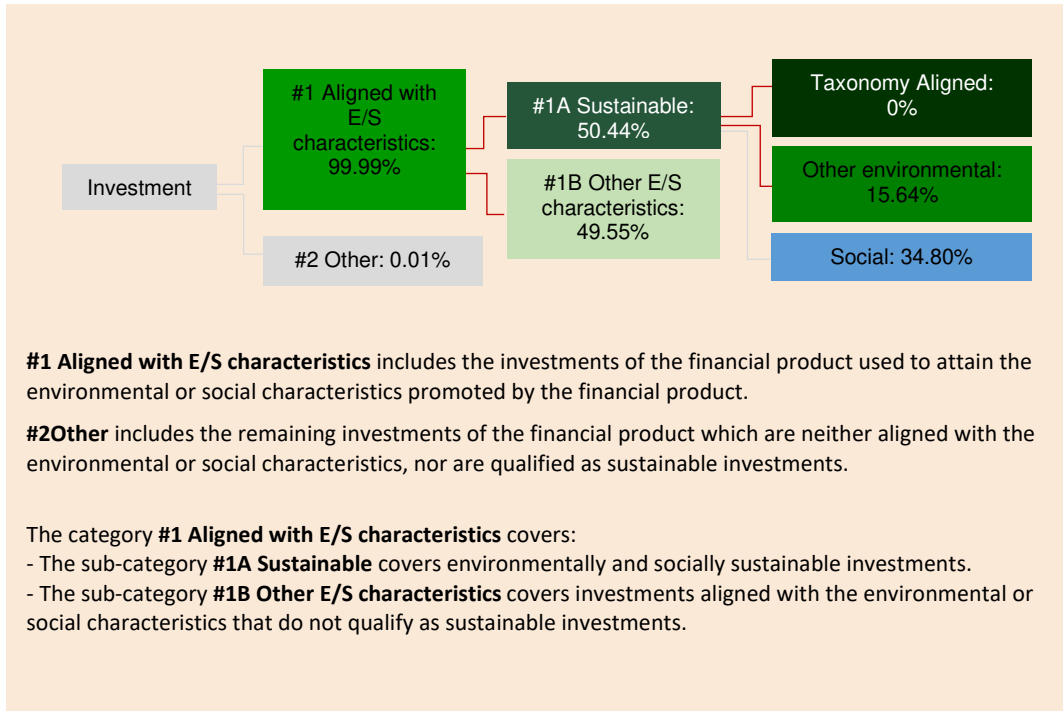

- **What was the asset allocation?**

Asset allocation describes the share of investments in specific assets.

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Please refer to the section “Schedule of Investments” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 34.80%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible. The investment strategy is to replicate the index by applying stratified sampling managing the tracking error.

The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

How does the reference benchmark differ from a broad market index?

The broad market index is the MSCI Switzerland IMI Extended Index. The reference benchmark is the MSCI Switzerland IMI Extended SRI Low Carbon Select 5% Issuer Capped Index (Net Return). The Index (MSCI Switzerland IMI Extended SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) is part of the MSCI Global Socially Responsible (SRI) Index series. The Index draws its constituents from the MSCI Switzerland IMI Extended Index (the "Parent Index"), being an equity index calculated, maintained and published by international index supplier MSCI® and denominated in USD. The Index tracks the total return net dividend performance of large and mid-capitalisation US companies.

The Index is designed to reflect the performance of an investment strategy that, by tilting away from free-float market cap weights, seeks to gain exposure to those companies demonstrating both a robust Environmental, Social and Governance (ESG) profile as well as a positive trend in improving that profile, using minimal exclusions from the Parent Index.

More information can be found in the fund supplement and the annex.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The ESG Score was 0.03% lower than that of the reference benchmark (MSCI Switzerland IMI Extended SRI Low Carbon Select 5% Issuer Capped Index) (7.85 vs. 7.86).

A combined weighted Scope 1 and 2 average carbon intensity was 0.96% lower than that of the reference benchmark (MSCI Switzerland IMI Extended SRI Low Carbon Select 5% Issuer Capped Index) (17.59 vs. 17.76).

● ***How did this financial product perform compared with the reference benchmark?***

The ESG Score was 0.03% lower than that of the reference benchmark (MSCI Switzerland IMI Extended SRI Low Carbon Select 5% Issuer Capped Index) (7.85 vs. 7.86).

A combined weighted Scope 1 and 2 average carbon intensity was 0.96% lower than that of the reference benchmark (MSCI Switzerland IMI Extended SRI Low Carbon Select 5% Issuer Capped Index) (17.59 vs. 17.76).

● ***How did this financial product perform compared with the broad market index?***

The ESG Score was 4.28% higher than that of the broad market Index (MSCI Switzerland IMI Extended Index) (7.85 vs. 7.53).

The Weighted average carbon intensity (Scope 1+2) MSCI was 83.13% lower than that of the broad market index (MSCI Switzerland IMI Extended Index) (17.59 vs. 104.27).

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:	Legal entity identifier
UBS (Lux) Fund Solutions – MSCI USA Socially Responsible UCITS ETF	549300A0W559VPNNI374

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 72.29% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 23.93% higher than that of the parent benchmark (MSCI USA Index) (7.87 vs. 6.35)

The Weighted average carbon intensity (Scope 1+2) MSCI was 77.21% lower than that of the parent benchmark (MSCI USA Index) (30.16 vs 132.33)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The financial product intends to make sustainable investment by investing at least 90% of its total net assets in securities that are constituents of the Index. MSCI USA SRI Low Carbon Select Indices aim to represent the performance of an investment strategy that by re-weighting free-float market cap weights based upon certain ESG metrics seeks to increase exposure to those companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile, while excluding companies based on various ESG and climate change criteria.

MSCI Climate Change Metrics provides climate data & tools to support investors integrating climate risk & opportunities into their investment strategy and processes. It supports investors seeking to achieve a range of objectives, including measuring and reporting on climate risk exposure, implementing low carbon and fossil fuel-free strategies, align with temperature pathways and factoring climate change research into their risk management processes, in particular through climate scenario analysis for both transition and physical risks.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

The indices incorporate the MSCI ESG Controversies score, screening out on a timely basis any issuers in significant breach of ESG norms.

MSCI ESG Controversies are designed to provide timely and consistent assessments of ESG controversies involving issuers. Any issuer with a “Red” MSCI ESG Controversies Score (score less than 1) is excluded from Sustainability indices. The Controversy Score measures an issuer’s involvement in major ESG controversies and how well the issuer adheres to international norms and principles.

The financial product exclude investments in companies involved directly in the use, development, manufacturing, stockpiling, transfer or trade of cluster munitions and/or anti-personnel landmines, nuclear weapons, biological weapons or chemical weapons.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The MSCI ESG Controversies tool monitors company involvement in notable ESG controversies related to the company’s operations and/or products, possible breaches of international norms and principles such as the UN Global Compact, and performance with respect to these norms and principles.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 99.95%. The minimum proportion of sustainable investments of the financial product was 72.29%.

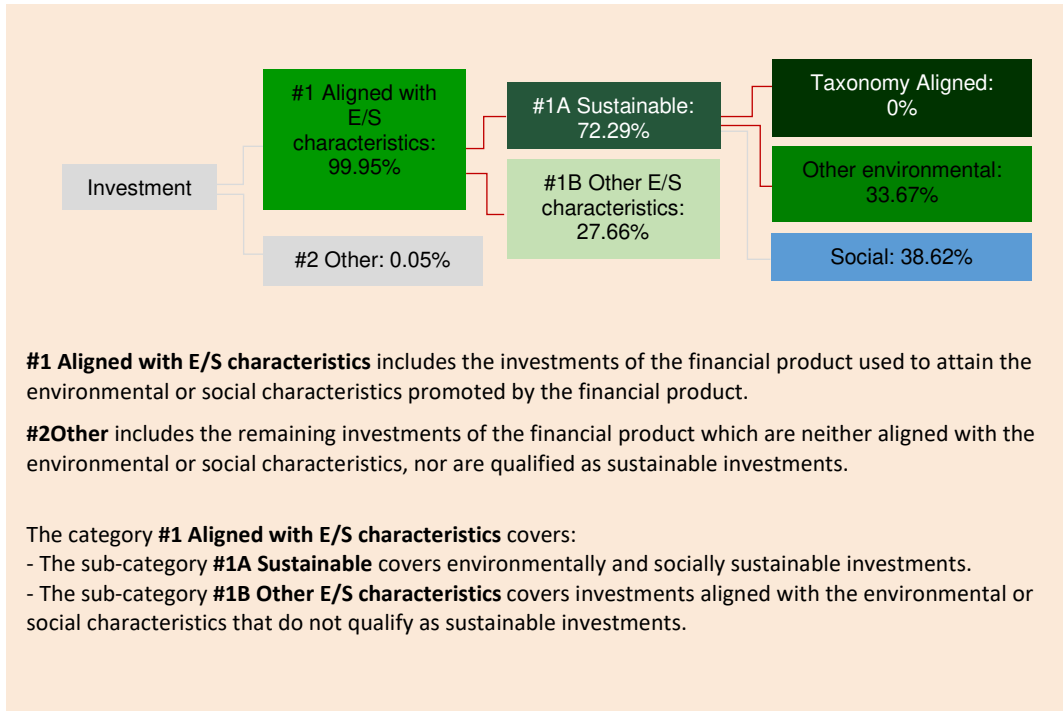

- *What was the asset allocation?*

Asset allocation describes the share of investments in specific assets.

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Please refer to the section “Schedule of Investments” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 38.62%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible. The investment strategy is to replicate the index by applying stratified sampling managing the tracking error.

The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

● *How does the reference benchmark differ from a broad market index?*

The broad market index is the MSCI USA Index. The reference benchmark is the MSCI USA SRI Low Carbon Select 5% Issuer Capped Index (Net Return). The Index (MSCI USA SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) is part of the MSCI Global Socially Responsible (SRI) Index series. The Index draws its constituents from the MSCI USA Index (the "Parent Index"), being an equity index calculated, maintained and published by international index supplier MSCI® and denominated in USD. The Index tracks the total return net dividend performance of large and mid-capitalisation US companies.

The Index is designed to reflect the performance of an investment strategy that, by tilting away from free-float market cap weights, seeks to gain exposure to those companies demonstrating both a robust Environmental, Social and Governance (ESG) profile as well as a positive trend in improving that profile, using minimal exclusions from the Parent Index.

More information can be found in the fund supplement and the annex.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

The ESG score was 0.12% lower than that of the reference benchmark (MSCI USA SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) (7.87 vs. 7.88).

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The Weighted average carbon intensity (Scope 1+2) MSCI was 1.71% higher than that of the reference benchmark (MSCI USA SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) (30.16 vs. 29.65).

