This PRIIP is authorized in Luxembourg.

The management company is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF). This key investor information is accurate as at 12 June 2023.

What is this product?

Type

The fund is subject to Part I of the Law of 2010 as a legally dependent open-ended investment fund under the legal form of a Fonds Commun de Placement (FCP). It was originally established under the name UBS (Lux) Money Market Invest in accordance with the contractual terms approved by the Board of Directors of UBS Money Market Fund Management Company S.A. (formerly UBS Money Market Invest Management Company S.A.) on 20 October 1988. The activity of UBS Money Market Fund Management Company S.A. in its capacity as management company of the UBS (Lux) Money Market Fund ended on 14 September 2010.

Term

The Product does not have a maturity date (the Product has been established for an indefinite period of time). The Manufacturer may terminate the Product early. The amount you will receive upon early termination may be less than the amount you invested.

Objectives

The actively managed sub-fund is a standard VNAV money market fund within the meaning of the EU Money Market Fund Regulation and invests exclusively in diversified, high-quality money market instruments with first-class borrower credit ratings. The weighted average maturity of the securities held in the portfolio may not exceed 6 months, while the final maturity of a fixed-income investment may not exceed 1 year. The sub-fund is suitable for investors who wish to invest in a portfolio that generates long-term performance and is in line with the prevailing money market indices. This sub-fund promotes environmental and/or social characteristics but does not pursue a sustainable investment objective.

In constructing the portfolio, the investment manager focuses on capital preservation and liquidity combined with generating attractive returns while maintaining a conservative risk profile.

The sub-fund uses the benchmark FTSE AUD 3M Eurodeposits as a reference for performance comparison. In times of high market volatility, the performance of the subfund can deviate significantly from the benchmark.

The return of the fund depends primarily on the development of interest rates, the creditworthiness of issuers and interest income. Income of this share class is reinvested.

Intended retail investor

This fund applies to retail investors with a basic financial understanding. The fund is aimed at preserving the investment value and addresses a preference for Sustainable Investing, while granting daily access to the capital under normal market conditions. With their investment in this fund, investors can satisfy short term investment needs. The fund is suited to be acquired by the target client segments without any restriction of the distribution channel or platform.

Depository

UBS Europe SE, Luxembourg Branch

Further Information

Information on AUD Sustainable and the available unit classes as well as the full prospectus and the current annual or semi-annual reports and other information can be obtained free of charge from the fund management company, the central administration agent, the depository, the custodian bank, the fund distributors or online at www.ubs.com/funds. The current price is available at www.ubs.com/funds

What are the risks and what could I get in return?

Indicator

The risk indicator assumes you keep the product for 1 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class.

This rates the potential losses from future performance at a very low level. The past may be a poor predictor of the future and, hence, the actual risk of losing money may vary significantly.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The product may be exposed to further risk factors such as operational, political and legal risks which are not included in the summary indicator. Please refer to the prospectus for more detail.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

However, you may possibly benefit from a set of consumer protection rules (see section "What happens if we unable to make a payment?"). The indicator shown above does not consider this protection.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performances of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		1 year
Example Investment:		\$10000
		If you exit after 1 year
Scenarios		
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	What you might get back after costs	\$9630
	Average return each year	-3.7%
Unfavourable	What you might get back after costs	\$9690
	Average return each year	-3.1%
Moderate	What you might get back after costs	\$9820
	Average return each year	-1.8%
Favourable	What you might get back after costs	\$9910
	Average return each year	-0.9%

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all costs of the product itself. The figures do not take account of your personal tax situation, which can also have an impact on how much you receive back.

This type of scenario occurred for an investment between 2013-04-30 and 2023-03-31.

What happens if UBS Fund Management (Luxembourg) S.A. is unable to pay out?

Losses are not covered by any investor compensation or guarantee scheme. In addition, UBS Europe SE, Luxembourg Branch, the depositary of the Fund responsible for safekeeping its assets (the "Depositary"), is subject to a potential default risk in the event that the assets of the Fund held with the Depositary are lost. However, this risk of default is limited as the Custodian is required by law and regulation to segregate its own assets from the Fund's assets. The Custodian shall be liable to the Fund or the Fund's investors for any loss of a financial instrument held in custody by the Custodian or its delegate, unless the Custodian can demonstrate that the loss resulted from an external event beyond its control.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The table shows the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed that the product performs as shown in the moderate scenario.
- 10 000 AUD is invested.

	If you exit after 1 year
Total costs	\$358
Annual cost impact (*)	3.6%

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 1.8% before costs and -1.8% after costs. We may share some of the charges with the person who sells you the product to cover the services they provide to you. This person will inform you about the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3.0% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to \$300
Exit costs	We do not charge a redemption fee for this product, but the party who sells the product to you may do so.	\$0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.5% of the value of your investment per year. This is an estimate based on actual costs over the last year.	\$54
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	\$6
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	\$0

The figures shown here do not include any additional charges that may be levied by your distributor, adviser or any "insurance wrapper" into which the fund may be placed. Additional information on costs can be found in the sales prospectus at www.ubs.com/funds

How long should I hold it and can I take money out early?

Recommended holding period: 1 Year(s)

The recommended holding period for this product is 1 year(s). This is our recommended holding period based on the risk and expected return with the product. Please note that the expected return is not guaranteed. The more the actual holding period deviates from the recommended holding period for the product, the more your actual return will also deviate from the product assumptions. Depending on your needs and limitations, a different holding period may be suitable for you. Consequently, we recommend that you discuss this issue with your customer service representative.

In principle, investors may ask the Management Company to redeem their units on any business day in Luxembourg.

How can I complain?

If you have a complaint about the product, the producer of the product or the person who recommended or sold you the product, please contact your customer service representative or contact us at www.ubs.com/fml-policies.