It is not the intention of the sub-fund to have an indicator which is better than that of the reference benchmark. The intention is to have an indicator which is better than that of the parent benchmark (broad market index). The portfolio manager aims to be in line with the reference benchmark and will review the deviation.

● ***How did this financial product perform compared with the reference benchmark?***

The ESG score was 0.12% lower than that of the reference benchmark (MSCI USA SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) (7.87 vs. 7.88).

The Weighted average carbon intensity (Scope 1+2) MSCI was 1.71% higher than that of the reference benchmark (MSCI USA SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) (30.16 vs. 29.65).

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 71.35% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 22.62% higher than that of the parent benchmark (MSCI World Index) (8.18 vs. 6.67)

The Weighted average carbon intensity (Scope 1+2) MSCI was 75.73% lower than that of the parent benchmark (MSCI World Index) (32.43 vs. 133.65)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The financial product intends to make sustainable investment by investing at least 90% of its total net assets in securities that are constituents of the Index. MSCI World SRI Low Carbon Select Indices aim to represent the performance of an investment strategy that by re-weighting free-float market cap weights based upon certain ESG metrics seeks to increase exposure to those companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile, while excluding companies based on various ESG and climate change criteria.

MSCI Climate Change Metrics provides climate data & tools to support investors integrating climate risk & opportunities into their investment strategy and processes. It supports investors seeking to achieve a range of objectives, including measuring and reporting on climate risk exposure, implementing low carbon and fossil fuel-free strategies, align with temperature pathways and factoring climate change research into their risk management processes, in particular through climate scenario analysis for both transition and physical risks.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

The indices incorporate the MSCI ESG Controversies score, screening out on a timely basis any issuers in significant breach of ESG norms.

MSCI ESG Controversies are designed to provide timely and consistent assessments of ESG controversies involving issuers. Any issuer with a “Red” MSCI ESG Controversies Score (score less than 1) is excluded from Sustainability indices. The Controversy Score measures an issuer’s involvement in major ESG controversies and how well the issuer adheres to international norms and principles.

The financial product exclude investments in companies involved directly in the use, development, manufacturing, stockpiling, transfer or trade of cluster munitions and/or anti-personnel landmines, nuclear weapons, biological weapons or chemical weapons.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The MSCI ESG Controversies tool monitors company involvement in notable ESG controversies related to the company’s operations and/or products, possible breaches of international norms and principles such as the UN Global Compact, and performance with respect to these norms and principles.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 99.96%. The minimum proportion of sustainable investments of the financial product was 71.35%.

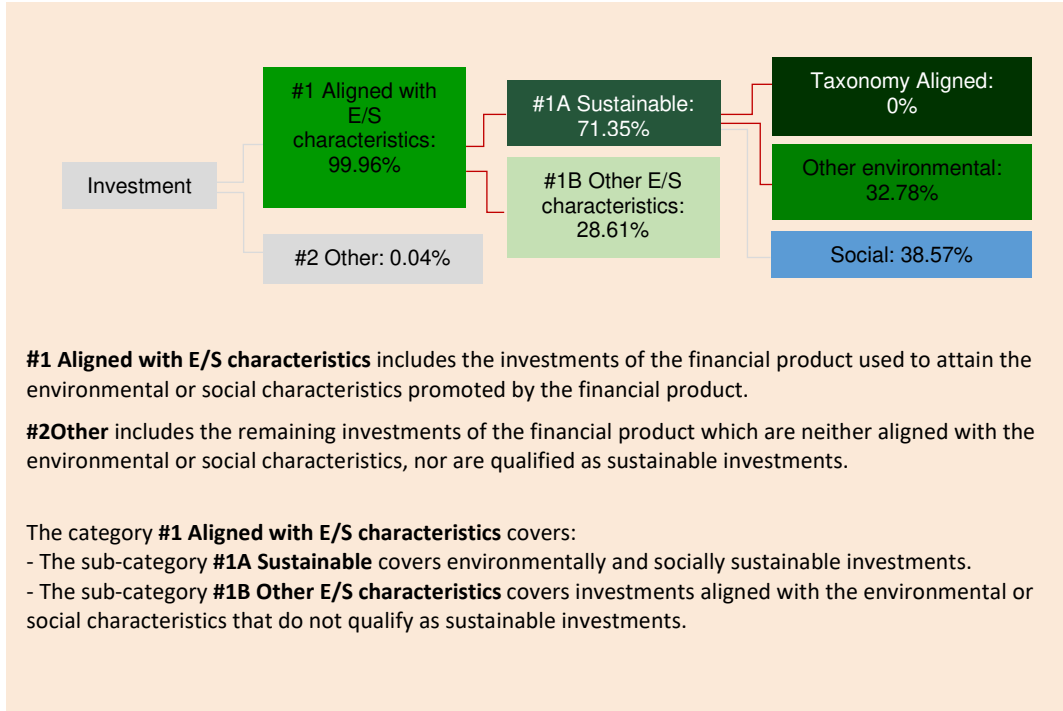

- *What was the asset allocation?*

Asset allocation describes the share of investments in specific assets.

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Please refer to the section “Schedule of Investments” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 38.57%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible. The investment strategy is to replicate the index by applying stratified sampling managing the tracking error.

The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

How does the reference benchmark differ from a broad market index?

The broad market index is the MSCI World Index. The reference benchmark is the MSCI World SRI Low Carbon Select 5% Issuer Capped Index (Net Return). The Index (MSCI World SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) is part of the MSCI Global Socially Responsible (SRI) Index series. The Index draws its constituents from the MSCI World Index (the "Parent Index"), being an equity index calculated, maintained and published by international index supplier MSCI® and denominated in USD. The Index tracks the total return net dividend performance of large and mid-capitalisation US companies.

The Index is designed to reflect the performance of an investment strategy that, by tilting away from free-float market cap weights, seeks to gain exposure to those companies demonstrating both a robust Environmental, Social and Governance (ESG) profile as well as a positive trend in improving that profile, using minimal exclusions from the Parent Index.

More information can be found in the fund supplement and the annex.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The ESG Score was 0.02% lower than that of the reference benchmark (MSCI World SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) (8.18 vs. 8.18).

A combined weighted Scope 1 and 2 average carbon intensity was 1.39% higher than that of the reference benchmark (MSCI World SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) (32.43 vs. 31.99).

It is not the intention of the sub-fund to have an indicator which is better than that of the reference benchmark. The intention is to have an indicator which is better than that of the parent benchmark (broad market index). The portfolio manager aims to be in line with the reference benchmark and will review the deviation.

● ***How did this financial product perform compared with the reference benchmark?***

The ESG Score was 0.02% lower than that of the reference benchmark (MSCI World SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) (8.18 vs. 8.18).

A combined weighted Scope 1 and 2 average carbon intensity was 1.39% higher than that of the reference benchmark (MSCI World SRI Low Carbon Select 5% Issuer Capped Index (Net Return)) (32.43 vs. 31.99).

It is not the intention of the sub-fund to have an indicator which is better than that of the reference benchmark. The intention is to have an indicator which is better than that of the parent benchmark (broad market index). The portfolio manager aims to be in line with the reference benchmark and will review the deviation.

● ***How did this financial product perform compared with the broad market index?***

The ESG Score was 22.62% higher than that of the broad market Index (MSCI World Index) (8.18 vs. 6.67).

The Weighted average carbon intensity (Scope 1+2) MSCI was 75.73% lower than that of the broad market index (MSCI World Index) (32.43 vs. 133.65).

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:	Legal entity identifier
UBS (Lux) Fund Solutions – Bloomberg MSCI Euro Area Liquid Corporates 1-5 Year Sustainable UCITS ETF	5493006V3ZY2I2S0MF87

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 43.41% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 11.34% higher than that of the parent benchmark (Bloomberg Euro Area Liquid Corp 1-5 Years Index) (7.22 vs. 6.48)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The objectives of the sustainable investments that the financial product partially intends to make, is to contribute to environmental and/or social characteristics the financial product promotes.

The financial product intends to make sustainable investment by investing at least 90% of its total net assets in securities that are constituents of the Index. Bloomberg MSCI Sustainability Indices positively screen issuers from existing Bloomberg parent indices based on MSCI ESG Ratings, which are a “best in class” assessment of how well an issuer manages ESG risks relative to its industry peer group. The minimum threshold applied to Bloomberg flagship indices is an ESG rating of BBB or better.

MSCI ESG Ratings are designed to help investors identify the environmental, social and governance (ESG) risks and opportunities of their investments and to integrate these factors into their portfolio construction.

The MSCI ESG Rating includes environmental and social pillars such as climate change, natural capital, pollution & waste, environmental opportunities, human capital, product liability, stakeholder opposition & social opportunities.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

Indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

The indices incorporate the MSCI ESG Controversies score, screening out on a timely basis any issuers in significant breach of ESG norms.

MSCI ESG Controversies are designed to provide timely and consistent assessments of ESG controversies involving issuers. Any issuer with a “Red” MSCI ESG Controversies Score (score less than 1) is excluded from Sustainability indices. The Controversy Score measures an issuer’s involvement in major ESG controversies and how well the issuer adheres to international norms and principles.

The financial product exclude investments in companies involved directly in the use, development, manufacturing, stockpiling, transfer or trade of cluster munitions and/or anti-personnel landmines, nuclear weapons, biological weapons or chemical weapons.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The MSCI ESG Controversies tool monitors company involvement in notable ESG controversies related to the company’s operations and/or products, possible breaches of international norms and principles such as the UN Global Compact, and performance with respect to these norms and principles.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022

Asset allocation describes the share of investments in specific assets.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

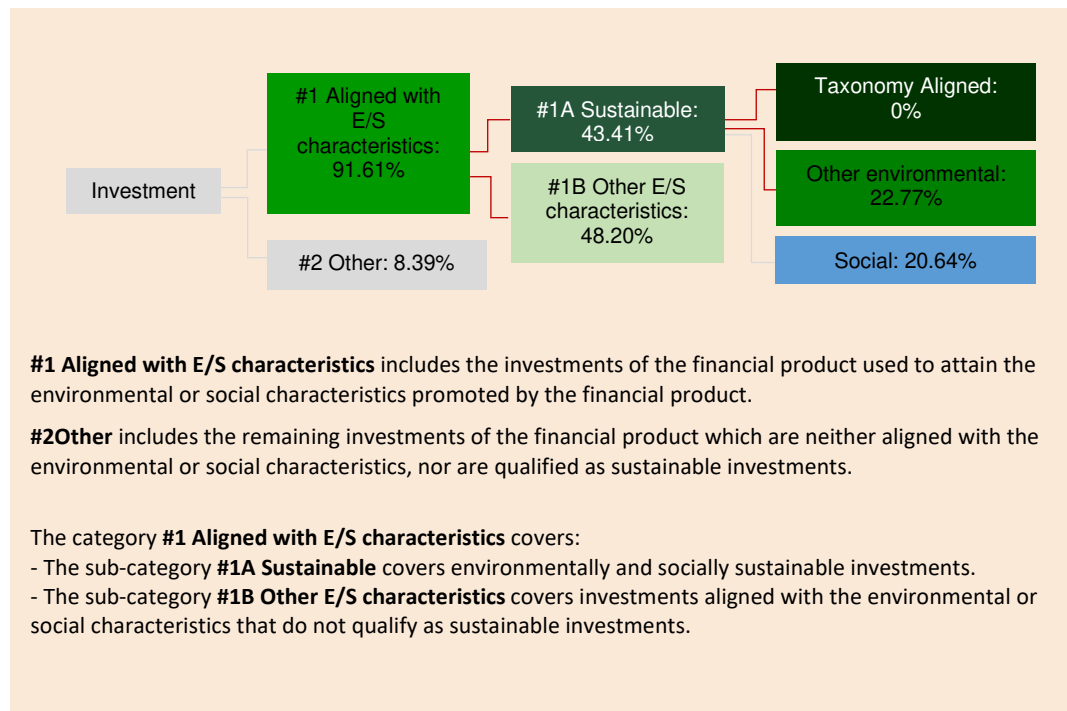

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 91.61%. The minimum proportion of sustainable investments of the financial product was 43.41%.

● What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

● In which economic sectors were the investments made?

Please refer to the section "Schedule of Investments" of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 20.64%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible. The investment strategy is to replicate the index by applying stratified sampling managing the tracking error.

The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

How does the reference benchmark differ from a broad market index?

The Bloomberg MSCI Euro Area Liquid Corporates 1-5 Year Sustainable Index is a market capitalization weighted index. The Index represents liquid corporate bonds with a time to maturity of at least 1 year, but no more than 5 years, issued by investment grade companies that are consistent with specific values based criteria such as religious beliefs, moral standards or ethical views, and targets companies with high sustainability ratings relative to their sector peers and that are available to investors worldwide. Bonds are screened by age, type, size and sustainability rating. Debt issued by financial and non-financial companies is eligible for the Index so that bonds from issuers of different sectors are in the index including such from the financial industry. The issuer domicile is relevant and only an issuer from the Euro zone member state, as defined by Bloomberg Indices, and issuing in EUR is included. The bonds are valued daily based on Bid prices, however on rebalancing new bonds enter the index at the Ask price and they are removed based on the Bid Price. The index is rebalanced on a monthly basis.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The ESG Score was 1.49% higher than that of the reference benchmark (MSCI Euro Area Liquid Corporates 1-5 Year Sustainable Index) (7.22 vs. 7.11).

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

It is not the intention of the sub-fund to have an indicator which is better than that of the reference benchmark. The intention is to have an indicator which is better than that of the parent benchmark (broad market index). The portfolio manager aims to be in line with the reference benchmark and will review the deviation.

● ***How did this financial product perform compared with the reference benchmark?***

The ESG Score was 1.49% higher than that of the reference benchmark (MSCI Euro Area Liquid Corporates 1-5 Year Sustainable Index) (7.22 vs. 7.11).

It is not the intention of the sub-fund to have an indicator which is better than that of the reference benchmark. The intention is to have an indicator which is better than that of the parent benchmark (broad market index). The portfolio manager aims to be in line with the reference benchmark and will review the deviation.

● ***How did this financial product perform compared with the broad market index?***

The ESG Score was 11.34% higher than that of the broad market Index (Bloomberg Euro Area Liquid Corp 1-5 Years Index) (7.22 vs. 6.48).

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:	Legal entity identifier
UBS (Lux) Fund Solutions – Bloomberg MSCI Euro Area Liquid Corporates Sustainable UCITS ETF	549300TUYJHRZKIY4S37

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 50.44% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 13.09% higher than that of the parent benchmark (Bloomberg MSCI Euro Area Liquid Corporates Total Return Index) (7.64 vs. 6.75)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The objectives of the sustainable investments that the financial product partially intends to make, is to contribute to environmental and/or social characteristics the financial product promotes.

The financial product intends to make sustainable investment by investing at least 90% of its total net assets in securities that are constituents of the Index. Bloomberg MSCI Sustainability Indices positively screen issuers from existing Bloomberg parent indices based on MSCI ESG Ratings, which are a “best in class” assessment of how well an issuer manages ESG risks relative to its industry peer group. The minimum threshold applied to Bloomberg flagship indices is an ESG rating of BBB or better.

MSCI ESG Ratings are designed to help investors identify the environmental, social and governance (ESG) risks and opportunities of their investments and to integrate these factors into their portfolio construction.

The MSCI ESG Rating includes environmental and social pillars such as climate change, natural capital, pollution & waste, environmental opportunities, human capital, product liability, stakeholder opposition & social opportunities.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

Indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

The indices incorporate the MSCI ESG Controversies score, screening out on a timely basis any issuers in significant breach of ESG norms.

MSCI ESG Controversies are designed to provide timely and consistent assessments of ESG controversies involving issuers. Any issuer with a “Red” MSCI ESG Controversies Score (score less than 1) is excluded from Sustainability indices. The Controversy Score measures an issuer’s involvement in major ESG controversies and how well the issuer adheres to international norms and principles.

The financial product exclude investments in companies involved directly in the use, development, manufacturing, stockpiling, transfer or trade of cluster munitions and/or anti-personnel landmines, nuclear weapons, biological weapons or chemical weapons.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The MSCI ESG Controversies tool monitors company involvement in notable ESG controversies related to the company’s operations and/or products, possible breaches of international norms and principles such as the UN Global Compact, and performance with respect to these norms and principles.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022

Asset allocation describes the share of investments in specific assets.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

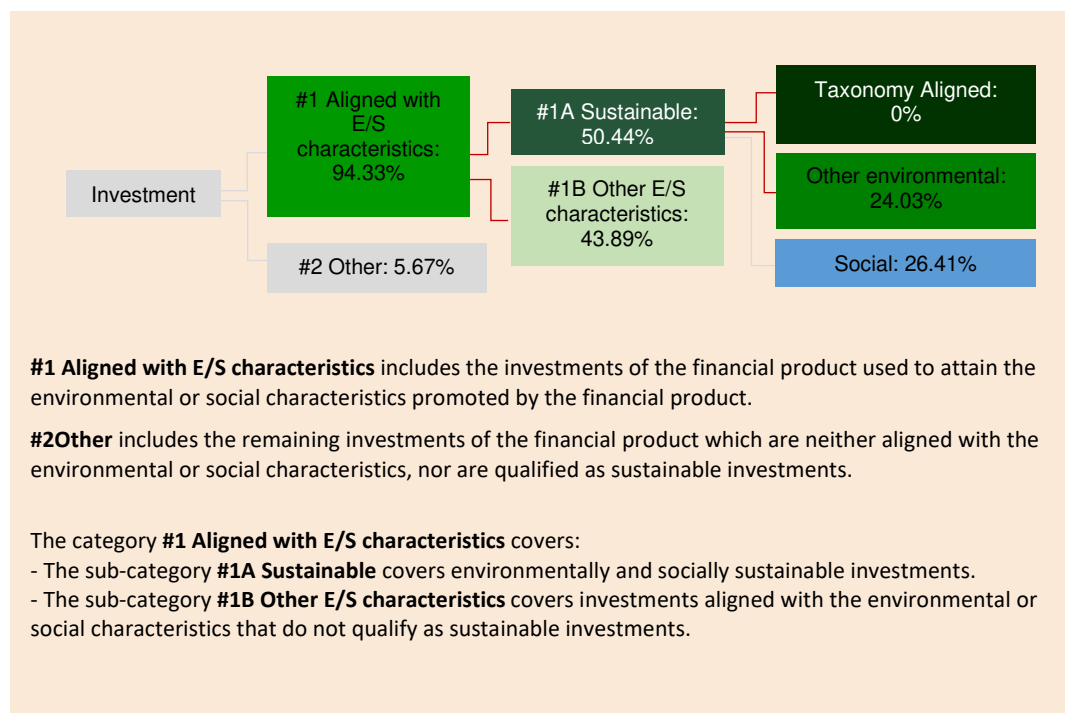

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 94.33%. The minimum proportion of sustainable investments of the financial product was 50.44%.

● **What was the asset allocation?**

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

● **In which economic sectors were the investments made?**

Please refer to the section “Schedule of Investments” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 26.41%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible. The investment strategy is to replicate the index by applying stratified sampling managing the tracking error.

The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

How does the reference benchmark differ from a broad market index?

The Bloomberg MSCI Euro Area Liquid Corporates Sustainable Index is a market capitalization weighted index. The Index represents liquid corporate bonds, issued by investment grade companies that are consistent with specific values based criteria such as religious beliefs, moral standards or ethical views, and targets companies with high sustainability ratings relative to their sector peers and that are available to investors worldwide. Bonds are screened by age, type, size and sustainability rating. Debt issued by financial and non-financial companies is eligible for the Index so that bonds from issuers of different sectors are in the index including such from the financial industry. The issuer domicile is relevant and only an issuer from the Euro zone member state, as defined by Bloomberg Indices, and issuing in EUR is included. The bonds are valued daily based on Bid prices, however on rebalancing new bonds enter the index at the Ask price and they are removed based on the Bid Price. The index is rebalanced on a monthly basis.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The ESG Score was 0.01% lower than that of the reference benchmark (Bloomberg MSCI Euro Area Liquid Corporates Sustainable Total Return Index) (7.64 vs. 7.64).

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● ***How did this financial product perform compared with the reference benchmark?***

The ESG Score was 0.01% lower than that of the reference benchmark (Bloomberg MSCI Euro Area Liquid Corporates Sustainable Total Return Index) (7.64 vs. 7.64).

● ***How did this financial product perform compared with the broad market index?***

The ESG Score was 13.09% higher than that of the broad market Index (Bloomberg MSCI Euro Area Liquid Corporates Total Return Index) (7.64 vs. 6.75).

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:	Legal entity identifier
UBS (Lux) Fund Solutions – Bloomberg MSCI Global Liquid Corporates Sustainable UCITS ETF	549300KALCR2ZL9HEI55

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and <ul style="list-style-type: none"> while it did not have as its objective a sustainable investment, it had a proportion of 34.88% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 8.58% higher than that of the parent benchmark (Bloomberg MSCI Global Liquid Corporates Bond Index Total Return Index) (6.92 vs. 6.37)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The objectives of the sustainable investments that the financial product partially intends to make, is to contribute to environmental and/or social characteristics the financial product promotes.

The financial product intends to make sustainable investment by investing at least 90% of its total net assets in securities that are constituents of the Index. Bloomberg MSCI Sustainability Indices positively screen issuers from existing Bloomberg parent indices based on MSCI ESG Ratings, which are a “best in class” assessment of how well an issuer manages ESG risks relative to its industry peer group. The minimum threshold applied to Bloomberg flagship indices is an ESG rating of BBB or better.

MSCI ESG Ratings are designed to help investors identify the environmental, social and governance (ESG) risks and opportunities of their investments and to integrate these factors into their portfolio construction.

The MSCI ESG Rating includes environmental and social pillars such as climate change, natural capital, pollution & waste, environmental opportunities, human capital, product liability, stakeholder opposition & social opportunities.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

Indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

The indices incorporate the MSCI ESG Controversies score, screening out on a timely basis any issuers in significant breach of ESG norms.

MSCI ESG Controversies are designed to provide timely and consistent assessments of ESG controversies involving issuers. Any issuer with a “Red” MSCI ESG Controversies Score (score less than 1) is excluded from Sustainability indices. The Controversy Score measures an issuer’s involvement in major ESG controversies and how well the issuer adheres to international norms and principles.

The financial product exclude investments in companies involved directly in the use, development, manufacturing, stockpiling, transfer or trade of cluster munitions and/or anti-personnel landmines, nuclear weapons, biological weapons or chemical weapons.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The MSCI ESG Controversies tool monitors company involvement in notable ESG controversies related to the company’s operations and/or products, possible breaches of international norms and principles such as the UN Global Compact, and performance with respect to these norms and principles.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022

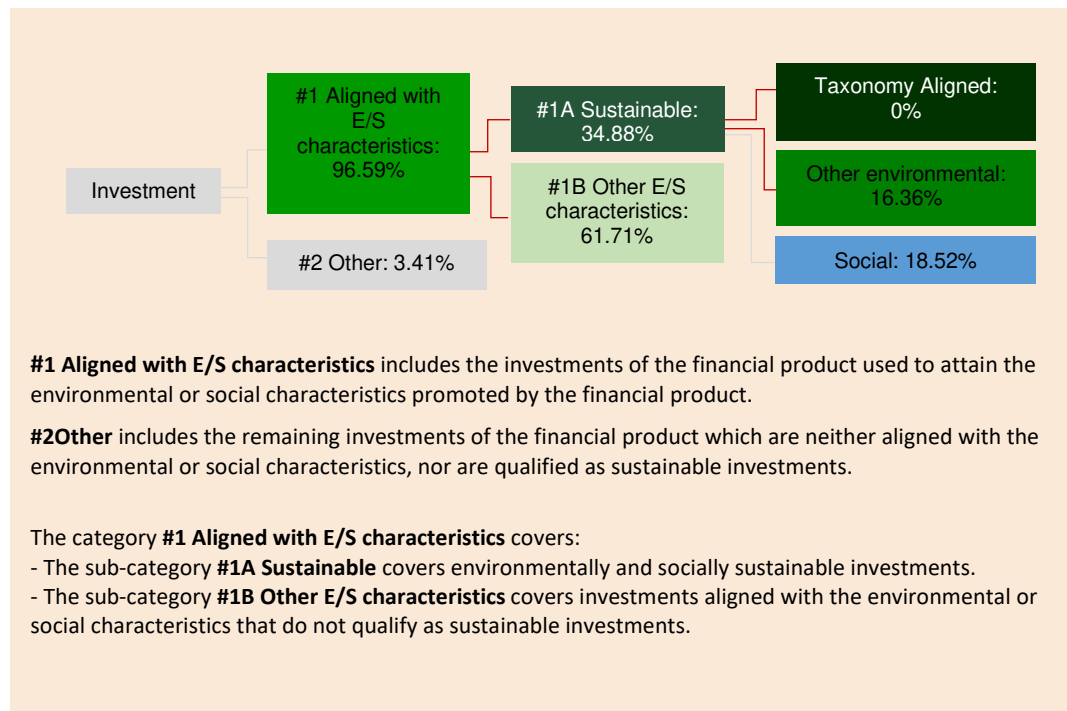

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 96.59%. The minimum proportion of sustainable investments of the financial product was 34.88%.

● What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

● In which economic sectors were the investments made?

Please refer to the section “Schedule of Investments” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

Asset allocation describes the share of investments in specific assets.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 18.52%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible. The investment strategy is to replicate the index by applying stratified sampling managing the tracking error.

The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

How does the reference benchmark differ from a broad market index?

The Bloomberg MSCI Global Liquid Corporates Sustainable Bond Index tracks the performance of US, Euro Area, UK, and Canada local currency fixed-rate, investment grade corporate debt. The index applies additional liquidity criteria to securities from each of the four markets based on minimum amount outstanding and time from issuance. The index includes issuers with MSCI ESG Ratings of BBB or higher and excludes issuers that are involved in business activities that are restricted according to pre-defined Business Involvement Screens and issuers with a "Red" MSCI ESG Controversy score. The index's four currency weights are rescaled monthly to match the currency exposure of a market value weighted combination of these four currencies in the Global Corporate Index. The index was created in December 2019, with history back-filled to January 1, 2014. The index is rebalanced on a monthly basis.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The ESG Score was 1.17% lower than that of the reference benchmark (MSCI Global Liquid Corporates Sustainable Bond Index) (6.92 vs. 7.00).

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

It is not the intention of the sub-fund to have an indicator which is better than that of the reference benchmark. The intention is to have an indicator which is better than that of the parent benchmark (broad market index). The portfolio manager aims to be in line with the reference benchmark and will review the deviation.

● ***How did this financial product perform compared with the reference benchmark?***

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 30.61% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 4.78% higher than that of the parent benchmark (Bloomberg US Liquid Corporates 1-5 Year Index) (6.92 vs. 6.37)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The objectives of the sustainable investments that the financial product partially intends to make, is to contribute to environmental and/or social characteristics the financial product promotes.

The financial product intends to make sustainable investment by investing at least 90% of its total net assets in securities that are constituents of the Index. Bloomberg MSCI Sustainability Indices positively screen issuers from existing Bloomberg parent indices based on MSCI ESG Ratings, which are a “best in class” assessment of how well an issuer manages ESG risks relative to its industry peer group. The minimum threshold applied to Bloomberg flagship indices is an ESG rating of BBB or better.

MSCI ESG Ratings are designed to help investors identify the environmental, social and governance (ESG) risks and opportunities of their investments and to integrate these factors into their portfolio construction.

The MSCI ESG Rating includes environmental and social pillars such as climate change, natural capital, pollution & waste, environmental opportunities, human capital, product liability, stakeholder opposition & social opportunities.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

Indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

The indices incorporate the MSCI ESG Controversies score, screening out on a timely basis any issuers in significant breach of ESG norms.

MSCI ESG Controversies are designed to provide timely and consistent assessments of ESG controversies involving issuers. Any issuer with a “Red” MSCI ESG Controversies Score (score less than 1) is excluded from Sustainability indices. The Controversy Score measures an issuer’s involvement in major ESG controversies and how well the issuer adheres to international norms and principles.

The financial product exclude investments in companies involved directly in the use, development, manufacturing, stockpiling, transfer or trade of cluster munitions and/or anti-personnel landmines, nuclear weapons, biological weapons or chemical weapons.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The MSCI ESG Controversies tool monitors company involvement in notable ESG controversies related to the company’s operations and/or products, possible breaches of international norms and principles such as the UN Global Compact, and performance with respect to these norms and principles.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022

s

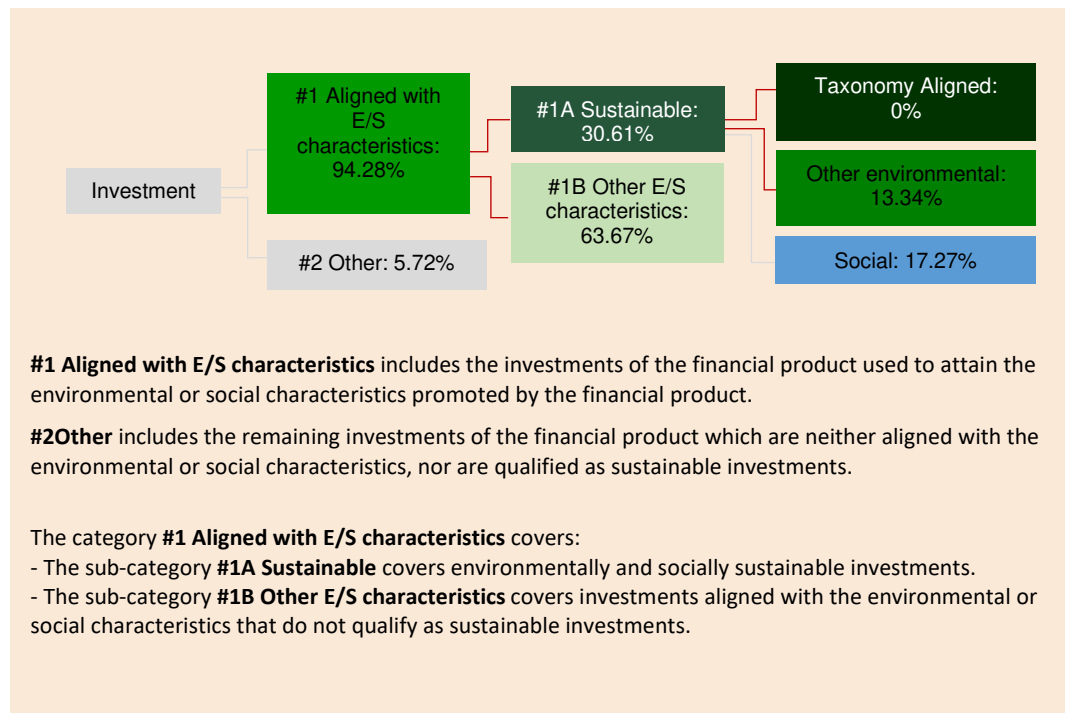

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 94.28%. The minimum proportion of sustainable investments of the financial product was 30.61%.

● **What was the asset allocation?**

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

● **In which economic sectors were the investments made?**

Please refer to the section “Schedule of Investments” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

Asset allocation describes the share of investments in specific assets.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 17.27%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible. The investment strategy is to replicate the index by applying stratified sampling managing the tracking error.

The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

How does the reference benchmark differ from a broad market index?

The Bloomberg MSCI US Liquid Corporates 1-5 Year Sustainable Index is a market capitalization weighted index. The Index represents liquid corporate bonds with a time to maturity of at least 1 year, but no more than 5 years, issued by investment grade companies that are consistent with specific values-based criteria such as religious beliefs, moral standards or ethical views, and targets companies with high sustainability ratings relative to their sector peers and that are available to investors worldwide. Bonds are screened by age, type, size and sustainability rating. Debt issued by financial and non-financial companies is eligible for the Index so that bonds from issuers of different sectors are in the index including such from the financial industry. The issuer domicile is relevant and only an issuer from the USA, as defined by Bloomberg Indices, and issuing in USD is included. The bonds are valued daily based on Bid prices, however on rebalancing new bonds enter the index at the Ask price and they are removed based on the Bid Price. The index is rebalanced on a monthly basis.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The ESG Score was 1.23% lower than that of the reference benchmark (Bloomberg MSCI US Liquid Corporates 1-5 Year Sustainable Index) (6.39 vs. 6.47).

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

It is not the intention of the sub-fund to have an indicator which is better than that of the reference benchmark. The intention is to have an indicator which is better than that of the parent benchmark (broad market index). The portfolio manager aims to be in line with the reference benchmark and will review the deviation.

● ***How did this financial product perform compared with the reference benchmark?***

The ESG Score was 1.23% lower than that of the reference benchmark (Bloomberg MSCI US Liquid Corporates 1-5 Year Sustainable Index) (6.39 vs. 6.47).

It is not the intention of the sub-fund to have an indicator which is better than that of the reference benchmark. The intention is to have an indicator which is better than that of the parent benchmark (broad market index). The portfolio manager aims to be in line with the reference benchmark and will review the deviation.

● ***How did this financial product perform compared with the broad market index?***

The ESG Score was 4.78% higher than that of the broad market Index (Bloomberg US Liquid Corporates 1-5 Year Index) (6.39 vs. 6.10).

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 4.86% higher than that of the parent benchmark (Bloomberg MSCI US Liquid Corporates Total Return Index) (6.54 vs. 6.24)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The objectives of the sustainable investments that the financial product partially intends to make, is to contribute to environmental and/or social characteristics the financial product promotes.

The financial product intends to make sustainable investment by investing at least 90% of its total net assets in securities that are constituents of the Index. Bloomberg MSCI Sustainability Indices positively screen issuers from existing Bloomberg parent indices based on MSCI ESG Ratings, which are a “best in class” assessment of how well an issuer manages ESG risks relative to its industry peer group. The minimum threshold applied to Bloomberg flagship indices is an ESG rating of BBB or better.

MSCI ESG Ratings are designed to help investors identify the environmental, social and governance (ESG) risks and opportunities of their investments and to integrate these factors into their portfolio construction.

The MSCI ESG Rating includes environmental and social pillars such as climate change, natural capital, pollution & waste, environmental opportunities, human capital, product liability, stakeholder opposition & social opportunities.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

Indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

The indices incorporate the MSCI ESG Controversies score, screening out on a timely basis any issuers in significant breach of ESG norms.

MSCI ESG Controversies are designed to provide timely and consistent assessments of ESG controversies involving issuers. Any issuer with a “Red” MSCI ESG Controversies Score (score less than 1) is excluded from Sustainability indices. The Controversy Score measures an issuer’s involvement in major ESG controversies and how well the issuer adheres to international norms and principles.

The financial product exclude investments in companies involved directly in the use, development, manufacturing, stockpiling, transfer or trade of cluster munitions and/or anti-personnel landmines, nuclear weapons, biological weapons or chemical weapons.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The MSCI ESG Controversies tool monitors company involvement in notable ESG controversies related to the company’s operations and/or products, possible breaches of international norms and principles such as the UN Global Compact, and performance with respect to these norms and principles.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

s

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022

Asset allocation describes the share of investments in specific assets.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

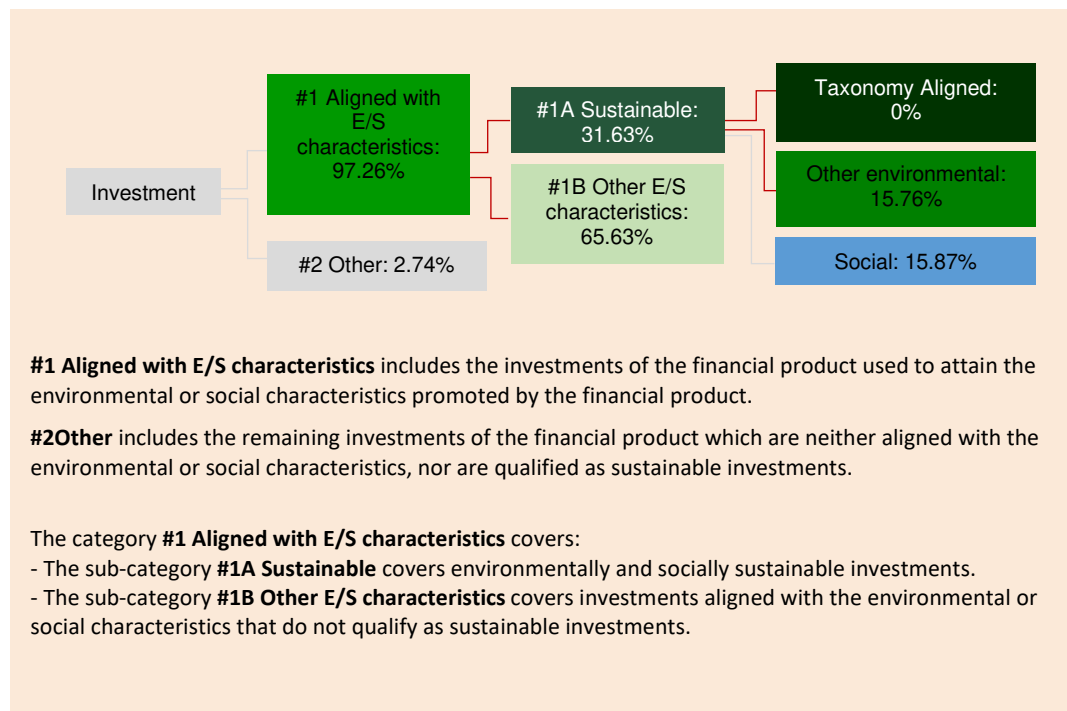

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 97.26%. The minimum proportion of sustainable investments of the financial product was 31.63%.

● **What was the asset allocation?**

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

● **In which economic sectors were the investments made?**

Please refer to the section “Schedule of Investments” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 15.87%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible. The investment strategy is to replicate the index by applying stratified sampling managing the tracking error.

The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

How does the reference benchmark differ from a broad market index?

The designated index (Bloomberg MSCI US Liquid Corporates Sustainable Index) is a market capitalization weighted index. The Index represents liquid corporate bonds, issued by investment grade companies that are consistent with specific values-based criteria such as religious beliefs, moral standards or ethical views, and targets companies with high sustainability ratings relative to their sector peers and that are available to investors worldwide. Bonds are screened by age, type, size and sustainability rating. Debt issued by financial and non-financial companies is eligible for the Index so that bonds from issuers of different sectors are in the index including such from the financial industry. The issuer domicile is relevant and only an issuer from the USA, as defined by Bloomberg Indices, and issuing in USD is included. The bonds are valued daily based on Bid prices, however on rebalancing new bonds enter the index at the Ask price and they are removed based on the Bid Price. The index is rebalanced on a monthly basis.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The ESG Score was 1.04% lower than that of the reference benchmark (Bloomberg MSCI US Liquid Corporates Sustainable Index) (6.54 vs. 6.61).

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

It is not the intention of the sub-fund to have an indicator which is better than that of the reference benchmark. The intention is to have an indicator which is better than that of the parent benchmark (broad market index). The portfolio manager aims to be in line with the reference benchmark and will review the deviation.

● ***How did this financial product perform compared with the reference benchmark?***

The ESG Score was 1.04% lower than that of the reference benchmark (Bloomberg MSCI US Liquid Corporates Sustainable Index) (6.54 vs. 6.61).

It is not the intention of the sub-fund to have an indicator which is better than that of the reference benchmark. The intention is to have an indicator which is better than that of the parent benchmark (broad market index). The portfolio manager aims to be in line with the reference benchmark and will review the deviation.

● ***How did this financial product perform compared with the broad market index?***

The ESG Score was 4.86% higher than that of the broad market Index (Bloomberg MSCI US Liquid Corporates Total Return Index) (6.54 vs. 6.24).

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 48.37% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 2.86% higher than that of the parent benchmark (J.P. Morgan EMU Government Bond Index) (6.20 vs. 6.03)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

Please note that while the parent benchmark is provided by JPMorgan Chase & Co., the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The objectives of the sustainable investments that the financial product partially intends to make, is to contribute to environmental and/or social objectives.

The financial product intends to make sustainable investment by investing at least 90% of its total net assets in securities that are constituents of the Index. The index applies an Environmental, Social and Governance (ESG) scoring and screening methodology to tilt toward issuers ranked higher on ESG criteria and green bond issues, and to underweight or remove issuers that rank lower.

J.P. Morgan ESG Ratings are designed to help investors identify the environmental, social and governance (ESG) risks and opportunities of their investments and to integrate these factors into their portfolio construction.

The J.P. Morgan Global EMU ESG Liquid Bond Index applies J.P. Morgan ESG (JESG) issuer scores to adjust the market value of index constituents from the respective baseline indices. JESG issuer scores are a 0-100 %ile rank calculated based on normalized raw ESG scores from third-party research providers Sustainalytics and RepRisk. An issuer's finalized JESG score incorporates a 3-month rolling average. The JESG scores are divided into ten bands that are used to scale each issue's baseline index market value, with the band rebalance occurring with a one-month lag.

Issuers in Bands 4-10 will be excluded from the index, as well as issuers identified as violating Freedom House principles. If an instrument is categorized as a "green bond" by the Climate Bonds Initiative, the security will receive a upgrade.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Issuers identified as violating Freedom House principles will be removed from the index.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022

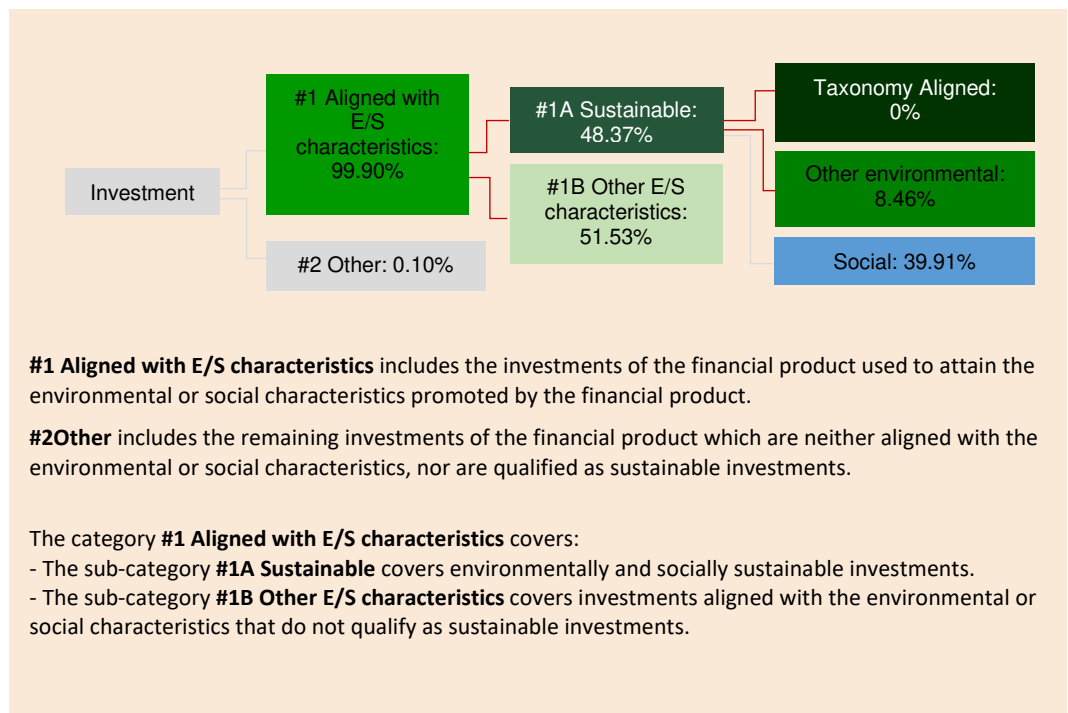

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 99.90%. The minimum proportion of sustainable investments of the financial product was 48.37%.

● What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

● In which economic sectors were the investments made?

Please refer to the section “Schedule of Investments” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

Asset allocation describes the share of investments in specific assets.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 39.91%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible. The investment strategy is to replicate the index by applying stratified sampling managing the tracking error.

The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

How does the reference benchmark differ from a broad market index?

The J.P. Morgan EMU Government ESG Liquid Bond Index (Total Return) is based on a market capitalization weighting and designed to track the performance of liquid local government bonds issued by Eurozone governments across all level of maturities. The index further applies an environmental, social and governance (ESG) scoring and screening methodology of the issuer countries to tilt towards issuers ranked higher on ESG criteria and to underweight or remove issuers that rank lower. Countries are categorized into 10 bands based on their ESG score (1 = best, 10 = worst) and the countries in the lowest 5 ESG bands will be removed from the index. The ESG methodology is described in the methodology of the index provider. The index is rebalanced on a monthly basis.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The ESG Score was 0.07% lower than that of the reference benchmark (J.P. Morgan EMU Government ESG Liquid Bond Index (Total Return)) (6.20 vs. 6.20).

Please note that while the parent benchmark is provided by JPMorgan Chase & Co., the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

● ***How did this financial product perform compared with the reference benchmark?***

The ESG Score was 0.07% lower than that of the reference benchmark (J.P. Morgan EMU Government ESG Liquid Bond Index (Total Return)) (6.20 vs. 6.20).

Please note that while the parent benchmark is provided by JPMorgan Chase & Co., the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

● ***How did this financial product perform compared with the broad market index?***

The ESG Score was 2.86% higher than that of the broad market Index (J.P. Morgan EMU Government Bond Index) (6.20 vs. 6.03).

Please note that while the parent benchmark is provided by JPMorgan Chase & Co., the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 35.62% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 0.54% higher than that of the parent benchmark (J.P. Morgan GBI Aggregate Index) (5.98 vs. 5.94)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

Please note that while the parent benchmark is provided by JPMorgan Chase & Co., the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The objectives of the sustainable investments that the financial product partially intends to make, is to contribute to environmental and/or social objectives.

The financial product intends to make sustainable investment by investing at least 90% of its total net assets in securities that are constituents of the Index. The index applies an Environmental, Social and Governance (ESG) scoring and screening methodology to tilt toward issuers ranked higher on ESG criteria and green bond issues, and to underweight or remove issuers that rank lower.

J.P. Morgan ESG Ratings are designed to help investors identify the environmental, social and governance (ESG) risks and opportunities of their investments and to integrate these factors into their portfolio construction.

The J.P. Morgan Global Government ESG Liquid Bond Index applies J.P. Morgan ESG (JESG) issuer scores to adjust the market value of index constituents from the respective baseline indices. JESG issuer scores are a 0-100 %ile rank calculated based on normalized raw ESG scores from third-party research providers Sustainalytics and RepRisk. An issuer's finalized JESG score incorporates a 3-month rolling average. The JESG scores are divided into ten bands that are used to scale each issue's baseline index market value, with the band rebalance occurring with a one-month lag.

Issuers in Bands 6-10 will be excluded from the index, as well as issuers identified as violating Freedom House principles. If an instrument is categorized as a "green bond" by the Climate Bonds Initiative, the security will receive a upgrade.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Issuers identified as violating Freedom House principles will be removed from the index.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022

Asset allocation describes the share of investments in specific assets.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

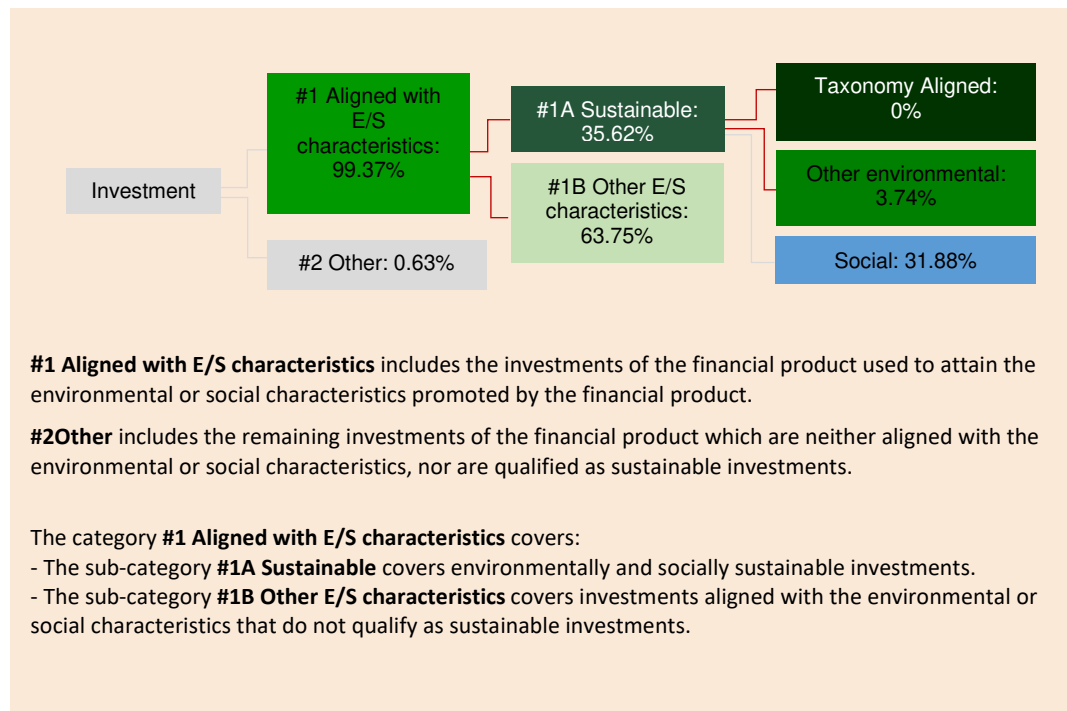

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 99.37%. The minimum proportion of sustainable investments of the financial product was 35.62%.

● **What was the asset allocation?**

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

● **In which economic sectors were the investments made?**

Please refer to the section "Schedule of Investments" of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 31.88%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible. The investment strategy is to replicate the index by applying stratified sampling managing the tracking error.

The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

How does the reference benchmark differ from a broad market index?

The J.P. Morgan Global Government ESG Liquid Bond Index (Total Return) is designed to track the performance of liquid global government bonds. The index is based on a market capitalization weighting. The index further applies an environmental, social and governance (ESG) screening and scoring of issuer countries. Countries are categorized into 10 bands based on their ESG score (1 = best, 10 = worst) and the countries in the lowest 5 ESG bands will be removed from the index.

The ESG methodology is described in the methodology of the index provider.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The ESG Score was 0.54% lower than that of the reference benchmark (J.P. Morgan Global Government ESG Liquid Bond Index (Total Return)) (5.98 vs. 6.01).

Please note that while the parent benchmark is provided by JPMorgan Chase & Co., the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● ***How did this financial product perform compared with the reference benchmark?***

The ESG Score was 0.54% lower than that of the reference benchmark (J.P. Morgan Global Government ESG Liquid Bond Index (Total Return)) (5.98 vs. 6.01).

Please note that while the parent benchmark is provided by JPMorgan Chase & Co., the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

● ***How did this financial product perform compared with the broad market index?***

The ESG Score was 0.54% higher than that of the broad market Index (J.P. Morgan GBI Aggregate Index) (5.98 vs. 5.94).

Please note that while the parent benchmark is provided by JPMorgan Chase & Co., the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

UBS (Lux) Fund Solutions – J.P. Morgan USD EM IG ESG Diversified Bond UCITS ETF	549300OJQHJLU284029

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 24.68% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was x% higher than that of the parent benchmark (J.P. Morgan USD EM IG Diversified Bond Index (Total Return))

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

Please note that while the parent benchmark is provided by JPMorgan Chase & Co., the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The objectives of the sustainable investments that the financial product partially intends to make, is to contribute to environmental and/or social objectives.

The financial product intends to make sustainable investment by investing at least 90% of its total net assets in securities that are constituents of the Index. The index applies an Environmental, Social and Governance (ESG) scoring and screening methodology to tilt toward issuers ranked higher on ESG criteria and green bond issues, and to underweight or remove issuers that rank lower.

J.P. Morgan ESG Ratings are designed to help investors identify the environmental, social and governance (ESG) risks and opportunities of their investments and to integrate these factors into their portfolio construction.

The J.P. Morgan USD EM IG ESG Diversified Bond Index applies J.P. Morgan ESG (JESG) issuer scores to adjust the market value of index constituents from the respective baseline indices. JESG issuer scores are a 0-100 %ile rank calculated based on normalized raw ESG scores from third-party research providers Sustainalytics and RepRisk. An issuer's finalized JESG score incorporates a 3-month rolling average. The JESG scores are divided into five bands that are used to scale each issue's baseline index market value, with the band rebalance occurring with a one-month lag.

Issuers in Band 5 will be excluded from the index, as well as corporate issuers earning revenue from tobacco, weapons, thermal coal mining or power generation, corporate issuers identified as violating UN Global Compact (UNGC) principles and sovereign issuers identified as violating Freedom House principles. If an instrument is categorized as a "green bond" by the Climate Bonds Initiative, the security will receive a one-band upgrade. Green bonds by issuers already in Band 1 will not receive any further upgrades, while those in Band 5 will still be excluded.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

Corporate issuers earning revenue from tobacco, weapons, thermal coal mining, oil sands or power generation will be removed from the index.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Corporate issuers identified as violating UN Global Compact (UNGC) principles and sovereign issuers identified as violating Freedom House principles will be removed from the index.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022

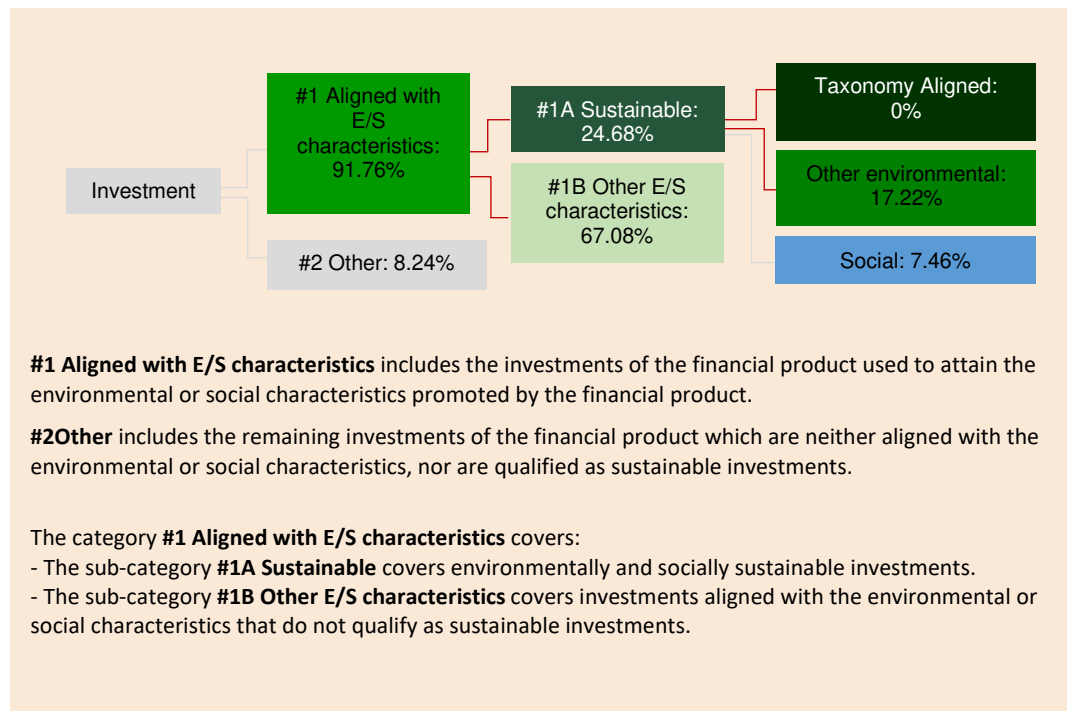

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 91.76%. The minimum proportion of sustainable investments of the financial product was 24.68%.

● What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

● In which economic sectors were the investments made?

Please refer to the section “Schedule of Investments” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 7.46%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible. The investment strategy is to replicate the index by applying stratified sampling managing the tracking error.

The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

How does the reference benchmark differ from a broad market index?

The parent index, the J.P. Morgan USD EM IG Diversified Bond Index (Total Return) tracks instruments that are classified as investment grade (IG) in the established J.P. Morgan EMBI Global Diversified and J.P. Morgan CEMBI Broad Diversified indices, and combines them with a market capitalization based weighting.

In addition the J.P. Morgan USD EM IG ESG Diversified Bond Index applies J.P. Morgan ESG (JESG) issuer scores to adjust the market value of index constituents from the respective baseline indices. JESG issuer scores are a 0-100 %ile rank calculated based on normalized raw ESG scores from third-party research providers Sustainalytics and RepRisk. An issuer’s finalized JESG score incorporates a 3-month rolling average. The JESG scores are divided into five bands that are used to scale each issue’s baseline index market value, with the band rebalance occurring with a one-month lag.

Issuers in Band 5 will be excluded from the index, as well as corporate issuers earning revenue from tobacco, weapons, thermal coal mining or power generation, corporate issuers identified as violating UN Global Compact (UNGC) principles and sovereign issuers identified as violating Freedom House principles. If an instrument is categorized as a “green bond” by the Climate Bonds Initiative, the security will receive a one-band upgrade. Green bonds by issuers already in Band 1 will not receive any further upgrades, while those in Band 5 will still be excluded.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

The ESG Score was X% lower than that of the reference benchmark (J.P. Morgan USD EM IG Diversified Bond Index (Total Return)) (X vs. X).

It is not the intention of the sub-fund to have an indicator which is better than that of the reference benchmark. The intention is to have an indicator which is better than that of the parent benchmark (broad market index). The portfolio manager aims to be in line with the reference benchmark and will review the deviation.

Please note that while the parent benchmark is provided by JPMorgan Chase & Co., the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

● ***How did this financial product perform compared with the reference benchmark?***

The ESG Score was X% lower than that of the reference benchmark (J.P. Morgan USD EM IG Diversified Bond Index (Total Return)) (X vs. X).

It is not the intention of the sub-fund to have an indicator which is better than that of the reference benchmark. Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 36.02% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 2.63% higher than that of the parent benchmark (SBI® Foreign AAA-BBB 1-5 Total Return Index) (6.69 vs. 6.52)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

Please note that while the parent benchmark is provided by SIX Index AG, the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

SIX Swiss Exchange ESG Swiss Bond Indices positively screen issuers from existing SIX Swiss Exchange parent indices are based on Inrate ESG Ratings, that consider based on a assessment how well an issuer manages ESG risks relative to its industry peer group. The minimum threshold applied to SIX Swiss Exchange ESG Swiss Bond Indices is an ESG rating of C+ or better.

Inrate ESG Ratings are designed to help investors identify the environmental, social and governance (ESG) risks and opportunities of their investments and to integrate these factors into their portfolio construction.

The Inrate ESG Rating includes environmental and social pillars such as air pollution, biodiversity, waste, standard of living, education and human rights.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

The indices incorporate the Inrate ESG Controversies score, screening out on a timely basis any issuers in significant breach of ESG norms.

Companies' involvement in controversies is analyzed aiming to quantify the negative impacts companies have caused and the level of responsibility attributable to a specific company. Companies are further assessed on how systematic such issues are. Controversies are categorized under 38 different topics and assessed according to severity based on negative impact on E and S, respective involvement, action taken and credibility. This module is pivotal as it downgrades both the Impact Assessment, and the CSR Assessment grades.

Inrate ESG Controversies are designed to provide timely and consistent assessments of ESG controversies involving issuers.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The Inrate Controversies monitoring tests the company involvement in notable ESG controversies related to the company's operations and/or products, possible breaches of international norms and principles such as the UN Global Compact, and performance with respect to these norms and principles.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 90.69%. The minimum proportion of sustainable investments of the financial product was 36.02%.

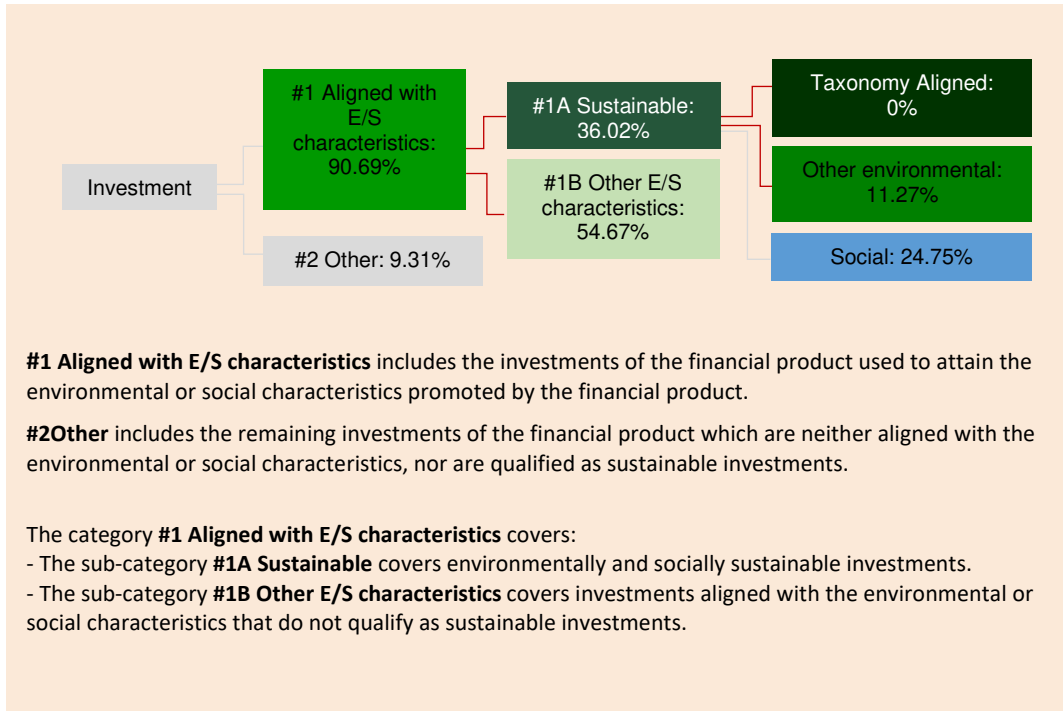

- **What was the asset allocation?**

Asset allocation describes the share of investments in specific assets.

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Please refer to the section “Schedule of Investments” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 24.75%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible. The investment strategy is to replicate the index by applying stratified sampling managing the tracking error.

The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

How does the reference benchmark differ from a broad market index?

The SBI® Foreign AAA–BBB 1–5 Total Return Index mirrors developments in the CHF bond markets and encompasses investment grade-rated bonds with a fixed coupon that are listed on SIX Swiss Exchange, that are issued in CHF currency from issuers domiciled outside of Switzerland and that have a term to maturity of 1 to less than 5 years.

In contrast to the SBI® Foreign AAA–BBB 1–5 Total Return Index the SBI® ESG Foreign AAA–BBB 1–5 Total Return Index applies additionally a ESG screening and scoring of issuers is based on the Inrate ESG methodology, removing those with a lower Inrate ESG rating than C+, those that are involved in controversies and those that are involved in restricted business activities based on given revenues thresholds.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The ESG Score was 0.61% lower than that of the reference benchmark (SBI® ESG Foreign AAA–BBB 1–5 Total Return Index) (6.69 vs. 6.73).

It is not the intention of the sub-fund to have an indicator which is better than that of the reference benchmark. The intention is to have an indicator which is better than that of the

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

parent benchmark (broad market index). The portfolio manager aims to be in line with the reference benchmark and will review the deviation.

Please note that while the parent benchmark is provided by SIX Index AG, the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

UBS (Lux) Fund Solutions – SBI® Foreign AAA-BBB 5-10 ESG UCITS ETF	549300LM4LYQGYQRUI16

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 44.38% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

● ***How did the sustainability indicators perform?***

The ESG promotion characteristics are measured using the following indicators respectively:

The ESG Score was 0.52% higher than that of the parent benchmark (SBI® Foreign AAA-BBB 5-10 Total Return Index) (6.90 vs. 6.86)

Indicator definitions can be found in the first page of the SFDR level 2 disclosures.

The parent benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product.

Please note that while the parent benchmark is provided by SIX Index AG, the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

SIX Swiss Exchange ESG Swiss Bond Indices positively screen issuers from existing SIX Swiss Exchange parent indices are based on Inrate ESG Ratings, that consider based on a assessment how well an issuer manages ESG risks relative to its industry peer group. The minimum threshold applied to SIX Swiss Exchange ESG Swiss Bond Indices is an ESG rating of C+ or better.

Inrate ESG Ratings are designed to help investors identify the environmental, social and governance (ESG) risks and opportunities of their investments and to integrate these factors into their portfolio construction.

The Inrate ESG Rating includes environmental and social pillars such as air pollution, biodiversity, waste, standard of living, education and human rights.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

The indices incorporate the Inrate ESG Controversies score, screening out on a timely basis any issuers in significant breach of ESG norms.

Companies' involvement in controversies is analyzed aiming to quantify the negative impacts companies have caused and the level of responsibility attributable to a specific company. Companies are further assessed on how systematic such issues are. Controversies are categorized under 38 different topics and assessed according to severity based on negative impact on E and S, respective involvement, action taken and credibility. This module is pivotal as it downgrades both the Impact Assessment, and the CSR Assessment grades.

Inrate ESG Controversies are designed to provide timely and consistent assessments of ESG controversies involving issuers.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The Inrate Controversies monitoring tests the company involvement in notable ESG controversies related to the company's operations and/or products, possible breaches of international norms and principles such as the UN Global Compact, and performance with respect to these norms and principles.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

Further details can be found in the prospectus annex for each fund.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022

What was the proportion of sustainability-related investments?

As per the end of the reference period the minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product was 95.62%. The minimum proportion of sustainable investments of the financial product was 44.38%.

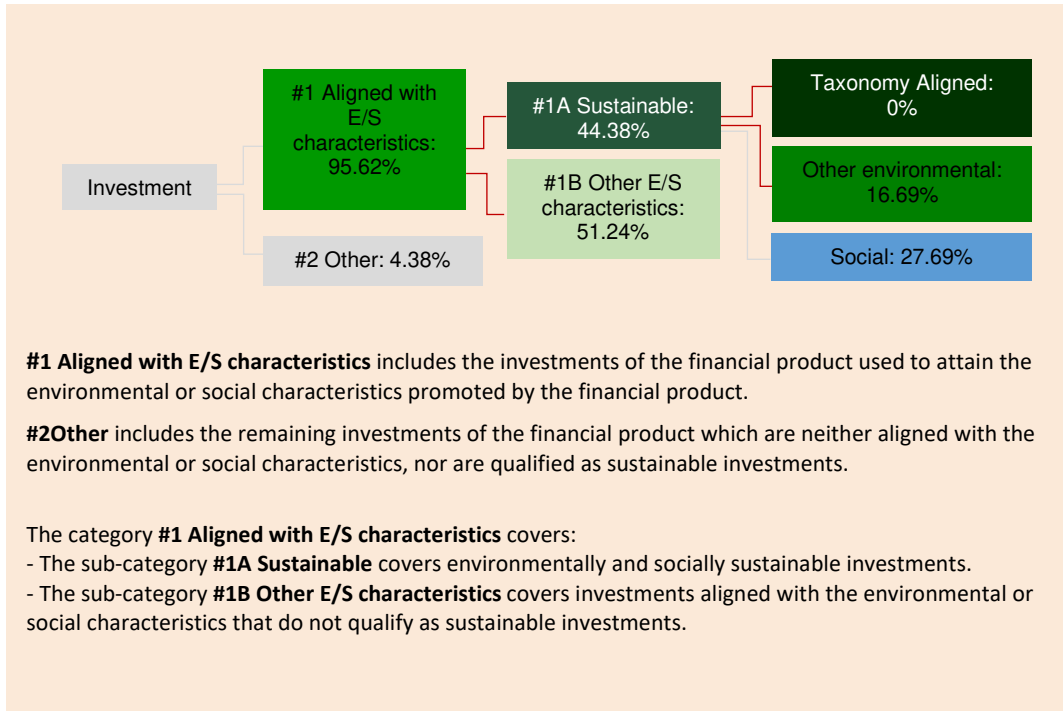

- **What was the asset allocation?**

Asset allocation describes the share of investments in specific assets.

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Please refer to the section “Schedule of Investments” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

There were no investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 27.69%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager tracks the Index in line with the limits set out in the investment policy of Fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible. The investment strategy is to replicate the index by applying stratified sampling managing the tracking error.

The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference benchmark?

How does the reference benchmark differ from a broad market index?

The SBI® ESG Foreign AAA-BBB 5-10 Total Return Index mirrors developments in the CHF bond markets and encompasses investment grade-rated bonds with a fixed coupon that are listed on SIX Swiss Exchange, that are issued in CHF currency from issuers domiciled outside of Switzerland and that have a term to maturity of 5 to less than 10 years. The index is rebalanced on a monthly basis and may also be rebalanced at other times in order to comply with applicable investment restrictions or to reflect corporate activity such as mergers and acquisitions.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The ESG Score was 0.55% lower than that of the reference benchmark (SBI® ESG Foreign AAA-BBB 5-10 Total Return) (6.90 vs. 6.93).

Please note that while the parent benchmark is provided by SIX Index AG, the Portfolio Manager has also relied on data provided by MSCI to calculate the ESG Score, the benchmark and the parent benchmark. As a result, there might be a discrepancy between the figures disclosed by the Portfolio Manager and the Index / parent Index provider.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Sustainable investment objective

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: 99.03%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent was the sustainable investment objective of this financial product met?

This financial product has sustainable investment as its objective and aims to track, before expenses, the price and income performance of the Solactive Global Multilateral

Development Bank Bond USD 25% Issuer Capped Index (Total Return) (the "Index"). An independent research-driven screening is used by the Index provider to evaluate index-eligible issuer which must be a Multilateral Development Bank (known as supranationals), having a credit quality rating of AA- (S&P) or Aa3 (Moody's) and higher (if several ratings are available, the lowest rating is considered).

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

● ***How did the sustainability indicators perform?***

The Reference Benchmark (the "Index") designated for the purpose of attaining the sustainable investment objective of this financial product is the Solactive Global Multilateral Development Bank Bond USD 25% Issuer Capped Index (Total Return).

The following indicators are used to measure the attainment of the sustainable investment objective

- Whether the issuer of the securities is classified as a Multilateral Development Bank.

A minimum of 90% of the financial product's assets were invested in securities of the reference benchmark. As per 30 December 2022 the investments in Multilateral Development Banks was more than 98%

● ***...and compared to previous periods?***

2022 was the first period the indicators were calculated.

● ***How did the sustainable investments not cause significant harm to any sustainable investment objective?***

The financial product is passively managed and tracks an Index, securities are only eligible for the Index if they meet the rule set by the index methodology that the index-eligible issuer which must be a Multilateral Development Bank, having a credit quality rating of AA- (S&P) or Aa3 (Moody's) and higher (if several ratings are available, the lowest rating is considered).

Unlike commercial banks, MDBs do not seek to maximize profits for their shareholders. Instead, they prioritize development goals (aligned with the SDG 17), such as ending extreme poverty and reducing economic inequality. They often lend at low or no interest or provide grants to fund projects in infrastructure, energy,

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

education, environmental sustainability, and other areas that promote development.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

The financial product is passively managed and tracks an Index, securities are only eligible for the Index if they meet the rule set by the index methodology that the index-eligible issuer which must be a Multilateral Development Bank, having a credit quality rating of AA- (S&P) or Aa3 (Moody's) and higher (if several ratings are available, the lowest rating is considered).

Unlike commercial banks, MDBs do not seek to maximize profits for their shareholders. Instead, they prioritize development goals (aligned with the SDG 17), such as ending extreme poverty and reducing economic inequality. They often lend at low or no interest or provide grants to fund projects in infrastructure, energy, education, environmental sustainability, and other areas that promote development.

The investment strategy of the Fund is aligned with the methodology of the index which considers environmental and social factors.

Indeed, the index considers environmental factors such as the Greenhouse gas (GHG) Intensity defined as Scope 1 + Scope 2 GHG emissions (tons CO₂E) per million USD of revenue and calculated as the weighted average GHG intensity of individual index components. Furthermore, the Index also considers social factors such as Social Violations which indicates issuers with a verified failure to respect established norms regarding human rights or labor rights.

The investments are therefore aligned with the index, taking into account GHG intensity and Investee countries subject to social violations.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

There is no controversies screening on the index issuers.

How did this financial product consider principal adverse impacts on sustainability factors?

Unlike commercial banks, MDBs do not seek to maximize profits for their shareholders. Instead, they prioritize development goals (aligned with the SDG 17), such as ending extreme poverty and reducing economic inequality. They often lend at low or no interest or provide grants to fund projects in infrastructure, energy, education, environmental sustainability, and other areas that promote development.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of the investments used to attain the sustainable investment objective of the financial product was 99.03%. The proportion of sustainable investments of the financial product was 97.67%.

● **What was the asset allocation?**

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 December 2022

Asset allocation describes the share of investments in specific assets.

● **In which economic sectors were the investments made?**

Please refer to the section “Structure of the Securities Portfolio” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

● **What was the share of investments made in transitional and enabling activities?**

There were no investments in transitional and enabling activities.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective
- **Transitional activities are economic activities** for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

- **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods**

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex of 72.50%.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 not sustainable” are cash, cash equivalents, money market instruments and derivatives or other instruments for hedging purposes including in the event of a re-balance of the index constituents by the index provider.

What actions have been taken to attain the sustainable investment objective during the reference period?

The alignment of the investment strategy with the methodology of the Index is ensured on a continuous basis as the Index provider rebalances the index on a regular basis and the Investment Manager will track the Index in line with the limits set out in the investment policy of the fund.

The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the investment objective it seeks to achieve.

The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible. The investment strategy is to replicate the Index by applying stratified sampling managing the tracking error.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

The investment manager reviews the Index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.

How did this financial product perform compared to the reference sustainable benchmark?

- ***How did the reference benchmark differ from a broad market index?***

The Solactive Global Multilateral Development Bank Bond USD 25% Issuer Capped Index offers investors exposure to Multilateral Development Banks (known as supranationals) which are backed by multiple sovereigns incl. all G7 countries. Bonds issued by the MDBs are mostly AAA-rated and the credit risk profile and returns are comparable to US Treasuries while the MDB providing guarantees and knowledge for developing countries to end global poverty and to promote sustainable economic growth (aligned to the SDG 17).

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?***

A minimum of 90% of the financial product's assets were invested in securities of the reference benchmark. As per 30 December 2022 the investments in Multilateral Development Banks was more than 98%

- ***How did this financial product perform compared with the reference benchmark?***

A minimum of 90% of the financial product's assets were invested in securities of the reference benchmark. As per 30 December the investments in Multilateral Development Banks more than 98%.

- ***How did this financial product perform compared with the broad market index?***

Not applicable

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.
